2 Planholders	85
3 Supplemental Suppliers	7
4 Watchers	13
5 Post Bid Viewers	56
6 eBid Responses	10

**Explanation of Terms**

1 "Broadcast to"	DemandStar original broadcast - this may include several <u>individuals</u> within the same company, thus somewhat distorting the actual number of companies that received notification. For example, the broadcast number includes four (4) separate individuals at Avison Young, and it is counted as 4 in the broadcast numbers
2 Planholders	The number of companies that downloaded the solicitation documents
3 Supplemental Suppliers	The number of companies that were identified by the City's Project Manager that were specifically notified of the solicitation
4 Watchers	The number of companies that followed the solicitation activity prior to the Recommendation of Award
5 Post Bid Viewers	This was actually a uniquely high number of Post-Bid Viewers that were apparently interested in the outcome of the second week of the protest period.
6 eBid Responses	Number of companies that submitted proposals by the deadline
