NOTES:

- VISA spending numbers are generated by querying data sent by SunTrust. SunTrust recently changed the format and content of their data, invalidating the queries used to pull the numbers. Staff is working to resolve this issue.
- Total spending figures do not necessarily reflect all procurement opportunities available to vendors, as some purchases are sole sourced or made under existing contracts.
- Spending figures do not capture subcontracting dollars as the payment is made to the business through the prime contractor.
- Spending totals do not necessarily correlate to dollars spent with all small/minority/women-owned firms or local firms. The numbers reflect strictly the number of dollars spent with businesses in the Small Business Procurement Program. Not all small/minority/women-owned firms that participate in the City's procurement are in the program.
