Objective 4.7 **A Special Area is established for the Idylwild/Serenola area that shall be subject to the policies and standards contained in this Section. Portions of the Idylwild/Serenola area that are not currently within city limits shall be subject to these policies and standards at such time as they may be annexed into the City.**

Policy 4.7.1 The intent of this Special Area is to establish specific guidelines for the area identified as Idylwild/Serenola, generally bounded by Archer Road to the north, SW 13th Street to the east, Paynes Prairie to the south and east, and SW 34th Street and Interstate 75 to the west. Only a small portion of this area is currently within city limits and subject to these standards. To help with identification of the area and specific areas described herein, an Idylwild/Serenola Special Area Map (Special Area Study: Idylwild/Serenola in the Future Land Use Element Map Series), is incorporated by reference. Except where modified by the policies herein, all policies of the Plan shall be applicable within the special area. Where the specific policies conflict with general policies in the remainder of the plan, it is the intent that the policies herein shall prevail.
