**CITY OF GAINESVILLE
GAINESVILLE REGIONAL UTILITIES
INVITATION TO NEGOTIATE FOR
A GRUCOM BROADBAND SURVEY**

1.0 CITY OF GAINESVILLE INTRODUCTION

The City of Gainesville is the largest city and county seat of Alachua County. The city is approximately 62.9 square miles and is currently home to 124,391 of the 248,002 county residents. The city utility, Gainesville Regional Utility (GRU) service area is approximately 125 square miles and provides services to more than 185,000 people. The University of Florida and Shands Hospital at UF are the leading employers in Gainesville and provide jobs for many residents of surrounding counties. Known for its preservation of historic buildings and the beauty of its natural surroundings, Gainesville's numerous parks, museums and lakes provide entertainment to thousands of visitors. The City of Gainesville is governed by a seven-member city commission, members of which are elected by Gainesville city residents to three-year terms. Gainesville is one of the most attractive cities in Florida. GRU's mission is to provide safe, reliable, competitively priced utility services in an environmentally responsible manner to enhance the quality of life in our community.

2.0 INTRODUCTION TO GRUCOM

2.1 GRU:

The System has been providing retail telecommunications services since 1995 under the brand "GRUCom." Services provided by GRUCom include data transport and Internet services to businesses, multi-tenant and student housing communities, government agencies, other telecommunications carriers, and to other Internet service providers. Additional services provided by GRUCom include tower space leases for wireless personal communications (cellular telephone) providers, and public safety radio services for all the major public safety agencies operating in the County. GRUCom is licensed by the Florida Public Service Commission (FPSC) as an Alternative Access Vendor and as an Alternative Local Exchange Carrier.

2.2 SERVICE AREA:

GRUCom provides telecommunications and related services to customers located primarily in the Gainesville urban area and holds telecommunications licenses that allow it to provide telecommunication services throughout the state. GRUCom operates network connections to interface with all major Interexchange Carriers (IXC) who maintain facilities in the County, as well as interconnections with both of the County's two Incumbent Local Exchange Carriers. The System, through interlocal agreements, also provides public safety radio services across the entire County.

2.3 SERVICES PROVIDED:

The current services provided by GRUCom fall primarily into the following three major product lines: Data & Internet Services; Tower Leasing Services; and Wireless Services.

The Data & Internet Services provided by GRUCom are primarily Private Line and Special Access transport circuits (both described below) delivered in whole, or in part, on the GRUCom fiber optic network. These high bandwidth circuits are capable of carrying voice, data or video communications. Private Line circuits are point-to-point, unswitched channels connecting two or more customer locations with a dedicated communication path. Special Access circuits are also un-switched and provide a dedicated communication path, but these circuits connect a customer location to the Point of Presence of another telecommunications company. GRUCom transport services are provided at various levels ranging from 1.5 megabits per second (Mbps) to 10 gigabit per second (Gbps). Part of GRUCom's business strategy is to use unbundled network elements from the incumbent local exchange carrier, AT&T, in anticipation of fiber extensions to specific service locations. GRUCom also uses the fiber optic network to provide multiple classes of Internet access services. Business Internet and Dedicated Internet Access (DIA) class service connections are offered at access speeds ranging from 10 Mbps up to 10 Gbps. High speed residential Internet access is offered in participating multi-dwelling communities at speeds up to 1 Gbps under the brand name GATOR NET. In 2017, GRUCom upgraded its GATOR NET services to deliver symmetrical bandwidth, a first in the Gainesville area. Additionally, GRUCom offers dial-up Internet access services under the brand name GRU.Net. The dial-up access speeds available are 56 kilobits per second (Kbps). Additionally, between now and September 30, 2018 GRUCom will be replacing legacy telecommunications equipment with the latest technology equipment to provide enhanced telecommunication services. GRUCom also offers multi-tenant data center collocation services within the System's central office.

GRUCom's Tower Leasing Services portfolio consists of eleven communications towers in the Gainesville area, plus space on two of the System's water towers, for a total of thirteen multi-tenant collocation leasing sites. GRUCom's tower leasing tenants include national wireless communications service providers, local radio broadcasting stations, and government service agencies. Tenants rent space upon the tower sites for placement of their own antennas and base station equipment which are used for various commercial and operational purposes. Additionally, two of the five transmitter sites for the GRUCom public safety radio system (see below) are also co-located on these communications towers.

GRUCom Wireless Services provides portable and mobile radio coverage to public safety agencies throughout Alachua County. The GRUCom public safety radio system began operation in 2000. These services are provided over Federal Communications Commission ("FCC")-licensed 800 MHz frequencies, utilizing a trunked radio system that is compliant with the current frequency allocations enacted by the FCC in 2010 to accommodate personal communication services ("PCS") providers. The trunked radio system meets current industry standards for interagency operability. The trunked radio system consists of 22 trunked voice frequencies. Antenna sites are linked to the network controller and various dispatch centers utilizing GRUCom's transport services.

2.4 CUSTOMERS:

GRUCom's customer base is growing as the fiber optic network is expanded and new product offerings are introduced. Customer types vary for each GRUCom business activity. GRUCom's fiber transport customers include other land-line telecommunications

companies, cellular telecommunications companies, private commercial and industrial businesses, federal, state and local governmental agencies, public and private schools, public libraries, Santa Fe College, the University of Florida, UF Health and the University of Florida Health Science Center. As of September 30, 2016, GRUCom had a total of 498 transport circuits in service. Internet access services are provided to other Internet service providers, local businesses and organizations, and participating GATOR NET multi-dwelling complexes. Dial-up Internet access services are provided to the general public in the local calling area. As of September 30, 2016, GRUCom had 6,472 Internet access customer connections, while dial-up customers totaled 152. GRUCom tower space leasing services are used primarily by wireless providers, which include cellular telephone and PCS companies. As of September 30, 2016, GRUCom executed 32 tower leases, for space on eleven of its thirteen antenna attachment sites with eight different lessees, including national and regional cellular service providers. Public safety radio system customers consist solely of government entities due to restrictions on the use of the frequencies allocated to the System under licenses issued by the FCC. The primary radio system users include: the System, the Gainesville Police Department, the Gainesville Fire Rescue Department, the Gainesville Regional Transit System, the City's Public Works Department, the University of Florida Police Department, the Santa Fe College Police Department, the City of Alachua Police Department, the City of High Springs Police Department, the Alachua County Sheriff's Office, the County's Fire Rescue Operations and the County's Public Works Departments

2.5 DESCRIPTION OF FACILITIES:

As of September 30, 2016, GRUCom had 512.5 miles of fiber optic cable installed throughout Gainesville and the County. The fiber strand count included in the cable depends on service requirements for the particular area and ranges from 12 to 144 strands. The fiber is installed in a ringed topology consisting of a backbone loop and several subtending rings. The maximum transport speed currently utilized in the fiber optic network is 10 Gbps, which is enough bandwidth to deliver more than 125,000 simultaneous phone calls (as an illustration). Bandwidth capacity on the fiber network is a function of the electronic equipment utilized and, with technologies such as dense wave division multiplexing, expansion of the transmission capability of the network is virtually unlimited. To exchange network traffic, GRUCom also is interconnected with other major telecommunications companies serving the Gainesville area.

The public radio system currently employs a Motorola 800 MHz simulcast system configured with six transmit and receive tower sites including 22 simulcast voice and two additional mutual aid channels. GRUCom has begun the process of migrating to the P25 protocol.

GRUCom maintains a point-of-presence at the Digital Realty Trust, Inc. ATL1 collocation and interconnection facility located at 56 Marietta Street in Atlanta, Georgia. The ATL1 data center provides access to hundreds of leading domestic and international carriers as well as physical connection points to the world's telecommunications networks and Internet backbones.

GRUCom maintains an ultra-high bandwidth backbone transmission interconnection on diverse routes between Gainesville and the ATL1 data center to provide highly reliable

Internet access to customers in Gainesville. GRUCom is also a member of the Telx Internet Exchange ("TIE"), a separate peering point in the ATL1 data center. The TIE allows GRUCom to quickly and easily exchange Internet protocol ("IP") traffic directly with over 60 of the world's largest Internet Service Providers ("ISPs"), Content Providers, Gaming Providers and Enterprises, including companies such as Google, Netflix, Apple, Amazon, Akami, Hurricane Electric (a major Internet service), Sprint and several other Internet service providers. TIE participants can route IP traffic efficiently, providing faster, more reliable and lower-latency Internet or voice over Internet protocol ("VoIP") access to their customers, by bypassing intermediate router points so that Internet traffic may have direct access to destination networks.

GRUCom maintains a second point-of-presence at the Network Access Point of the Americas ("NOTA") collocation and interconnection facility which is located in Miami, Florida. The Tier-IV facility was the first purpose-built, carrier-neutral Network Access Point and is the only facility of its kind specifically designed to link Latin America with the rest of the world. More than 160 global carriers exchange data at NOTA including seven Tier-1 world-wide Internet service providers. GRUCom maintains an ultra-high bandwidth backbone transmission interconnection between Gainesville and NOTA, separate from the ATL1 data center interconnection circuits, which allows GRUCom to maintain a second, fully diverse data gateway and exchange to further enhance the reliability of the Internet services provided to customers in Gainesville. In Miami, GRUCom is also connected to the Florida Internet Exchange ("FL-IX") peering facility to provide additional and duplicate peering points with various ISPs including Content Providers, Gaming Providers and enterprises similar to the TIE connection in Atlanta.

3.0 INVITATION

The Gainesville City Commission established the Broadband Connectivity Subcommittee to explore broadband availability, affordability, performance and development opportunities in our community. Since then, the Subcommittee has reviewed a number of issues related to broadband delivery, with an emerging goal of "Expanding Affordable Internet in Gainesville".

Through GRUCom, the people of Gainesville already own almost 600 miles of the area's only all-fiber-optic network across Alachua County. These assets serve our schools, governments and many major businesses' Internet, data transport and networking needs through connections to hundreds of locations around the world. In addition, the city and the utility are developing plans for smart city applications and advanced metering infrastructure and communications systems. With these assets and potential investments, Gainesville is in a unique position for a city our size to close the gap on broadband availability and affordability for residents. All options are on the table, and the city welcomes participation from the private sector.

The City is focused on the goal of determining the best approach and scope to analyze the overall feasibility of providing universal broadband access and the lowest-priced gigabit internet for residents and businesses in America.

In accordance with that goal, the City of Gainesville is inviting qualified vendors to negotiate an agreement for services that can help us determine the best scope specific approach, execution and provision of an analysis to determine how we can make Gainesville the "Most Connected City

in America” What we hope to learn through this process is how we might best connect every household and business in Gainesville. Answers we will seek include: How might this necessary infrastructure project be rolled out? How long might it take? How much will it cost, and how might it be paid for?

Specifically, the feasibility analysis should provide reliable data and modeling to achieve the following goals:

Primary Goals:

- Lower prices and increased speeds for residents
- Lower prices and increased speeds for businesses
- Everyone has access to municipal network in designated areas

Secondary Goals:

- Lowest priced gigabit internet for residential service in the United States
- Lowest priced internet for businesses in the United States
- Universal free service to all residents served

The sub-committee also recognizes there are other areas of the county that are underserved throughout Alachua County. Therefore, the City is interested in forming partnerships that may expand research to include; what it would mean to provide broadband service, not only within the city limits, but within the urban service area (which includes the Gainesville Regional Utilities service area) and in other municipalities in Alachua County.

Potential areas for expansion of the analysis include:

- GRU Service Area
- Urban Reserve with consideration for density
- Municipal areas within the county where GRUCom has infrastructure (Newberry, Hawthorne, Archer, High Springs, Waldo and Alachua)

Any feasibility study is expected to include engineering feasibility cost estimates for several coverage options, financial feasibility and forecasting models for various market-based levels of products and services, a competitive market analysis, a report of the study’s findings, and recommendations for solutions to achieve the City Commission’s goals.

4.0 TERM

The initial agreement will commence on “Effective Date”, and will continue until “Completion Date” unless terminated earlier. Whereas; “Completion Date” will be agreed upon by both parties in the initial contract.

It is the Respondent's responsibility to assert that the information in question is exempt from disclosure under chapter 119 or other applicable law. If GRU becomes subject to a demand for discovery or disclosure of the Confidential Information of the Respondent in a legal proceeding, GRU shall give the Respondent prompt notice of the demand prior to releasing the information (unless otherwise prohibited by applicable law). The Respondent shall be responsible for defending its determination that the redacted portions of its response are confidential, proprietary, trade secret, or otherwise not subject to disclosure.
- 15.3 By submitting a response, the Respondent agrees to protect, defend, and indemnify GRU for any and all claims arising from or relating to the Respondent's determination that the redacted portions of its reply are confidential, proprietary, trade secret, or otherwise not subject to disclosure. If Respondent fails to submit a redacted copy of information it claims is confidential, GRU is authorized to produce the entire documents, data, or records submitted to GRU in answer to a public records request for these records.

16.0 ADDITIONAL INFORMATION.

By submitting a response, Respondent certifies that it agrees to and satisfies all criteria specified in the ITN. GRU may request, and Respondent shall provide, additional supporting information or documentation. Failure to supply such information or documentation as required and requested will result in disqualification of the reply.

17.0 EVALUATION PROCESS.

17.1 Response Evaluation.

An evaluation team will evaluate Responses using the criteria described in section 13.0 above. Each evaluation team member will complete the initial Response evaluations independently and rank the responsive and responsible Responses by comparing each Response to the other.

The evaluation team members will meet in a public meeting in order to establish a competitive range of Responses reasonably susceptible of award. GRU may select one or more vendors within the competitive range with which to commence negotiations or may reject all responses.

GRU will post a notice of negotiations identifying the Respondents with whom GRU will negotiate.

17.2 Negotiations.

Selected Respondent(s) will be invited to provide more detailed clarifications of their Response, to provide interactive presentations of the Response, and/or to enter into negotiations with GRU. Based on the clarifications, presentations and negotiations, GRU will either recommend award of the contract to the Respondent(s) who provides the best

value for GRU or reject all responses. GRU reserves the right to negotiate concurrently or separately with competing Respondent(s). After negotiations are conducted, GRU shall recommend award of the contract to the responsible and responsive Respondent that GRU determines will provide the best value, based on the selection criteria.

Negotiation meetings will be conducted in Gainesville, Florida. GRU will distribute instructions and/or agendas in advance of each negotiation session. Representatives for each Respondent should plan to be available, without interruptions, for the entirety of the Respondent's scheduled negotiation meeting.

Negotiations will include discussions of the scope of work and related services to be provided by the Respondent until acceptable contract terms are agreed upon, or it is determined that an acceptable agreement cannot be reached. This process will continue until GRU receives best and final offers from the participating Respondent(s). GRU reserves the option to resume negotiations that were previously suspended.

Negotiations will not be open to the public, but will be recorded.

18.0 TERMS OF AWARD.

- 18.1 Award will be made to the best evaluated Respondent(s) for Response(s) priced greater than \$50,000.00 based on (**Ex: price, delivery, warranty, local, SBE, etc.**) for each individual line item, or any combination of line items, as GRU determines to be in its best interest.
- 18.2 GRU reserves the right to reject any and all Responses, or any part thereof, to waive any and all informalities or irregularities, and the right to disregard all nonconforming, nonresponsive, unbalanced or conditional Responses. A responsible Respondent and any selected subcontractors, suppliers, other persons, and/or organizations proposed to perform or furnish the Work have the capacity in all respects to fully perform the Contract requirements and the experience, integrity, reliability, capacity, facilities, equipment, and credit to ensure good faith performance, such capacity and responsibility to be determined solely by GRU. GRU may conduct such investigation as GRU deems necessary to establish the responsibility, qualifications and financial ability of Respondent(s), proposed subcontractors, material suppliers, individuals, or entities to perform the Work in accordance with the Contract. Such information may include, but shall not be limited to, current financial statements, bank records, verifications of availability of equipment and personnel and past performance records.
- 18.3 Discrepancies in the multiplication of units of Work and unit prices will be resolved in favor of the unit prices. Discrepancies between the indicated sum of any column of figures and the correct sum thereof will be resolved in favor of the correct sum.
- 18.4 If the Contract is awarded, GRU will give the successful Respondent a Notice of Intent to Award within sixty (60) calendar days after the Solicitation due date. All Responses must remain valid for sixty (60) calendar days from the Solicitation due date.
- 18.5 When GRU gives a Notice of Award to the successful Respondent, it will be accompanied by the required number of unsigned counterparts of the Contract (or Purchase Order, as applicable) with all attachments. Within fifteen (15) calendar days thereafter, Respondent must sign and deliver the required number of counterparts of the Contract, attachments, and required Bonds, if applicable. GRU will ultimately provide a fully signed counterpart to the Respondent.

- 18.6 Failure on the part of the successful Respondent to execute a Contract within fifteen (15) calendar days after the notice of acceptance may be just cause for annulment of award.
- 18.7 GRU may then accept the Response of the next lowest, responsive, responsible Respondent or re-advertise the Solicitation. If the next lowest, responsive, responsible Response is accepted, this acceptance will bind such Respondent as though it was the original successful Respondent.
- 18.8 Protests in respect to the intended award must be filed within three (3) calendar days of notice for purchases that do not require prior approval of the City Commission, and within seven (7) calendar days for purchases that require prior approval of the City Commission. The purchasing representative is authorized to suspend a vendor from consideration for award of contracts if there is probable cause to believe that the vendor has engaged in activity which might lead to debarment. The suspension shall be for a period not to exceed three months. After reasonable notice to the vendor involved and reasonable opportunity for that vendor to be heard, the purchasing representative, after consulting with the City Attorney, is authorized to debar a vendor for cause from consideration for award of contracts. The debarment shall be for a period of not more than three years. The causes for debarment include:

- (c) Conviction under state or federal antitrust statutes arising out of the submission of bids or proposals, within five years of a proposed award;
- (d) Violation of contract provisions, as set forth below, of a character which is regarded by the purchasing representative to be so serious as to justify debarment action, within five years of a proposed award:
 - (I) Deliberate failure without good cause to perform in accordance with the specifications or within the time limit provided in the contract; or
 - (II) A record of failure to perform or of unsatisfactory performance in accordance with the terms of one or more contracts; provided that failure to perform or unsatisfactory performance caused by acts beyond the control of the contractor shall not be considered to be a basis for debarment;
- (e) For any provision of, or offer, gift or agreement to provide, any gratuity, kickback or offer of employment to any current or former City employee in connection with any decision, approval, disapproval, recommendation, or preparation of any part of a program requirement or a purchase requisition, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing, or in any other advisory capacity in any proceeding or application, request for ruling, determination, claim or controversy or other particular matter, pertaining to any program requirement or a contract or subcontract, or to any solicitation or proposal, within three years of a proposed award;

- (g) For retaining a person or soliciting or securing a GRU contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, except for retention of bona fide employees or bona fide established commercial selling agencies for the purpose of securing business, within three years of a proposed award;
- (h) During the period of a contract with GRU, employing, or offering employment to, any current City employee participating directly or indirectly in the procurement process, within three years of a proposed award;
- (i) Any other cause the purchasing representative determines to be so serious and compelling as to affect responsibility as a City contractor, including debarment by another governmental entity for any cause listed in this Section;
- (j) The foregoing is supplemental to any applicable provisions of F.S. 287.133, as amended. In the event of any conflict between this provision and the requirements of said statute, the statute shall prevail.

REJECTION OF BIDS/TERMINATION OF CONTRACT

Previously solicited and/or accepted bids may be rejected or acceptance revoked prior to beginning of performance upon discovery by GRU that the bidder or its affiliates have committed any act which would have been cause for debarment, or were on the convicted vendor list prepared under the provisions of F.S. 287.133, as amended, at or prior to the acceptance of the bid.

If GRU discovers, after a contract is awarded and performance has begun, that the bidder or its affiliates have committed any act subsequent to or prior to award or acceptance which would have been cause for debarment had it been discovered prior to award or acceptance, GRU may consider such to be a material breach of the contract and such shall constitute cause for termination of the contract.
