## CITY PLAN BOARD STAFF REPORT

**PUBLIC HEARING DATE:** February 22, 2018

**ITEM NO:** 1.

**PROJECT NAME AND NUMBER:** PB-17-07 ZON – Thomas A. Daniel, Agent for Julie Ann Miller, Trustee. Rezone BUS (General Business) to BI (Business Industrial).

**APPLICATION TYPE:** Quasi-Judicial

**RECOMMENDATION:** Approve

**CITY PROJECT CONTACT:** Dean Mimms, AICP, Planning Consultant

**Figure 1: Location of Proposed Rezoning**

**APPLICATION INFORMATION:**

**Agent/Applicant:** Thomas A. Daniel, Agent for Julie Ann Miller, Trustee  
**Property Owner(s):** Julie Ann Miller, Trustee  
**Related Petition(s):** N/A  
**Legislative History:** N/A (3,000 sq. ft., 1-story building constructed in 1976)  
**Neighborhood Workshop:** November 6, 2017

**SITE INFORMATION:**

**Address:** 3520 NE Waldo Road  
**Parcel Number(s):** 08198-016-002  
**Acreage:** +/- 0.38 ac.  
**Existing Use(s):** Used Furniture Sales, Food Truck  
**Land Use Designation(s):** Commercial (C)  
**Zoning Designation(s):** General Business (BUS)  
**Overlay District(s):** Eastside CRA  
**Transportation Mobility Program Area (TMPA):** TMPA Zone A  
**Census Tract:** CT 4, Block Group 1, Census Block 1000  
**Water Management District:** St. Johns River Water Management District  
**Special Feature(s):** Former convenience store, gas pumps removed  
**Annexed:** 1961  
**Code Violations:** No open code violation cases (Source: City of Gainesville Codes Enforcement, 2/7/18)

**ADJACENT PROPERTY CHARACTERISTICS:**

	EXISTING USE(S)	LAND USE DESIGNATION(S)	ZONING DESIGNATION(S)
North	Tool & Machinery Rental	IND (Industrial)	I-1 (Limited Industrial)
South	Automotive Body & Paint Shop	IND (Industrial)	BI (Business Industrial)

<b>East</b>	<b>Waldo-Depot Rail Trail, Warehouse (UF)</b>	<b>PF (Public and Institutional Facilities)</b>	<b>PS (Public Services and Operations)</b>
<b>West</b>	<b>Automotive Sales (used) Gateway Autos</b>	<b>IND (Industrial)</b>	<b>BI (Business Industrial)</b>

**PURPOSE AND DESCRIPTION:**

The proposed rezoning from General Business (BUS) to BI (Business Industrial) will change a 0.38-acre enclave of BUS zoning to BI consistent with the surrounding area. The site is located on the southwest corner of the intersection of two major State arterials: NE 39th Avenue (S.R. 222) and NE Waldo Road (S.R. 24). The agent for the applicant stated that the surrounding property owners are contemplating combining their properties to create a better development opportunity. The site is diagonally across from the BI-zoned area at the northeast quadrant of this intersection that is the current site of Alachua County Agricultural Extension Office which, along with the Fairgrounds site to its east and undeveloped City of Gainesville/airport property to its north, has substantial redevelopment and economic development potential.

The subject property contains a 3,000 sq. ft., single-story building constructed in 1976. In recent decades it was used as a convenience store/gas station and is currently in a used furniture store. There is a permitted food truck on site.

**STAFF ANALYSIS AND RECOMMENDATION:**

**ANALYSIS**

**Basis for Recommendation**

The staff recommendation is based on the five following factors, which are discussed below:

- Conformance with the Comprehensive Plan;
- Conformance with the Land Development Code;
- Changed Conditions;
- Compatibility; and
- Impacts on Affordable Housing.

**1. Conformance with the Comprehensive Plan**

The proposed Business Industrial (BI) district zoning is an allowed zoning district under the existing Commercial (C) future land use. The proposed BI zoning is supportive of the City's objectives of encouraging infill development and redevelopment, and discouraging urban sprawl. The proposed rezoning is therefore consistent with Future Land Use Element, Objective 1.5, Goal 2, and Objective 2.1 of the Future Land Use Element. By facilitating potential redevelopment, the proposed rezoning is also consistent with Policy 2.3.2 of the Future Land Use Element.

**Objective 1.5** Discourage the proliferation of urban sprawl.

**GOAL 2** Redevelop areas within the City, as needed, in a manner that promotes quality of life, transportation choice, a healthy economy, and discourages sprawl.

**Objective 2.1** Redevelopment should be encouraged to promote compact, vibrant urbanism, improve the condition of blighted areas, discourage urban sprawl, and foster compact development patterns that promote transportation choice.

**Policy 2.3.2** The City shall assist with the implementation, as appropriate, of the Community Redevelopment Plan for the Eastside Community Redevelopment Area.

See Exhibit A-1 - Comprehensive Plan - Transportation Mobility Element GOPs, for other policies relevant to this proposed rezoning.

## 2. Conformance with the Land Development Code

The proposed Business Industrial (BI) zoning is an allowed zoning district under the existing Commercial (C) future land use category. See Exhibit B-3 - LDC Article IV, Sections 30-4.19 – 30-4.21) for regulations pertaining to this non-residential zoning district.

Any proposed redevelopment or new development will be required to meet all applicable Land Development Code requirements, including but not limited to those for wellfield protection (the property is within the Secondary Wellfield Protection Zone), landscaping, lighting, and noise regulation.

## 3. Changed Conditions

The gas station and convenience store that operated for several decades on this site closed in 2016 and the gas pumps were removed. According to the agent for the applicant (in an e-mail to Planning staff on February 7, 2018, surrounding owners [of BI-zoned property] are discussing combining parcels in order to increase future development opportunities at this general location (southwest corner of the intersection of NE 39<sup>th</sup> Avenue and Waldo Road).

## 4. Compatibility

The proposed Business Industrial (BI) zoning is compatible with the adjacent BI zoning to the south and west, with the I-1 (Limited Industrial) across NE 39<sup>th</sup> Avenue (State Road 222 to the north), and with the PS (Public Services and Operations) across Waldo Road (SR 24 to the east). BI and I-1 are Non-residential Districts (per Section 30-4.1 of the Land Development Code) that allow a broad range of uses, and PS is a Special District (per Section 30-4.1) that also allows a broad range of non-residential uses. Compatibility will be further assured by meeting Land Development Code requirements with respect to landscape buffers, building height limits, plus lighting and noise regulations.

The subject property is not subject to the Development Compatibility provisions of Section. 30-4.8 (see Exhibit B-4 - LDC Article IV, Sec. 4.8. Development Compatibility) with respect to nearby single-family zoning (e.g., maximum building heights of 3 stories or 36 feet within 100 feet of single-family zoning), because the nearest single-family zoned property is 794 feet to the west.

## 5. Impacts on Affordable Housing

The proposed rezoning from General Business (BUS) to Business Industrial (BI) zoning will have no impact on the supply of potential affordable housing because neither BUS nor BI is a residential or mixed-use zoning district.

### Transportation

There are no major transportation issues associated with this proposed zoning change for this developed, 0.38-acre property that is located within Zone A of the Gainesville Transportation Mobility Program Area (TMPA). The proposed rezoning from BUS to BI will have at most a *de minimis* impact on potential trip generation because of the substantial similarity (identical in most cases) of permitted uses in each of these zoning districts (See Section 30-4.19. Permitted Uses, in Exhibit B-3 - LDC Article IV, Sections 30-4.19. – 30-4.21.)

The subject property fronts NE 39<sup>th</sup> Avenue (S.R. 222), which a 4-lane, arterial highway that is part of State of Florida's Strategic Intermodal System (SIS), and NE Waldo Road (S.R. 24), which is also a 4-lane arterial, State highway. Both roads are operating at LOS "C" and have an adopted LOS (Level of Service) of "E" (source: Metropolitan Transportation Planning Organization for the Gainesville Urbanized Area – Multimodal Level of Service Report, Year 2015, Average Annual Daily Traffic, September 30, 2016), so they are operating at an acceptable level of service. Northeast 39<sup>th</sup> Avenue has bike lanes and sidewalks on both sides of the road. Northeast Waldo Road has a sidewalk on the west side of the road, and a bicycle/pedestrian path (Waldo-Depot Rail Trail) east of the roadway.

The property is within one-quarter mile of the property lines of an existing transit hub (Airport/Plan East Gainesville Employment Center (See Exhibit B-5 - Map: Existing Transit Hubs & Transit-Supportive Areas). Because of this proximity, Policy 10.2.5 of the Transportation Mobility Element (see Exhibit A-1 - Comprehensive Plan - Transportation Mobility Element GOPs) requires the City to reduce by 25% the net, new average daily trip generation for any redevelopment project or any project that expands or converts a building to a new use.

Transit service along Northeast 39<sup>th</sup> Avenue is provided every 60 minutes, Monday-Friday (no weekend service) by RTS Route 39 (Santa Fe to Airport) and RTS Route 26 (Rosa Parks Transfer Station to Airport). Transit service is provided every 65 minutes, 7 days per week by RTS Route 25 (UF Commuter Lot to Airport), which runs from the south along Northeast Waldo Road then east along Northeast 39<sup>th</sup> Avenue to the Airport (then reverses direction in its return to the Rosa Parks Transfer Station).

**Environmental Impacts and Constraints**

In a memorandum dated January 17, 2018, City Environmental Coordinator Mark Brown, PWS, CPSS provided the following assessment:

The subject petition includes a proposed amendment of the City's zoning for a 0.37-acre area associated with a single parcel (Parcel #: 08198-016-002) located at 3520 NE Waldo Road. The property has been previously developed and utilized as a convenience store that also included a fuel station with two pumps. The building structure is currently present, however the business closed and pumps removed in 2016. The petition proposes a zoning change from General Business (BUS) to Business Industrial (BI).

The proposed activities have been reviewed for considerations relating to the presence of environmental resources regulated by the City's Land Development Code (LDC) Division 3 - *Natural and Archaeological Resources* and Division 4 - *Surface Waters and Wetlands*.

The subject parcel doesn't possess any regulated wetlands, however a small stormwater basin is located in the southwest corner of the property. The basin treats stormwater draining from the existing pavement of the facility and periodically contains surface waters. However, surface waters within constructed basins qualify as exempt from regulatory criteria per the LDC Division 4, Section 30-8.18. 8. There are no evident or documented natural features or archaeological artifacts regulated under criteria stipulated in Division 3.

In e-mail dated February 5, 2018 (see Exhibit B-6 - E-mail from County EPD re: Hazardous Waste Monitoring), Gus Olmos, P.E., Water Resources Manager, Alachua County Environmental Protection Department, noted that the subject property is an active petroleum cleanup facility (Monitored Natural Attenuation, FDEP Facility ID# 018732807) and provided the FDEP (FL Department of Environmental Protection) July 17, 2017 Quarterly Report for it. If no groundwater contamination greater the GCTL (Groundwater Contamination Level) is indicated after four quarters of sampling, then the required remediation will be deemed complete, and the on-site monitoring wells can be properly abandoned.

**RECOMMENDATION**

Approve Petition PB-17-07 ZON

**DRAFT MOTION FOR CONSIDERATION**

Approve Petition PB-17-07 ZON

**BACKGROUND:**

This approximately 0.38-acre, property located at the southwest corner of a major intersection (Northeast 39<sup>th</sup> Avenue and Northeast Waldo Road) is the site a 3,000 sq. ft., single-story cement block building that was built in 1976. The building and associated gas pumps was operated in recent decades as convenience store/gas station until it closed and the gas pumps were removed in 2016. It is currently used for used furniture sales and is the site of a permitted food truck.

The agent for the applicant for this rezoning petition met with staff in 2017 and expressed interest rezoning the property from General Business (BUS) to Business Industrial (BI). The agent/applicant chose to wait until after adoption of the updated Land Development Code (LDC, adopted August 2017 and effective September 2017) and related Comprehensive Plan amendments. The updated LDC and amended Comprehensive Plan, unlike their immediate predecessors, did not require amendment of the property's Commercial future land use category to the Business Industrial category, because BI is now an allowable zoning district for the Commercial land use category.

Regarding the proposed rezoning to BI, in an e-mail dated February 7, 2018, Thomas A. Daniel, Attorney at Law, and agent for the applicant, stated that:

In order to plan for future development the surrounding owners are discussing combining parcels in order to make a larger more attractive development opportunity for this gateway corner. This is the only parcel that is zoned different than the other adjoining parcels all of which have the BI zoning. Having this parcel zoned the same as all adjoining parcels is the goal for future development. The owner of the parcel would also like the less restrictive zoning afforded by the BI zoning category which will open up future leasing/development opportunities.

**POST-APPROVAL REQUIREMENTS:**

There are no post-approval requirements for this proposed zoning change.

Any future development plans and building permits will be reviewed in accordance with all applicable Land Development Code and other applicable regulations.

**LIST OF APPENDICES:**

**Appendix A Comprehensive Plan Goals, Objectives and Policies**

Exhibit A-1 Comprehensive Plan - Transportation Mobility Element GOPs

**Appendix B Supplemental Documents**

Exhibit B-1 Aerial Photograph  
Exhibit B-2 Map: Existing Zoning  
Exhibit B-3 LDC Article IV, Sections 30-4.19. – 30-4.21.  
Exhibit B-4 LDC Article IV, Sec. 4.8. Development Compatibility  
Exhibit B-5 Map: Existing Transit Hubs & Transit-Supportive Areas  
Exhibit B-6 E-mail from County EPD re: Hazardous Waste Monitoring

**Appendix C Application**

Exhibit C-1 Application

**Appendix A Comprehensive Plan Goals, Objectives and Policies**

**Exhibit A-1 Comprehensive Plan - Transportation Mobility Element GOPs**

**GOAL 10**

IMPLEMENT A TRANSPORTATION MOBILITY PROGRAM THAT PROMOTES AND ENHANCES:

- A. URBAN REDEVELOPMENT;
- B. INFILL DEVELOPMENT;
- C. A VARIETY OF TRANSPORTATION CHOICES AND OPPORTUNITIES INCLUDING AUTOMOTIVE, PEDESTRIAN, BICYCLE AND TRANSIT;
- D. THE CITY'S ECONOMIC VIABILITY;
- E. DESIRABLE URBAN DESIGN AND FORM;
- F. A MIX OF RESIDENTIAL AND NON-RESIDENTIAL USES;
- G. STREETSCAPING/LANDSCAPING OF ROADWAYS WITHIN THE CITY; AND
- H. PEDESTRIAN AND BICYCLIST COMFORT, SAFETY AND CONVENIENCE.

**Policy 10.1.3** Zone A shall promote redevelopment and infill in the eastern portion of the City and the area near the University of Florida. Except as shown in Policy 10.1.4 and Policy 10.1.14, funding for multi-modal transportation in Zone A shall be provided to the maximum extent feasible by the City, Community Redevelopment Agency, federal or state governments, and other outside sources such as grant funds.

**Policy 10.1.4** For any development or redevelopment within Zone A, the developer shall provide the following transportation mobility requirements. The developer shall provide any transportation modifications that are site related and required for operational or safety reasons, such as, but not limited to, new turn lanes into the development, driveway modifications, or new traffic signals, and such operational and safety modifications shall be unrelated to the Transportation Mobility Program requirements.

- a. Sidewalk connections from the development to existing and planned public sidewalk along the development frontage;
- b. Cross-access connections/easements or joint driveways, where available and economically feasible;
- c. Deeding of land or conveyance of required easements along the property frontage to the City, as needed, for the construction of public sidewalks, bus turn-out facilities, and/or transit shelters. Such deeding or conveyance of required easements, or a portion of same, shall not be required if it would render the property unusable for development. A Transit Facility License Agreement between the property owner and the City for the placement of a

- bus shelter and related facilities on private property may be used in lieu of deeding of land or conveyance of easements. The License Agreement term shall be for a minimum of 10 years;
- d. Closure of existing excessive, duplicative, or unsafe curb cuts or narrowing of overly wide curb cuts at the development site, as defined in the Access Management portion of the Land Development Code; and
  - e. Safe and convenient on-site pedestrian circulation, such as sidewalks and crosswalks connecting buildings and parking areas at the development site.

**Policy 10.2.5**

In order to encourage the redevelopment of properties within the TMPA, reduce or prevent blight, and encourage development in close proximity to transit, the following redevelopment trip credits shall apply to projects that are located within ¼ mile of the property lines of an existing transit hub or projects that are located in transit-supportive areas (as shown in the Existing Transit Hubs and Transit-Supportive Areas Map adopted in the Transportation Mobility Element) and are within ¼ mile of an existing transit route. The City shall reduce by 25% the net, new average daily trip generation for any redevelopment project or any project that expands or converts a building to a new use. The City shall reduce by 40% the net, new average daily trip generation for any mixed-use project that includes both a residential and non-residential component where residential dwelling units equal at least 10% of the floor area of commercial/office uses.

**LEGEND:**

1 = Lots that existed on November 13, 1991, as recorded in the city and that are less than or equal to 0.5 acres in size are exempt from minimum density requirements.

2 = Developments of 50,000 sq. ft. or more of gross leasable area shall be located along arterials or collectors, as defined in the official roadway map.

- 3 = Where the yard abuts and is used for access to a railroad siding, the minimum setback shall be zero feet.
- 4 = Where the rear or side yard abuts U1 or single-family residential zoning or a historic district, Section 30-4.8 development compatibility standards shall apply.

**Section 4.21. Design Standards.**

**A. Parking.**

- 1. Motor vehicle parking is required in accordance with Article VII. All motor vehicle parking except a double-loaded row of parking shall be located in the rear and/or interior side of the building, unless such a location is prevented by topography, stormwater retention or significant trees, as determined by the appropriate reviewing board, City Manager or designee. In no case shall more than 50% of the parking be located between the front facade and the primary abutting street, unless modified by the appropriate reviewing board, City Manager or designee. However, driveway entrances and exits to parking areas shall be allowed on the front side of the building. There shall be no limit on the number of parking spaces in parking structures.
- 2. Bicycle parking spaces shall be installed as required by Article VII. Such parking may encroach into the public right-of-way or beyond the setback line provided that at least 5 feet of unobstructed sidewalk width and any required tree strip is retained. Bicycle parking requirements may be waived if public bicycle parking exists to serve the use.

**B. Sidewalks.**

- 1. All developments, unless provided otherwise in this chapter, shall provide sidewalks along all street frontage. All developments shall provide pedestrian connections from the public sidewalk to the principal building. Entrance sidewalks shall be a minimum of 5 feet of clear width.
- 2. *Minimum sidewalk widths.*

<b>Multi-Family Residential/Industrial</b>	<b>Commercial/Institutional/Office/Mixed-Use</b>
7 feet	8 feet

The minimum unobstructed width shall be 2 feet less than the required sidewalk width, as long as at least 5 feet of unobstructed width is retained. At transit stops, the minimum width is 8 feet of unobstructed width. In areas where a sidewalk pattern as to materials and width has been adopted, the appropriate reviewing board, City Manager or designee may allow the pattern to be continued by each new development. If the sidewalks installed are less than the minimums provided above, sufficient space shall be provided in order for these minimum sidewalk widths to be added in the future.

C. *Building orientation.* The main entrance of buildings or units shall be located on the first floor on the more primary street.

*Glazing.* Building walls facing the more primary street shall have non-reflective, transparent windows or glazed area covering at least 25% of their surface at pedestrian level (between 3 feet and 8 feet above grade) on the first floor. Operable transparent entrance doors may be included in the calculation of total facade surface area.

*Mechanical equipment.* All mechanical equipment shall be placed on the roof, in the rear or side of the building, and shall be screened with parapets or other types of visual screening.

Exhibit B-4 LDC Article IV, Sec. 4.8. Development Compatibility

**Development Compatibility.**

*Setbacks.*

1. Whenever a zero foot setback is allowed in a zoning district, it may only be used if the abutting property is within a district that allows the same setback.
  2. The minimum required side and rear setback for nonresidential and multi-family buildings located on property abutting a single-family zoning district or the U1 district shall be the same as the setback required on the adjacent residential lot or as determined by the required buffer, whichever is greater.
- B. *Limitations on uses.* All industrial or commercial activity and uses, except storage of equipment and parking, shall be conducted within completely enclosed buildings when located within 300 feet of any property that is in a single-family zoning district or the U1 district.
- C. *Building height and massing.*

Within 100' of the Following Districts:	Max Building Height	
Single-Family Zoning	3 stories and 36' <ul style="list-style-type: none"> <li>• Measured to the roof peak with a hip, gable, mansard or similar roof where the 3<sup>rd</sup> floor is above the roof line, or</li> <li>• Measured to the top plate of the 3<sup>rd</sup> floor with a flat or similar roof.</li> </ul>	Building facades shall not exceed 60' unless a substantial volume break is provided, such as a volume recess with a minimum 10' depth.
U1		
Historic District (except University Heights-South)		
University Heights-South Historic District	4 stories and 60' <ul style="list-style-type: none"> <li>• Measured to the top plate of the 4<sup>th</sup> floor.</li> </ul>	
Within the Following Districts:	Max Building Height	
Pleasant Street Historic District	3 stories and 36'	
Power District	6 stories, but 3 stories when adjacent to residential zoning, with a step-back of 15' per additional building story up to max permitted.

Dean – Here you go:

**NATURAL ATTENUATION MONITORING QUARTERLY  
REPORT (1ST EVENT- JUNE 6, 2017)**

**Circle K #2721107  
3520 NE Waldo Road  
Gainesville, Alachua County, Florida  
FDEP Facility ID # 018732807  
FDEP PO# B09973  
CB&I Project #155631  
July 17, 2017**

**1.2 Site History and Description**

The site formerly operated as a retail gasoline outlet and convenience store. The underground storage tanks (USTs) and dispensers were located to the southeast of the site building. The site possessed three USTs containing regular, plus, and supreme grades of gasoline. The two dispensers were located under a canopy, east of the USTs. The three tanks, each with a volume of 8,000 gallons, were of double wall fiberglass clad steel construction with over fill protection. These tanks numbers 3, 4, 5 were placed in service on January 1, 1989 and removed from the site on December 13 and 14, 2016. Tanks 1 and 2 also had a capacity of 8,000 gallons, and were removed from service on January 31, 1989. These tanks stored unleaded and leaded gasoline, respectively. Contamination from unleaded gasoline was indicated during a compliance inspection in on January 31, 1990. The release was related to one of the submersible pumps, and a discharge notification was submitted on February 19, 1989. According to available records no cleanup was required for this discharge, however; an eligibility ruling to this effect was not found in the files. A second discharge was reported on December 31, 1998, when hydrocarbon vapors were detected in soil samples collected in the area of the tank pit. A site inspection was conducted on January 21, 1999, and this discharge was deemed by FDEP to be eligible for cleanup under the Petroleum Liability and Restoration Program on June 23, 1999. During tank removal activities on December 13 and 14, 2016, TERRA-COM Environmental Consulting, Inc. (TERRA-COM) discovered contaminated soil and groundwater within the tank excavation area. TERRA-COM affiliated the contamination to the historical discharge dated December 30, 1998. The current site score is 10.

**5.0 Conclusions and Recommendations**

Analytical analysis indicated contaminant concentrations below the GCTL thresholds for groundwater samples collected from MW-1R during the June 6, 2017 sampling event. Analysis of groundwater collected on June 6, 2017 from monitoring well MW-1R indicated dissolved hydrocarbon concentrations below GCTLs for all analytes evaluated. CB&I

recommends continued NAM sampling on a quarterly basis to assess the contamination status. If analysis of groundwater does not indicate contamination greater than GCTLs at the end of four consecutive quarterly NAM sampling events, the associated discharge should be considered for No Further Action (NFA), and all monitoring wells located onsite be properly abandoned.

Let me know if you need anything else.

**Subject:** Haz Waste Issues re: 3520 NW Waldo RD?

Hi Gus,

Question: Are there any hazardous waste issues associated with this former gas station site that is applying for rezoning (from BUS to BI, which are similar districts)? 3520 NE Waldo Road, Parcel No. 00198-016-002. If so, if you could send me an e-mail noting them, I would appreciate it and can add it to my staff report for this simple rezoning request.

No development plan is proposed, just rezoning of approximately 0.37 acres. Please see attached App PB-17-07 ZON (it is not very long).

Requested designation:	Requested designation: BI	

INFORMATION ON PROPERTY
1. Street address: 3520 NE Waldo Rd, Gainesville, FL 32609
2. Map no(s): 3555
3. Tax parcel no(s): 08198-016-002
4. Size of property: .37 acre(s)
<i>All requests for a land use or zoning change for property of less than 3 acres are encouraged to submit a market analysis or assessment, at a minimum, justifying the need for the use and the population to be served. All proposals for property of 3 acres or more must be accompanied by a market analysis report.</i>

**Certified Cashier's Receipt:**  
Testamentary Trust created under the Will of Hiram L. Godwin.

**5. Legal description (attach as separate document, using the following guidelines):**

- a. Submit on 8 ½ x 11 in. sheet of paper, separate from any other information.
- b. May not be included as part of a Purchase Agreement, Contract for Sale, Lease Agreement, Transfer of Title, Warranty Deed, Notice of Ad Valorem Taxes, Print-outs from Property Appraiser's Office, etc.
- c. Must correctly describe the property being submitted for the petition.
- d. Must fully describe directions, distances and angles. Examples are: North 20 deg. West 340 feet (not abbreviated as N 20 deg. W 340'); Right-of-Way (not abbreviated as R/W); Plat Book (not abbreviated as PB); Official Records Book 1, page 32 (not abbreviated as OR 1/32); Section 1, Township 9 South, Range 20 East (not abbreviated as S1-T9S-R20E).

**6. INFORMATION CONCERNING ALL REQUESTS FOR LAND USE AND/OR ZONING CHANGES (NOTE: All development associated with rezonings and/or land use changes must meet adopted level of service standards and is subject to applicable concurrency requirements.)**

A. What are the existing surrounding land uses?

North General Industrial

South Business Industrial

East Public Service and Operations

West Business Industrial

B. Are there other properties or vacant buildings within ½ mile of the site that have the proper land use and/or zoning for your intended use of this site?

NO

YES \_\_\_\_\_ If yes, please explain why the other properties cannot accommodate the proposed use?

- C. If the request involves nonresidential development adjacent to existing or future residential, what are the impacts of the proposed use of the property on the following:

Residential streets N/A

Noise and lighting

- D. Will the proposed use of the property be impacted by any creeks, lakes, wetlands, native vegetation, greenways, floodplains, or other environmental factors or by property adjacent to the subject property?

NO X YES \_\_\_\_\_ (If yes, please explain below)

- E. Does this request involve either or both of the following?

- a. Property in a historic district or property containing historic structures?

NO X YES \_\_\_\_\_

- b. Property with archaeological resources deemed significant by the State?

NO X YES \_\_\_\_\_

- F. Which of the following best describes the type of development pattern your development will promote? (please explain the impact of the proposed change on the community):

Redevelopment x  
Activity Center \_\_\_\_\_  
Strip Commercial \_\_\_\_\_

Urban Infill x  
Urban Fringe \_\_\_\_\_  
Traditional Neighborhood \_\_\_\_\_

Explanation of how the proposed development will contribute to the community.

This change will result in uniform zoning (BI) for the entire corner and allow expansion of operations

G. What are the potential long-term economic benefits (wages, jobs & tax base)?  
increases in jobs and sales

H. What impact will the proposed change have on level of service standards?

Roadways property is presently serviced by major roads on two sides (Waldo Road and N.E. 39th Ave) zoning change will not impact

Recreation N/A

Water and Wastewater services exist at the site :  
zoning change will not impact

Solid Waste service exist at the site zoning change will not impact

Mass Transit service exist at the site zoning change will not impact

I. Is the location of the proposed site accessible by transit, bikeways or pedestrian facilities?

NO

YES  (please explain)

The property is located at the corner of Waldo Road and N.E. 39th Avenue and roads are marked for bikeways; streets have sidewalks

**PERSONAL REPRESENTATIVE'S RELEASE  
AND CERTIFICATE OF DISTRIBUTION OF REAL  
PROPERTY**

**(single individual personal representative)**

The undersigned, DORIS W. GODWIN whose post office address is 8138 Green Glade Road, Jacksonville, Florida 32256, as personal representative of the estate of HIRAM L. GODWIN a/k/a H. L. GODWIN, deceased, hereby acknowledges that title to the real property located in Alachua County, Florida, owned by the decedent at the time of death, described as follows:

2558914

2 PGS

Begin at the most Northerly corner of Lot 14 of Seaboard Industrial Park as per a plat recorded in Plat Book "G", page 14 of the Public Records of Alachua County, Florida, being a point on the Southerly R/W of State Road No. S-232, (100' R/W), thence run S 58°58' E, along said R/W 93 feet to the P.C. of a curve having a central angle of 90°, a radius of 30 feet and being concave to a Westerly direction, thence run southeasterly along the arc of said R/W curve 47.124 feet to the Point of Tangency of said curve; then run S 31°02' W, along the Westerly R/W of State Road No. 24 a distance of 80 feet; thence run N 58°58' W, 172.28 feet; thence run N 55°10' E, 120.24 feet to the Point of Beginning. All being and lying in Lot 14 of Seaboard Industrial Park in Section 27, Township 9 South, Range 20 East, Alachua County, Florida.

LESS

That portion of property described in O.R. Book 1663, Page 1952, public records of Alachua County, Florida.

Property Appraiser's Parcel Identification Number 08198-016-002 (the "Property"), vested in DORIS W. GODWIN, LAURIE J. LESLIE and JULIE ANN MILLER, as Trustees under the Testamentary Trust created under the Will of Hiram L. Godwin, deceased, whose post office address is 8138 Green Glade Road, Jacksonville, Florida 32256 (the "Beneficiaries") by operation of law as of the date of the decedent's death pursuant to Florida law as will more fully appear from the proceedings in the Circuit Court for DUVAL County, Florida, Probate Division, in File No. 16-2009-CP-1779, subject to the rights of the personal representative under Sections 733.607 and 733.608 of the Florida Probate Code to:

1. take possession or control of the Property;
2. use, sell, encumber or otherwise exercise control over the Property:
  - a. for the payment of devises, family allowance, elective share, estate and inheritance taxes, claims, charges, and expenses of the administration and obligations of the decedent's estate;
  - b. to enforce contribution and equalize advancement;
  - c. for distribution.

Having determined that the Property is not needed for any of the foregoing purposes, except distribution, and that the Property should be released and distributed to the Beneficiaries, the personal representative hereby releases the Property from all rights and powers of the personal representative and acknowledges that the Property is vested in DORIS W. GODWIN, LAURIE J. LESLIE and JULIE ANN MILLER free of all rights of the personal representative.

IN WITNESS WHEREOF, the undersigned, as personal representative of the estate of the decedent, has executed this instrument on February 23, 2010.  
Executed in the presence of:

#### NOTICE OF NEIGHBORHOOD WORKSHOP

A neighborhood workshop will be held to discuss a re-zoning to BI (Business industrial district) on .37 acres located at 3520 NE Waldo Road, Gainesville, FL 32609. This is not a public hearing. The purpose of the meeting is to inform neighboring property owners of the nature of the proposal and to seek their comments.

Date: Monday November 6, 2017

Time: 7 p.m.

Place: 3520 N. E. Waldo Road, Gainesville, FL 32609

Contact: Thomas Daniel, agent for owners at 352-378-8438  
623 N. Main Street, Gainesville, FL 32601

Thomas Daniel, agent for owner will be holding a workshop to discuss the request to re-zone a .37 acre parcel to BI (Business industrial district). Some of the uses permitted in this district include corporate offices, day care centers, eating places, food trucks, sales offices and retail trade. Please see the complete list of permitted uses attached. The purpose of the workshop is to inform neighboring property owners about the nature of the proposal and to seek comments. We look forward to seeing you there.

Sec. 30-67.1. - Business industrial district (BI).

(a)

Purpose. The BI district is established for the purpose of providing sufficient space in appropriate locations physically suitable for the development of certain office, business and industrial uses in a combined setting. This district will facilitate the development of a business park that will cater to a variety of uses that support and complement each other and reduce external trips for goods and services. This district supports enterprises engaging in light manufacturing, processing or fabrication of products and machinery, research and development operations, business retail, medical uses and wholesale or storage distribution concerns. This district contains uses which generally are not objectionable because of noise, heavy truck traffic or fumes, or uses that can be adequately regulated for mitigation of nuisances by performance standards.

(b)

Objectives. The provisions of this district are intended to:

(i)

Provide a business/employment center that allows a variety of uses where employees have access to goods and services without having to leave the business park environment;

(2)

Accommodate enterprises with functions requiring access to transportation services by providing them with locations that are in close proximity to necessary transportation facilities such as major thoroughfares, railroads or air terminals for the reception and distribution of goods or services;

(3)

Encourage business park development in appropriate locations throughout the community where public facilities and services exist or are planned.

(4)

Allow a mix of uses that are compatible with airport operations in appropriate areas near the Gainesville Regional Airport;

(5)

Encourage such future development to occur on vacant land where the natural characteristics of such land are suitable for this type of development; and

(6)

Encourage the infill and/or redevelopment of existing areas that would benefit from the opportunity to combine business and industrial uses.

(c)

Permitted uses.

(1)

Uses by right.

(d)

Dimensional requirements. All principal and accessory structures shall be located and constructed in accordance with the following requirements:

(1)

Required yard setbacks:

a.

Front setback from an arterial street or collector street: 25 feet minimum, 60 feet maximum.

b.

Front setback from roads internal to the BI district: zero feet minimum, 20 feet maximum.

c.

Side, interior: 10 feet.

Except where the side yard abuts property which is in a residential district or which is shown for residential use on the future land use map of the comprehensive plan: 50 feet.

d.

Side, street: 20 feet.

e.

Rear: 20 feet.

Except where the rear yard abuts property which is in a residential district or which is shown for residential use on the future land use map of the comprehensive plan: 50 feet.

f.

Maximum building height:

When not located within an airport zone of influence: 5 stories

When located within an airport zone of influence: in accordance with the Airport Hazard Zoning Regulations

g.

Maximum Floor Area Ratio: 4.0.

h.

Maximum lot coverage: 80 percent

(2)

Within 300 feet of any property which is in a residential district or which is shown for residential use on the future land use map of the comprehensive plan, all activity and uses, except storage of equipment and parking, shall be conducted within completely enclosed buildings.

(e)

Additional requirements.

(1)

General conditions. Master planned (phased) developments and subdivisions of 3½ acre or larger shall meet the following standards:

a.

Perimeter landscaping shall be provided averaging 25 feet in width, but not less than 15 feet in width at any given point. Such landscaped area shall be developed to attain opacity of 75 percent within three years. The design of such landscaped area may include berms, decorative masonry and shrubs; however, at a minimum shade trees from the Gainesville Tree List shall be planted approximately every 50 feet. At least 50 percent of the landscaped area must be devoted to living plant materials, and the stormwater management, drainage and parking uses shall not encroach upon the landscaped area. Heritage and Champion trees preserved on site may be used to meet this requirement with the approval of the appropriate reviewing board and if the intent of this provision is being met.

b.

The development shall be designed to provide safe and convenient access from public transit routes, sidewalks and bikeways to uses within the development. Sidewalks are required for both sides of internal streets (public or private) and external public streets abutting the development.

c.

Service areas and mechanical equipment shall be sited so as to minimize visibility from the perimeter of the development and shall be designed and situated so as to minimize impacts on adjacent properties.

d.

Access shall be designed, insofar as possible, to promote shared use of driveways between adjacent lots and to local streets.

e.

Stormwater management systems shall be designed to maximize an integrated design among the various lots or tracts within the development. The aesthetic treatment of retention/detention facilities through the use of contour, landscaping and the incorporation of water features shall be encouraged.

(2)

Standards for manufacturing uses. All permitted manufacturing uses (classified as MG-20 through MG-39 of the Standard Industrial Classification Manual) shall conform to the following additional standards:

a.

The manufacturing use shall be limited to the fabrication, manufacture, assembly or processing of materials which are, for the most part, already in processed form.

b.

All activity and uses except storage, loading and unloading operations, and parking shall be conducted within completely enclosed buildings.

c.

Night operations, including loading and unloading, are prohibited within 300 feet of the property line of any residential zoning district or area which is shown for residential use on the future land use map of the comprehensive plan, unless conducted within a completely enclosed building which has no openings other than stationary windows or required fire exits. Night operations are those conducted between the hours of 9:00 p.m. and 6:00 a.m. This prohibition shall not apply to security personnel or other security operations. The appropriate reviewing board may grant a waiver to this prohibition if the board finds that the noise attenuation and screening being provided is sufficient to mitigate the adverse impacts of the night operations on properties within 300 feet.

(4)

Airport operations. Developments and uses located in the airport zones of influence must comply with and may be restricted or prohibited by the City of Gainesville Airport Hazard Zoning Regulations.

(Ord. No. 080435, § 3, 3-19-09; Ord. No. 110289, § 2, 11-3-11; Ord. No. 140130, § 10, 9-4-14; Ord. No. 140190, § 14, 4-16-15)
