**Re: Resolution Accepting Anticipated Grant Offer from
Department of Transportation
Federal Aviation Administration
in the Amount of \$1,532,843
Project No. 3-12-0028-033-2011**

Ladies and Gentlemen,

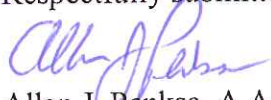

The Gainesville-Alachua County Regional Airport Authority anticipates an offer from the FAA for AIP Grant 3-12-0028-033-2011 in the amount of up to \$1,532,843.00 for the completion of:

- ➔ Replace/Upgrade Perimeter Fencing Phase II (approx. 18,000 l.f.) and Related Airfield Security Equipment
- ➔ Prepare Airport Wildlife Hazard Management Plan
- ➔ Replace ARFF Mutual Aid Radios (5 radios)

New construction work and justification is as described in the FAA grant application dated July 28, 2011 and provided to the City of Gainesville.

Based upon my review and that of legal counsel, I represent to you that the said statements, representations, warranties, covenants and agreements contained in the application are true and correct, and that the Authority is not in default of any covenants or agreements referenced therein. I can further represent that the Authority shall comply with all of the assurances that will be made a part of the Grant offer. You may rely on this letter in adopting your Resolution and in ratifying and adopting all statements, representations, warranties, covenants and agreements contained in the Project Application and in executing this Grant Agreement.

Respectfully submitted,

Allan J. Penksa, A.A.E.
Chief Executive Officer

**RESOLUTION NO. 11-023
EFFECTIVE JULY 28, 2011**

**RESOLUTION ACCEPTING AN ANTICIPATED GRANT OFFER FROM
DEPARTMENT OF TRANSPORTATION, FEDERAL AVIATION
ADMINISTRATION AND AUTHORIZING EXECUTION BY THE
APPROPRIATE OFFICIALS ON BEHALF OF THE GAINESVILLE-ALACHUA
COUNTY REGIONAL AIRPORT AUTHORITY**

WHEREAS, on July 27, 2011, the Gainesville-Alachua County Regional Airport Authority received bids for the Perimeter Fencing Phase II and Security Equipment Upgrade project and subsequently has submitted a Project Application to the Department of Transportation, Federal Aviation Administration (FAA) of the United States of America for the following projects at Gainesville Regional Airport: 1) **Replace/Upgrade Airport Perimeter Fencing, Phase II and Related Airfield Security Equipment**, 2) **Prepare Airport Wildlife Hazard Management Plan**, and 3) **Replace ARFF Equipment Mutual Aid Radios**; and

WHEREAS, following the approval of contract bids and submission of the Project Application to the Federal Aviation Administration the said FAA is anticipated to submit a Grant Agreement which constitutes an Offer to the City of Gainesville and the Gainesville-Alachua County Regional Airport Authority to be executed by the appropriate officials which, when so accepted, will constitute a Grant Agreement by which the United States Government will participate in the allowable costs of the project with the Federal Share to be up to an estimated \$1,532,843.00, representing ninety-five percent (95%) of anticipated project costs. The amount of the Grant Offer and the scope of work may be reduced by the FAA to match the available federal funding. The FAA share shall remain at 95% of the anticipated project costs and the GACRAA share of the projects shall be 5% of the anticipated project costs; and

WHEREAS, for the purpose of receiving Federal Grant funds, the FAA requires that the City of Gainesville and the Gainesville-Alachua County Regional Airport Authority both promptly approve the Offer and the Gainesville-Alachua County Regional Airport Authority hereby requests that the City of Gainesville approve said Offer;

NOW, THEREFORE,

**BE IT RESOLVED BY THE GAINESVILLE-ALACHUA COUNTY
REGIONAL AIRPORT AUTHORITY**, as follows:

Section 1. That the Gainesville-Alachua County Regional Airport Authority, in anticipation of said Grant Offer, shall promptly enter into a Grant Agreement for the purpose of obtaining Federal aid under Project No. 3-12-0028-33-2011 that is to be implemented, constructed, and operated by the Gainesville-Alachua County Regional

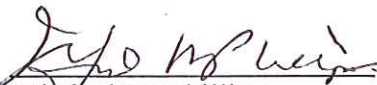

Airport Authority in accordance with Chapter 2006-363, Laws of Florida, and that such Grant Agreement shall be hereby made a part hereof.

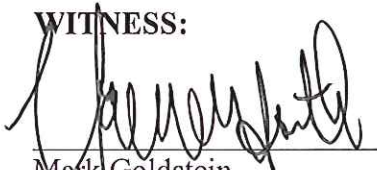

Section 2. The Gainesville-Alachua County Regional Airport Authority, being familiar with expected terms of said Grant Offer, does hereby ratify and adopt all statements, representations, warranties, covenants, and agreements contained in said Offer, and by such acceptance agrees to abide by all of the terms and conditions of the Grant Agreement.

Section 3. That the Gainesville-Alachua County Regional Airport Authority hereby authorizes Allan J. Penksa, Chief Executive Officer, to prioritize and negotiate any needed reductions in the project scope of work with the FAA necessary to match the available federal funding or FAA determinations regarding grant eligibility, such reductions in scope and grant amount related to Project Item 1 above to be consistent with competitive bids for the Project awarded by the Authority, and to accept the Grant Agreement offer from the USDOT, subject to review by the Attorney for the Authority, and to fully execute and sign such documents as may be necessary.

EFFECTIVE this 28th day of July, 2011.

Orlando, FL 32822

Re: Application for FY 2011 AIP Funds

Dear Mr. Owen:

Please accept our application (two copies) for FY 2011 AIP funds. The Gainesville-Alachua County Regional Airport Authority requests federal funds in the amount of \$1,532,843 for the following airport improvement projects:

- Replace/Upgrade Perimeter Fencing Phase II (approx. 18,000 l.f.) and Related Airfield Security Equipment
- Prepare Airport Wildlife Hazard Management Plan
- Replace ARFF Mutual Aid Radios (5 radios)

All construction costs are based on bids received. A copy of the bid tabulations, professional service agreements and summary of anticipated project costs is enclosed.

Bids for the fencing project were very competitive and below engineers estimate. In light of the favorable bidding environment that exists right now, we are hopeful that sufficient funding can be made available to complete all work and take advantage of the current low prices.

Assuming it is fully funded, our FY2011 entitlement should be \$1,461,789 based on the latest figure received. We presently have cost overruns totaling \$196,089 on our existing open projects (AIP nos. 30, 31 & 32), which will all be closed out soon. We respectfully request 100% of our FY2011 entitlement as well as \$257,339 in additional discretionary funds for these cost overruns plus new work in excess of our available entitlement. Please see the attached Funding Needs spreadsheet.

Thank you for your consideration of our request. Please contact me if you require additional information.

Very truly yours,

A handwritten signature in blue ink, appearing to read "Allan J. Penksa", is written over a faint, larger version of the same signature.

Allan J. Penksa, AAE
Chief Executive Officer

Gainesville Regional Airport
FAA AIP Application
July 28, 2011

Project Narrative

1) Replace Airport Perimeter Fencing Phase II (approx 18,000L.F.) and Related Security Equipment Upgrades

The airport proposes to replace approximately 18,000 l.f. of fencing which was not previously replaced or improved in Phase I (AIP# 3-12-0028-31-2010). This fencing is generally in excess of twenty five years old. Much of it suffers from corrosion and deterioration and is not of uniform height for security deterrence or to deter deer. In addition, several components of the perimeter access control system are in need of upgrade due to obsolescence. Additional CCTV cameras are needed to improve and direct security response to gate alarms. These upgrades are supported by the Transportation Security Administration (please see letter from TSA-FSD, attached).

The Phase 2 work scope will include replacing existing chain link and barb wire security fence near the Terminal complex and on the General Aviation side of the airport (see exhibit) with new 8' high chain link security fence. Sections of the new fence in wildlife prone areas will include a 2' buried wildlife skirt. Existing gates and operators along the fence line will be replaced. All gates will match the fence height for uniformity of security. Existing gates that are no longer needed will be eliminated to decrease the total number of perimeter access points. Computerized access control devices (i.e. card readers, loop sensors and request to exit buttons) as well as CCTV cameras will be tied into the existing airport fiber optic network and access control software via updated network switches in secure, weatherproof cabinets. A new digital video recorder and camera monitors will be installed in the Airport Security/LEO office.

Justification

Much of the existing fencing and associated barbed wire is suffering from corrosion and other deterioration, requiring patching and frequent maintenance. Other portions are only 6 ft. in height and do not meet the recommended TSA/FAA standard height. Burrowing animals, small mammals and feral pets frequently enter the AOA from under the fence, and a 2 ft. buried apron matching that installed in Phase I is proposed. Many of the communications devices for the access control system are now outmoded and do not handle commands and data exchange with the access control computer in the most efficient manner. Updated access control devices and installation of CCTV cameras are desired for: improved alarm signaling; more efficient and secure access authorization; more efficient response to alarms and gate malfunctions by law enforcement and airport operations personnel.

The project will better protect the AOA from unauthorized access by personnel, vehicles and potentially hazardous wildlife.

Project Cost

Competitive bids for the project were opened on July 27, 2011. A copy of the bid tabulation is enclosed. Total project costs including all professional fees associated with the project is \$1,574,082. A project cost summary is included. The Airport Authority requests FAA funds in the amount of \$1,495,378 representing 95% of the estimated project costs.

2) Prepare Airport Wildlife Hazard Management Plan

The airport had previously advertised a Request for Proposal for completion of the Wildlife Hazard Assessment and, should it be necessary, preparation of a Wildlife Hazard Management Plan. Selection of the consultant for completion of the WHA and WHMP was completed in September 2009 and approved by the FAA-ADO. The Gainesville Regional Airport recently completed a year-long Wildlife Hazard Assessment as required under FAR Part 139. Field study was concluded at the end of 2010 and a final report was submitted to the FAA in February of 2011. FAA accepted the plan in May 2011 and recommended that the airport proceed with development of a Wildlife Hazard Management Plan.

Justification

Preparation of the WHMP is a regulatory requirement under 14CFR Part139. The plan will assist the airport in mitigating potential wildlife hazards to aircraft.

Project Cost

The lump-sum consulting fee to prepare the WHMP is \$21,262.00. A copy of the consultant's proposal and existing consulting agreement is attached. A Task Order for the WHMP will be submitted to the FAA for approval prior to execution. The airport requests FAA participation in the amount of \$20,199, representing 95% of the eligible costs.

3) Replace ARFF Equipment and Personnel Mutual Aid Radios

The Gainesville Regional Airport is a commercial service airport regulated under 14CFRPart139. The airport has a full-time Aircraft Rescue and Firefighting unit for immediate response to aircraft emergencies. The airport's approved Emergency Plan includes a number of mutual aid agencies with responsibilities to provide emergency services and logistical support to supplement the airport ARFF unit in the event of an incident. Responding ARFF personnel must be able to communicate effectively with the Incident Commander and coordinate with mutual aid agencies through the community's Combined Communications Center (911 dispatch center). Recently the community has upgraded the communications gear and constructed a new tower which provides better communications to the airport and surrounding vicinity. Equipment in the new system will not be compatible with the existing airport mutual aid radios. The existing radios are also technically obsolete and will no longer be supported by the vendor. The airport requests FAA assistance to replace the existing mutual aid radios in its ARFF equipment

with system compatible units and purchase two portable units for its on-duty ARFF personnel.

Justification

The project is required to maintain and improve emergency communications in the event of an aircraft incident; an essential element of the airport's approved Airport Emergency Plan (AEP).

Project Cost

The airport proposes to purchase the radios using its small purchase procedures by piggy-backing on an existing government contract. A copy of a quote from the vendor utilizing Orange County Florida Contract Number Y6-1111 is attached. The expected cost of the radios is \$18,175.20. We request FAA participation in the amount of \$17,266.

PROJECT COST SUMMARY

**Replace/Upgrade Airport Perimeter Fencing, Phase II (Approx. 18,000 L.F.)
and Related Security Equipment**

Construction

Smith Fence, Inc. per competitive bid opened 7-27-2011 \$1,222,883.55

Reference: **GACRAA PROJECT NO. 11-004**
PERIMETER FENCING PHASE 2 AND SECURITY UPGRADES
FAA AIP PROJECT NO. 03-12-0028-033-2011
GAINESVILLE REGIONAL AIRPORT

Dear Mr. Penksa:

We have received and reviewed the Bids that were publicly opened and read aloud on July 27, 2011 for the referenced project. The following is a list of Bidders and the amount bid by each for the sum of all Bid Schedules:

<u>FIRM</u>	<u>BID AMOUNT (all bid schedules)</u>
Smith Fence Company	\$1,222,883.55
Long Fence Company, Inc.	\$1,257,787.32
Abel Fence LLC	\$1,498,885.50
C & S Technical Resources, Inc.	\$1,501,509.00
H.L. Pruitt Corporation	\$1,752,475.37
Engineer's Estimate	\$1,348,915.00

Based on the amount of available FAA grant funds we recommend that you award a contract for the combination of Bid Schedules that best suits the Airport. The lowest responsive bid for the combination of all Bid Schedules for the construction of Perimeter Fence Phase 2 and Security Upgrades was received from Smith Fence Company and it is nine percent (9%) lower than the Engineer's Estimate.

The bids received from Long Fence Company and C & S Technical Resources, Inc. both contained minor mathematical errors. These errors have been corrected in accordance with the Contract Documents and notations have been added to the attached bid tabulation. The errors did not affect the position of the low bidder.

We have evaluated the qualifications of Smith Fence Company and, in our opinion; we believe that Smith Fence Company is qualified to perform the Work. We unconditionally recommend that Smith Fence Company be awarded a contract for Perimeter Fence Phase 2 and Security Upgrades under a FAA entitlement grant if grant funds become available.

Enclosed for your file is a copy of the "Bid Tabulation" of the bids received. The attached bid tabulation provides detail for all bid schedules and all bid items.

Sincerely,

URS CORPORATION

Allan J. Penksa
Chief Executive Officer
Gainesville Alachua County Regional Airport Authority
Gainesville Regional Airport
3880 NE 39th Ave Suite A
Gainesville, FL 32609

Dear Mr. Penksa:

This is to acknowledge that we have been briefed concerning your efforts to request funding from the Federal Aviation Administration (FAA) for the next phase of your Perimeter Fence Project. It is our understanding that the funding request will include the following needed enhancements and outcomes:

Add 8-foot tall perimeter fencing with three additional strands of barbed wire across the top. Where possible, add 2 feet of additional fence fabric that will be buried into the ground. Add security cameras at automatic gate locations to increase response time. Replace communication devices that are at the existing Card Readers and are starting to age. Reduce the number of AOA access points (as required by Security Directive).

Please feel free to convey to the FAA that we support this request in its entirety and that these planned security improvements will enhance the overall security at GNV.

Sincerely,

A handwritten signature in black ink, appearing to read "Ed Goodwin".

Prepare Airport Wildlife Hazard Management Plan

ENVIRONMENTAL RESOURCE SOLUTIONS, INCORPORATED

GAINESVILLE REGIONAL AIRPORT Phase 2 Consultant Services

1. Consulting services associated with preparation of a Wildlife Hazard Management Plan (WHMP).

Due to potential wildlife hazards to aircraft operations, GNV is in the process of completing a Wildlife Hazard Assessment (WHA). The assessment is being conducted by a Qualified Airport Wildlife Biologist pursuant to 14 CFR Part 139.337. Upon completion of the WHA (December 2010), Environmental Resource Solutions, Inc. (ERS) will assist GNV in the completion of a WHMP.

A WHMP addresses policies, procedures and responsibilities at GNV to reduce wildlife hazards. The Airport Chief Executive Officer generally has authority over the WHMP and various departments will each have specific duties and responsibilities identified in the final WHMP. As such, it will be critical to receive significant input from each airport staff member to successfully complete this task. The final WHMP will address specific wildlife hazards at GNV and will establish guidelines for alleviating these hazards. Specifically, the WHMP will incorporate the seven elements required by FAA under 14 CFR 139.337(f). These elements are:

1. The persons who have the authority and responsibility for implementing the plan.
2. Priorities for needed habitat modification and changes in land use identified in the WHA, with target dates for completion.
3. Requirements for and, where applicable, copies of local, state, and federal wildlife control permits.
4. Identification of resources to be provided by the certificate holder for implementation of the plan.
5. Procedures to be followed during air carrier operations, including at least:
 - a. Designation of personnel responsible for implementing the procedures;
 - b. Provisions to conduct physical inspections of the aircraft movement areas and other areas critical to successfully manage known wildlife hazards before air carrier operations begin;
 - c. Wildlife control measures; and
 - d. Ways to communicate effectively between personnel conducting wildlife control or observing wildlife hazards and the air traffic control tower.
6. Procedures to review and evaluate the WHMP every 12 months or following a triggering event:
 - a. The plan's effectiveness in dealing with known wildlife hazards on or in the vicinity of the airport; and
 - b. Aspects of the wildlife hazards described in the WHA that should be reevaluated.
7. A training program by a Qualified Airport Wildlife Biologist to provide airport personnel with the knowledge and skills needed to carry out the WHMP.
