Interests & Experiences

Why are you interested in serving on a board or commission?

I have been a member of the student community relations advisory board since 2012. During that time, I have always attempted to serve with focused interest, integrity and to attend every meeting. I have enjoyed the process of serving and listening to the important issues (law and code enforcement, visiting speakers from various agencies) that affect the students and the citizens of Gainesville. I would like to continue in that capacity, if possible.

Interests & Experiences

Why are you interested in serving on a board or commission?

I believe in the importance of public service. I am a Gainesville native with a strong sense of the contributions of natural areas to community quality of life. I have enjoyed my service to date on the NCC board, and welcome the chance to continue to advocate for passive recreation and natural resource conservation.

KNOWLEDGE, SKILLS, AND ABILITIES

COMMUNICATIONS

Coordinated and contributed to successful continuation proposals, no cost extension justifications and official reports to funders. Facilitated peer review process and spearheaded the editing and assembly of research summaries for glossy annual report (<http://www.pinemap.org/reports>). Contributed to data collection, data analysis, authorship, and revision of peer-reviewed manuscripts, presentations, and posters. Planned, assembled and edited periodic progress reports across disciplines. Interfaced with graphic designer and professional editor to improve the flow and visual impact of reports and brochures. Developed and revised dozens of laboratory protocols. Responsible for uploading to and updating content on websites and social media to reflect accomplishments and upcoming events.

MEETING PLANNING AND MANAGEMENT

Planned several meetings of ca. 100 participants each including plenary, workshop, and poster sessions. Collaborated with leadership teams to create agendas designed to engage large groups at multiple levels from one-on-one to plenary. Prepared meeting packets including agendas and poster abstracts. Worked with host sites to create and modify contracts and to fulfill catering and meeting room needs. Ensured smooth meeting progression through on-site coordination, host facility liaison, and real-time problem solving. Coordinated more than 30 virtual project meetings (with 5 to 90 participants) to present results, monitor progress, and remove barriers to collaboration. Coordinated travel for groups of international workshop participants, including flights, hotel, and per diem arrangements. Publicized events through departmental contacts, listservs, website, and social media.

FINANCIAL MANAGEMENT

Planned expenditures and payroll for (up to 8 concurrent) grants, including some large (\$5 - \$20M) grants. Worked closely with fiscal staff and administrators to identify and resolve issues with payroll, budgeting, subcontracts, and sub-awards, including modifications and renewals. Wrote job descriptions, interviewed candidates, scheduled work hours, resolved personnel conflicts, coordinated travel reimbursements for invited speakers, and approved time.

LABORATORY

Managed labs (of ~40 members) by assigning project duties, planning and prioritizing space and machine time, training and complying with safety and hazardous waste regulations, and ensuring necessary materials were available when needed. Analyzed thousands of samples annually for stable isotopes of N and C, radiocarbon, ammonium, nitrate, and phosphate, including preparation of calibrants, reagents, and stock reagent solutions. Subsampled and incubated soil for N and C mineralization. Responsible for the troubleshooting, repair, and maintenance of vacuum pumps, vacuum lines, elemental analyzers, Astoria autoanalyzer, and Shimadzu TOC analyzer. Produced large datasets and maintained quality control of same.

TEACHING

Trained nearly 100 undergraduate students and >15 graduate students and employees in general laboratory and equipment procedures. Conducted hazardous waste management training and safety compliance training. Taught labs in introductory biology, general ecology, plant ecology, and plant ecophysiology.

FIELD AND GREENHOUSE

Experienced in plant identification via taxonomic key, navigation via compass and GPS, destructive and non-destructive plant sampling, soil sampling in remote areas, measurement of photosynthesis, respiration, and water potential of plants in the field, and maintaining greenhouse cultures of plant parasitic nematodes, including extractions and inoculations.

PUBLIC SERVICE

City of Gainesville Nature Centers Commission. Member May 2015 – present, Chair effective November 2017.
