City of Gainesville Planning & Development Services  
306 Northeast 6<sup>th</sup> Street  
Gainesville, FL 32601

Re: Gardenia Garden Apartments – Small-scale Comprehensive Plan  
Amendment (SsCPA)

Dear Mr. ~~Bredfeldt~~ *ERIK*:

On behalf of the property owners, Causseaux, Hewett, & Walpole, Inc. (CHW) submits this SsCPA application to change a portion of Alachua County tax parcel 10970-000-000 (±3.47 acres) from Residential Low-Density (RL) to Residential Medium-Density (RM) on the City's Future Land Use Map (FLUM).

This application is submitted in conjunction with a Rezoning application to amend the City's Zoning Atlas.

We submit the following items for your review and approval:

- The required City of Gainesville Small-scale Comprehensive Plan Amendment application;
- An affidavit authorizing CHW as agent with property records and tax roll documents;
- A check in the amount of \$787.50 for application fees; (Enterprise Zone)
- Neighborhood Workshop materials;
- A legal description for the subject properties; and
- Fourteen (14) copies of the SsCPA Justification Report.

We trust this submittal will be sufficient for your review and subsequent approval by the City Plan Board and City Commission. If you have any questions or need additional information, please call me directly.

Sincerely,  
Causseaux, Hewett, & Walpole, Inc.

Gerry R. Dedenbach, AICP, LEED® AP  
Director of Planning & GIS Services

Property Appraisers Folio No.: 10970-000-000

**WARRANTY DEED**

THIS WARRANTY DEED is made as of the 26th day of November, 2012 by **GARDENIA GARDEN INC.**, a Florida non-profit corporation ("Grantor"), whose post office address is 1727 NE 8<sup>th</sup> Avenue, Gainesville, Florida 32641, to **GARDENIA GARDEN APARTMENTS LIMITED PARTNERSHIP**, a Florida limited partnership ("Grantee"), whose post office address is 1727 NE 8<sup>th</sup> Avenue, Gainesville, Florida 32641.

WITNESSETH:

That Grantor, for and in consideration of the sum of Ten and No/100 Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, hereby grants, bargains, sells and conveys to Grantee, and its successors and assigns, all that certain real property lying and being in Alachua County, Florida, and more particularly described as follows:

**See attached Exhibit "A".**

TOGETHER with all the tenements, hereditaments and appurtenances thereto belonging or in anywise appertaining.

TO HAVE AND TO HOLD the same in fee simple forever.

AND Grantor hereby fully warrants the title to the Property and will defend the same against the lawful claims of all persons whomsoever, and that the Property is free of all encumbrances, except taxes accruing subsequent to December 31, 2011, and subject to the rights of tenants in possession, as tenants only, under unrecorded residential leases, and all other reservations, easements or matters of public record, provided, however, that this reference shall not serve to reimpose same.

[Signature Page Follows]

IN WITNESS WHEREOF, Grantor has executed this Warranty Deed as of the day and year first above written.

In the presence of:

**GRANTOR:**

## PUBLIC NOTICE

A Neighborhood Workshop will be held to discuss a proposed Small-scale Comprehensive Plan Amendment and Rezoning for a site located on a portion of Alachua County Tax Parcel 10970-000-000. The proposed changes will amend the Future Land Use category from Residential Low-Density (up to 12 units/ac) to Residential Medium-Density (8-30 units/ac) and the Zoning district from Residential Low-Density (RMF-5) to Multiple-family Medium Density (RMF-7).

This is not a public hearing. The workshop's purpose is to inform neighboring property owners of the proposal's nature and to seek their comments.

The workshop is Monday, February 11, 2013, at 6:00 p.m. at the Alachua County Library Headquarters, Foundation Room, 401 East University Avenue, Gainesville, FL 32601.

## Expert: Students' race, socioeconomic status not factors in teacher ratings

The Associated Press

TALLAHASSEE — Studies show students' race and socioeconomic status have virtually no correlation with their teachers' performance evaluation scores, a top Florida education official told a legislative panel Thursday.

Teachers are being evaluated during the current school year for the first time using what's known as a value-added model. Half of each score must be based on how much a teacher's students have improved on reading and math tests from one year to the next.

A hotly debated 2011 law that created the evaluation system prohibits students' race, ethnicity, socioeconomic status and gender from being considered in the value-added model, but it doesn't really matter, said Deputy Chancellor for Educator Quality Kathy Hebda.

Hebda presented charts to the House K-12 Education Subcommittee that show almost zero correlation between teachers' evaluation scores and the percentages of their students

who are poor, nonwhite, gifted, disabled or English language learners. Teachers similarly didn't get any advantage or disadvantage based on what grade levels they teach. "Those things didn't seem to factor in," Hebda said. "You can't tell for a teacher's classroom by the way the value-added scores turned out whether she had zero percent students on free and reduced-price lunch or 100 percent."

Not all subcommittee members were convinced. "You can't deny the difference between a child who comes from a home where the parents are able to help that child with their learning, or if they provide tutoring or other enrichment activities, versus a child who goes home and doesn't know where they're going to stay that night," said Rep. Karen Castor Dentel, D-Maitland. "It's a factor that is out of the teacher's control."

Hebda said the model levels out those differences because it compares year-to-year test scores instead of using just the results

of a single year. The same Republican-sponsored law that mandated the evaluation system also calls for a performance pay system and ends tenure for teachers hired after July 1, 2011. It's being challenged in court by the Florida Education Association, the statewide teachers union. Rep. Dennis Baxley, R-Ocala, said the findings Hebda cited vindicate the law. "Those who say it can't be done need to get out of the way of those who are doing it," Baxley said.

Education officials, though, have acknowledged the new system has issues. In many cases teachers were evaluated on their entire school's average exam results rather than the performance of their own students because their subject or grade level isn't tested.

Preliminary results released last month show nearly 97 percent of teachers were rated "effective" or "highly effective." The rest were rated "developing," "needs improvement" and "unsatisfactory."

## Man gets two life sentences in molestation case

By Jon Silman  
Staff writer

A convicted sex offender arrested for sex crimes against a child was sentenced to two consecutive life sentences on Thursday.

Anthony James Petersen, 37, was found guilty in court and sentenced by Eighth Judicial Circuit Court Senior Judge Aymer Curtis after a two-day trial this week. Petersen was convicted of capital sexual battery and lewd and lascivious molestation on a child under 12. Petersen was arrested and charged in September 2011.

"The state is pleased with both the verdict

and sentence," said Spencer Mann, chief investigator for the State Attorney's Office in Gainesville.

The charges stemmed from a July 2011 investigation when a teenager told a relative about what Petersen had done to him, according to a Gainesville Police Department spokesperson.

An arrest report said Petersen was dating the victim's mother at the time and living with the family.

The woman's son and daughter "reported that during the time frame of 2009-04 they were each sexually battered multiple times"

by Petersen, the report said. The abuse stopped when the woman ended her relationship with Petersen, the report added.

Petersen was also convicted of lewd and lascivious assault on a child and false imprisonment in 1996, according to Department of Corrections records, and he spent a year in prison.

Petersen was subsequently convicted of failing to notify law enforcement of his entry into a community in 2003, and failing to comply with Florida's sex offender registration requirements in 2008. He was released from prison in February 2008.

## Female inmates join Paws on Parole program

By Audreyanna Loguierre  
Correspondent

The Paws on Parole program run by Alachua County Animal Services will allow female inmates at the Alachua County jail to train dogs. Both inmates and the dogs they train will learn skills that could benefit their future outside the jail.

Behind the jailhouse in a grassy area, about a quarter of an acre large, dogs will learn obedience and good behavior skills on agility equipment similar to ones used at a dog show. Two female inmates will have the opportunity to train the dogs from 8 a.m. to 3 p.m. for the 60-day program. They will learn basic dog grooming and canine health care.

Sheriff Sadie Darnell said officials have noticed that inmates are more tolerant, nurturing and easygoing while at the jail compared to before they came to jail, and by bonding with animals, they learn those traits.

"It does show great benefits. It helps the inmate become a better person," Darnell said. Darnell said the female inmates were chosen to take part in the program because females don't have as many work-detail programs available as do the male inmates.

"It's truly a privilege to earn the ability to work with the dogs," Darnell said. After completion of Paws on Parole, the dogs will be tested to see if they meet the American Kennel Club's Canine Good Citizen standards, in hopes of getting them adopted.

Paws on Parole started several years ago with male inmates through the Florida Department of Corrections. Dogs and inmates have now completed the 60-day training program 24 times. This marks the first time the program has involved female inmates.

The main goal of the program is to increase the rate of adoption of dogs at the Alachua

County Animal Shelter. It also provides experience and education in dog care for inmates. The program is funded through a \$42,632 grant.

Sheriff's Lt. Lee Hudson said the female inmates with minimal crimes are eligible to become trainers. Their criminal history, institutional behavior and the severity of charges against them are evaluated before they're considered. Then, they go through a double interview process.

He said the women need a positive attitude and the ability to perform the training techniques to work with the dogs.

The female inmates in the program leave with greater discipline and feelings of self-worth, Hudson said. They can market their dog training skills and apply for jobs at places such as animal shelters, Hudson said.

None of the dogs will fail the program, he said. "We will have successful graduates."

## Ohio crime lab chief dies while scuba diving in Fla.

The Associated Press

KEY LARGO — The director of Ohio's state crime lab died while scuba diving, authorities said Thursday.

Ronald Dye, of Grove City, Ohio, and a buddy were diving about 6 miles offshore Wednesday when they surfaced after about 25 minutes, Monroe County sheriff's officials said. The friend told deputies Dye was low on air and that Dye

then indicated something was wrong, but he didn't tell him what it was.

The captain of a commercial dive vessel, Tropical Adventures, told deputies a crew member went into the water with a rescue buoy and helped the men back to the boat. A crew member started CPR and the boat headed for the dock, but the 36-year-old Dye was declared dead a short time later at a hospital.

## OUTAGE: Damaged equipment cited

Continued from 1B

such an outage, and the cause wouldn't be determined until after the problem was fixed.

A few businesses didn't let the power outage affect them.

China Wok continued to take orders, despite the outage. The back door was propped open to allow the chef to use as he cooked.

The owner of Simply Delights, Linda Bowen, rented a generator to

save her chocolate from melting.

Bowen said the chocolate has to remain between 60 and 68 degrees. She couldn't risk losing thousands of dollars worth of expensive chocolate shipped from Europe, she said.

"I had no choice but to do the outage. It was my only option," she said.

By nightfall Thursday, the power had not been restored, but GRU workers said they expected the power to be back on soon.

## ESPINOSA: Says 'business-friendly environment' is needed

Continued from 1B

He said city government also needs to create a "business-friendly environment to improve the quality of life for Gainesville residents."

Espinosa said that means city officials need to work closely with

the Gainesville Area Chamber of Commerce.

Espinosa, 20, is studying building construction at UF. He is active in Florida Blue Key, the campus leadership honor society.

Currently, the other candidates to sign up for the race are incumbent Randy Wells and former City

Commissioner Mac McEachern, who does not meet the residency requirements under the new district boundaries commissioners approved in December.

McEachern's home, which is his registered voting address, was within the former boundaries of District 4. But it is not inside the

newly drawn district that commissioners unanimously approved on Dec. 20, when completing the required redistricting process that follows the U.S. census.

The official candidate qualification period is next week from noon Monday to noon Friday.

### Obituary Information

All obituaries are paid notices and are placed by the funeral home or crematorium handling the arrangements as a service to the family.

## PUTNAM: Says getting people involved in the state's dense history is his ultimate goal

Continued from 1B

Griffin, a Dade Battlefield Society member, his grandnephew, Matthew Griffin, a UF student and Seminole War re-enactor, and Marilyn Bishop Shaw, a writer and fifth-generation Floridian.

Using the idea of agriculture as a stepping stone, the panel explored a number of topics: the role of war and racism in shaping Florida, sustainability and the future of the food supply, learning to accept cultures of all shapes and sizes.

"We have, at some level, a constituency that doesn't think of Florida as

an identity," Noll said.

Shaw agreed, and said history was the bridge to fixing that problem.

"We need to share the background so that we understand where we come from. It's very difficult to make wise decisions if we don't know the whole story."

The younger Griffin said the problem also lay in monolithic stereotypes, like Disney World and crystalline beaches.

"We have to go back and erase them," he said. "It affords us the opportunity to teach people around the world about the state of Florida." When the panel opened the floor

for questions, Putnam fielded each inquiry with a smile. Getting people involved in the state's dense history is his ultimate goal, he said.

"I was thrilled with the turnout," he said. "The questions from both community leaders and students were great. It was a forum that anyone who came with any background came away with something they hadn't known before. And hopefully their enthusiasm will be contagious."

The "Florida Agriculture" series includes five more events, the next of which is at Flagler College on March 31.

### PUBLIC NOTICE

A Neighborhood Workshop will be held to discuss a proposed Small-scale Comprehensive Plan Amendment and Rezoning for a site located on a portion of Alachua County Tax Parcel 10970-000-000. ## Gardenia Garden Apartments SsCPA & Rezoning

Neighborhood Workshop  
February 11, 2013

CAUSSEAU, HEWETT, & WALPOLE, INC.

Civil Engineering Land Surveying Land Planning Construction Engineering Inspection

## Meeting Overview

### The purpose of the neighborhood workshop:

- The City of Gainesville requires Small-Scale Comprehensive Plan Amendments (SsCPA) and Rezoning applicants to host a neighborhood workshop
- The workshop's purpose is to inform neighbors of the proposed development's nature and to get feedback early in the development process
- This workshop provides the applicant with an opportunity to mitigate concerns prior to the application's submission

# Public Notification

Focused on Excellence  
Delivered with Integrity

**MEMORANDUM**

**TO:** Neighbors of the Gardens Garden Apartments      PN 12-0467  
**FROM:** Craig Brashier, AICP  
**DATE:** Friday, January 25, 2013  
**RE:** Neighborhood Workshop Public Notice

Causesseux, Hewitt, and Walpole, Inc. (CHW) will hold a neighborhood workshop to discuss a proposed Small-scale Comprehensive Plan Amendment and Rezoning for a site located on a portion of Alachua County Tax Parcel 10970-000-000. The proposed changes will amend the Future Land Use category from Residential Low-Density (up to 12 units/ac) to Residential Medium-Density (8-30 units/ac) and the Zoning district from Residential Low-Density (RMF-5) to Multiple-family Medium Density (RMF-7).

**Date:** Monday, February 11, 2013  
**Time:** 6:00 p.m.  
**Place:** The Alachua County Library Headquarters, Foundation Room  
 401 East University Avenue  
 Gainesville, FL 32601  
**Contact:** Craig Brashier, AICP  
 (352) 331-1976

This is not a public hearing. The purpose of the workshop is to inform neighboring property owners of the proposal's nature and to seek comments. We look forward to seeing you at the workshop.

**PUBLIC NOTICE**

A Neighborhood Workshop will be held to discuss a proposed Small-scale Comprehensive Plan Amendment and Rezoning for a site located on a portion of Alachua County Tax Parcel 10970-000-000. The proposed changes will amend the Future Land Use category from Residential Low-Density (up to 12 units/ac) to Residential Medium-Density (8-30 units/ac) and the Zoning district from Residential Low-Density (RMF-5) to Multiple-family Medium Density (RMF-7).

This is not a public hearing. The workshop's purpose is to inform neighboring property owners of the proposal's nature and to seek their comments.

The workshop is Monday, February 11, 2013, at 6:00 p.m. at the Alachua County Library Headquarters, Foundation Room, 401 East University Avenue, Gainesville, FL 32601.

civil engineering   land surveying   land planning   construction engineering   inspection

## Justification for Amendments

- Established consistency between existing use and Future Land Use and Zoning designations;
- Supports the long-term ability to provide affordable housing;
- Does not propose changes to existing number of dwelling units; and
- Will allow necessary maintenance and improvements to meet future needs.

## Gardenia Garden Apartments SSCPA & Rezoning

Neighborhood Workshop  
February 11, 2013

CAUSSEAU, HEWETT, & WALPOLE, INC.

Civil Engineering Land Surveying Land Planning Construction Engineering Inspection

**GARDENIA GARDEN APARTMENTS**  
**NEIGHBORHOOD WORKSHOP MINUTES**  
**February 11, 2013 at 6:00 P.M.**  
**THE ALACHUA COUNTY LIBRARY HEADQUARTERS,**  
**FOUNDATION ROOM**

*Recorded and transcribed by Causseaux, Hewett, & Walpole, Inc. staff.*

*Causseaux, Hewett, & Walpole, Inc. – Ryan Thompson (RT)  
Craig Brashier (CB)*

*Ryan Thompson delivered an informational PowerPoint presentation, which contained the required neighborhood workshop elements, to attendees and allowed them to ask questions regarding the proposed Small-scale Comprehensive Plan Amendment (SsCPA) and Rezoning request. Attendees included a member of the church across NE 8<sup>th</sup> Avenue and one gentleman and a couple that both lived adjacent to Gardenia Garden Apartments. Questions regarding the apartment complex centered on current redevelopment and future plans, and how the applications may impact their property. Attendees were informed that the SsCPA and rezoning applications are for the long-term sustainability of the apartment complex and to eliminate an existing nonconforming status.*

*The meeting concluded at 6:30 p.m.*

**Date:** February 18, 2013  
**Re:** Gardenia Garden Apartments  
Small-scale Comprehensive Plan Amendment (SsCPA) Application

<b>Jurisdiction:</b> City of Gainesville	<b>Intent of Development:</b> Apply appropriate Future Land Use designation to existing multi-family residential development
<b>Description of Location:</b> 1715 NE 8 <sup>th</sup> Avenue, Gainesville, FL 32641	
<b>Parcel Numbers:</b> A portion of 10970-000-000	<b>Acres:</b> ± 3.47 acres <i>(Source: The Alachua County Property Appraiser)</i>
<b>Current Future Land Use Classifications:</b> <i>Residential Low-Density (RL) (±3.47 acres)</i> The <i>Residential Low-Density (RL)</i> Future Land Use (FLU) category shall allow dwellings at densities up to 12 units per acre. The RL FLU classification identifies those areas within the City that, due to topography, soil conditions, surrounding land uses and development patterns, are appropriate for single-family development, particularly the conservation of existing traditional low-density neighborhoods, single-family attached and zero-lot line development, and small-scale multi-family development.	
<b>Proposed Future Land Use Classification:</b> <i>Residential Medium-Density (RM) (±3.47 acres)</i> The <i>Residential Medium-Density (RM)</i> FLU classification shall allow single-family and multi-family development at densities from 8 to 30 dwelling units per acre. Lots that existed on November 13, 1991 and that are less than or equal to 0.5 acres in size shall be exempt from minimum density requirements. The land shown as RM on the Future Land Use Map (FLUM) identifies those areas within the City that, due to topography, soil conditions, surrounding land uses and development patterns, are appropriate for single-family, and medium-intensity multifamily development.	
<b>Existing Maximum Density / Intensity</b> <i>Residential Low-Density (RL):</i> ±3.47 acres x 12 dwelling units (du) = 41 du	
<b>Proposed Density/Intensity</b> <i>Residential Medium-Density (RM):</i> ±3.47 acres x 30 dwelling units (du) = 102 du	
<b>Net Change</b> Although this SsCPA application does increase the site's maximum allowable density by 61 dwellings, the site is currently developed. This application merely requests the appropriate FLU classification that matches the existing on-site multi-family residential development. Furthermore, this requested FLU classification mirrors the FLU classification assigned to the site's northern portion.  Also, a concurrent zoning application is being submitted that will limit the maximum development potential for the entire tax parcel to 105 dwellings (14 du/ac). Currently, the site has 100 dwellings constructed on-site. Therefore, only five (5) additional dwellings will be permitted as a result of the accompanying zoning application.	

## STATEMENT OF PROPOSED CHANGE

The intent of this Small-scale Comprehensive Plan Amendment (SsCPA) request is to apply the Residential Medium-Density (RM) FLU classification to Gardenia Garden Apartment's southern half (±3.47 acres on Alachua County Tax Parcel 10970-000-000). This request is proposed to allow the site's existing development to conform to the City of Gainesville's Comprehensive Plan. Similarly, an accompanying rezoning request is proposed, which will bring the site and its structures in compliance with the City Land Development Code (LDC).

**Figure 1: Aerial Map**

The Gardenia Garden Apartments property was annexed into the City of Gainesville in 1961. At this time, the entire Gardenia Garden Apartments complex was designated Residential-Low Density Future Land Use (FLU) and Multiple-Family – Low Density (R-2) zoning. In 1982, the City of Gainesville revised their zoning classification system. As a result, the City changed the FLU classification to RM and zoning category to Residential Multi-Family 7 (RMF-7), which were most comparable to the pre-existing designations, and consistent with on-site development.

According to City staff, sometime between 1982 and 1986, the site's southern half was changed to Residential Low-Density (RL) FLU and Residential Multi-Family 5 (RMF-5) zoning. In doing so, existing structures were made nonconforming because the existing density of 15 du/ac (52 dwelling units on 3.47 acres) was greater than the RMF-5 district allowed (12 du/ac). This nonconforming status, which is regulated by LDC Section 30-346, Nonconforming Lots, Uses, and Structures, limits the long-term viability and

continuation of the property’s use as low-income housing, a critical component to providing diversified housing types within the community. Therefore, this application is requesting the original RM FLU classification that was applied to the property after annexation and still exists on the development’s northern half.

Gardenia Garden Apartments is located on the south side of NE 8<sup>th</sup> Avenue and the east side of NE 18<sup>th</sup> Street. The entire complex currently contains 100 U.S. Department of Housing and Urban Development (HUD) Project-Based Section 8 subsidized multi-family dwelling units. This SsCPA only applies to the southern half, which consists of 52 dwelling units on 3.47 acres.

The proposed amendment satisfies the logical nexus test because the tax parcel’s remaining northern half, which is contiguous to the site, is also designated the requested RM FLU classification. The proposed designation is compatible with adjacent residential and mixed-use designated parcels that consist of single-family and multi-family residential uses. Surrounding FLU and zoning designations are summarized in *Table 1*.

**Table 1: Surrounding Future Land Use and Zoning Designations**

<b>Direction</b>	<b>Future Land Use Designation</b>	<b>Zoning Designation</b>
North	Residential Medium-Density	Residential Multi-Family 7
East	Single Family	Residential Multi-Family 3
South	Residential Low-Density	Residential Low-Density
West	Residential Low-Density	Residential Low-Density

The project site’s northern boundary is aligned with the NE 6<sup>th</sup> Place’s centerline to the west, and borders the tax parcel’s remaining northern portion. The site’s eastern boundary fronts NE 18<sup>th</sup> Street while the southern and western boundaries front NE 5<sup>th</sup> Avenue and NE 17<sup>th</sup> Terrace, respectively.

Primarily, the subject property is adjacent to either the north half of Gardenia Garden Apartments or public right-of-way. Two dwelling units, which may be single-family or duplex units, are located adjacent to the site’s western boundary. Surrounding residential land uses typically consist of single-family units with the occasional duplex units. The RL FLU classification allows both single and multi-family dwellings and is, therefore, consistent with both the adjacent uses and the proposed RM FLU classification. Urban collectors, NE 8<sup>th</sup> Avenue, and principal arterials, NE Waldo Road, have the Mixed-Use Low (MUL) and Mixed-use Medium (MUM) FLU classifications. These parcels mainly consist of churches, civic facilities, and commercial businesses. *Figures 2 and 3* depict the existing and proposed FLU Maps (FLUM), respectively.

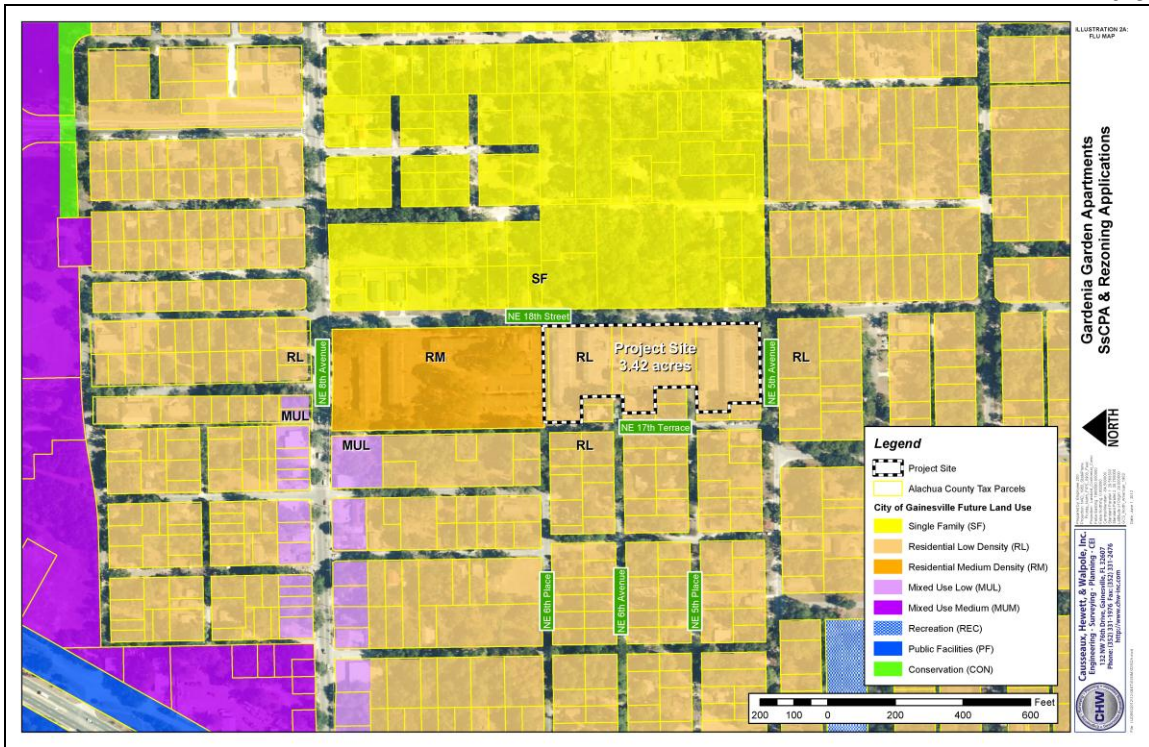

Figure 2: Existing Future Land Use Map

Figure 3: Proposed Future Land Use Map

## IMPACT ANALYSIS

### IMPACT ON RESIDENTIAL STREETS

Although this SsCPA application does change the site's underlying maximum allowable density, the site is currently developed. This application merely requests the appropriate FLU classification that matches the existing on-site multi-family residential development, which will bring the site and structures into conformance with the City's Comprehensive Plan and LDC. Specific impacts to the adjacent roadways are outlined in *Table 2*.

No additional travelers, whether vehicular or pedestrian, is projected on the streets network adjacent to the project site as a result of approving this application. Pedestrian access to and from numerous houses and apartments is possible by multi-modal pathways and mass transit systems within the area.

### IMPACT ON NOISE AND LIGHTING

Surrounding uses located adjacent to the site range from mixed-use to a variety of residential densities. No additional residential units will result by approving this SsCPA application. City of Gainesville ordinances ensure landscaping and carefully placed security lighting that promote safety and compatibility among a variety of uses.

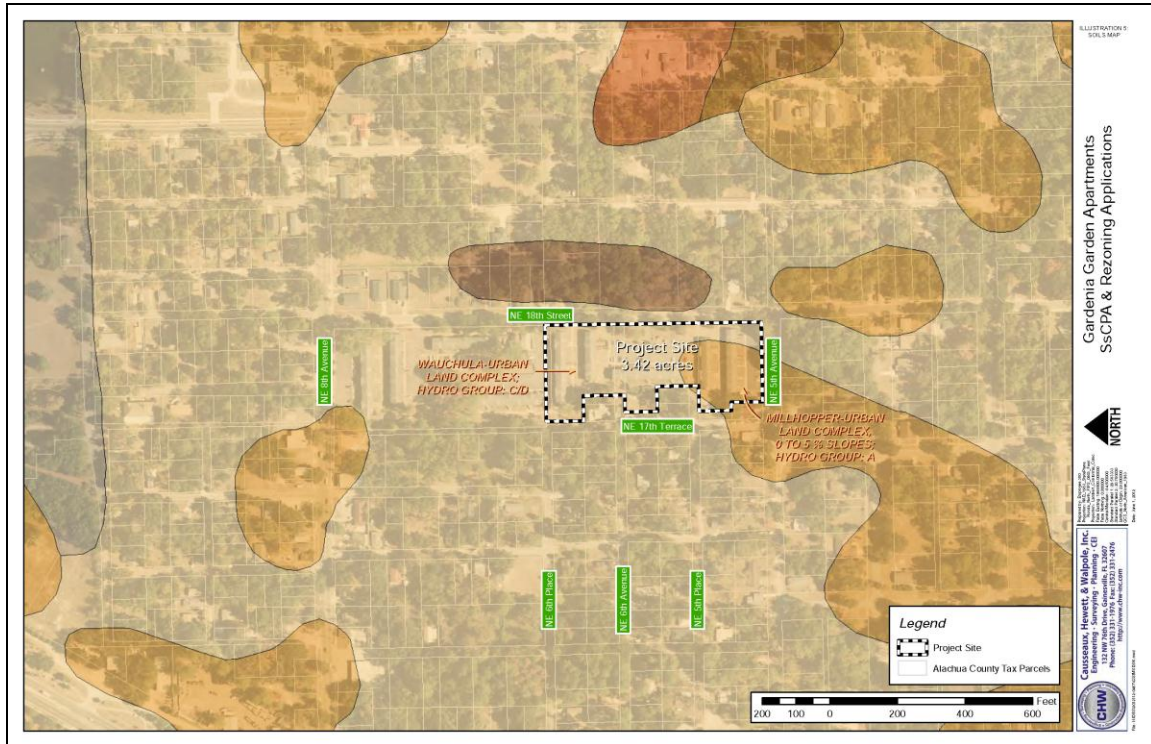

### ENVIRONMENTAL FEATURES

The project is located in the City of Gainesville's urban core. As illustrated in *Figure 4*, there are no wetland or floodplain areas within the project site.

Figure 4: Topography, Wetlands, and FEMA Floodplain Map

According to the National Resources Conservation Service (NRCS), the on-site soil types are Wauchula-Urban Land Complex and Millhopper- Urban Land Complex (Figure 5). These soils are suitable for urban-type development.

**Figure 5: Natural Resources Conservation Service (NRCS) Soils Map**

Since no construction or redevelopment is associated with this SsCPA, on-site trees will be preserved to buffer adjacent uses. In the event that trees are removed, they will be replaced in accordance with City of Gainesville Land Development Code (LDC).

#### *HISTORIC AND ARCHEOLOGICAL RESOURCES*

According to the Florida Division of Historical Resources (DHR), no archeological resources are located on the property.

#### *COMMUNITY CONTRIBUTIONS*

The proposed SsCPA is consistent with the City of Gainesville Comprehensive Plan and LDC. The site's existing use, a subsidized multi-family housing development, serves the community by adding diversity to the area's housing stock. Federally subsidized housing, such as this, serves a population that would otherwise not be able to afford housing, regardless of the housing type or market price.

#### *POTENTIAL LONG-TERM ECONOMIC BENEFITS*

The site is currently developed with federally-subsidized housing that serves low-income residents that would otherwise seek local housing assistance or require additional services to meet daily needs. This development provides a housing stock that is not commonly available throughout the City of Gainesville.

**LEVEL OF SERVICE STANDARDS**

Although the site is currently developed, potential Level of Service (LOS) standards were calculated based on the density increases that could result from the proposed SsCPA, if and only if the site were razed and reconstructed to the maximum allowable density. Therefore, 61 dwelling units were used for the LOS calculations.

The site is located within the City’s TCEA Zone A, which was established to encourage redevelopment and infill near the University Context Area and the urban core. Developers within TCEA Zone A are responsible for providing transportation improvements that are required due to safety and/or operational conditions. Development or redevelopment within TCEA Zone A may be required to provide the following:

- a. Sidewalk connections to existing and planned public sidewalk;
- b. Cross-access connections/easements or joint driveways;
- c. Deeding of land or conveyance of required easements along the property frontage to the City, as needed, for the construction of public sidewalks, bus turn-out facilities and/or bus shelters;
- d. Closure of existing excessive, duplicative, or unsafe curb cuts or narrowing of overly wide curb cuts at the development site; and
- e. Provide safe and convenient on-site pedestrian circulation.

The site is located less than one-quarter (1/4) mile from Regional Transit System’s (RTS’s) bus routes 24, and 25, which run along NE Waldo Road/SR 24. With respect to mass transit, specific LOS standards are not established within the City of Gainesville Comprehensive Plan. However, desired densities along major corridors have been expressed.

**LEVEL OF SERVICE**

The following tables summarize the public facilities capacity analysis for the SsCPA. As can be seen by the calculations, this proposed SsCPA does not degrade existing public facilities below accepted LOS standards.

**Table 2: Projected Trip Generation**

Category <sup>1</sup>	Units <sup>2,3</sup>	AADT		A.M. Peak Hour		P.M. Peak Hour	
		Rate	Trips	Rate	Trips	Rate	Trips
Apartment (ITE 220)	61	6.65	406	0.51	31	0.62	38
<b>Total</b>		-	406	-	31	-	38

1. Source: ITE Trip Generation Manual, 8<sup>th</sup> Edition  
 2. Unit = Dwelling Units  
 3. If, and only if, the site were razed and reconstructed at the maximum potential density.

The projected trip generation calculated in *Table 2* would impact NE 8<sup>th</sup> Avenue. However, this SsCPA application does not request additional development. This application merely requests the appropriate FLU classification that matches the existing on-site multi-family residential development.

**Table 3: Projected Potable Water Capacity**

System Category	Gallons Per Day
Murphy Water Treatment Plant Current Capacity <sup>1</sup>	30,000,000
Current Use <sup>1</sup>	23,400,000
Available Capacity	6,600,000
Projected Demand from SsCPA <sup>2</sup> [61 du's x 2.46 persons / du x 200 gal per day ]	30,012
Residual Capacity After Proposed SsCPA	6,569,988

1. Source: Gainesville Regional Utilities, Water and Wastewater Systems Division. Date: January 11, 2012
2. If, and only if, the site were razed and reconstructed at the maximum potential density.

*Conclusion:* As calculated in Table 3, potable water capacity exists to adequately serve the proposed amendment. This application will not negatively impact the adopted Level of Service (LOS). This application does not propose or precede development activity; it is merely to rectify a pre-existing nonconforming use.

**Table 4: Projected Sanitary Sewer Capacity**

System Category	Gallons of Effluent Per Day
Main Street Water Reclamation Facility Current Capacity <sup>1</sup>	7,500,000
Current Average Demand <sup>1</sup>	6,080,000
Available Capacity	1,420,000
Projected Demand from SsCPA <sup>2</sup> [61 x 2.46 persons / du x 113 gal per day]	16,957
Residual Capacity After Proposed SsCPA	1,403,043

1. Source: Gainesville Regional Utilities Water and Wastewater Systems Division. Date: January 11, 2012
2. If, and only if, the site were razed and reconstructed at the maximum potential density.

*Conclusion:* As calculated in Table 4, sanitary sewer capacity exists to adequately serve the proposed amendment. This application will not negatively impact the adopted LOS. This application does not propose or precede development activity; it is merely to rectify a pre-existing nonconforming use.

**Table 5: Projected Solid Waste Capacity**

System Category	Tons of Solid Waste Per Year
Projected Impact from SsCPA <sup>1</sup> [61 du's x 2.46 persons / du x 0.655 tons per capita / year]	98.3
Alachua County Solid Waste Facility Capacity <sup>2</sup>	>10 years

1. If, and only if, the site were razed and reconstructed at the maximum potential density.
2. Source: Alachua County Comprehensive Plan

*Conclusion:* As calculated in Table 5, solid waste facility capacity exists to adequately serve the proposed amendment. This application will not negatively impact the adopted LOS. This application does not propose or precede development activity; it is merely to rectify a pre-existing nonconforming use.

**Table 6: Projected Public School Student Generation**

	<b>Units<sup>1,2</sup></b>	<b>Elementary</b>	<b>Middle</b>	<b>High</b>
<b>Generation Rates<sup>3</sup></b>				
Single Family Units	-	0.159	0.080	0.112
Multi-family Units	-	0.042	0.016	0.019
<b>Calculations</b>				
Single Family Units	0	0	0	0
Multi-family Units	61	3	1	1
<b>Total</b>	<b>61</b>	<b>3</b>	<b>1</b>	<b>1</b>

1. Unit = number of dwelling units
2. If, and only if, the site were razed and reconstructed at the maximum potential density.

**Table 7: Projected Public School Capacities**

<b>School<sup>1</sup></b>	<b>Adjusted Permanent Program Capacity<sup>2</sup></b>	<b>11/15/12 Enrollment School Year<sup>2</sup></b>	<b>Estimated Students Created by SsCPA at Build-out<sup>3,4</sup></b>	<b>Actual Available Capacity</b>
DUVAL ELEMENTARY	467	309	3	66.8%
WESTWOOD MIDDLE	1,142	1,007	1	88.3%
GAINESVILLE HIGH	1,935	1,815	1	93.9%

1. Source: City of Gainesville Planning Division, School Concurrency Service Area (SCSA) Maps
2. Source: School Board of Alachua County: School Capacity vs. Enrollment. Dated: November 15, 2012
3. Source: Table 6: Projected Public School Impact
4. If, and only if, the site were razed and reconstructed at the maximum potential density.

*Conclusion:* As calculated in Tables 6 and 7, there are no additional single-family or multi-family dwelling units associated with this proposed amendment. This application will not negatively impact the adopted LOS. This application does not propose or precede development activity; it is merely to rectify a pre-existing nonconforming use.

## CONSISTENCY WITH CITY OF GAINESVILLE COMPREHENSIVE PLAN

### *FUTURE LAND USE ELEMENT*

The proposed SsCPA site is currently designated Residential Low-Density (RL) FLU classification. The requested FLU classification change to Residential Medium-Density (RM) is consistent with the accompanying rezoning request for the Residential Multi-Family 7 (RMF-7) zoning district category. The requested FLU and zoning designations bring the existing development into conformance with the City's Comprehensive Plan and Land Development Code (LDC).

#### Future Land Use Element (FLUE) *Policy 4.1.1*

##### Residential Medium-Density (RM) (8-30 units per acre)

This land use classification shall allow single-family and multi-family development at densities from 8 to 30 dwelling units per acre. Lots that existed on November 13, 1991 and that are less than or equal to 0.5 acres in size shall be exempt from minimum density requirements. The land shown as Residential Medium-Density on the Future Land Use Map identifies those areas within the City that, due to topography, soil conditions, surrounding land uses and development patterns, are appropriate for single-family, and medium-intensity multifamily development. Land development regulations shall determine gradations of density and specific uses. Land development regulations shall specify criteria for the siting of appropriate medium-intensity residential facilities to accommodate special need populations and appropriate community-level institutional facilities such as places of religious assembly, public and private schools other than institutions of higher learning, and libraries. Land development regulations shall allow home occupations within certain limitations.

**Response: The site is currently developed at a density supported by the RM FLU classification. The site has sufficient topography, soil conditions, surrounding land uses, and development patterns to support the multi-family residential uses on-site. Special needs populations are accommodated by the existing federally-subsidized housing on-site.**

#### FLUE *Policy 1.1.3*

Neighborhoods should contain a diversity of housing types to enable citizens from a wide range of economic levels and age groups to live within its boundaries.

**Response: The requested SsCPA will bring an existing federally-subsidized multi-family housing into conformance with the Comprehensive Plan and eliminate the nonconforming status of existing buildings. This housing type is critical to serve low-income households that are not otherwise able to secure housing. The existing multi-family housing adds to the housing type diversity in the area. The area currently has a mixture of single-family,**

**duplex, and multi-family housing types that are available in a variety of price points.**

*FLUE Goal 3*

Achieve the highest long-term quality of life for all Gainesville residents consistent with sound social, economic, and environmental principals through land development practices that minimize detrimental impacts to the land, natural resources, and urban infrastructure.

**Response: The proposed SsCPA promotes medium-density development within the urban core, where it is supported by existing infrastructure. Approval of this request will allow on-site multi-family housing to conform to the City Comprehensive Plan and reduce development pressure on the urban fringe for similar development types to meet housing needs, and, thereby, minimize potentially detrimental impacts to land and natural resources.**

*TRANSPORTATION MOBILITY ELEMENT*

*Transportation Mobility Element Overall Goal*

Establish a transportation system that enhances compact development, redevelopment, quality of life, that is sensitive to the cultural and environmental amenities of Gainesville, and implements the vision of the “Year 2020 Livable Community Reinvestment Plan” (Gainesville 2020 Transportation Plan) within the City of Gainesville. The transportation system shall provide equal attention to pedestrian, bicycle, auto, and public transit needs. The system should provide vehicular, public transit and non-motorized access to activity centers, community facilities, and neighborhood commercial areas. Safety and efficiency shall be enhanced by limitations and care in the locations of driveways, provision of sidewalk connections within developments and an overall effort to enhance pedestrian mobility throughout the community by improvement and provision of safe crossings, complete sidewalk and trail systems and sidewalks of adequate widths to encourage pedestrian activity. Basic transportation should be provided for transportation-disadvantaged residents to employment, education facilities, and basic services.

**Response: The proposed SsCPA meets the Overall Goal of the Comprehensive Plan Transportation Mobility Element by encouraging multi-modal transportation, creating compact multi-family residential development proximate to transit facilities, and improving connections between uses.**

**The site currently has one (1) access point along NE 8<sup>th</sup> Avenue and four (4) access points along NE 18<sup>th</sup> Street. Sidewalks run along both NE 8<sup>th</sup> Avenue and NE 18<sup>th</sup> Street and throughout the development. RTS bus**

routes 24 and 25 run along NE Waldo Road, which is located less than one-quarter (1/4) mile to the west.

*POTABLE WATER & WASTEWATER MANAGEMENT ELEMENT*

Potable Water & Wastewater Management Element *Objective 1.4*

The use of existing water and wastewater facilities shall be maximized by adopting the following policies:

**Response:** The site is currently connected to the City of Gainesville's utilities system. Although the site is currently developed, the maximum development potential under the requested FLU classification will not exceed the City of Gainesville Potable Water or Sanitary Sewer systems' capacities, as shown in *Section 3: Impact Analysis*. This analysis takes into account planned infrastructure enhancements outlined in the Comprehensive Plan Capital Improvements Element, which include expansions to the potable water plant and wastewater treatment plant capacities.

*SOLID WASTE ELEMENT*

Solid Waste Element *Objective 1.1*

By 2020, reduce by 75% the amount of solid waste that would have been disposed of in the absence of landfill diversion practices such as recycling, reuse and composting.

**Response:** Existing on-site development utilizes appropriate mechanisms for solid waste disposal, including the recycling, reuse, and composting of waste materials for on-site or off-site uses. As outlined in *Table 5: Projected Solid Waste Capacity, New River Regional Landfill*, the area's main landfill will not be adversely impacted by site development.

*STORMWATER MANAGEMENT ELEMENT*

Stormwater Management Element *Goal 1*

Design, construct, and maintain a stormwater management system that reduces the incidence of flooding, and protects, preserves, and enhances desirable water quality conditions, and to the maximum extent feasible, preserves and utilizes the existing natural systems.

**Response:** Existing stormwater is collected and dispersed off-site. Existing buildings and other associated impervious surfaces were constructed prior to the establishment of City of Gainesville and St. Johns River Water Management District (SJRWMD) requirements.

*PUBLIC SCHOOLS FACILITIES ELEMENT*

Public School Facilities Element Goal 2

Provide adequate public school capacity to accommodate enrollment demand within a financially feasible, five-year capital improvements program.

**Response: Since the proposed SsCPA does permit an increase in potential dwelling units, public school facility impacts were calculated. As shown in Section 3: Impact Analysis, public schools have adequate capacity for the proposed SsCPA.**

*URBAN DESIGN ELEMENT*

Urban Design Element *Objective 1.2*

Promote urban livability and aesthetics, including the safety, comfort, and convenience of pedestrians, bicyclists and transit users, while still providing for the needs of car drivers.

**Response: The site's long-term viability and retained residential population utilize the sidewalk system and public realm, which encourages greater social and pedestrian interaction.**

Urban Design Element *Objective 1.4*

The City should ensure that the location of off-street surface parking lots reflects quality urban design.

**Response: Parking is mostly located to the buildings' side and rear. Additional design features, such as landscaping and buffering, that promote quality urban design have been discussed throughout this report.**

*CONSERVATION ELEMENT*

Conservation Element *Goal 2*

Mitigate the effects of growth and development on environmental resources.

**Response: The site is within Gainesville's urban core, located on NE 8<sup>th</sup> Avenue, and four (4) blocks east of NE Waldo Road. There are no environmental characteristics that are affected by bringing the site into compliance with the current land use and zoning designations. Therefore, approval of this SsCPA application promotes continual viability of existing housing stock, thereby reducing development pressure near environmental resources at the urban fringe.**

**Based on the Natural Resources Conservation Service (NRCS) soils data (Figure 5), on-site soils are suitable for urban-type development.**

The site was also analyzed using Federal Emergency Management Agency (FEMA) 100-year floodplain areas and the National Wetlands Inventory, and the database of Alachua County Regulated Wetlands (*Figure 4*). No floodplain or wetland areas have been located on site.

### *HOUSING ELEMENT*

#### *Housing Element Objective 1.2*

Provide a variety of housing types and densities for low- income, very low-income, extremely low-income and moderate-income people.

**Response: Gardenia Garden Apartments serves low-income households with HUD Project-Based Section 8 funding assistance. The renewal contract for this development was executed on September 1, 2012 and shall run for a period of 20 years. To execute this contract, the owner warranted that the units were in decent, safe, and sanitary condition and shall remain as such for the entire contract term.**

**In Alachua County, almost one-quarter (22%) of elder households are cost burdened, which means they pay more than 30% of their household income on housing. Additionally, 13,438 households earn less than 30% of Area Median Income (AMI) and pay more than 50% of their household income on housing. Gardenia Garden Apartments meets a critical housing need for residents within the City of Gainesville and Alachua County. This SsCPA works towards insuring the long-term viability of this needed housing option.**

**Additionally, the majority of housing types found in this area are single-family housing. Multi-family housing development increases housing type variety that is not common within the area. Multi-family housing is an efficient use of land and meets the diverse housing needs of area residents.**

## URBAN SPRAWL ANALYSIS

The approval of this SsCPA does not constitute urban sprawl. As defined in Florida Statutes, 'Urban Sprawl' means "a development pattern characterized by low-density, automobile-dependent development with either a single use or multiple uses that are not functionally related, requiring the extension of public facilities and services in an inefficient manner, and failing to provide a clear separation between urban and rural uses" (§ 163.3164(51)).

The thirteen (13) indicators of urban sprawl formerly identified in Rule 9J-5, Florida Administrative Code (FAC), now repealed, are incorporated into Chapter 163. Section 163.3177(6)(a)9.a states:

"The evaluation of the presence of these indicators shall consist of an analysis of the plan or plan amendment within the context of features and characteristics unique to each locality..."

As demonstrated by the following analysis, the proposed SsCPA does not trigger any urban sprawl indicators, and adoption of this SsCPA will discourage the proliferation of urban sprawl within the City of Gainesville and Alachua County.

1. Promotes, allows or designates for development of substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses in excess of demonstrated need.

**Response: The site is located in the City of Gainesville's urban core, which is characterized by commercial uses located along major corridors and proximate residential neighborhoods. This amendment requests to change the site's Residential Low-Density (RL) FLU classification to Residential Medium-Density (RM). Existing on-site development satisfies a critical housing need for low-income households.**

2. Promotes, allows, or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while leaping over undeveloped lands which are available and suitable for development.

**Response: The site is *not* located at the urban fringe; rather it is located four (4) blocks east of NE Waldo Road and within the City of Gainesville's urban core. The RM FLU classification and the site's location in the urban core discourage development in outlying areas.**

3. Promotes, allows, or designates urban development in radial, strip, isolated, or ribbon patterns generally emanating from existing urban developments.

**Response: The site is located in the City of Gainesville's urban core. The proposed amendment promotes medium-density, multi-family housing, and is compatible with adjacent uses, such as single- and multi-family residential, office, and retail.**

4. As a result of premature or poorly planned conversion of rural land to other uses, fails adequately to protect and conserve natural resources, such as wetlands, floodplains, native vegetation, environmentally sensitive areas, natural groundwater aquifer recharge areas, lakes, rivers, shorelines, beaches, bays, estuarine systems, and other significant natural systems.

**Response: The site is located in an urban setting, which is devoid of wetlands and significant natural resource systems. Existing buildings and other associated impervious surfaces were constructed prior to the establishment of City of Gainesville and St. Johns River Water Management District (SJRWMD) requirements.**

5. Fails adequately to protect adjacent agricultural areas and activities, including silviculture, and including active agricultural and silvicultural activities as well as passive agricultural activities and dormant, unique and prime farmlands and soils.

**Response: Due to the site's urban setting, no agricultural activities are adjacent to the site, nor will any be interrupted or discontinued.**

6. Fails to maximize use of existing public facilities and services.

**Response: The site utilizes existing public facilities and services supplied by Gainesville Regional Utilities (GRU) and the City of Gainesville Public Works Department, in the form of roads, sidewalks, and utility services. Multi-family residential units are an efficient use of existing utilities.**

7. Fails to maximize use of future public facilities and services.

**Response: The site will utilize the both City's existing and future public facilities and services. Multi-family residential units are an efficient use of future utilities.**

8. Allows for land use patterns or timing which disproportionately increase the cost in time, money and energy, of providing and maintaining facilities and services, including roads, potable water, sanitary sewer, stormwater management, law enforcement, education, health care, fire and emergency response, and general government.

**Response: The site is located in an urban area that is already supported by public facilities and services. Therefore, the site's development does not disproportionately increase the cost in time, money, or energy by providing and maintaining these facilities and services. This amendment request promotes the efficient use of existing public facilities and services.**

9. Fails to provide a clear separation between rural and urban uses.

**Response: Located in the City of Gainesville's urban core, this site further defines urban space, as well as relieves development pressure at the urban fringe and in rural areas.**

10. Discourages or inhibits infill development or the redevelopment of existing neighborhoods and communities.

**Response: Since the site is already developed, the proposed SsCPA relieves development pressure at the urban fringe. The proposed SsCPA promotes future redevelopment by unifying site designations. Redevelopment throughout the neighborhood may occur as infill development.**

11. Fails to encourage an attractive and functional mix of uses.

**Response: The site is currently occupied by multi-family residential and is located four (4) blocks east of NE Waldo Road, which supports many commercial uses, including a Super Walmart a few blocks to the north. Existing development is consistent with City Comprehensive Plan policies and Land Development Code (LDC) design standards, which ensure attractive and functional design features that are compatible with adjacent properties.**

12. Results in poor accessibility among linked or related land uses.

**Response: The surrounding neighborhood has a gridded street network. Sidewalks that link both nonresidential uses on arterial roadways and residential uses within the neighborhood line most streets. This site fronts NE 8<sup>th</sup> Avenue, which has a sidewalk located along its northern right-of-way (ROW) and NE 18<sup>th</sup> Street, which has a sidewalk along its eastern ROW adjacent to the site. The site's existing sidewalk system provides pedestrian accessibility and safety within the neighborhood.**

13. Results in the loss of significant amounts of functional open space.

**Response: The 3.47-acre site consists of multi-family residential housing. There is currently no functional public open space on-site. Therefore, no functional open space will be lost by approving this SsCPA application.**

In addition to the thirteen (13) indicators of urban sprawl, Florida Statutes section 163.3177(6)(a)9.b identifies eight (8) development pattern or urban form criteria. If four (4) or more of those criteria are met, the presumption is that the amendment discourages urban sprawl. The proposed amendment and corresponding development are found to meet the following four (4) criteria as identified in §163.3177(6)(a)9.b.(I), (II), (III), and (VII).

1. Sec. (163.3177(6)(a)9.b(I)): Directs or locates economic growth and associated land development to geographic areas of the community in a manner that does not have an adverse impact on and protects natural resources and ecosystems.

**Response: The site is located in the City of Gainesville's urban core, an area characterized by both residential and nonresidential uses and minimal natural resources and ecosystems. The site is currently developed with**

**multi-family residential housing and does not contain significant natural resources or ecosystems.**

2. Sec. (163.3177(6)(a)9.b(II)): Promotes the efficient and cost-effective provision or extension of public infrastructure and services.

**Response: The site utilizes existing public facilities and services supplied by Gainesville Regional Utilities (GRU) and the City of Gainesville Public Works Department. The site's adjacency to RTS bus routes 24 and 25 and major employers such as Super Walmart reduce single-occupancy vehicle dependency and increase the useful lifespan of roadway infrastructure throughout the City of Gainesville and Alachua County.**

3. Sec. (163.3177(6)(a)9.b(III)): Promotes walkable and connected communities and provides for compact development and a mix of uses at densities and intensities that will support a range of housing choices and a multimodal transportation system, including pedestrian, bicycle, and transit, if available.

**Response: The site is located within the City of Gainesville's urban core and is proximate to the RTS transportation system. Additionally, the site is located within a neighborhood with sidewalks on major streets, allowing pedestrians and bicyclists safe travel. The site's proximity to major employers allows residents to live in close proximity to where they work.**

4. Sec. (163.3177(6)(a)9.b(VII)): Creates a balance of uses based upon demands of the residential population for the nonresidential needs of an area.

**Response: The site provides residential housing for low-income residents that support nonresidential needs of major employers and retailers in the area, such as Super Walmart, located a few blocks to the north.**

# Gardenia Garden Apartments SsCPA & Rezoning Applications
