

**Options Discussed by Community Development Committee
Regarding Board of Adjustment**

- At this time Neighborhood Planning staff has posted information on the neighborhood list-serve about current vacancies, in addition to the usual advertising to the Clerk's office. The City Commission should have three new appointments to make in October assuming there are enough applicants.
- Staff plans to hold an orientation session for new BOA members and would hold annual training.
- The City Commission could initiate a petition to amend the Land Development Code to establish term limits for BOA members.
- The City Commission could initiate a petition to amend the Land Development Code to establish preferred backgrounds (not required) such as urban planning, architecture, landscape architecture, engineering, law, development or construction.

The City Attorney's office recommends a preferred background be required for at least three of the five Board members due to the nature of matters considered by the BOA.

- The City Commission could initiate a petition so that administrative decisions are appealed through various administrative levels and then to the courts, and discussions of the BOA are appealed to the City Commission.
- BOA rules will be updated for consistency with the Land Development Code.
- A petition should also be initiated to eliminate some of the rarely used appeals to the BOA, such as any code enforcement related appeals under Chapter 13 or 16 of the City Code.
- The City Commission may wish to initiate a petition to amend the Land Development Code to eliminate the opportunity for reestablishment of nonconforming uses. If this is done, then once a nonconforming use had lapsed for nine months, the only uses allowed under current zoning will henceforth be allowed, with no right to request reestablishment of the previous nonconforming use.
