

Depot Avenue Rail Trail Improvements

November 7, 2007

Project History

Design Guidelines completed April 2007

- Analysis of existing trail
- Identification of trail character zones
- Guidelines for improvements, including:
 - + Site furnishings
 - + Landscaping
 - + Lighting
 - + Trail User Guide Signs
 - + Crossings
 - + New development along trail
- Conceptual master plan for ¼ mile section
- Concept development for 13th Street Bridge enhancement

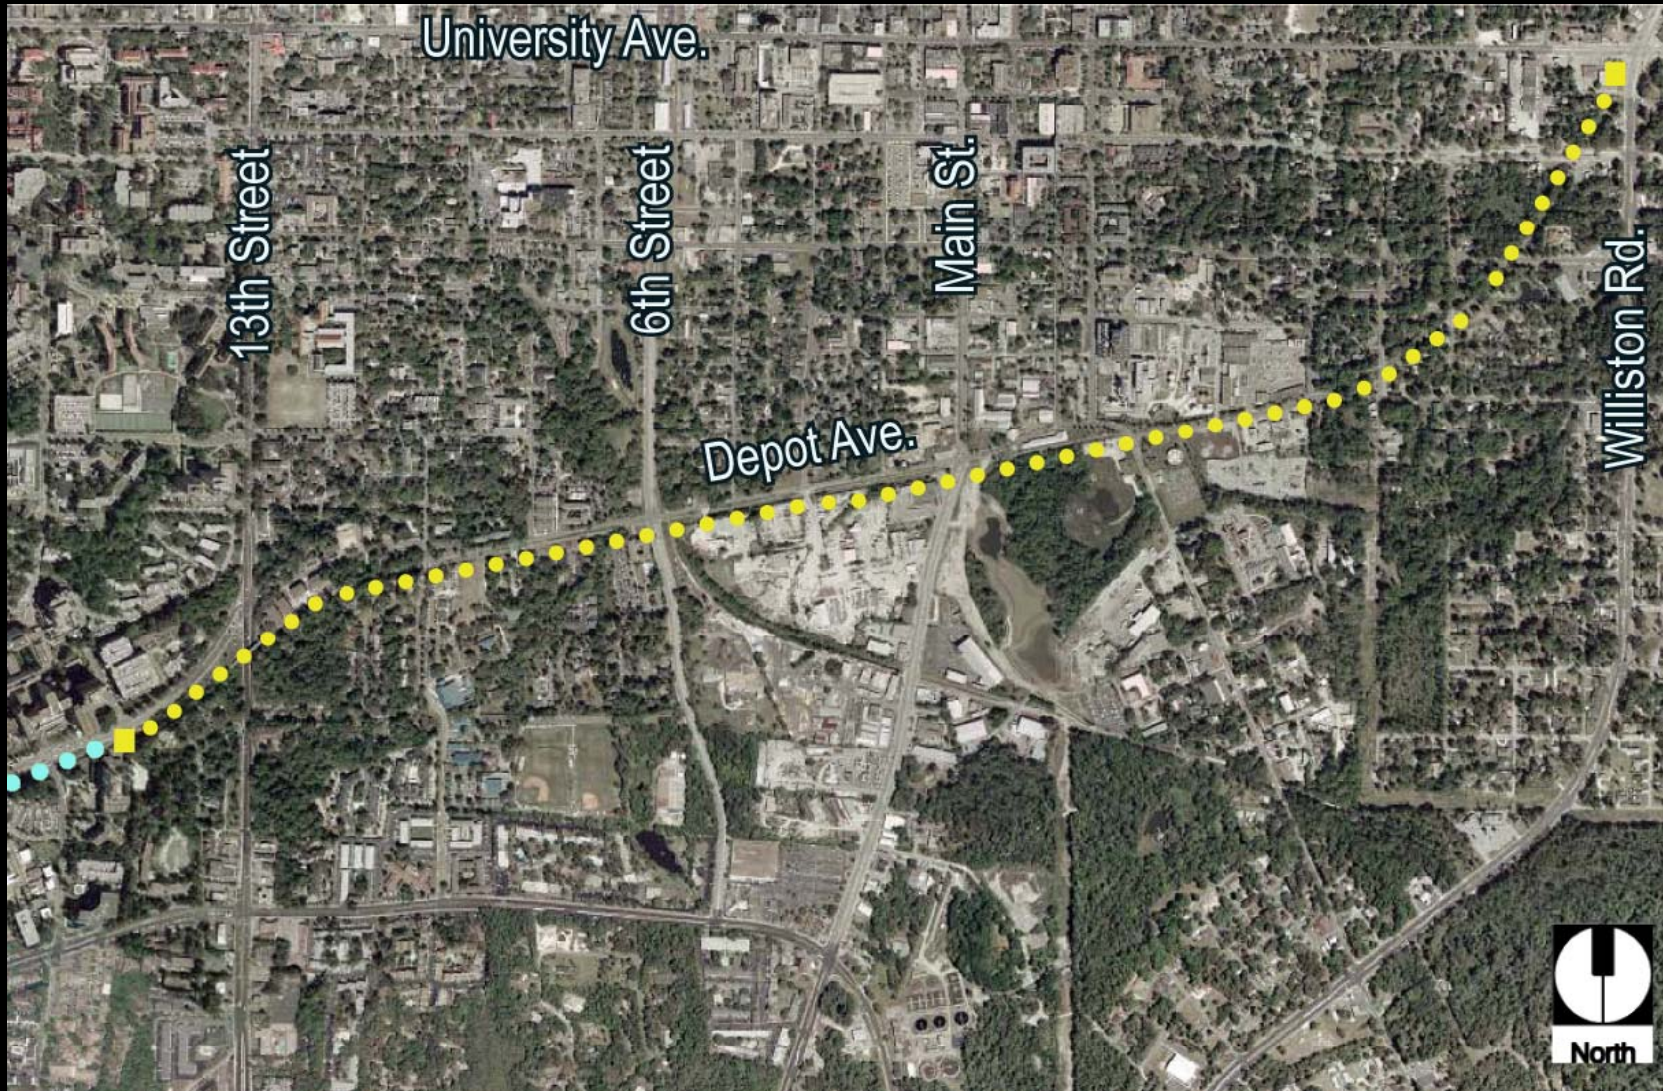

Project Scope

Current Project

- Creation of trail user guide sign system for entire trail
 - + Inventory
 - + Analysis
 - + Proposed sign types
 - + Proposed sign locations

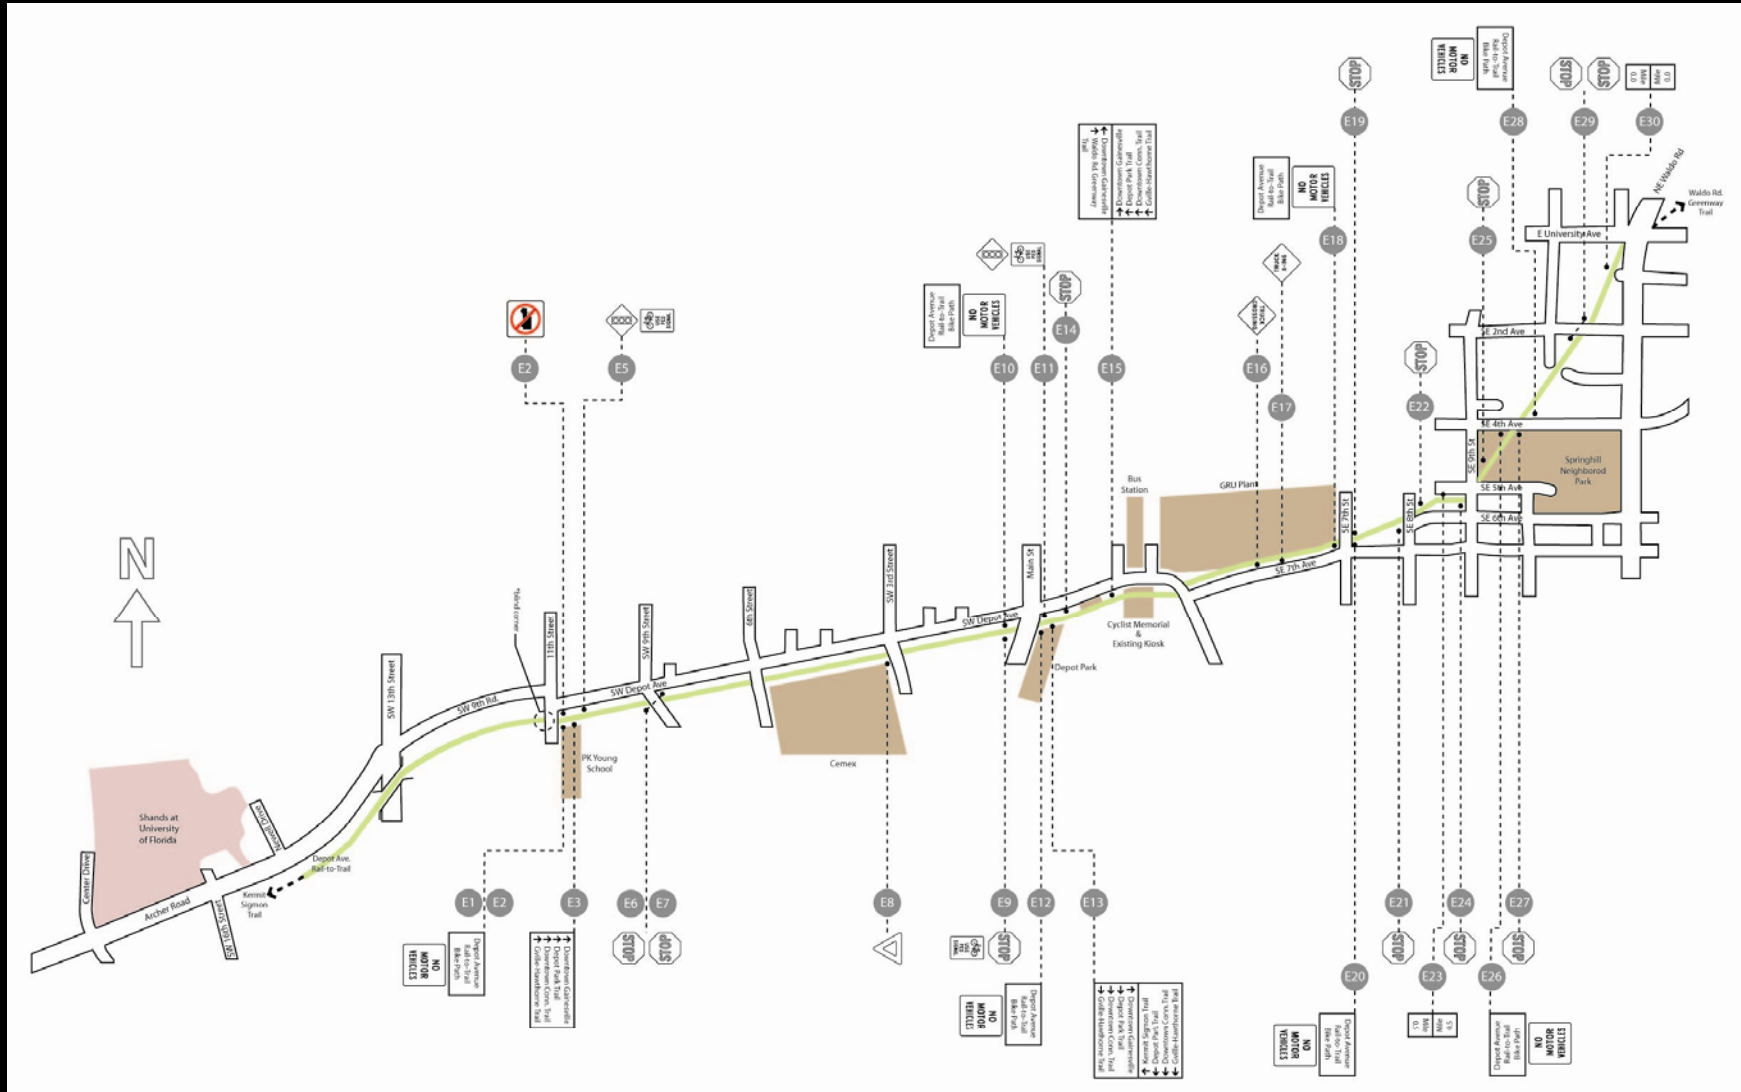

- Preparing construction documents for improvements along 1/4 mile section of trail
 - + Site furnishing locations
 - + Landscape design
 - + Sign design and locations

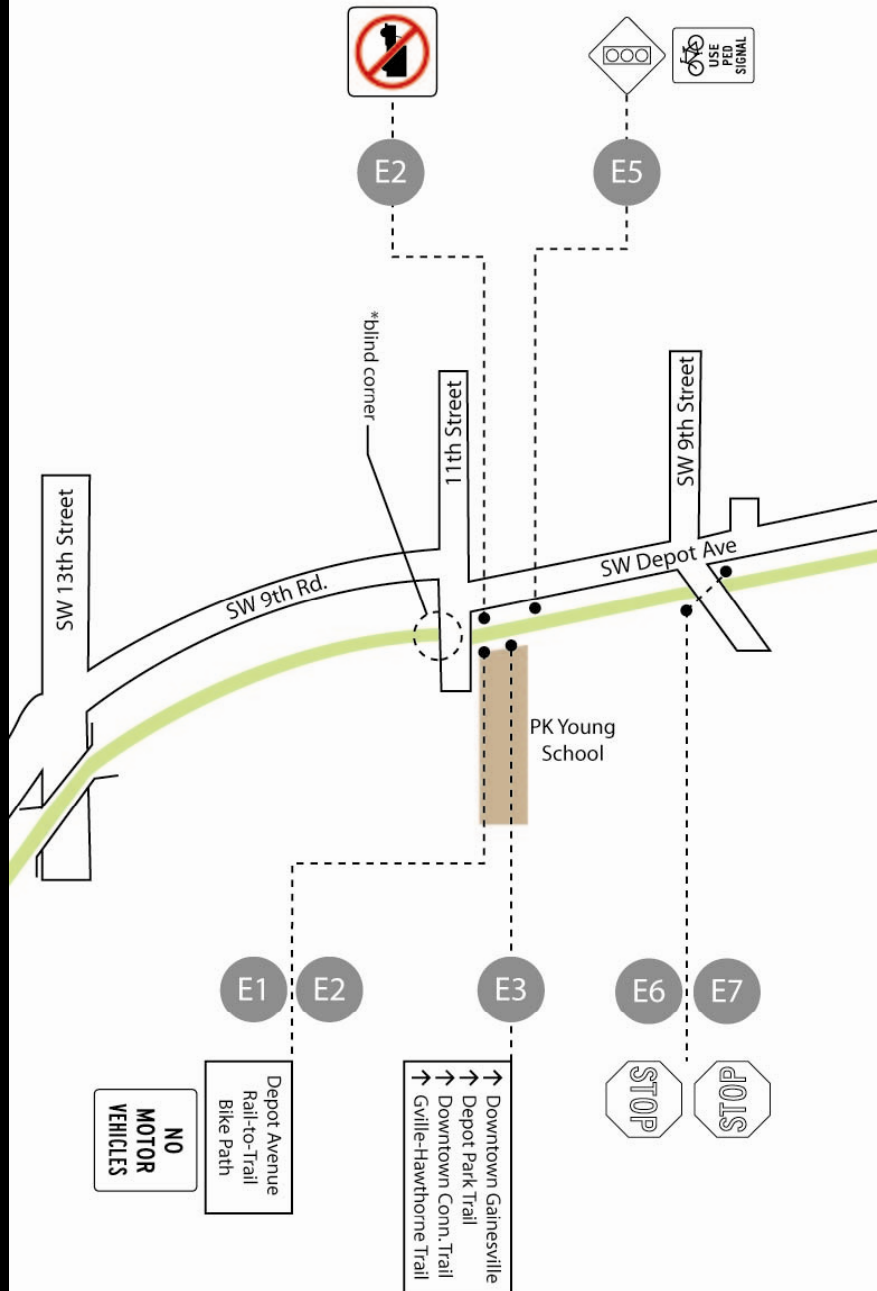

Trail Location

Analysis

Existing Sign Inventory

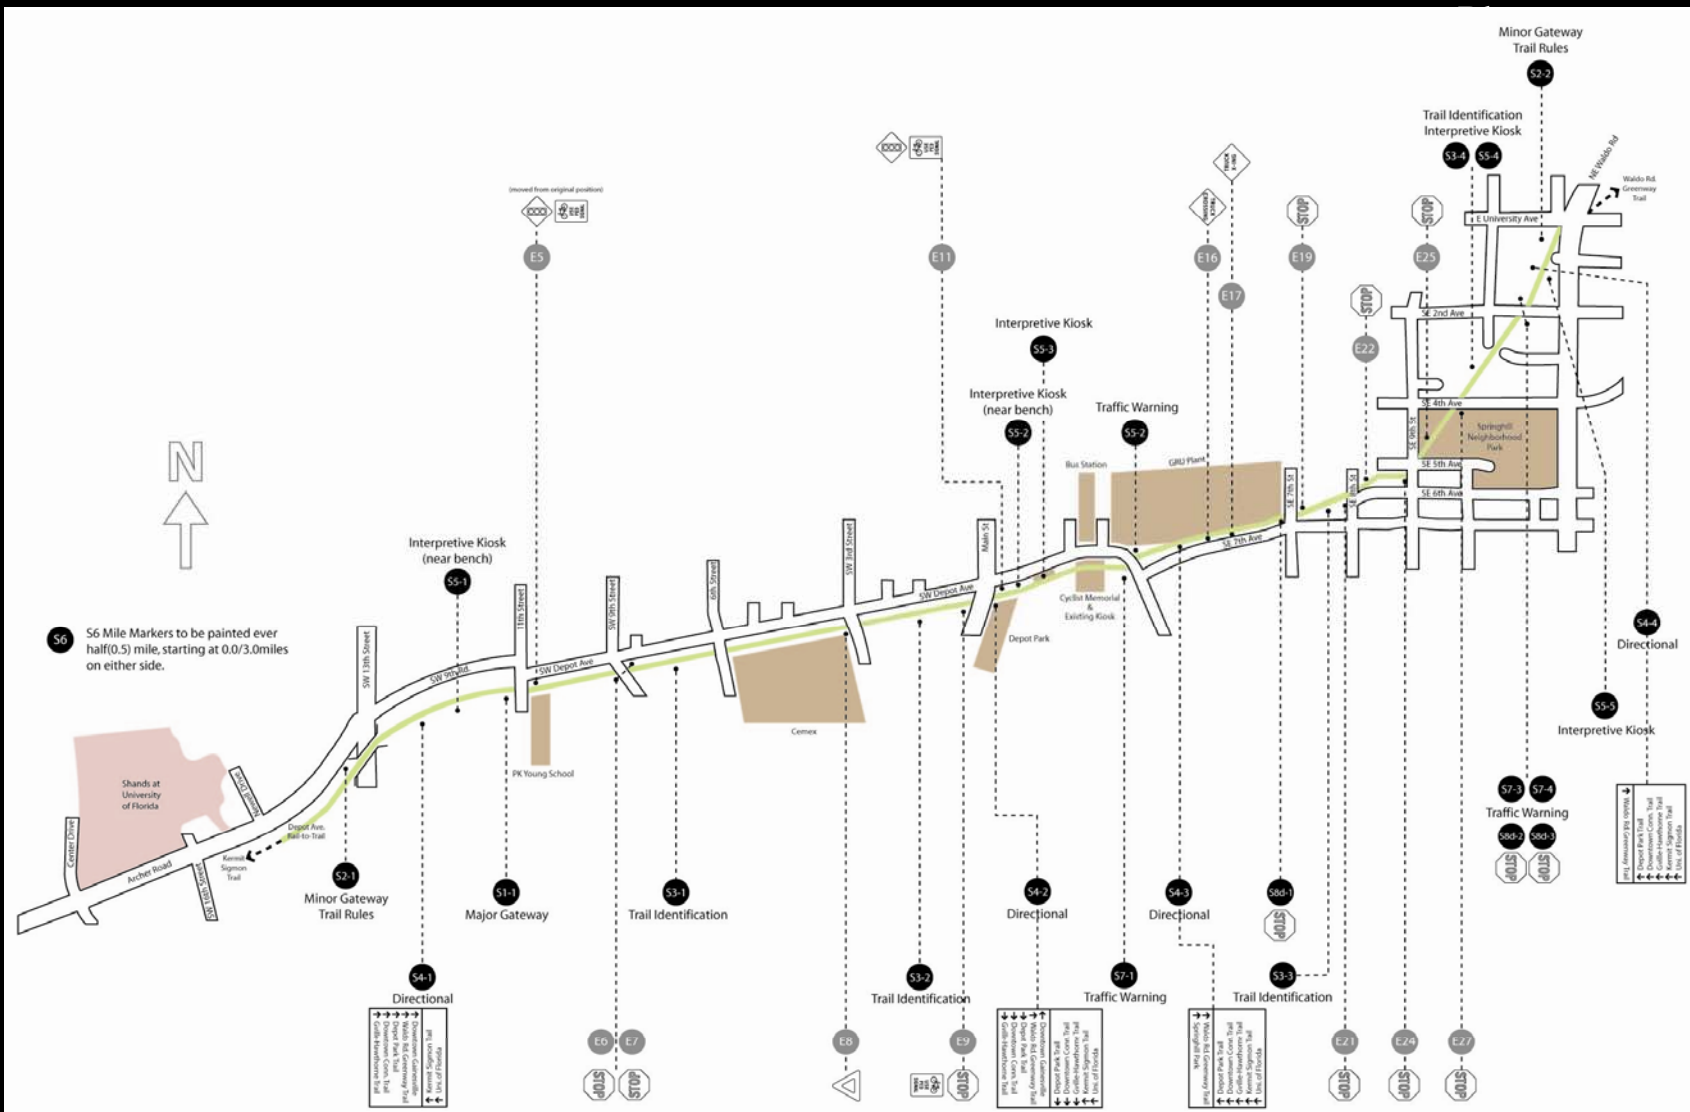

Analysis

Existing Sign Inventory

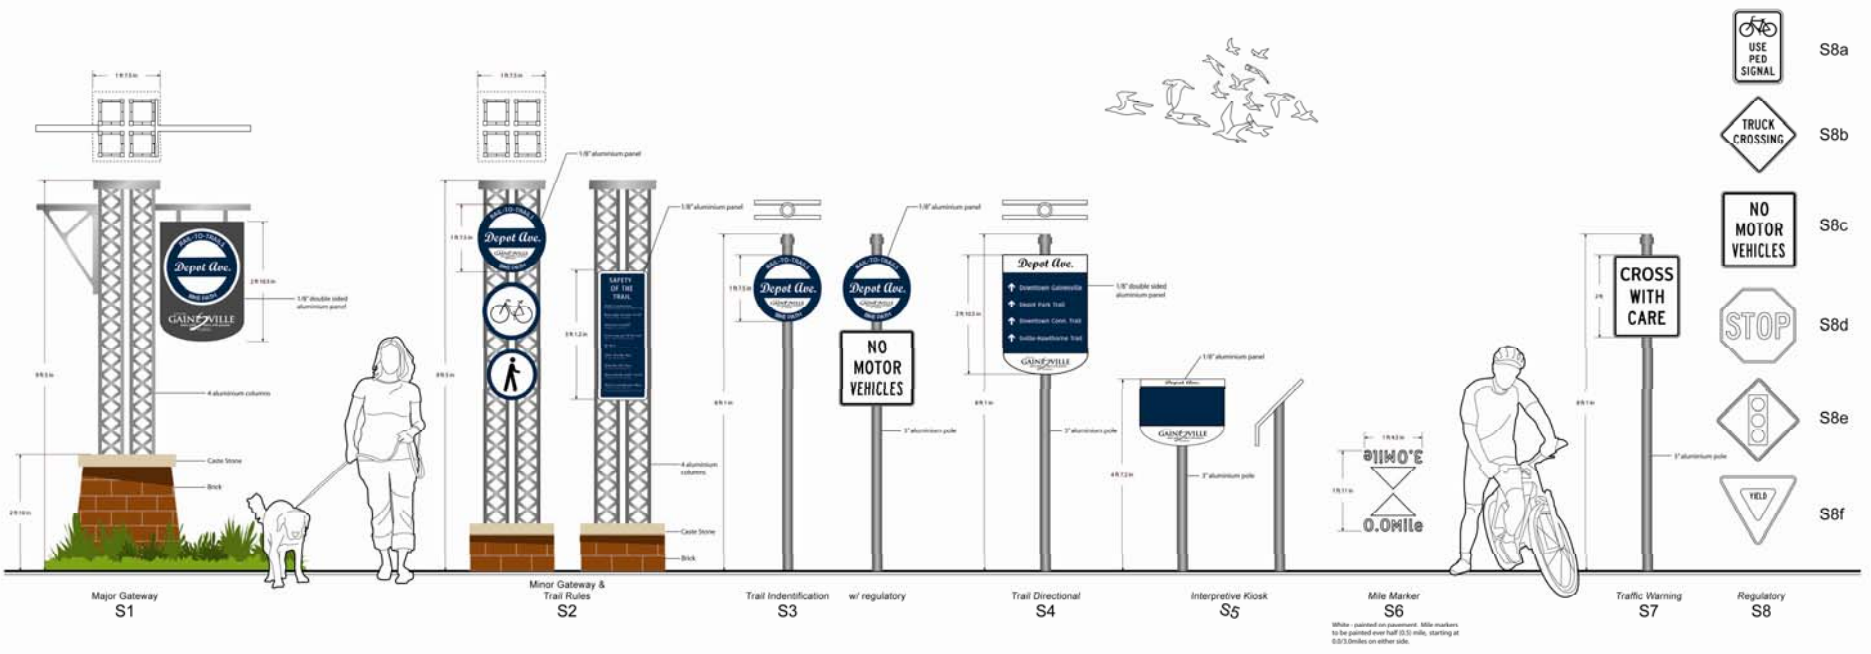

Key Observations:

1. Existing stop signs, yield signs and some regulatory function well and should be keep.
2. Signs need to be consolidated.
3. Needs more design cohesion.

Master-plan New Sign Location
