

Appendix A Comprehensive Plan GOPs

Exhibit A-1

Future Land Use Element

Goal 2 Redevelop areas within the city, as needed, in a manner that promotes quality of life, transportation choice, a healthy economy, and discourages sprawl.

Objective 2.1 Redevelopment should be encouraged to promote compact, vibrant urbanism, improve the condition of blighted areas, discourage urban sprawl, and foster compact development patterns that promote transportation choice.

Policy 4.1.1 Land Use Categories on the Future Land Use Map shall be defined as follows:

Office

The Office land use category identifies areas appropriate for office and residential uses. This category is intended to identify appropriate areas for professional and service uses, hospital and medical uses, compound and residential uses, and appropriate ancillary uses. Office designations shall be applied to compact office development. Residential uses in office districts shall be designed as new in-town development, mixed-use, live-work, compound use or shall accommodate existing residential development within the district. Densities shall not exceed 20 units per acre. Land development regulations shall determine the appropriate scale of uses; and the specific criteria for the siting of private schools and churches. Intensity will be controlled by adopting land development regulations that establish height limits of 5 stories or less, that require buildings to face the street, and modest build-to lines, instead of a maximum floor area ratio; however, height may be increased to a maximum of 8 stories by special use permit.

Policy 4.9.2 No legal, nonconforming use at the time this plan is adopted or amended shall be rendered illegal by this plan, except as provided in the land development regulations.
