Question applies to City Plan Board

Why are you interested in serving on the City Plan Board?

I have served the City Plan Board for nearly 10 years, including two terms as Chair. I have significant experience with land use, planning and development issues in Gainesville. In addition to my on-the-ground experience as a member of the Board, I also have a Masters of Law (LL.M.) in Land Use and Environmental Law, so I have a strong grounding in the legal underpinnings of land use law in the state of Florida. I would like to continue to serve my city in a capacity that will take full advantage of my expertise and experience.

Interests & Experiences

Question applies to City Plan Board

Why are you interested in serving on the City Plan Board?

I am interested in serving on the City Plan Board because I feel as though I represent a missing demographic from the board. Being a graduate student (in urban planning), I am aware of the impact students like myself have on Gainesville and respective development, and feel as though I can bring that awareness and understanding to the table for important conversations that happen around new and proposed development which is sometimes oriented towards student populations I have also been working at the City for nearly two years now, and simultaneously volunteering with local community organizers, all resulting in a broad perspective of how recent development has impacted the City, what long-term residents of the City are asking, and what impact students like myself are having on the City. Lastly, having been a member of the Development Review Board for this last full year, I gained experience on City advisory board and learned about the processes through which we work to advise the Commission and deliberate on development changes. I am confident in my ability to contribute to the conversation, bring a different perspective, listen to applicants and my fellow board members and work to make decisions that will positively impact Gainesville as a whole.

Question applies to Development Review Board

Why are you interested in serving on the Development Review Board?

I have served on the Development Review Board for this past year as a student member and I am grateful for the experience I have been able to gain thus far. I feel prepared to continue working with my colleagues on the board and to review proposals and applications that come before the board with an understanding of the process and of the current needs and goals of the community. Right now is an exciting time as the Comprehensive Plan is being updated, and it is important to have the right questions in mind and be prepared to help shape the document into an impactful and appropriate plan that reflects where the community is at and where they hope to be in the near future.

Question applies to City Plan Board

Why are you interested in serving on the City Plan Board?

I have made a conscious decision to make Gainesville my home since 2006. I met my wife here, my children were born here and I've started businesses here geared toward helping people, serving others and being a part of this great community. I am particularly interest in helping to continue to foster sustainable growth in our community, but with the balance of protecting the natural beauty and vibrant culture that our great city possesses. I am also personally interested in having a voice in the room to discuss the economic gap that has plagued the Gainesville community and explore actionable steps toward eradicating it. I am also interested in developing a more balanced set of real estate opportunity for all citizens which will in turn increase the quality of life and economic opportunities for all citizens.

Question applies to City Plan Board

Why are you interested in serving on the City Plan Board?

As a long standing resident of this community, I have always been interested in the work and responsibilities of the City Plan Board. I currently work in the nonprofit sector as a way to give back to the community that has embraced me but I am personally looking to provide a greater impact within this town I call home. I am aware that the city is currently using the Racial Equity ToolKit from the Government Alliance on Race and Equity (GARE) across all charters and I currently serve as the Director of Diversity and Inclusion for the Community Foundation of North Central Florida. Through my lived personal and professional experiences, it is my goal to work towards a more equitable Gainesville for all and feel the City Plan Board is a great opportunity to do so while ascertaining more knowledge about the community I reside in.

Question applies to City Plan Board

How many terms have you served on this board or committee previously?

0

Members of all City of Gainesville Advisory Boards and Committees must only serve two (2) consecutive terms, except for the City Plan Board, Development Review Board and Historic Preservation Board. Members of the State Housing Initiatives Partnership must only serve three (3) terms.

City of Gainesville

Gainesville FL 32601

Dear Mayor and City Commissioners,

It has been my honor and privilege to serve on the City of Gainesville Plan Board. I've enjoyed the opportunity to engage with the community to develop and implement a plan for the future of our community and I'm writing to ask for your consideration in granting me another term of service as we work on updating the Comprehensive Plan and Land Development Code to represent our shared values and make Gainesville more equitable.

I moved to Gainesville in 2002 to attend college at the University of Florida and have chosen to make it my home ever since. I've lived throughout the City and have experience as a bicycle, transit, and automotive commuter over the years. I am raising my family here and the issues that come before the Plan Board and affect the quality of life within the city are issues that I grapple with every day. My parents recently retired and moved to Gainesville – and I have both their needs and my children's needs on my mind on a daily basis.

In my daily work as a Director of Operations for a local civil engineering company, I interact with a wide range of land owners, developers, and community members - all interested in contributing to shape the future of Gainesville. I believe that my professional experience in development provides me a unique point of view within the Plan Board members as we consider text amendments to the Land Development Code and Comprehensive Plan. There can be unintended consequences to seemingly simple text changes and both my experience in the development industry and history as a Plan Board member provide me rich context of experience to draw on as the Plan Board makes these decisions and recommendations to the City Commission.

I'm writing to ask for your support and reappointment to the City Plan Board for another 3 year term. With the recent amendments related to accessory dwelling units (ADU's) and single room occupancy (SRO's), we have just begun to implement a toolbox for more affordable housing in the City. We continue to need more solutions for the "missing middle" and I look forward to working through the list of referral items the Plan Board and City Commission have compiled as future Land Development Code text amendments – helping Gainesville grow into something we can all be proud of.

Thank you for your consideration,

Stephanie Sutton

Question applies to City Plan Board

Why are you interested in serving on the City Plan Board?

I am re-applying for the City Plan Board seat that I currently hold because I wish to continue to serve my community in this capacity: helping to guide planning and development decisions in Gainesville that balance the needs and interests of our diverse community members. After 3 years, I have developed a more thorough understanding of the City's land development code and its application, allowing me to make a deeper contribution to the board. In other words, I'm over the steepest part of the learning curve and want to keep going – bringing a long-term sustainability (social, economic, and environmental) and systems-thinking approach to the board that considers the interconnected impacts to our community not only now but decades from now and across stakeholder groups. I look forward to continuing to serve the Gainesville community if chosen for another term on the City Plan Board. Best regards, Megan
