Factors Impacting Numbers:

1. Business type is designated by business owner – Small Business may include minority and female.
2. In GG, Visa spending is not captured due to limited resources and technical capability.
3. Figures may reflect sole source or purchasing under existing contracts.
4. Spending figures do not capture subcontracting dollars paid directly to prime contractors.

EOC Actions

- **Motion 1:**

Office of Equal Opportunity work with procurement offices to develop a system in which the hiring of subcontractors can be monitored as it pertains to MBEs and SBEs.

- **Motion 2:**

Prior to awarding contracts on federally funded projects, the City's EO Director shall meet with GG and GRU contract managers and assist in establishing required Disadvantaged Business Enterprise (DBE) goals for those projects, while utilizing the methodology and formula described in federal regulations.

- **Recommendation: Adopt EOC Actions**

Potential EOC Actions

Future EOC Discussion will address:

- **Goal Setting for Non-DBE projects**
- **Disparity Study**
