

# Urban Service Report

Rocky Point Road Voluntary Annexation

Legistar #190419

Prepared: November 2019

Prepared by:

Juan Castillo, Planner I, Department of Doing

Adam Carr, GIS Analyst, Department of Doing

Lila Stewart, Strategic CX Manager, Department of Doing

## **INTRODUCTION**

This Urban Services Report was prepared to provide a plan for the transition of services upon annexation of property described in Ordinance 190419. This report is meant as a guide for both City and County staff, the property owners petitioning for voluntary annexation and the residents in nearby areas.

## Contents

|   |           |
|---|-----------|
| <b>INTRODUCTION .....</b>   | <b>2</b>  |
| <b>AREA TO BE ANNEXED.....</b>  | <b>4</b>  |
| <b>PROVISION OF SERVICES.....</b>   | <b>6</b>  |
| a) Services in the Next Five Years .....                                  | 6         |
| b) Taxes in the Next Five Years .....                                     | 6         |
| <b>POLICE SERVICE .....</b>   | <b>6</b>  |

| <b>EXISTING NATURAL GAS.....</b>  | <b>12</b> |

## **AREA TO BE ANNEXED**

The area proposed for annexation is composed of tax parcels 07176-007-000 owned by James R. and Barbara C. Hodge, 07176-010-000 owned by Rollins Continental Inc., 07176-011-000 owned by Brewer & Saunders & Saunders; 07176-012-000 and 07176-016-000 owned by Shands Teaching Hospital & Clinics Inc., 07240-037-000 owned by One-Putt Enterprises Inc.; and portions of parcels 07176-000-000 and 07240-000-000 owned by Prairie View Trust (see map on page 5). The total annexation area is approximately 86 acres and is located south of SW Williston Rd, east of SW 34<sup>th</sup> St., as more specifically described in this ordinance, as petitioned for by the property owner pursuant to Chapter 171, Florida Statutes.

Upon annexation, City Commission District 3 will be expanded to include the proposed annexation area (see map on page 13). Parcels 07176-007-00, 07176-010-000, 07176-011-000, and part of 07240-000-000 currently have Alachua County Commercial land use designation. Parcels 07176-016-000, 07176-012-000, and 07240-037-000 have two land use designations: Alachua County Commercial on their north side adjacent to SW Williston Rd. and Office/Residential (4-8 dwelling units per acre) on their south side. Lastly, part of parcel 07176-000-000 has three Alachua County land use categories present: Commercial on the portion adjacent to SW Williston Rd, Office/Residential (4-8 dwelling units per acre) and Residential (0-2 dwelling units per acre) on the southern portion of the parcel (see map on page 14).

Parcels 07176-007-00, 07176-010-000, 07176-011-000, and part of 07240-000-000 currently have Alachua County Highway Oriented Business (BH) zoning. Parcels 07176-016-000, 07176-012-000, and 07240-037-000 have two Alachua County zoning categories: Highway Oriented Business (BH) on their north side adjacent to SW Williston Rd. and Residential Professional District (RP) on their south side. Lastly, part of parcel 07176-000-000 has three Alachua County zonings present: Highway Oriented Business (BH) on the portion adjacent to SW Williston Rd, Residential Professional District (RP) and Residential Single Family Estate (RE) on the southern portion of the parcel (see map on page 15).

## **Provision of Services**

### **a) Services in the Next Five Years**

It is anticipated that services to the area will be improved within the next five years as a result of the annexation of the area. It is not reasonably anticipated that services to current city residents will be reduced within the next five years as a result of the annexation of the Area. The following discussion outlines proposed services. All services are subject to the annual lawful appropriation of funds.

### **b) Taxes in the Next Five Years**

It is not reasonable to anticipate that the City's ad valorem taxes would need to be adjusted in the next five years to provide services as a result of the annexation of the Area. This includes services required by the Comprehensive Plan. Any level of service issue that is outlined in the City of Gainesville Comprehensive Plan or the Alachua County Comprehensive Plan, whichever applies at the time of development, must be addressed.

## **Police Service**

Upon the effective date of annexation, police services will be provided to the annexed area by the Gainesville Police Department (GPD), utilizing similar policing strategies that are provided within the existing City limits. Gainesville Police Department Patrol Zone Foxtrot will be extended to serve the area (see map on page 16). The level of services will be dependent upon identified crime patterns and service demand within a prescribed area. The current staffing in the Department can provide these services to the annexed area.

Current police services include preventative patrol and criminal apprehension, criminal investigations, special operations, crime prevention, neighborhood police services, crime scene processing, Police Service Technicians, air support, traffic management, combined communications, and other support services including planning and research, fiscal management, records management, crime analysis, automated information services, property and evidence management, personnel and recruitment, and training. The area will receive the same services that are provided in the existing city limits upon the effective date of the annexation.

## **Fire Protection**

The Gainesville Fire-Rescue Department (GFR) presently provides select emergency services to portions of the unincorporated urban area of Alachua County. Within the computerized dispatch system, the unit chosen will depend on the type of call and the type of unit, therefore, there's not an exact representation of the first due station areas.

There is an Automatic Aid Agreement with Alachua County until September 30, 2020 that would provide for Gainesville Fire Rescue to respond to a limited number of emergency call types at this location. Presently, the first due station would be dependent on which County or City unit can have the fastest response time. Upon annexation the closest City of Gainesville Fire Rescue Stations would be stations 2 and 9 (see map on page 17).

Fire hydrants in the unincorporated area of Alachua County are currently provided and maintained by the City of Gainesville in accordance with the 1990 Fire Hydrant and Public Street Lighting Services Agreement. Funding for fire hydrants is included in the base rates for water utility service.

## **Transportation**

The City of Gainesville currently operates a public transportation system, the Gainesville Regional Transit System (RTS). Three public transportation lines run near the proposed annexation along SW Williston Rd., daily RTS Routes #35 (Reitz Union to SW 35<sup>th</sup> Place) and #36 (Reitz Union To Williston Plaza), and Route #301 - Later Gator B (see map on page 18).

## **Solid Waste Disposal**

The City of Gainesville Solid Waste Division monitors residential solid waste and recycling collection services, provided under contract with Waste Corporation of America (WCA), to residents living in single family houses and buildings containing less than five dwelling units. Other residents, businesses and institutions contract for solid waste and recycling collection with one of several commercial providers operating under non-exclusive franchises with the City.

Alachua County contracts for residential solid waste, recycling and yard trash collection in the unincorporated mandatory service areas with the same company as does the City. Services will be extended and fees for this service will be collected through the utility billing process beginning the next October 1 after annexation.

## **Streets, Drainage and Flood Control**

The City of Gainesville Public Works Department provides basic maintenance and repair services for all City streets within its current jurisdiction. This work includes maintenance of asphalt pavement, concrete sidewalks, concrete curbs and gutters, and roadside ditches. Basic maintenance services are also provided for public ditches and stormwater management detention/retention facilities.

The City of Gainesville currently charges a stormwater management utility fee. Any increase in impervious surfaces, without onsite mitigation, in accordance with ordinances, policies and regulations in effect at that time, will cause the stormwater management utility fee to be charged for the area that increases the total impervious surface. This fee pays for mosquito control, drainage improvements for public facilities and sweeping of streets within the City limits.

Street sweeping is an effective means of reducing the amount of debris and pollutants that enter the City's storm drain system and water resources. The Public Works Operations Division currently sweeps the City on a 4 to 6 week cycle, depending on weather and equipment. All City streets are currently swept 9 to 10 times a year.

## **Parks, Recreation and Cultural Affairs**

The Parks, Recreation and Cultural Affairs Department currently provides organized recreation programs for youth and adults. The Department also provides passive nature facilities and programming for youth and adults. Organized recreation programs in the areas of aquatics, athletics, recreation centers, after-school and summer playground programs are provided, and a variety of special events are also available. The Area will receive the same services that are provided in the existing city limits upon the effective date of the annexation. Fees for these programs are charged at a differential rate depending upon residency. Upon annexation, any residents of this Area would be eligible for the City of Gainesville residents' rates.

The Parks Division is responsible for the cleaning and upkeep of all City parks. In addition, this Division provides cleaning of City-owned parking lots, as well as maintenance of grounds around City-owned buildings. Basic mowing of City rights-of-way is provided on a regular basis by the Public Works Department. The Area will receive the same services that are provided in the existing City limits upon the effective date of the annexation.

The Cultural Affairs Division provides for cultural enlightenment through various programs in the arts, historical interpretation, special events and cultural programs in the County school system. The Area will receive the same services that are provided in the existing City limits upon annexation. See map on page 19 for nearest City of Gainesville park facilities in relation to the proposed annexation.

## **Strategic Ecosystems**

The area in this annexation partially contains and is impacted by the Serenola Forest Strategic Ecosystem (see map on page 20). Any future development on this area will be required to submit a resource assessment of the site pursuant to regulations found in LDC Section 30-8.12. Should regulated strategic ecosystem resources be identified, up to 50% of the upland portion of the site may be required to be set aside for protection of regulated resources.

## **Building Inspections**

The Building Inspections Division enforces building and fire codes. The Department is responsible for permitting and inspections of new construction and remodeling or repair of existing buildings. Building contractors are also licensed through the Division in accordance with state and local regulations. The Building Inspections Division will provide permitting, plan review and inspections for the Area. The current staffing for the Division can provide inspection services and the permitting and plan review services. The current staff will deliver services to this area without significant delays.

## **Code Enforcement**

The City's Code Enforcement Division enforces codes relating to zoning, housing, and vehicles, hazardous or perilous lands/buildings and special sales. The current staffing in the Division can provide these services to the Area.

## **Housing**

The Housing and Community Development Division uses federal and state funds to help make safe, decent and affordable housing more available to City residents. The City of Gainesville is a Community Development Block Grant (CDBG) entitlement jurisdiction, which allows the City greater access to federal funds through the CDBG and HOME Programs. Upon annexation, any eligible residents of the Area would be entitled to apply for programs funded by CDBG or HOME funds. The Area will receive the same services that are provided in the existing City limits upon the effective date of annexation.

## **Street Lighting**

Street lighting in the unincorporated area of Alachua County is currently provided and funded by the City of Gainesville General Operating Fund along arterials and collectors for vehicle and pedestrian safety through the 1990 Fire Hydrant and Public Street Lighting Services Agreement. Additional streetlights may be provided in the Area in accordance with the guidelines of the City of Gainesville Public Works Department, as outlined in the "City of Gainesville Standards for Roadway Lighting".

The Traffic Operations Division is responsible for installation and maintenance of traffic signs and pavement markings on City streets, parking operations, and mechanical traffic counts. The Traffic Operations Division is also responsible for traffic signal operations and construction inspection services for all of Alachua County and the other municipalities, under the annual City-County Traffic Engineering Services Agreement. The Area will receive the same services that are provided in the existing city limits upon the effective date of the annexation.

### **Planning and Zoning Services**

The Planning Division will provide planning and development assistance to the area. The Alachua County Comprehensive Plan and Zoning Code will continue to regulate land use and zoning for any development in the Area until the Gainesville Comprehensive Plan is amended and the Area is rezoned to City of Gainesville zoning categories. All requests for development are reviewed by City staff and the City Plan Board or Development Review Board where appropriate.

### **Other Governmental Services**

Other services currently provided to residents within the existing City limits of Gainesville shall be extended to the Area, where necessary, on substantially the same basis and in the same manner as such services are provided within the rest of the municipality.

## **UTILITY FACILITIES**

Gainesville Regional Utilities (GRU), owned and operated by the City of Gainesville, presently provides water and wastewater services to residents of the unincorporated area of Alachua County. Extension policies for serving new customers are the same in the City and in the proposed annexation Area.

### **Financing the Extension of Water and Wastewater Facilities**

GRU's existing water/wastewater extension policy is that new water and wastewater customers pay the fully allocated cost for extending service to them. This cost includes the cost for water distribution and wastewater collection system improvements needed to extend service to the development. In addition, new connections must also pay connection charges associated with the costs for providing water and wastewater treatment plant capacity and the costs for improvements GRU makes to its water distribution and wastewater collection systems to provide capacity for new customers. This policy applies both in the City of Gainesville and in the surrounding unincorporated area of Alachua County.

Construction of facilities by GRU is funded through GRU's Construction Fund, the Utility Plant Improvement Fund (UPIF), or a combination from both funding sources. The Construction Fund consists of proceeds from the issuance of revenue bonds. The UPIF is funded by operating revenue.

### **Existing Major Trunk Water Mains and Proposed Extensions**

The map on page 21 shows existing major water mains in the City of Gainesville and the surrounding proposed annexation Area. Additional funding is included in GRU's budget for major system improvements needed to provide capacity for new development. Project timing is based on projected growth within the GRU service area.

### **Existing Wastewater Collection System and Proposed Extensions**

The map on page 22 shows the existing major wastewater collection system in the City of Gainesville and the Area. Additional funding is included in GRU's budget for major system improvements needed to provide capacity for new development. Project timing is based on projected growth within the GRU service area.

## Existing Electrical Grid

The map on page 23 show the existing electrical grid in the City of Gainesville and the Area. Additional funding is included in GRU's budget for major system improvements needed to provide capacity for new development. Project timing is based on projected growth within the GRU service area.

## Existing Natural Gas

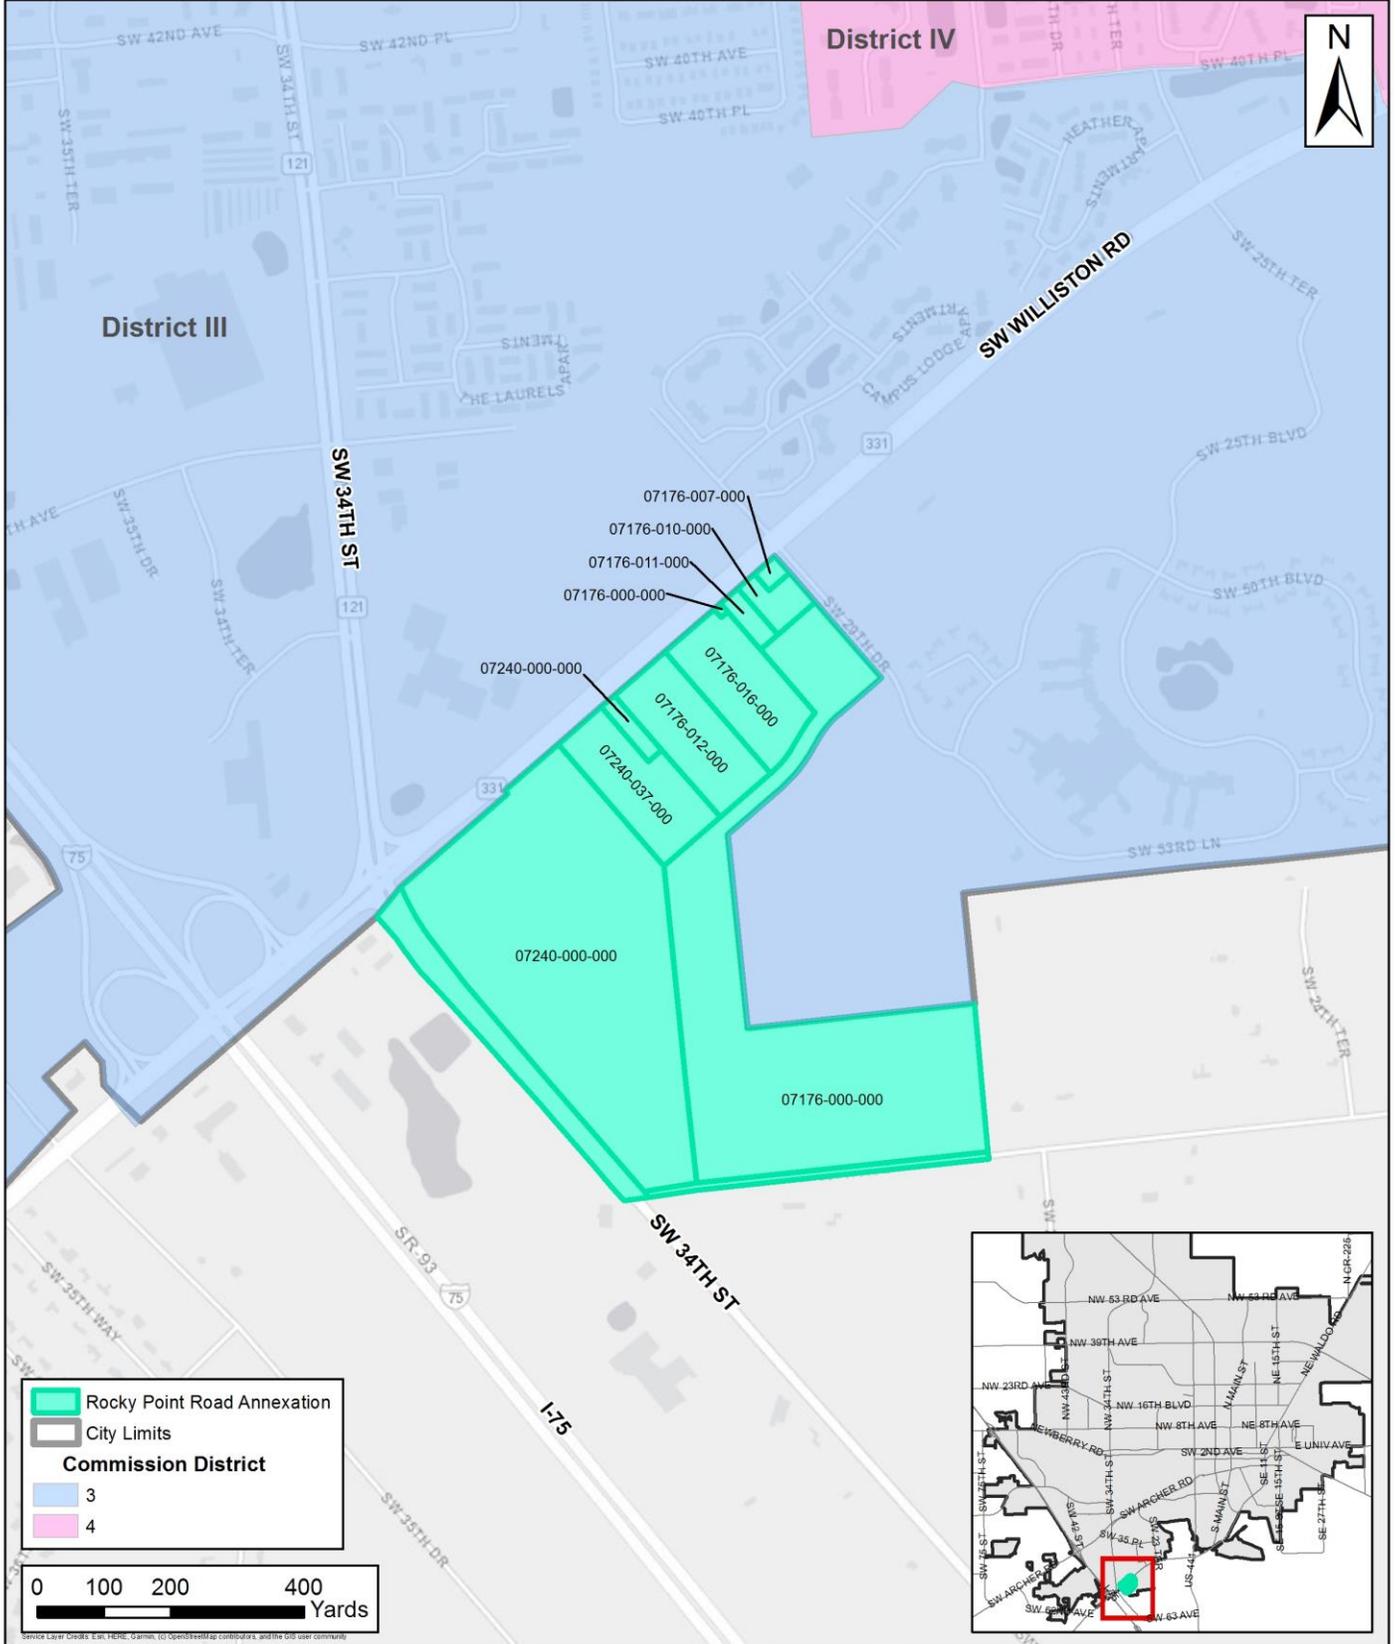

The map on page 24 shows the existing natural gas lines in the City of Gainesville and the Area. Additional funding is included in GRU's budget for major system improvements needed to provide capacity for new development. Project timing is based on projected growth within the GRU service area.
