*The Federal Transit Administration requires that random drug testing be conducted during all normal hours of operation. The Regional Transit System currently provides services until the early morning hours. In addition, the City's Drug Free Workplace Program's post-accident testing may also require after hour drug testing to fully comply with State Law and the City's collective bargaining agreements. The inability to comply with the above standards could put the City's FTA grants at risk and have an adverse effect on future Regional Transit Systems operating and capital grant funding. With this being the case, there is no alternative at this time. Staff spent considerable time attempting to find qualified local collection sites for this service. The current vendor cited the after hours drug testing requirement as the reason for not submitting a proposal during this recent process.*
