Appendix A - Comprehensive Plan GOPs

Exhibit A-1

Conservation, Open Space & Groundwater Recharge Element

GOAL 1

ESTABLISH AND MAINTAIN AN INTEGRATED AND URBAN-DEFINING OPEN SPACE NETWORK THAT PROTECTS AND CONSERVES ENVIRONMENTAL FEATURES

Objective 1.1

Upon adoption of this Plan, the City shall protect all significant environmental lands and resources identified in the Environmentally Significant Land and Resources map series within the Future Land Use Map Series. The City shall continue to identify environmentally significant open space and recreation sites for acquisition.

Objective 2.4

The City shall amend its land development regulations as necessary to conserve natural systems of surface waters and wetlands; areas subject to high rates of Floridian aquifer recharge; listed species of plants and animals; significant natural communities, and other significant natural and archaeological resource areas, including strategic ecosystems and significant geological resource features; and minimize the spread of invasive vegetation. The adopted regulations shall be designed to maintain these characteristics and resources, and the functions and values which they provide, and allow development activities which are compatible with the conservation of these resource areas as identified in the Comprehensive Plan or by provisions of the Land Development Code.
