The ADVANCED TASER M26 comes with an on-board memory chip to download 585 past firings based on the time and date the unit was fired.

The TASER X26 comes with an on-board memory chip to download 2,000 past firings based on the time and date the unit was fired to protect officers from unfounded charges of misuse of force.

The ADVANCED TASER M26 and X26 have over 94.9% field effectiveness rating.

User training and Instructor training materials are all on CDrom for ease of reproduction for training.

The X26 uses proprietary Shaped Pulse™ EMD Technology with high performance, highly efficient, incapacitation effect that's 5% greater than the ADVANCED TASER M26, and is 60% smaller, 60% lighter, and consumes 1/5th the power of the M26.

The X26 has an optional upgrade system, the TASER-Cam which records over an hour of MPEG4 video and audio data to provide another layer of accountability to corroborate officers use reports.

Propulsion System for all air cartridges is compressed nitrogen (1800 to 2500 lbs/in²).
