Michael, please take a look at this and let's discuss it next week.
Thanks
Kathy

Subject: **Desired Use of Web-Based Audit Workpaper Solution**

Kathy Viehe,

Could you please forward this to the appropriate IT staff who could approve our use of this web-based product described below (if approval is required). By using this product we would avoid a server-based product that would likely require a dedicated server and IT support for upgrades, maintenance, and troubleshooting.
