Subject: Nature Centers Commission

Dear Commissioner,

I recently submitted an application to fill an open position on the Nature Centers Commission. I respectfully request your consideration in appointing me to this committee. I believe that I have the qualifications necessary to be a valued member of the committee. I am currently a Land Resource Planner for the St. Johns River Water Management District, and involved in many aspects of public conservation lands management. Before this position, I was employed by the city of Gainesville as a Habitat Naturalist in the Nature Operations Division. As a Habitat Naturalist, I became intimately familiar with the City's natural areas and developed a sense of ownership. Serving on the Nature Centers Commission will provide a vehicle for me to continue to actively participate in the stewardship of these wonderful areas. Thank you for your consideration and for providing citizens the opportunity to communicate with representatives via email.

Respectively,
Steven R. Vann
Gainesville, FL
