Training/Experience:

I have extensive coursework in Finance and Economics as well as other areas of business (Cumulative GPA of 3.9/4.0). I am the author of a current publication regarding endogenous economic growth, and I have two forthcoming publications regarding law and growth and energy sector reform. I believe that the University and community can do more to beautify the community in which we all reside and I believe that city beautification enhances that quality of life for all persons. As a member of the Alachua County Democratic Executive Committee I believe in the preservation of the environment and development of impoverished persons. The University community can do more to help the less fortunate of East Gainesville. I have volunteered for numerous organizations in Gainesville including Shands Hospital and St. Augustine Church. I appreciate the Commission for considering this application and I hope that I am allowed to make a difference in the community which I have grown to love.
