

VENDOR / PROCUREMENT INFORMATION

Advanced Cabling Solutions, Inc.

The Public Works Department is seeking authorization to purchase installation and maintenance services for the communications infrastructures used by the TMS from Advanced Cabling Solutions, Inc., by utilizing the company's competitively bid contract with the Florida Department of Transportation.

Anixter, Inc.

All items to be purchased under this authorization will be purchased from Anixter Inc through a competitively bid contract by Seminole County, Florida for equipment and services, through a competitively bid contract by Volusia County for fiber optic and other cables, and accessories, or through a sole source agreement. The sole source agreement would cover software that Anixter sells exclusively in the southeast region.

D&D, Inc.

All services to be purchased under this authorization will be purchased from D&D, Inc. through a competitively bid contract with Gainesville Regional Utilities. D&D, Inc. furnishes and installs underground conduit by method of directional drilling and trenching. The conduit will then be used to house fiber optic interconnect between traffic signals as required by the Traffic Management System.

Express Supply

Express Supply, Inc. is the supplier for communications equipment and the video recording system. Equipment will be acquired through the competitively bid Seminole County, Florida contract for communications equipment. Other portions of the network equipment that do not qualify under the Seminole County contract will be competitively bid.
