Engraved clay wall brick

Custom engraved concrete slab

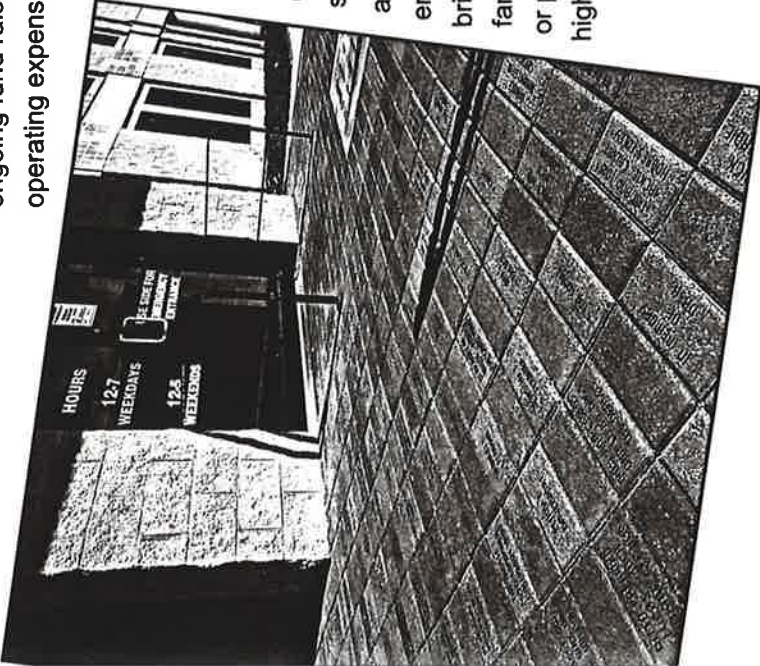

Capital Area Humane Society

More than \$80,000 was raised for the Pathway of Love. The cost was \$100 for the first paving brick and \$50 for each additional brick.

"The Pathway of Love has been a significant component to our capital campaign to build a new humane society center," said Geri Bain, executive director. "The Pathway of Love has been so successful, we're continuing it as an ongoing fund raiser to support general operating expenses."

The Pathway of love is located at the main entrance to the new Capital Area Humane Society Center. "The engraved bricks leave a sense of permanency and remembrance. The engraving dedicates a brick in the name of a family member, loved one or pet. It's affordable and highly attractive," said Bain.

Otterbein College

The Alumni and Friends Walkway is "Cornerstone for the Future" campaign that 700 bricks were engraved, raising more than \$250,000 in support of the \$6.5 million campaign.

Supporters purchased bricks in one of three sizes, 4" x 8", \$250; 8" x 8", \$450; or 12" x 12", \$650.

The bricks were engraved 1/4 inch, thick with an epoxy material to resist sand, dirt and dust from falling between the letters. The epoxy improves contrast.

"This has been one of the most effective fund raising campaigns for Otterbein," said John J. Modlich, executive director of the college.

"This contribution is a significant and highly visible mark on Otterbein's campus," said Pietila.

"Modlich's service to the college is turn-around time for the project is impeccable," said Pietila.
