**BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF GAINESVILLE, THE MAYOR
CONCURRING, THAT:**

Section 1. The City will make Race and Equity a foundation of the Comprehensive Plan integrating it into the other core values.

Section 2. Defining the Race and Equity Core Value.

A. Marginalized People: Persons and communities of color, immigrants, those experiencing poverty, and people living with disabilities.

B. Race and Equity: The time when all marginalized people can attain those resources, opportunities, and outcomes that improve their quality of life and enable them to reach their full potential. The City has a collective responsibility to address the history of inequities in the existing systems and their ongoing impacts in Gainesville communities, leveraging collective resources to create communities of opportunity for everyone, regardless of race or means.

C. Equitable Development: Public and private investments, programs, and policies in neighborhoods to meet the needs of marginalized people and reduce disparities, taking into account past history and current conditions, so that quality of life outcomes such as access to quality education, living wage employment, healthy environment, affordable housing and transportation, are equitably distributed for the people currently living and working here, as well as for new residents.

Section 3. Incorporating Race and Equity in the Plan.

A. Introduction and Core Value. The Plan's introduction will articulate a definition of race and equity and a clear vision of equitable growth. It will also provide the rationale for making race and equity a foundation of the Plan. It will include a description of current context, connect historical decisions to current conditions, and will articulate the benefits of addressing race and social equity into the Comprehensive Plan.

B. Elements. New equity goals and policies will be consistent and clear throughout the entire Plan. Goals and policies for capital investments and the provision of public services will include, but are not limited to, the City's priority to eliminate racial disparities.

Section 4. Equity Measurements. Quantifiable city-wide community indicators of equitable growth will be identified, measured over time, and reported annually as part of the City's ongoing monitoring of the Plan's effects on race and social equity over time. Equity measurements will track growth and displacement issues and be disaggregated by race, ethnicity, and income when possible. Equity measures will be updated as more data is available to measure impacts of growth for marginalized people.

Section 5. The City strives to make the Plan more understandable and to seek community input on the Plan by:

A. Issuing, at the same time as the release of the draft Plan, a "Plan Summary" that uses clear and simple language to highlight policy changes including policies related to race and social equity and the equity analysis of the growth strategies.

B. Using Inclusive outreach and Community Engagement best practices to engage historically underrepresented communities during the development of the plan ; and

C. Continuing to invite collaboration with the Department of Doing, other departments, and community organizations to review equity goals and policies.

Section 7. Stewardship of Race and Equity. The City will incorporate the expertise of those most negatively impacted by growth to provide guidance on policies and investments so that marginalized people can benefit from, and not be displaced or overly burdened by, future growth.
