INTRODUCTION & COMPANY INFORMATION

EXPERIENCE & QUALIFICATIONS

DesignLab, Inc. has been a manufacturer and distributor of custom uniform apparel and accessories for more than twenty years. The owners of our company have been in the apparel business for thirty years. We are a minority business based in the U.S.A which specializes in providing top-quality custom clothing, uniforms, and accessories to government agencies nationwide. We currently employ approximately 70 people working out of seven locations in South Carolina and Florida.

DesignLab is a full service company. We have a staff of highly skilled customer service agents and account managers who work with each one of our clients on a personal level. We operate out of five sales offices in Florida and two in South Carolina. At our main manufacturing facility in Greenville, SC, we provide complete in-house graphic design, digitizing, embroidery, and screen printing services to all of our customers. We also offer state-of-the-art 3M Scotchlite reflective transfer graphics, which are custom-cut to meet the specifications of our clients and applied to safety garments for increased visibility. In addition, we house fully-staffed pattern-making and sewing departments where we design and manufacture our own line of custom apparel. Because we provide all of these services in-house, we are highly successful at seeing a project from initial concept to completion in a short time frame.

DesignLab currently manages the uniform programs for several large agencies in Florida and South Carolina, including Greenville County Sheriff, Greenville Police Department, Miami-Dade Fire Rescue, Palm Beach County Fire Rescue, Hillsborough County Fire Rescue, Orlando Police Department, City of Miami Fire, Lynx Transportation, Orange County Schools, Sarasota County Sheriff, Lake County, Pinellas County, Orange County and others. For several years, we have provided these divisions with complete uniform programs, inventory control, quartermaster account services, expedient order processing, and a web-based uniform system. We have met with high approval from large contract accounts such as these in Florida due to our high quality products, personal customer care, and great attention to detail.

WEB-BASED UNIFORM SYSTEM

DesignLab has the ability to create a custom on-line uniform ordering system to accommodate your agency. Our internet-based uniform system is powered by *OsCommerce* and can be fully customized to meet your specific needs. Each website we build is password-protected and comes complete with product photos, descriptions, contract pricing, etc. Approved personnel within your agency can even be given special administrative access to view complete order histories, individual employee expense accounts, inventory levels, detailed purchases, dollar amounts spent, order status, and various other reports through our online database. This is a real-time system offering current and accurate information. Our custom websites are designed, managed and maintained by our in-house I/T Department. Orders that we receive from our customer websites are downloaded and processed on a daily basis.

An example of one of our successful web-based uniform ordering systems can be seen by visiting www.designlabonline.net/pbcfr. This website includes all items we currently offer to Palm Beach County Fire Rescue. Each employee is given a set spending allowance. Once they create an account, the system automatically tracks their spending and insures that they do not go over their set spending allowance. If their purchases exceed their allowance, employees are required to provide the web system with a personal credit card number. All purchases made within their limit are billed directly to Palm Beach County, along with detailed invoices. The orders received from this site are downloaded and processed at our Palm Beach store. Orders are packaged and held for pickup by Palm Beach County employees or can be delivered to the Palm Beach County Fire Rescue supply office, if desired.

If your department prefers not to extend individual uniform allotments to personnel, our online ordering system may also be redesigned to accommodate quartermaster-style ordering. One designated person or division may be allowed to place orders for your entire department. Our system is flexible and totally customizable.

Should your agency choose to take advantage of our web-based uniform ordering system, DesignLab could have a fully-customized site developed and operational within 30 days after award of contract.

ADDENDUM NO. 1

Date: May 3, 2018

Bid Date: May 17, 2018
3:00 P.M. (Local Time)

Bid Name: Uniforms for Regional Transit
System Operations Employees

Bid No.: RTSX-190000-DS

NOTE: This Addendum has been issued to the holders of record of the specifications and attendees of the non-mandatory pre-bid conference.

The original Specifications remain in full force and effect except as revised by the following changes which shall take precedence over anything to the contrary:

1. **The deadline for additional questions is end of day on Monday, May 7, 2018.**
2. Find attached:
 - Copy of the lobbying and blackout period definitions (Purchasing Procedure 41-423) distributed during non-mandatory pre-bid meeting
 - Copy of the pre-bid meeting sign-in sheet
3. Daphyne Sesco, Purchasing Division, discussed bid requirements:
 - Since this is a non-mandatory meeting you do not have to be present to submit a bid.
 - The blackout period began once the bid was released and continues until contract award. No lobbying or discussions can occur between bidder and any representative of the City or GRU, except the designated purchasing staff contact; otherwise your bid will be disqualified.
 - Verbal instruction does not change the terms of the solicitation – changes can only be made via a written addenda. Questions/Answers and topics of discussion addressed at this meeting will be available in an addendum for download through DemandStar.
 - All communication, contact and/or correspondence must be with the buyer, Daphyne Sesco. Bidders who have contact with anyone other than the buyer (A/E, department, City elected officials, etc.) will be disqualified.

- Responses are to be received in the Purchasing office no later than 3:00 p.m. (local time) on May 17, 2018. Any bids after 3:00 p.m. on that date will not be accepted. Bids must be physically received in the City's Purchasing Department. Only hand-delivered responses are acceptable (i.e., in person or through a delivery service such as FedEx, UPS).
 - As Addenda are issued, the signature page should be included in the response acknowledging receipt of the addendum.
 - Requirement of minimum of 3 years in business.
4. Roy Darnold, Interim Transit Operations Manager, and Patti Wiggs, Transit Customer Advocate, briefly reviewed the scope of the bid.

Note: RTS usually makes one large order in the Fall. We expect the successful bidder to be on-site for several days to answer questions, display all the clothing options, take measurements, etc. Thereafter, the orders will be placed as new employees are hired.

5. Questions/Answers:

Question1: Verify the number of required copies.

Answer1: One original and two copies are required; also, provide an electronic version on either a flash drive or CD. Submit all in one envelope/package.

Question2: Are specific brands required?

Answer2: There are not specific required brands. "Dickies" brand is preferred for men's and women's pleated/no-pleated shorts and pants and the three jackets have a preferred brand listed as well.

Question3: Samples...do we need to send a sample of everything?

Answer3: No, bidders are welcome to send in whichever samples they would like. However, we would like to receive samples specifically of the polo shirts and jackets being offered.

6. Changes have been made as follows to Section IV – Technical Specifications, 3.4 (deletions = strikethrough, additions = underline):

"Vendor ~~must~~ should submit detailed manufacturer's specifications and a sample of the garment(s) for evaluation with their proposal. Failure to not provide either will not be reason for qualification. The City may request either detailed manufacturer's specifications and/or sample garments after the bid opening. Samples of the various garments are encouraged; however, we specifically prefer to receive samples of the polo shirts and the jackets. Vendor will be responsible for any charges incurred for packaging and shipping of samples. Additionally, should the Vendor desire the return of uniform samples it will be up to the Vendor to make arrangements for pickup, including any costs associated with said pickup of items."

7. The pricing matrices on page 27 for **Women's Denim Button Down Shirt** and **Men's Denim Button Down Shirt** should be ignored as we no longer purchase those items. Should a price be entered for these shirts it will not be used in calculating the sum total of all "Unit Price, Delivered" columns in determining award.

Bid No.: RTSX-190000-DS

NOTE: This Addendum has been issued to the holders of record of the specifications and attendees of the non-mandatory pre-bid conference.

The original Specifications remain in full force and effect except as revised by the following changes which shall take precedence over anything to the contrary:

1. We received the following question after the question submittal deadline, but felt a response was necessary:

Q: Section IV 6.3 states that the cost of embroidery shall be included in the cost of the individual items requiring logos, but when you get to the pricing section there are separate unit prices for the logos. Should embroidery be included in the unit price of the garment or priced separately?

A: Only the one time setup charge is needed for the logos. The cost of the logos should be included in the price of each item, not priced separately. The "Unit Price, Delivered" for "Cost per item" for the logos should be left blank.
