Mr. Erik Bredfeldt, AICP, Ph.D., Planning and Development Director
City of Gainesville Planning & Development Services
306 Northeast 6th Street
Gainesville, FL 32601

Re: SW 5th Avenue & SW 7th Terrace – Small-scale Comprehensive Plan
Amendment (SsCPA)

Dear Mr. Bredfeldt:

On behalf of the property owners, Causseaux, Hewett, & Walpole, Inc. (CHW) submits this SsCPA application to change Alachua County tax parcels 13431-000-000 and 13432-000-000 (±0.62 acres) from Residential High Density (RH) to Urban Mixed Use – 2 (UMU-2) on the City's Future Land Use Map (FLUM).

This application is submitted in conjunction with a Rezoning application to amend the City's Zoning Atlas.

We submit the following items for your review and approval:

- The required City of Gainesville Small-scale Comprehensive Plan Amendment application;
- An affidavit authorizing CHW as agent with property records and tax roll documents;
- A check in the amount of \$787.50 for application fees;
- Neighborhood Workshop materials;
- A legal description for the subject properties;
- Fourteen (14) copies of the SsCPA Justification Report.

We trust this submittal will be sufficient for your review and subsequent approval by the City Plan Board and City Commission. If you have any questions or need additional information, please call me directly.

Sincerely,
Causseaux, Hewett, & Walpole, Inc.

Gerry R. Dedenbach, AICP, LEED® AP
Director of Planning & GIS Services

Requested designation: UMU-2	Requested designation:	

INFORMATION ON PROPERTY
1. Street address: 717/721 SW 5th Avenue, Gainesville, FL 32601
2. Map no(s):
3. Tax parcel no(s): 13431-000-000 and 13432-000-000
4. Size of property: 0.62 acre(s)
<i>All requests for a land use or zoning change for property of less than 3 acres are encouraged to submit a market analysis or assessment, at a minimum, justifying the need for the use and the population to be served. All proposals for property of 3 acres or more must be accompanied by a market analysis report.</i>

Certified Cashier's Receipt:

120806E

5. Legal description (attach as separate document, using the following guidelines):
- a. Submit on 8 ½ x 11 in. sheet of paper, separate from any other information.
 - b. May not be included as part of a Purchase Agreement, Contract for Sale, Lease Agreement, Transfer of Title, Warranty Deed, Notice of Ad Valorem Taxes, Print-outs from Property Appraiser's Office, etc.
 - c. Must correctly describe the property being submitted for the petition.
 - d. Must fully describe directions, distances and angles. Examples are: North 20 deg. West 340 feet (not abbreviated as N 20 deg. W 340'); Right-of-Way (not abbreviated as R/W); Plat Book (not abbreviated as PB); Official Records Book 1, page 32 (not abbreviated as OR 1/32); Section 1, Township 9 South, Range 20 East (not abbreviated as S1-T9S-R20E).

6. **INFORMATION CONCERNING ALL REQUESTS FOR LAND USE AND/OR ZONING CHANGES** (NOTE: *All development associated with rezonings and/or land use changes must meet adopted level of service standards and is subject to applicable concurrency requirements.*)

A. What are the existing surrounding land uses?

North **Urban Mixed Use - 2 (UMU-2)**

South **Residential High Density (RH)**

East **Residential High Density (RH)**

West **Residential High Density (RH)**

B. Are there other properties or vacant buildings within ½ mile of the site that have the proper land use and/or zoning for your intended use of this site?

NO YES If yes, please explain why the other properties cannot accommodate the proposed use?

Our client does not own those properties.

120806E

- C. If the request involves nonresidential development adjacent to existing or future residential, what are the impacts of the proposed use of the property on the following:

Residential streets

See Justification Report.

Noise and lighting

See Justification Report.

- D. Will the proposed use of the property be impacted by any creeks, lakes, wetlands, native vegetation, greenways, floodplains, or other environmental factors or by property adjacent to the subject property?

NO X

YES ____

(If yes, please explain below)

- E. Does this request involve either or both of the following?

- a. Property in a historic district or property containing historic structures?

NO X

YES ____

- b. Property with archaeological resources deemed significant by the State?

NO X

YES ____

- F. Which of the following best describes the type of development pattern your development will promote? (please explain the impact of the proposed change on the community):

Redevelopment X

Activity Center ____

Strip Commercial ____

Urban Infill X

Urban Fringe ____

Traditional Neighborhood ____

120806E

Explanation of how the proposed development will contribute to the community.

- G. What are the potential long-term economic benefits (wages, jobs & tax base)?

The amendment will facilitate the redevelopment of a vacant building to a more appropriate use that will potentially support local housing and/or business needs. The long-term economic benefits could include additional jobs, housing, and an increased tax base.

- H. What impact will the proposed change have on level of service standards?

Roadways

See Justification Report.

Recreation

See Justification Report.

Water and Wastewater

See Justification Report.

Solid Waste

See Justification Report.

Mass Transit

See Justification Report.

- I. Is the location of the proposed site accessible by transit, bikeways or pedestrian facilities?

NO ____

YES X (please explain)

The site is located on SW 5th Avenue, which is a walkable neighborhood proximate to downtown. A sidewalk is located on the north side of SW 5th Avenue. SW 6th Street, located one (1) block east of the site, has sidewalks and a 10-foot, multi-modal path. RTS routes #10 and #46 run along SW 4th Avenue, which is located one (1) block north.

CERTIFICATION

The undersigned has read the above application and is familiar with the information submitted. It is agreed and understood that the undersigned will be held responsible for its accuracy. The undersigned hereby attests to the fact that the parcel number(s) and legal description(s) shown in questions 3 and 5 is/are the true and proper identification of the area for which the petition is being submitted. Signatures of all owners or their agent are required on this form. Signatures by other than the owner(s) will be accepted only with notarized proof of authorization by the owner(s).

Warranty Deed

This Warranty Deed made this **29th** day of **September, 2008** between

Compassionate Outreach Ministries, Inc., a Florida non-profit corporation,
whose post office address(es) is(are): **PO Box 143116, Gainesville, FL 32614-3116**, grantor, and

Heritage Investment Group of Gainesville, LLC, a Florida limited liability company, Document
#L04000089315,

whose post office address(es) is(are): **321 S.W. 13th Street, Gainesville, FL 32601**, grantee:

(Whenever used herein the terms "grantor" and "grantee" include all the parties to this instrument and the heirs, legal representatives, and assigns of individuals, and the successors and assigns of corporations, trusts and trustees)

WITNESSETH, that said grantor, for and in consideration of the sum of **TEN AND NO/100 DOLLARS (\$10.00)** and other good and valuable considerations to said grantor in hand paid by said grantee, the receipt whereof is hereby acknowledged, has granted, bargained, and sold to the said grantee, and grantee's heirs and assigns forever, the following described land, situate, lying and being in **Alachua County Florida** to-wit:

Parcel 1:

Commence 50 feet West of the Northeast corner of Lot 106 of O. A. PORTER'S ADDITION, run thence West 47 1/2 feet; thence South 100 feet; thence East 47 1/2 feet; thence North 100 feet to the Point of Beginning. Same lying and being in Lot 106 of O. A. PORTER'S ADDITION TO GAINESVILLE as per Plat Book "A", page 43, also per Plat Book "A", page 54, of the Public Records of Alachua County, Florida.

Parcel 2:

Begin at the Southwest corner of the intersection of SW 5th Avenue and SW 7th Terrace in Gainesville, Florida (being the Northeast corner of Lot 106 of O. A. PORTER'S ADDITION TO GAINESVILLE, FLORIDA, as recorded in Plat Book "A", page 54 of the Public Records of Alachua County, Florida), and run West along the South right of way line of said SW 5th Avenue (being the North line of said Lot 106), a distance of 50.00 feet; thence run South, parallel to the East line of said Lot 106, a distance of 150.00 feet; thence run West parallel with said South right of way line of SW 5th Avenue a distance of 95.00 feet to the West line of said Lot 106, thence run South, along said West line, a distance of 78.00 feet to the Southwest corner of said Lot 106; thence run East along the South line of said Lot 106, a distance of 145.00 feet to the Southeast corner of said Lot 106, thence run North, along the West right of way line of SW 7th Terrace (being the aforementioned East line of Lot 106) a distance of 228.00 feet to the Point of Beginning.

TOGETHER WITH all of the adjacent vacated right of way of SW 7th Terrace (both East 1/2 and West 1/2 of the vacated right-of-way) per Ordinance No. 030622, recorded April 1, 2004, in O. R. Book 2883, page 851, of the Public Records of Alachua County, Florida.

Parcel Identification Number: 13431-000-000 & 13432-000-000

Subject to taxes for 2008 and subsequent years; covenants, conditions, restrictions, easements, reservations and limitations of record, if any.

Warranty Deed

Page 2

TOGETHER with all the tenements, hereditaments and appurtenances thereto belonging or in anywise appertaining.

TO HAVE AND TO HOLD, the same in fee simple forever.

AND the grantor hereby covenants with said grantee that the grantor is lawfully seized of said land in fee simple; that the grantor has good right and lawful authority to sell and convey said land; that the grantor hereby fully warrants the title to said land and will defend the same against the lawful claims of all persons whomsoever; and that said land is free of all encumbrances, except taxes accruing subsequent to **December 31, 2007**.

IN WITNESS WHEREOF, grantor has hereunto set grantor's hand and seal the day and year first above written.

MEMORANDUM

TO: Neighbors of the 700 Block of SW 5th Avenue PN 12-0365
FROM: Craig Brashier, AICP
DATE: Wednesday, November 14, 2012
RE: Neighborhood Workshop Public Notice

Causseaux, Hewett, and Walpole, Inc. will hold a neighborhood workshop to discuss a proposed Small-scale Comprehensive Plan Amendment and Rezoning for a site located on Alachua County Tax Parcels 13431-000-000 and 13432-000-000. The proposed changes will amend the Future Land Use category from Residential High-Density (RH) to Urban Mixed-Use 2 (UMU-2) and the Zoning district from Residential High-Density (RH-1) to Urban Mixed-Use 2 (UMU-2).

Date: Thursday, November 29, 2012

Time: 6:00 p.m.

Place: The Alachua County Library Headquarters, Foundation Room
401 East University Avenue
Gainesville, FL 32601

Contact: Craig Brashier, AICP
(352) 331-1976

This is not a public hearing. The purpose of the workshop is to inform neighboring property owners of the proposal's nature and to seek comments. We look forward to seeing you at the workshop.

TEACHERS: Awards are 'well deserved'

dealerships, said the goal is to support teachers. "They are one of our most valuable assets," he said. April Griffin, chair of the Alachua County School Board, said the honor teachers received was well-deserved. "They don't get enough thank yous and recognition," she said. Emma Lipicky, who teaches third grade at Stephen Foster Elementary, said it was a special honor because of the kind words she received from her students. "The students are why I'm here," she said.

Contact **Joey Flechas** at 338-2166 or joey.flechas@gvillesun.com.

Teachers appreciated

Here is the list of Gatorland Dealership's Teacher Appreciation Award winners:

Alachua Elementary: Katie Erickson, fourth/first grade class teacher.

Archer Elementary: Cheryl Davenport, gifted teacher.

Bishop Middle: Cyndi Murphy, reading and language arts.

Buchholz High: Marilyn Boehm, chemistry.

Chiles Elementary: Laura Varsick, third grade.

Duval Elementary: Brunilda Lopez, third grade.

Eastside High School: Ann Nichols.

J.J. Finley Elementary: Emily Mondia Pae, fourth grade teacher.

Fort Clarke Middle: Deanna Dixon.

Stephen Foster Elementary: Emma Lipsky, 3rd grade magnet teacher.

Gainesville High School: Kelly Corbett, science teacher.

Glen Springs Elementary: Coraly Carey, fourth grade.

Hawthorne Jr./Sr. High: Elizabeth Treese, math, technology and journalism.

Hidden Oak Elementary: Jennifer Colon, second grade.

High Springs Elementary: Jackie Michael.

Horizon: John Montmarquette.

Irvywild Elementary: Sandy Tysonsky, third grade.

Irvy Elementary: Lorena Sanchez, second grade.

A. Quinn Jones Center: Susan Barfield.

Kanawha Middle: Amy Storck.

Lake Forest Elementary: Amanda Hooghuis.

Stiney Lanier Center: Cassandra Anderson.

Lincoln Middle: Johanna Focks, advanced math.

Littlewood Elementary: Denise VanValey.

Meadowbrook Elementary: Dawn Moore, second grade.

Mebane Middle: Amanda Rose, first-year teacher, 7th/8th grade reading.

Metcalfe Elementary: Sunny Heo.

Newberry Elementary: Julie Williams.

Newberry High: Darcy Wells.

Norton Elementary: Lindy Ireland, first-year kindergarten.

Oak View Middle: Barbara Brooks.

Rawlings Elementary: Nate Shank.

Santa Fe High School: Nate Bisco, band director.

Shell Elementary: Lynn Emmertich.

Talbot Elementary: Kasia Malinowski.

Terwilliger Elementary: Evelyn Jackson.

Waldo Elementary: Diane Fuller.

Westwood Middle: Curtis Givson, seventh grade science.

Wiles Elementary: Cheryl Ferguson.

Williams Elementary: Anna Spentig.

PARKER: She was praised for being ready to listen

Continued from B1

she said in an interview earlier in the day. "We are five people privileged to decide for all the citizens." In late 2007, Parker joined the commission without opposition to finish a year left on an unexpired term. The next year, she was elected to a full four-year term. City commissioner is one in the long list of roles she has held in life. Some others include widowed, single mother, correction officer, counselor to her mother and other family members and an involved citizen. "I have always been a take-charge person," she said. Some 35 years ago, Parker's husband, a Columbus, Ohio, police officer, died in a flash flood

while fishing. At the time, she had a young child and was seven months' pregnant. With \$50 in the bank, she got work in the criminal justice and jail system to support her family and rose to the rank of sergeant before retiring in 1979. A few years later, she moved to Gainesville and then Archer, where she reunited with and took care of the mother who had left her family when Parker was only 7. Her mother passed away and then, in 2002, her last living brother died. It was then that former City Commissioner Roberta Lopez stopped by Parker's house while campaigning door to door. They forged a friendship and Lopez encouraged Parker to get involved in city government and attend

commission meetings. Parker became a regular at City Hall and decided that more residents in southwestern Alachua County should do the same. To draw them in, she started an "honors table" program in 2003 to commemorate the contributions of the city's everyday people. Area business owner Chris Crawford was one of the people Parker decided to honor. "She ended up being a real good friend," Crawford said. "You could always tell her what was on your mind and she could relate. She's down to earth." Just as Lopez talked Parker into attending meetings, it was Lopez who talked her into filling the vacancy on the commission in late 2007. Lopez said Parker

turned out to be an "excellent" commissioner—ready to listen to the citizens while always voicing her own opinion on issues. Mayor Frank Ogborn recalled that Parker's hard work in helping to secure grant funding for the renovation of the city's community center included delivering grant documents to Tallahassee in person. Ogborn described Parker as a "woman who has given freely of her time, her wisdom and her energy with no expectation of anything in return." Parker would not call Tuesday a retirement but a "change of position." She said she plans to remain involved in city government and continue attending commission meetings.

120806E

DIABETES: Childhood obesity a factor

Continued from B1

enough exercise," said Kathryn A. Parker, the program manager for diabetes education and nutrition therapy at UF&Shands. The pancreas produces insulin, a hormone, to regulate the body's blood-sugar level. "Your pancreas has only so much insulin that it will produce. If you take in too many calories, the body wears out its 'pumping machine,'" said Parker, who compares the body's production of insulin to a baseball pitcher's capacity to pitch over a lifetime. The pitcher has to take periodic breaks just like the pancreas, Parker said.

But people who have grown up "super-sizing" are now being diagnosed with diabetes. "We're beginning to see the results of childhood obesity," Parker said. "This isn't an endocrine problem. It's a lifestyle problem." At the screening, Parker displayed blood vials filled with sugar to show how much sugar is in a 12-ounce soda. While the tactic has worked to discourage people from certain dietary choices, Parker puts more emphasis on exercise for diabetes prevention. "People who exercise use their insulin very efficiently," Parker said. "Exercise is the elixir. You don't have to run a marathon. Just get up and move a little more than you did yesterday." Jenna Bilodeau, 19, a UF pre-med student, stopped by to get screened because she was diagnosed six months ago with hypoglycemia, a condition in which blood-sugar levels are too low. Bilodeau's blood

Diabetes Awareness Week events

THURSDAY
11 a.m.-2 p.m.: Screening at UF&Shands Family Medicine at Main Street Clinic, 1707 N. Main St.

FRIDAY
9 a.m.-noon: Research and Patient Care presentation, HHPN Complex, Room G-103, 1225 Center Drive.
8 a.m.-2 p.m. and Saturday 9 a.m.-noon: Racecar driver Ryan Reed, who has Type 1 diabetes, will meet fans and show people his Ford Fusion simulator show car. Circle between Health Professions/Nursing/Pharmacy Complex and the Biomedical Sciences Building.

niger was normal Tuesday. "Just as a Snickers, so that probably helps," Bilodeau said, adding that diabetes runs in her family, so she pays even more attention to what she eats. "I eat a lot of couscous, veggies, apples and peanut butter." While Type 2 diabetes is for the most part a preventable condition with lifestyle modification, Type 1 runs in families and is harder to prevent. Schatz said that if you have a relative with Type 1 diabetes, you have a 15-fold increase of getting it, compared with the general population. Type 1 diabetes also is increasing by about 3 percent per year in children under age 10, Schatz said. UF researchers are at the forefront of trying to understand risk assessment and prevention of Type 1 diabetes and will present some of their recent findings Friday morning at the Health Professions/Nursing/Pharmacy Complex. UF will host three more screening events this week, Parker said she hopes to top the number of people—who she said screened last year. She said it's particularly important to get the people who normally walk away. "It's only a drop of blood and five seconds," she said, adding that people also can take a self-assessment card and consult their doctor if they are at high risk of diabetes. To make diabetes awareness week more fun, organizers are hosting a hula hoop competition at 5 p.m. today. "The symbol of diabetes awareness is a circle, and that's a hula hoop," Parker said. "It's exercise, and people need exercise." Organizers also will light UF's Century Tower blue at dusk. City Hall, all fire stations and some area churches also will turn on a blue light to commemorate the day.

COUNTY: Opts out of septic inspection

Continued from B1

using interest revenue from the CHOICES fund was dissipated by county staff after interim County Manager Richard Drummond called it economically unviable. Cue Tran, a 28-year-old University of Florida doctoral student and former FluMist program coordinator, said she was excited to see local government support an important public health effort. "It's such a unique opportunity," she said. "And everyone sees the value in it." The commission also voted unanimously Tuesday to opt out of a state septic system inspection program that would have required tank evaluations every five years. It is one of 19 Florida counties with first-magnitude springs that have been asked to decide whether to opt out of the program by Jan. 1, 2013. High Springs is one of three municipalities also given this choice. Alachua County has three first-magnitude springs, which pump 65

million gallons of fresh water per day; the Santa Fe Rise, Hornsby and Treehouse springs. As of October, 11 of the other 18 counties had decided against the plan, which was laid out in House Bill 1263, a Department of Health reorganization measure that passed the state Legislature in April. The bill repealed a Florida-wide inspection program passed in 2010 that mandated reviews of all septic systems by qualified contractors every five years. If Alachua County had implemented the program, eligible homeowners with septic tanks would have had to pay for the twice-a-decade inspections and a soundproof pumping out of their systems. Tuesday's regular commission meeting was the last for Commissioner Paula DeLaney and Winston Bradley, who will be replaced by incoming board members Robert "Huteb" Hutchinson and state Rep. Charles S. "Chucky" Chestnut IV when they are sworn into office on

Nov. 20. Both received engraved gifts for their service, including the traditional gift of a gavel for DeLaney as the outgoing chair. Bradley, who was appointed to the board in February as former Commissioner Rodney Long's replacement, said it was a challenging but rewarding experience. "If I have any regret, my greatest regret is really that we were not able to give the employees a raise, and I'm hoping the new commission will be able to do that," Bradley said. DeLaney, who was elected to the board in 2004 and before that served on the Gainesville City Commission and as mayor, thanked county staff for their support. "Serving in local government has truly been the most exciting and educational experience of my life, and I am very proud to have had this opportunity," she said. PUBLIC NOTICE

A Neighborhood Workshop will be held to discuss a proposed Small-scale Comprehensive Plan Amendment and Rezoning for a site located on Alachua County Tax Parcels 13431-000-000 and 13432-000-000. The proposed changes will amend the Future Land Use category from Residential High-Density (RH) to Urban Mixed-Use 2 (UMU-2) and the Zoning district from Residential High-Density (RH-1) to Urban Mixed-Use 2 (UMU-2).

This is not a public hearing. The workshop's purpose is to inform neighboring property owners of the proposal's nature and to seek their comments.

The workshop is Thursday, November 29, 2012, at 6:00 p.m. at the Alachua County Library Headquarters, Foundation Room, 401 East University Avenue, Gainesville, FL 32601.

Contact: Craig Bushier, AICP
Phone Number: (352) 331-1976

HEARING BEFORE CITY PLAN BOARD DECEMBER 3, 2012

The Plan Board of the City of Gainesville, FL will discuss the following item at a Public Hearing scheduled on Monday, December 3, 2012 starting at 6:30 P.M. or as soon thereafter as may be heard, in the City Hall Building, 1st floor City Commission Auditorium, located at 200 E. University Avenue, Gainesville, FL. FOR INFORMATION CALL, 352-334-5022.

Petition No. PE-12-134 CPA

City Plan Board. Amend the City of Gainesville Comprehensive Plan Future Land Use Element to change the permitted uses in the Industrial and Public Facilities land use categories.

"If any person decides to appeal a decision of this body with respect to any matter considered at the above-referenced meeting or hearing, he/she will need a record of the proceeding, and for such purposes, it may be necessary to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based."

PERSONS NEEDING SPECIAL ACCOMMODATION SHOULD CONTACT THE EQUAL OPPORTUNITY DEPARTMENT AT 352-334-9051 (TDD) 352-334-9080 AT LEAST 48 HOURS PRIOR TO THE MEETING DATE. Prepared by the Planning Dept. - GIS Section November 2012

NEIGHBORHOOD WORKSHOP MINUTES
NOVEMBER 29, 2012 at 6:00 P.M.
THE ALACHUA COUNTY LIBRARY HEADQUARTERS,
FOUNDATION ROOM

Recorded and transcribed by Causseaux, Hewett, & Walpole, Inc. staff.

*Causseaux, Hewett, & Walpole, Inc. – Craig Brashier (CB)
Ryan Thompson (RT)
Property Owner Representatives – John Fleming (JF)
Peter McNiece (PM)
Rob Edmunds (RE)
Skinner Vignola McLean, Inc. – Howard McLean (HM)*

There were no attendees other than the project's property owner representatives and their architect, Skinner Vignola McLean, Inc. Craig Brashier was prepared to give an informational PowerPoint presentation, which contained the required neighborhood workshop elements, to attendees and allow them to ask questions regarding the proposed Small-scale Comprehensive Plan Amendment and Rezoning request. Since there were no attendees, the presentation was not given. CHW staff and the client stayed for a half an hour to ensure no attendees were running late. The meeting concluded at 6:30 p.m.

Re: SW 5th Avenue & SW 7th Terrace

Small-scale Comprehensive Plan Amendment (SsCPA) Application

Jurisdiction: City of Gainesville	Intent of Development: Multi-Family Residential and/or Mixed-Use Development
Description of Location: 717/721 SW 5 th Avenue, Gainesville, FL 32601	
Parcel Numbers: 13431-000-000 and 13432-000-000	Acres: ± 0.62 acres <i>(Source: The Alachua County Property Appraiser)</i>
Current Future Land Use Classifications: <i>Residential High Density (RH) (±0.62 acres)</i> The <i>Residential High Density (RH)</i> category shall allow single-family and multi-family development at densities from 8 to 100 dwelling units per acre. This Future Land Use classification identifies those areas within the City that, due to topography, soil conditions, surrounding land uses and development patterns, are appropriate for high-intensity multi-family development, traditional neighborhood development, and secondary retail and office uses scaled to serve the immediate neighborhood.	
Proposed Future Land Use Classification: <i>Urban Mixed-Use 2 (UMU-2) (±0.62 acres)</i> The <i>Urban Mixed-Use 2 (UMU-2)</i> category allows a mixture of residential, retail and office/research uses. The Urban Mixed districts are distinguished from other mixed-use districts in that they are specifically established to support biotechnology research in close proximity to the University of Florida. An essential component of the district is orientation of structures to the street and pedestrian character of the area. Retail and office uses located within this district should be scaled to fit into the character of the area. Residential density shall be limited to 100 units per acre with provisions to add up to 25 additional units per acre by special use permit. All new development must be a minimum of 2 stories in height. Building height shall be limited to 6 stories and up to 8 stories by special use permit. Land development regulations shall set the appropriate densities; the distribution of uses; design criteria; landscaping, pedestrian, and vehicular access.	
Existing Maximum Density / Intensity <i>Residential High Density (RH):</i> (±0.62 acres x 100 dwelling units (du)) = 62 du	
Proposed Density/Intensity <i>Urban Mixed-Use 2 (UMU-2):</i> Residential: (±0.62 acres x 100 dwelling units (du)) = 62 du Nonresidential: (±0.62 acres x 100% maximum lot coverage) = 27,007 square feet	
Net Change This SsCPA application does not increase or decrease the site's allowable number of dwelling units. However, the SsCPA will allow for ±27,000 square feet of nonresidential space.	

STATEMENT OF PROPOSED CHANGE

This Small-scale Comprehensive Plan Amendment (SsCPA) application requests to change the existing Future Land Use (FLU) classification on a ±0.62-acre site (Alachua County Tax Parcels 13431-000-000 and 13432-000-000) from Residential High Density (RH) to Urban Mixed-Use 2 (UMU-2). The site is located on the south side of SW 5th Avenue, one (1) block west of SW 6th Street. The site currently contains two (2) vacant buildings and associated parking lot.

The requested SsCPA is companion to a zoning change that requests the Urban Mixed-Use 2 (UMU-2) zoning category. The proposed amendments satisfy the logical nexus test because contiguous parcels to the north are also designated the requested UMU-2 FLU classification and zoning category.

Figure 1: Aerial Map

The project site fronts SW 5th Avenue to the north. The site’s eastern boundary is adjacent to SW 7th Terrace, which is a vacated right-of-way, and a park. Immediately to the south is an undeveloped lot, and St. Croix apartment complex abuts the property to the west. Surrounding FLU and zoning designations are summarized in *Table 1*.

Table 1: Surrounding Future Land Use and Zoning Designations

Direction	Future Land Use Designation	Zoning Designation
North	Urban Mixed Use – 2	Urban Mixed Use – 2
East	Residential High Density	Residential High – 1
South	Residential High Density	Residential High – 1
West	Residential High Density	Residential High – 1

Figures 2 and 3 depict the existing FLU Map (FLUM) and Official Zoning Atlas.

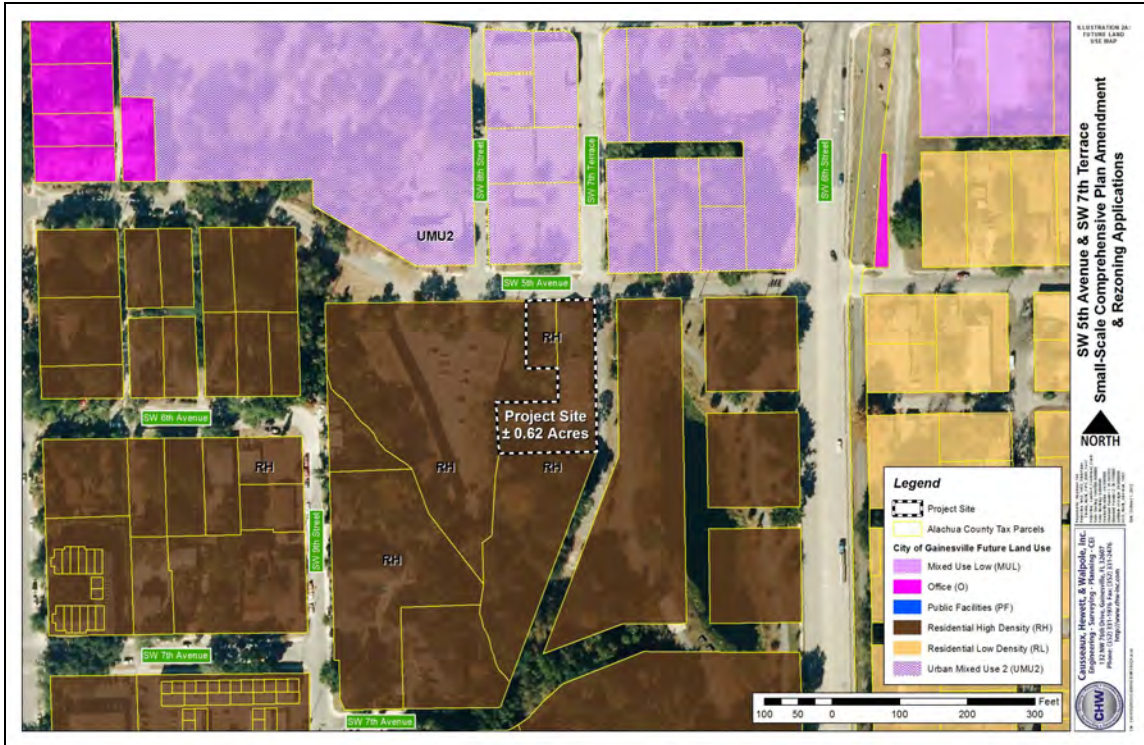

Figure 2: Existing Future Land Use Map

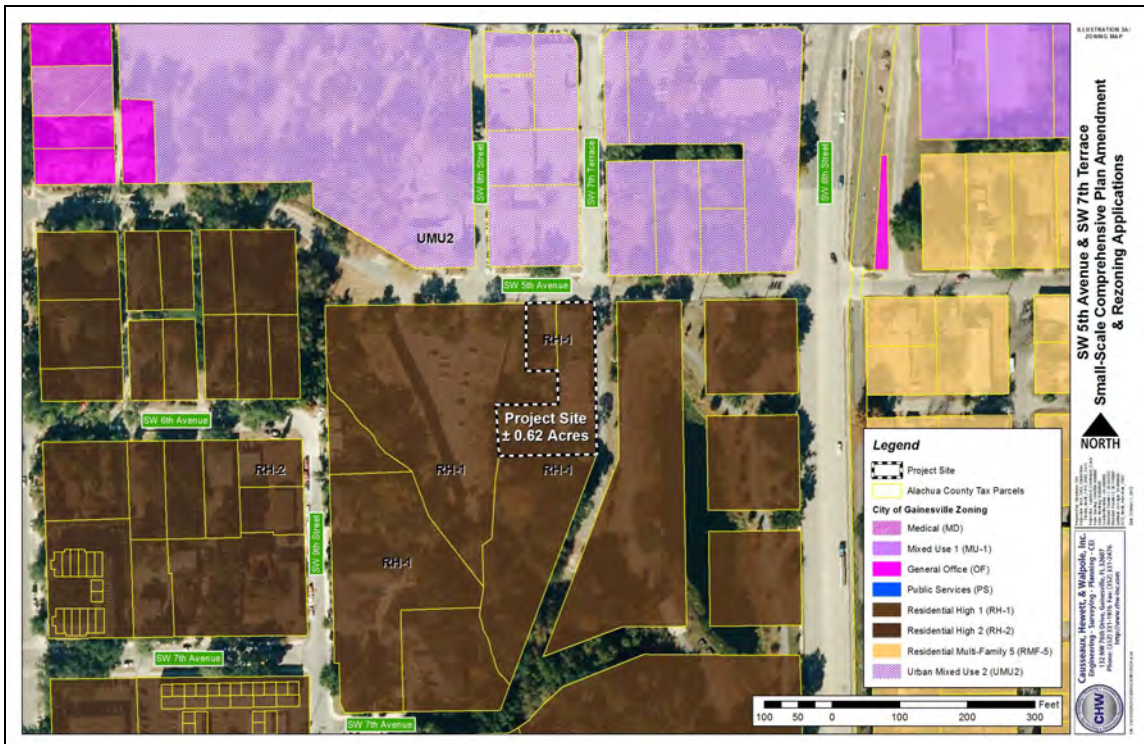

Figure 3: Existing Zoning Map

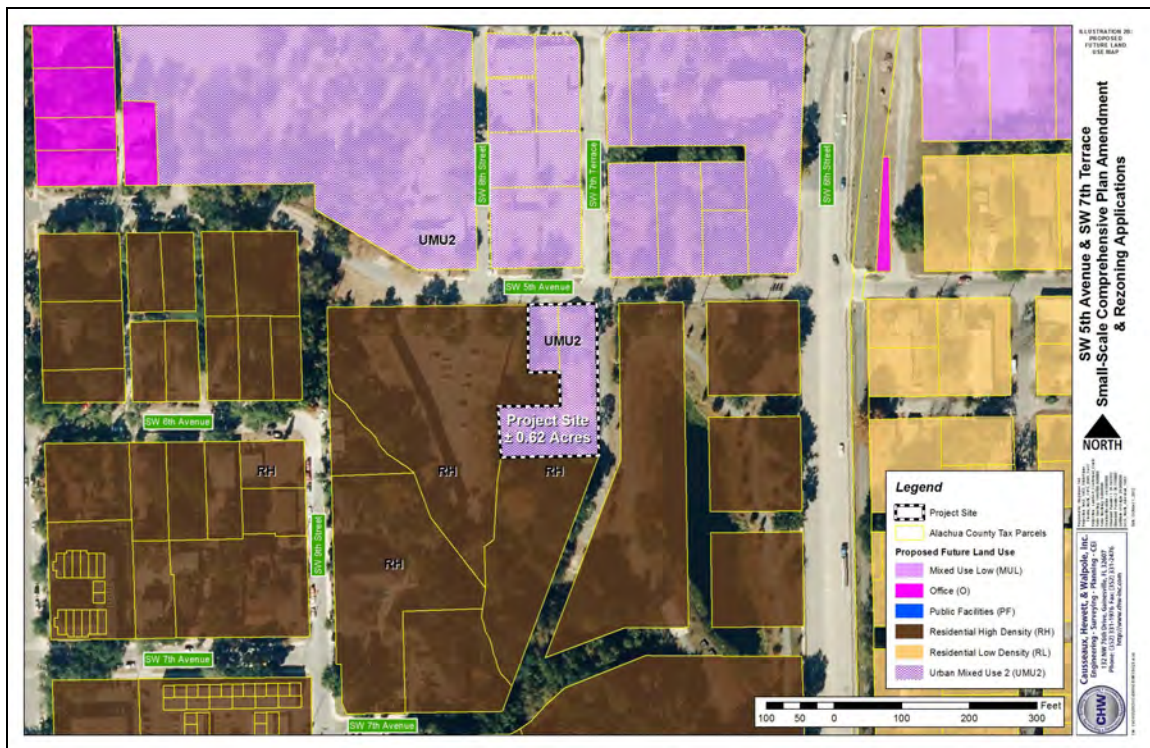

Figure 4: Proposed Future Land Use Map

The current Residential High Density (RH) FLU classification only allows for a limited, single use, residential. The Urban Mixed-Use 2 (UMU-2) FLU classification allows for a mixture of commercial, office, and residential uses that are supportive of the University of Florida, Santa Fe College, and neighboring residences and businesses by allowing greater diversity in the uses permitted on the property. The site's proximity to downtown, the Innovation District, and the University of Florida's main campus make for an ideal location for the requested UMU-2 FLU classification.

The proposed SsCPA is compatible with adjacent residential and mixed-use designated parcels that consist of multi-family residential and office/commercial uses. As illustrated in *Figure 4*, parcels immediately to the north are currently designated UMU-2 FLU classification.

The proposed SsCPA creates a cohesive FLU designation across SW 5th Avenue, extending the UMU-2 FLU design standards to the south. Primary design standard benefits include shallower building setbacks, defined build-to lines, established sidewalk and landscape zones, and improved glazing and building articulation standards that are not required in the RH district. Therefore, this SsCPA's approval will benefit the surrounding neighborhood.

IMPACT ANALYSIS

IMPACT ON RESIDENTIAL STREETS

The requested UMU-2 FLU classification does not permit any additional dwelling units. However, the requested FLU classification does permit $\pm 27,000$ square feet (sf) of nonresidential space. This increase in intensity is not expected to impact the residential streets that are located to the site's west. Specific impacts to the adjacent roadways are outlined in *Table 2*.

Anyone travelling the local streets adjacent to the project site for daily or weekly needs is already on the roadway network. Pedestrian access to and from numerous houses and apartments is possible, as well as, access to multi-modal pathways and mass transit and can reduce overall Vehicle Miles Traveled (VMT) based on redevelopment opportunity.

IMPACT ON NOISE AND LIGHTING

All surrounding uses are located within a mixed-use urban environment. The maximum potential $\pm 27,000$ sf of nonresidential space is not anticipated to have significant noise and lighting impacts on adjacent residential properties. City of Gainesville ordinances ensure landscaping and carefully placed security lighting that promote safety and compatibility among a variety of uses.

ENVIRONMENTAL FEATURES

The project is located in the City of Gainesville's urban core. As illustrated in *Figure 5*, there are no wetland or floodplain areas within the project site.

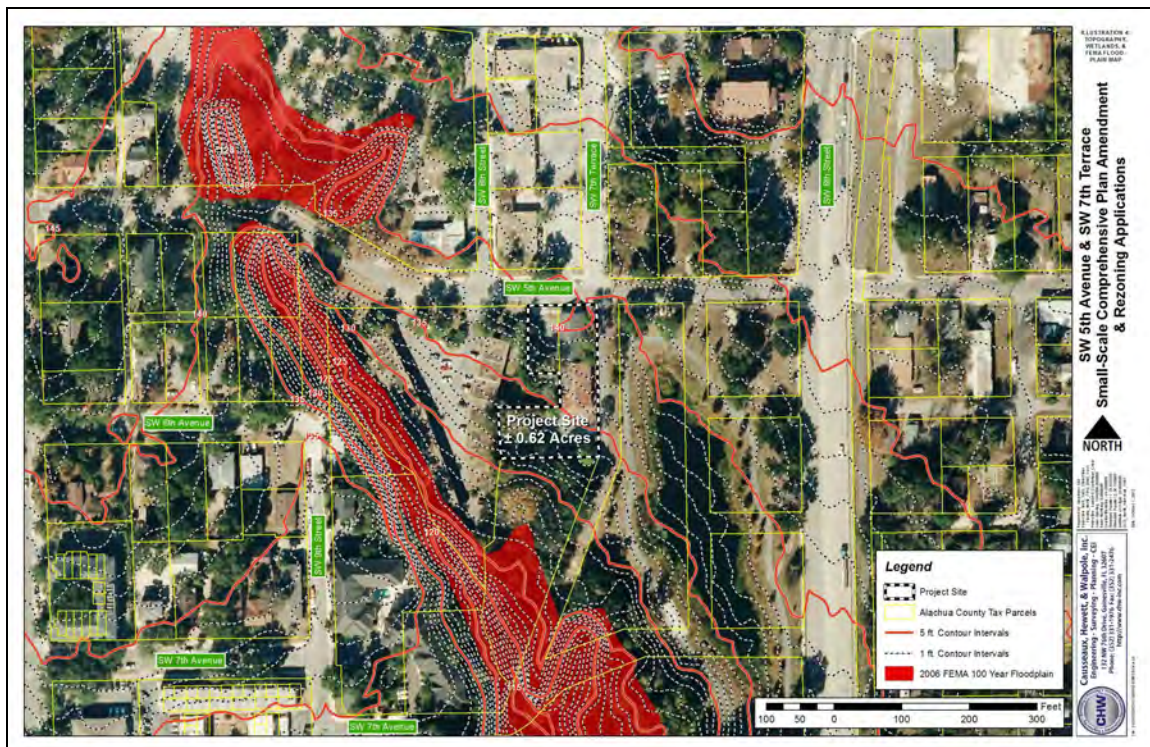

Figure 5: Topography, Wetlands, and FEMA Floodplain Map

According to the National Resources Conservation Service (NRCS), the on-site soil types are Urban Land and Blighton-Urban Land Complex (*Figure 6*). These soils are suitable for urban-type development.

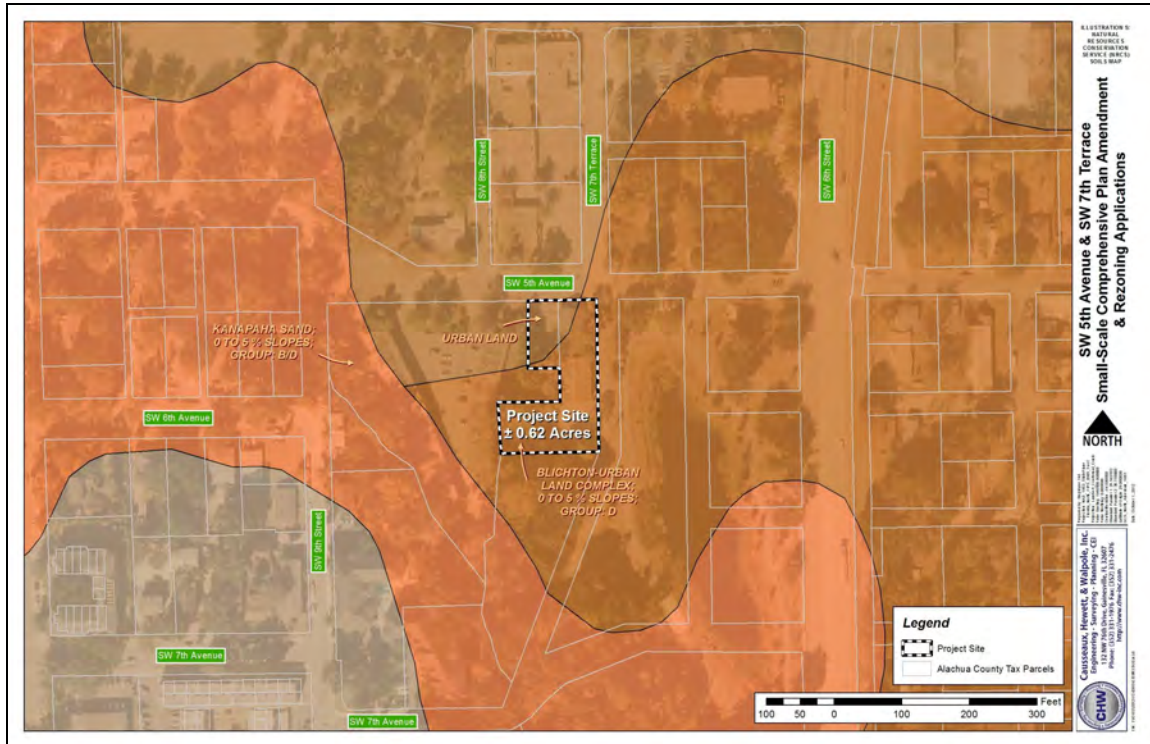

Figure 6: Natural Resources Conservation Service (NRCS) Soils Map

Three small trees are located along the existing vacant building's eastern façade while the site's majority of trees are located in the property's southwestern corner. These trees may be preserved where practicable to buffer adjacent uses. Trees that are not able to be saved will be replaced in accordance with City of Gainesville Land Development Code (LDC).

HISTORIC AND ARCHEOLOGICAL RESOURCES

According to the Florida Division of Historical Resources (DHR), no archeological resources are located on the property.

COMMUNITY CONTRIBUTIONS

The proposed SsCPA is consistent with the City of Gainesville Comprehensive Plan and LDC. The site's potential redevelopment will revitalize an underutilized site, increase employment opportunities in the area, and promote a live-work environment. The approval of this SsCPA application also provides an opportunity to redevelop the site consistent with UMU-2 design standards that promote a more defined urban-scale development by bringing buildings to the street and providing landscape and sidewalk zones. The UMU-2 design standards will also create consistency with the adjacent Innovation District and support the expansion of this development pattern and supporting uses.

POTENTIAL LONG-TERM ECONOMIC BENEFITS

The property's potential redevelopment replaces two (2) vacant, dilapidated buildings. This SsCPA serves as a catalyst for much needed redevelopment in the surrounding area. The UMU-2 FLU classification and zoning category promote mixed-use development, consistent with the City's long-term vision. Redevelopment of this site will also increase the tax base by replacing a use that was previously tax exempt.

LEVEL OF SERVICE STANDARDS

Level of Service (LOS) standards were calculated based on the density and intensity increases that may result from the proposed SsCPA. Therefore, ±27,000 sf of nonresidential space were used for the LOS calculations, as this is the increase in potential development associated with this SsCPA request.

The site is located within the City's TCEA Zone A, which was established to encourage redevelopment and infill near the University Context Area and the urban core. Developers within TCEA Zone A are responsible for providing transportation improvements that are required due to safety and/or operational conditions. Development or redevelopment within TCEA Zone A may be required to provide the following:

- a. Sidewalk connections to existing and planned public sidewalk;
- b. Cross-access connections/easements or joint driveways;
- c. Deeding of land or conveyance of required easements along the property frontage to the City, as needed, for the construction of public sidewalks, bus turn-out facilities and/or bus shelters;
- d. Closure of existing excessive, duplicative, or unsafe curb cuts or narrowing of overly wide curb cuts at the development site; and
- e. Provide safe and convenient on-site pedestrian circulation.

The proposed redevelopment allows employees and patrons to have walking access to the Regional Transit System's numerous bus routes with the Rosa Parks RTS Downtown Station located only six (6) blocks to the east along SW 5th Avenue. With respect to mass transit, specific LOS standards are not established within the City of Gainesville Comprehensive Plan. However, desired densities along major corridors have been expressed.

LEVEL OF SERVICE

The following tables summarize the public facilities capacity analysis for the SsCPA. As can be seen by the calculations, this proposed SsCPA does not degrade existing public facilities below accepted LOS standards.

Table 2: Projected Trip Generation

Category ¹	Units ²	AADT		A.M. Peak Hour		P.M. Peak Hour	
		Rate	Trips	Rate	Trips	Rate	Trips

2. Source: School Board of Alachua County: School Capacity vs. Enrollment. Dated: November 15, 2012

3. Source: Table 6: Projected Public School Impact

Conclusion: As calculated in *Tables 6 and 7*, there are no additional single-family or multi-family dwelling units associated with this proposed amendment. This application will not negatively impact the adopted LOS.

CONSISTENCY WITH CITY OF GAINESVILLE COMPREHENSIVE PLAN

FUTURE LAND USE ELEMENT

The proposed SsCPA site is currently designated Residential High Density (RH) FLU classification. The requested FLU classification change to Urban Mixed-Use 2 (UMU-2) is consistent with the accompanying rezoning request for the Urban Mixed-Use 2 (UMU-2) zoning district category. The UMU-2 designations permit a mixture of residential and nonresidential uses designed to promote both pedestrian and transit use in the City of Gainesville's urban core.

Future Land Use Element (FLUE) *Policy 4.1.1*

Urban Mixed-Use 2 (UMU-2: up to 100 units per acre)

This category allows a mixture of residential, retail and office/research uses. The Urban Mixed districts are distinguished from other mixed-use districts in that they are specifically established to support biotechnology research in close proximity to the University of Florida. An essential component of the district is orientation of structures to the street and pedestrian character of the area. Retail and office uses located within this district should be scaled to fit into the character of the area. Residential density shall be limited to 100 units per acre with provisions to add up to 25 additional units per acre by special use permit. All new development must be a minimum of 2 stories in height. Building height shall be limited to 6 stories and up to 8 stories by special use permit. Land development regulations shall set the appropriate densities; the distribution of uses; design criteria; landscaping, pedestrian, and vehicular access. Land development regulations shall specify the criteria for the siting of public and private schools, places of religious assembly and community facilities within this category.

Response: The site is located proximate (three (3) City blocks) to the University of Florida and downtown, allowing an opportunity to support both biotechnical research and downtown businesses alike. The site's redevelopment will ensure a pedestrian-friendly environment, consisting of sidewalks and modest build-to-lines. The site's redevelopment encourages similar efforts in the Innovation District immediately across SW 5th Avenue and helps support additional area residences and businesses.

FLUE *Policy 1.1.3*

Neighborhoods should contain a diversity of housing types to enable citizens from a wide range of economic levels and age groups to live within its boundaries.

Response: The proposed amendment will continue to allow multi-family housing, which adds to the housing type diversity in the area. The area

currently has a mixture of single-family, duplex, and multi-family housing types that are available in a variety of price points.

FLUE Goal 2

Redevelop areas within the City, as needed, in a manner that promotes quality of life, transportation choice, a healthy economy, and discourages sprawl.

Response: The proposed SsCPA promotes the redevelopment of an underutilized site within the City of Gainesville’s urban core. The site is in close proximity to several RTS transit lines, including the Rosa Parks RTS Downtown Station, and within walking distance to the Santa Fe College (SFC) downtown campus and the University of Florida (UF) main campus. As an urban infill redevelopment project, the proposal encourages economic development within the area by increasing employment and supporting additional businesses, and further discourages urban sprawl towards and beyond Interstate-75. This SsCPA will provide the opportunity to redevelop two (2) vacant buildings into a vibrant multi-family or mixed use structure, providing improved quality of life for downtown businesses and residents.

TRANSPORTATION MOBILITY ELEMENT

Transportation Mobility Element Overall Goal

Establish a transportation system that enhances compact development, redevelopment, quality of life, that is sensitive to the cultural and environmental amenities of Gainesville, and implements the vision of the “Year 2020 Livable Community Reinvestment Plan” (Gainesville 2020 Transportation Plan) within the City of Gainesville. The transportation system shall provide equal attention to pedestrian, bicycle, auto, and public transit needs. The system should provide vehicular, public transit and non-motorized access to activity centers, community facilities, and neighborhood commercial areas. Safety and efficiency shall be enhanced by limitations and care in the locations of driveways, provision of sidewalk connections within developments and an overall effort to enhance pedestrian mobility throughout the community by improvement and provision of safe crossings, complete sidewalk and trail systems and sidewalks of adequate widths to encourage pedestrian activity. Basic transportation should be provided for transportation-disadvantaged residents to employment, education facilities, and basic services.

Response: The proposed SsCPA meets the Overall Goal of the Comprehensive Plan Transportation Mobility Element by encouraging multi-modal transportation, creating compact multi-use development proximate to transit facilities, and improving connections between uses.

The site currently has one (1) access point along SW 5th Avenue. Alignment of the existing driveway may be moved to either align with the northern property's driveway or SW 7th Terrace, as SW 7th Terrace south of SW 5th Avenue has been vacated. Transportation enhancements, which include sidewalks, may be made in accordance with the Transportation Mobility Element to improve overall pedestrian and vehicular mobility.

POTABLE WATER & WASTEWATER MANAGEMENT ELEMENT

Potable Water & Wastewater Management Element Objective 1.4

The use of existing water and wastewater facilities shall be maximized by adopting the following policies:

Response: Redevelopment resulting from the proposed SsCPA application will connect to the City of Gainesville's utilities system. As shown in Section 3: Impact Analysis, redevelopment of the property is not shown to exceed the City of Gainesville Potable Water or Sanitary Sewer systems' capacities. This analysis takes into account planned infrastructure enhancements outlined in the Comprehensive Plan Capital Improvements Element, which include expansions to the potable water plant and wastewater treatment plant capacities.

SOLID WASTE ELEMENT

Solid Waste Element Objective 1.1

By 2001, reduce by 50% the amount of solid waste that would have been disposed of in the absence of landfill diversion practices such as recycling, reuse and composting.

Response: Development resulting from the proposed SsCPA will utilize appropriate mechanisms for solid waste disposal, including the recycling, reuse, and composting of waste materials for on-site or off-site uses. As outlined in Table 5: Projected Solid Waste Capacity, New River Regional Landfill, the area's main landfill, will not be adversely impacted by site development.

STORMWATER MANAGEMENT ELEMENT

Stormwater Management Element Goal 1

Design, construct, and maintain a stormwater management system that reduces the incidence of flooding, and protects, preserves, and enhances desirable water quality conditions, and to the maximum extent feasible, preserves and utilizes the existing natural systems.

Response: Stormwater Management Facilities (SMF's) can be constructed to mitigate the potential impacts of 100-year critical duration rainfall depth. The SMF's will be designed to contain the site's stormwater and to allow

percolation into the soil rather than run directly into the downstream receiving surface waters.

PUBLIC SCHOOLS FACILITIES ELEMENT

Public School Facilities Element Goal 2

Provide adequate public school capacity to accommodate enrollment demand within a financially feasible, five-year capital improvements program.

Response: Since the proposed SsCPA does not permit an increase in potential dwelling units, no public school facility impacts are anticipated.

URBAN DESIGN ELEMENT

Urban Design Element *Objective 1.2*

Promote urban livability and aesthetics, including the safety, comfort, and convenience of pedestrians, bicyclists and transit users, while still providing for the needs of car drivers.

Response: The site's redevelopment can enhance the sidewalk system and public realm, which encourages greater pedestrian interaction.

Urban Design Element *Objective 1.4*

The City should ensure that the location of off-street surface parking lots reflects quality urban design.

Response: Parking can be located mostly to the facility's side and rear. Additional design features, such as landscaping and buffering, that promote quality urban design have been discussed throughout this report.

CONSERVATION ELEMENT

Conservation Element *Goal 2*

Mitigate the effects of growth and development on environmental resources.

Response: The site is within Gainesville's urban core, located on SW 5th Avenue, and one block west of SW 6th Street. There are no environmental characteristics that prohibit site redevelopment. Therefore, approval of this SsCPA application will encourage redevelopment in the City's urban core, and thereby reduce development pressure near environmental resources at the urban fringe.

Any stormwater runoff that results from the development will be mitigated in accordance with the City of Gainesville and St. Johns River Water Management District (SJRWMD) requirements.

Based on the Natural Resources Conservation Service (NRCS) soils data (*Figure 5*), on-site soils are suitable for urban-type development. Additional site-specific evaluations will be conducted during site redevelopment to determine suitability of specific locations for buildings and support structures. Existing on-site vegetation will be retained to the maximum extent practicable to help maintain soil stability.

The site was also analyzed using Federal Emergency Management Agency (FEMA) 100-year floodplain areas and the National Wetlands Inventory, and the database of Alachua County Regulated Wetlands (*Figure 6*). No floodplain or wetland areas have been located on site.

URBAN SPRAWL ANALYSIS

The approval of this SsCPA does not constitute urban sprawl. As defined in Florida Statutes, 'Urban Sprawl' means "a development pattern characterized by low density, automobile-dependent development with either a single use or multiple uses that are not functionally related, requiring the extension of public facilities and services in an inefficient manner, and failing to provide a clear separation between urban and rural uses" (§ 163.3164(51)).

The thirteen (13) indicators of urban sprawl formerly identified in Rule 9J-5, Florida Administrative Code (FAC), now repealed, are incorporated into Chapter 163. Section 163.3177(6)(a)9.a states:

"The evaluation of the presence of these indicators shall consist of an analysis of the plan or plan amendment within the context of features and characteristics unique to each locality..."

As demonstrated by the following analysis, the proposed SsCPA does not trigger any urban sprawl indicators, and adoption of this SsCPA will discourage the proliferation of urban sprawl within the City of Gainesville and Alachua County.

1. Promotes, allows or designates for development substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses in excess of demonstrated need.

Response: The site is located in the city of Gainesville's urban core, which is characterized by commercial uses located along major corridors and proximate residential neighborhoods. This amendment requests to change the site's Residential High Density (RH) FLU classification to Urban Mixed-Use 2 (UMU-2). The proposed SsCPA retains the ability to develop 62 dwelling units, as permitted under the existing RH FLU classification, while allowing the opportunity to develop up to ±27,000 square feet of nonresidential space. Therefore, this SsCPA increases only intensity on the site, and creates an opportunity for a mix of uses.

2. Promotes, allows, or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while leaping over undeveloped lands which are available and suitable for development.

Response: The site is *not* located at the urban fringe; rather it is located within the City of Gainesville's urban core. The mixed-use UMU-2 FLU classification and the site's location in the urban core discourage development in rural areas. Approval of this SsCPA encourages other redevelopment within this area, further decreasing the need for urban fringe development.

3. Promotes, allows, or designates urban development in radial, strip, isolated, or ribbon patterns generally emanating from existing urban developments.

Response: The site is located in the City of Gainesville's urban core. The proposed amendment promotes a mix of uses on a single site, and is compatible with adjacent uses, such as multi-family residential, office, and retail. Furthermore, the amendment request supports and extends the mixed-use development pattern from the adjacent Innovation District.

4. As a result of premature or poorly planned conversion of rural land to other uses, fails adequately to protect and conserve natural resources, such as wetlands, floodplains, native vegetation, environmentally sensitive areas, natural groundwater aquifer recharge areas, lakes, rivers, shorelines, beaches, bays, estuarine systems, and other significant natural systems.

Response: The site is located in an urban setting, which is primarily devoid of wetlands and significant natural resource systems, with the exception of Tumblin Creek located to the property's west. The site is buffered from the creek by an adjacent parcel that contains multi-family housing. Stormwater will be mitigated in accordance with the City of Gainesville and St. Johns River Water Management District (SJRWMD) requirements.

5. Fails adequately to protect adjacent agricultural areas and activities, including silviculture, and including active agricultural and silvicultural activities as well as passive agricultural activities and dormant, unique and prime farmlands and soils.

Response: Due to the site's urban setting, no agricultural activities are adjacent to the site, nor will any be interrupted or discontinued.

6. Fails to maximize use of existing public facilities and services.

Response: The site utilizes existing public facilities and services supplied by Gainesville Regional Utilities (GRU) and the City of Gainesville Public Works Department, in the form of roads, sidewalks, and other services.

7. Fails to maximize use of future public facilities and services.

Response: The site will utilize the City's existing and future public facilities and services.

8. Allows for land use patterns or timing which disproportionately increase the cost in time, money and energy, of providing and maintaining facilities and services, including roads, potable water, sanitary sewer, stormwater management, law enforcement, education, health care, fire and emergency response, and general government.

Response: The site is located in an urban area that is already supported by public facilities and services. Therefore, site redevelopment attributable to this SsCPA does not disproportionately increase the cost in time, money, or energy by providing and maintaining these facilities and services.

9. Fails to provide a clear separation between rural and urban uses.

Response: Located in the City of Gainesville's urban core, this site further defines urban space, as well as relieves development pressure at the urban fringe and in rural areas.

10. Discourages or inhibits infill development or the redevelopment of existing neighborhoods and communities.

Response: The proposed SsCPA encourages urban infill through the redevelopment of existing neighborhoods or communities. Redevelopment will significantly improve the site's visual aesthetic and potentially bring a mix of compatible uses to the surrounding community.

11. Fails to encourage an attractive and functional mix of uses.

Response: The site is currently occupied by two (2) vacant buildings that was built in the late 1950's. The proposed SsCPA allows a mixture of residential and nonresidential uses adjacent to the SW 6th Street corridor and the Innovation District. The proposed SsCPA allows attractive and functional design features that ensure compatibility with adjacent properties.

12. Results in poor accessibility among linked or related land uses.

Response: The surrounding neighborhood has a gridded street network. Sidewalks that link both nonresidential uses on arterial roadways and residential uses within the neighborhood line most streets. This site fronts SW 5th Avenue, which has a sidewalk located along its northern right-of-way (ROW). This site's redevelopment can improve the existing sidewalk system by providing connection along SW 5th Avenue's southern ROW to increase pedestrian accessibility and safety within the neighborhood. The approval of this SsCPA promotes such improvements.

13. Results in the loss of significant amounts of functional open space.

Response: The 0.62-acre site consists of two (2) vacant buildings and a parking lot. Therefore, the existing open space on-site is very limited. The site's majority of open space is located in the property's southwestern corner and may be preserved where practicable to buffer adjacent uses. The site's redevelopment will remain consistent with open space requirements as they are outlined in the City of Gainesville Comprehensive Plan and LDC.

In addition to the thirteen (13) indicators of urban sprawl, Florida Statutes section 163.3177(6)(a)9.b identifies eight (8) development pattern or urban form criteria. If four (4) or more of those criteria are met, the presumption is that the amendment discourages urban sprawl. The proposed amendment and

corresponding development are found to meet the following four (4) criteria as identified in §163.3177(6)(a)9.b.(I), (II), (III), and (VII).

1. Sec. (163.3177(6)(a)9.b(I)): Directs or locates economic growth and associated land development to geographic areas of the community in a manner that does not have an adverse impact on and protects natural resources and ecosystems.

Response: The site is located in the City of Gainesville's urban core, an area characterized by both residential and nonresidential uses and minimal natural resources and ecosystems. The site is currently developed with two (2) vacant buildings and does not contain significant natural resources or ecosystems.

2. Sec. (163.3177(6)(a)9.b(II)): Promotes the efficient and cost-effective provision or extension of public infrastructure and services.

Response: The site utilizes existing public facilities and services supplied by Gainesville Regional Utilities (GRU) and the City of Gainesville Public Works Department. Any future redevelopment will retain the use of GRU and City infrastructure and services, including centralized potable water and sanitary sewer. The site's proposed mixed-use nature and adjacency to the Rosa Parks RTS Downtown Station, Santa Fe College, and the University of Florida encourages alternative transportation modes in the area. Additionally, reducing single-occupancy vehicle dependency increases the useful lifespan of roadway infrastructure throughout the City of Gainesville and Alachua County.

3. Sec. (163.3177(6)(a)9.b(III)): Promotes walkable and connected communities and provides for compact development and a mix of uses at densities and intensities that will support a range of housing choices and a multimodal transportation system, including pedestrian, bicycle, and transit, if available.

Response: The site is located within the City of Gainesville's urban core and is proximate to the Rosa Parks RTS Downtown Station. Additionally, the site is located within an area heavily used by bicyclists and pedestrians, as the site is close to Santa Fe College, the University of Florida, and downtown. The mixed-use nature of the proposed SsCPA allows tenants to work in close proximity to where they live, and provide additional commercial opportunities proximate to the neighborhood.

4. Sec. (163.3177(6)(a)9.b(VII)): Creates a balance of uses based upon demands of the residential population for the nonresidential needs of an area.

Response: This SsCPA provides nonresidential opportunities that are not currently permitted on-site while they are allowed on adjacent parcels to the north. The modest additional nonresidential space, if developed as such, will likely consist of retail or offices and provide added employment

and service opportunities to area residents. Site redevelopment will encourage redevelopment of adjacent properties, which further promotes urban infill and redevelopment in the urban core.
