Question applies to Citizens Advisory Committee For Community Development

Why are you interested in serving on the Citizens' Advisory Board for Community Development?

Over the summer, I was employed to pursue a personal project studying the local business community's opinions towards the direction of public development, and I felt like I learnt a lot of practicable knowledge. I want to put that knowledge to use and smutaneously gain more by serving on the CACCD. More than that, I feel like the UF studentbody should have some representative on such boards, and as a student looking to actually move to Gainesville, I feel an especial obligation to do participate.

Question applies to SHIP - Affordable Housing Advisory Committee

Why are you interested in serving on the SHIP - Affordable Housing Advisory Committee?

Recently, I had the opportunity to speak with Dejeon Cain, the Chair of the Alachua County AHAC, and he really instilled in me the importance of the work such Committees do, especially in a county like ours that regularly struggles with poverty and underdevelopment. He also spoke highly of the Gainesville AHAC. Since my interests lie mostly in Gainesville instead of the rest of the county at the moment, I would love to help our city grow with my time and energy.

Question applies to SHIP - Affordable Housing Advisory Committee

Why are you interested in serving on the SHIP - Affordable Housing Advisory Committee?

I'm interested in continuing to serve on the SHIP - Affordable Housing Advisory Committee because I'm passionate about the great need for affordable housing in our community. Gainesville is more than the west side and more than just a college town - we are a diverse community with rich cultural history and abundant resources, yet we have a significant socioeconomic divide. I believe in the promise of affordable housing for all and I would love to stay involved in the process our City goes through to develop affordable housing plans, vet affordable housing projects, and support programs that aid our homeless population. I look forward to continuing to serve our community.

Question applies to City Beautification Board

Why are you interested in serving on the City Beautification Board?

I have already served one term on the CBB (two years as the Chair). I would like to continue my service on this board. We've already started discussions on how we can adapt to the Covid 19 pandemic - by both examining our current activities, as well as alternative projects and programs.

Question applies to SHIP - Affordable Housing Advisory Committee

Why are you interested in serving on the SHIP - Affordable Housing Advisory Committee?

I believe this is a very important board for our community and how desperately we need to address the affordable housing crisis. As a former Mayor and current City Clerk/Administrator I am acutely aware of the disparities and inequities that exist, not just here in Gainesville, but all across the nation. I believe that local government is the best and the closest to the neighbors it serves. I believe my background and experience in both the private and public sector would be an asset. I am a very active and involved participant.

Question applies to Gainesville Human Rights Board

Why are you interested in serving on the Gainesville Human Rights Board?

I believe a life well-lived is a life in service of others, and I use this philosophy to guide my choices. As an MD and PhD in epidemiology, I chose hospice care as the focus of my career, and my research interests have included ethics and racial disparities in end-of-life care and advance care planning. These choices allow me to give a little back from my place of privilege. After many years of moving around the country, I have established roots in Gainesville for the last 8 years and I would like to contribute to our local community. I have cared for a wide variety of people in this area and I appreciate being able to help people one-on-one, but I also would like to help repair our local systemic inequalities. I hope to provide direct support to improving human rights. Participation in the Gainesville Human Rights Board would provide me an opportunity to use my knowledge and skills in service of correcting local injustices.

Question applies to SHIP - Affordable Housing Advisory Committee

Why are you interested in serving on the SHIP - Affordable Housing Advisory Committee?

I have lived in Gainesville for the past 8 years, including multiple apartment complexes, apartments in private homes, and single-residence homes. I am currently in the process of buying my first home. Although I was provided a relatively substantial budget as a medical resident, my need to pay for my student loans necessitated my use of affordable housing. I have an interest in ensuring that citizens of Gainesville have access to affordable housing throughout the area, and I have recently become invested in helping advocate for low-cost housing and for tenants who are struggling to pay for their housing. I strongly want to advocate for people to be the focus of the affordable housing committee, rather than construction companies or developers.
