Hello Everyone,

I must give my resignation to the board. There seems to be so much going on at the very time I need to meet with this board that I have missed a lot of meetings. My role in the growth issues related to east Gainesville, as well as all the commitments for the Cotton Club have escalated and I find myself making decisions between two or three meetings. Last night I tried to juggle the Southeast Gainesville Renaissance Initiative, (SEGRI) meeting with the Beautification board meeting and could not pull them both off. I am so sorry to be in this position but I know you need members who are regular attendees.

I love the work that you do and hope I can serve at a later date.

Vivian Filer
