CITY OF \_\_\_\_\_ INTER-OFFICE  
GAINESVILLE COMMUNICATION

**TO:** Dean Mimms, AICP, Lead Planner  
**FROM:** John Hendrix, Environmental Coordinator *JH*  
**SUBJECT:** Petitions PB-13-2~~6~~<sup>7</sup> LUC and PB-13-2~~7~~<sup>8</sup> ZON, Bluestone Lands LLC,  
Parcel # 09971-001-000, located at NW 13<sup>th</sup> Street and 19<sup>th</sup> Lane.  
**DATE:** February 28, 2013

---

The subject application for land use and rezoning has been reviewed for considerations relating to environmental resources which may be present on or immediately adjacent to the subject parcel located on the northeast corner of NW 13<sup>th</sup> Street and NW 19<sup>th</sup> Lane, at the former location of the Brasington car dealership. The parcel is surrounded by a mix of commercial and residential land uses. A small lake/surface water (Lake Meta) is located approximately 150 feet east of the most proximal location of the subject property. This pond and its associated wetland fringe are regulated surface waters/wetlands pursuant to LCD 30-300. Based on the information provided in the application and due to the separation distance involved, the proposed land use and rezoning changes associated with the petition would not be expected to result in development that would encroach into the regulated surface water/wetland or its associated upland buffer. Any application for development approval on the subject property that would be proposed subsequent to the proposed land use and zoning change would be reviewed for compliance with LDC 30-300 at that time.

Otherwise, no other issues relating to regulated surface waters/wetlands or natural and archaeological resources are known to exist which might present a constraint or otherwise adversely affect the proposed land use and rezoning proposal.

# APPLICATION FOR EXEMPTION

REGULATED NATURAL RESOURCES [LDC 30-300 & 30-310]  
 DEPARTMENT OF PLANNING & DEVELOPMENT SERVICES

Petition No. PD-13-26<sup>2</sup>LUC & PD-13-2320N (Will be filled in by staff.)

Type of development application to which exemption will apply: <u>Rezoning</u>

**EXEMPTIONS: REGULATED SURFACE WATERS & WETLANDS (LDC 30-300)**

Please check the box next to the reason(s) why you claim exemption. (Conditions apply. See full text of City Land Development Code 30-304 before checking exemption.)

1.  No regulated surface water or wetland on or adjacent to the development parcel.
2.  The proposed construction, development, or use is authorized by a valid building permit or approved development plan issued or approved before April 12, 2004. (Please attach a copy of the permit or approved plan.)
3.  Public works or utilities project.
4.  Repair or replacement of an existing site structure(s) that does not increase site impervious surface.
5.  Addition or accessory structure(s) which does not add more than 100 square feet of impervious area, and meets the minimum setbacks from surface waters and wetlands.
6.  The proposed construction or development was approved under a planned development prior to April 12, 2004.
7.  Construction of public or private nature trails.
8.  Reestablishment of native vegetation on single-family residential property.
9.  The proposed activity is located in or adjacent to a human-built surface water or wetland which was not created as a mitigation project, and which was originally constructed in uplands.
10.  Construction of a stormwater management facility within a wetland buffer.

**EXEMPTIONS: REGULATED NATURAL & ARCHAEOLOGICAL RESOURCES (LDC 30-310)**

Please check the box next to the reason(s) why you claim exemption. [Conditions apply. See full text of City Land Development Code 30-310(d) before checking exemption.]

1.  Any parcel of record as of November 13, 1991, that is less than or equal to five (5) acres in size and does not contain listed species or an archaeological site identified by Florida Master Site file number.
2.  Bona-fide agricultural/silvicultural activities.
3.  Removal of invasive non-native vegetation on conservation lands.
4.  Alteration of vegetation pursuant to an adopted management or restoration plan on government-maintained land.

5.  Activities authorized by City-approved management plan.
6.  Alteration of vegetation within existing utility, drainage or stormwater easements, and road right-of-ways.
7.  Clearing and vegetation removal to construct a fence or wall, or establish a firebreak.
8.  Vegetation alteration to conduct a survey or other required test.
9.  Text Amendments to Planned Development zoning or Planned Use District land use ordinances that are unrelated to development activity.
10.  Activities determined by the city manager or designee as having *de minimis* impact.
11.  The County land use and zoning remains in effect and the development application will be reviewed under County regulations.
12.  The property has a final master plan approved by the City prior to August 2, 2012; or has a valid Planned Development zoning ordinance approved by the City prior to August 2, 2012 that includes protection of natural and archaeological resources.
13.  Sinkholes which pose threat of property loss or structural or functional damage to an existing building or facility.

I certify that I am the owner of the subject property and authorize the agent listed above to initiate this application for environmental exemption. (Signature by the owner on this application or in a letter is necessary.) I further certify that all of the information contained in this application is accurate and up-to-date.

March 18, 2013

**FROM:** Gus Olmos, Alachua County Water Resources Manager  
**TO:** Dean Mimms, City of Gainesville, Lead Planner  
**RE:** Petition PB-13-22 LUC. Causseaux, Hewett, Walpole, agent for Bluestone Lands LLC. Amend the City of Gainesville Future Land Use Map from Commercial (C) to Mixed Use-Low Intensity (8-30 units/acre) (MUL). Located at 2001 NW 13th Street. Related to PB-13-23 ZON

The Alachua County Environmental Protection Department (ACEPD) has completed a desktop review for the above referenced Petition and based on the available information it appears that the only potential area of concern in the immediate vicinity of the Petition is the former Brasington Automotive Dealership at 2001 NW 13<sup>th</sup> Street. However, based on the available records, there is no known contamination at this property. ACEPD recommends that this property will be evaluated further by City and County environmental staff at the time of development plan review.

Please let me know if I can be of further assistance.

Exhibit B-6 - Mixed use low intensity district (MU-1)

**Sec. 30-64. - Mixed use low intensity district (MU-1).**

(a)

*Purpose.* The mixed-use low intensity district is established for the purpose of allowing coordinated developments designed to offer a mixture of residential, convenience-type retail, professional and consumer service uses primarily for residents of mixed-use and adjacent residential neighborhoods, and places of religious assembly. The district is intended to reduce the length and number of vehicular trips by providing for basic needs within close proximity to residential areas, by encouraging pedestrian access, and by the combining of trips. This district is established to allow uses compatible with each other and with surrounding residential areas to be developed near each other. The MU-1 district may be located in areas where analysis of residential characteristics demonstrates that such facilities are required. This district is intended to encourage the development of planned and unified neighborhood shopping centers in a relationship harmonious with adjoining residential activities. It is also intended to accommodate traditional neighborhoods that include nonresidential uses and neighborhood centers.

(b)

*Objectives.* The provisions of this district are intended to:

(1)

Permit compatible commercial, office, service and residential developments that benefit from being located near each other.

(2)

Provide an adequate mix of residential uses including multifamily, townhouse, zero lot line, and detached single-family at urban densities.

(3)

Provide opportunities for the development of compound residential uses.

(4)

Minimize traffic congestion by:

a.

Requiring that shopping center and/or mixed-use developments be located on appropriate major collector and arterial roadways, as defined in the comprehensive plan;

b.

Minimizing the number and regulating the location of driveway connections; and

c.

Encouraging pedestrian and nonautomotive access.

(5)

Ensure, through development plan approval, that nonresidential and mixed-use developments are designed to promote the most efficient use of the land, and that they coordinate the internal activities of the site as well as establish a harmonious relationship between such developments and their environment.

(6)

Require buffering or screening around nonresidential and/or mixed-use development in accordance with the land development code when the development abuts any property zoned for residential use or shown as residential on the future land use map.

(7)

Accommodate neighborhood-level services and retail uses along existing business corridors.

(8)

Coordinate the location and size of mixed-use developments commensurate with the character and density of the areas to be served.

(9)

Allow the market some flexibility in determining locations of new nonresidential development, and the ability to expand such areas in relation to the population densities achieved.

(10)

Encourage nonresidential and/or mixed-use developments to locate on land that is physically capable of supporting the particular type of development.

(c)

*Permitted uses.* See permitted uses listed in subsection (g) of this section pertaining to permitted uses.

(1)

*Specific conditions for residential uses.* If MU-1 zoning abuts a single-family residential zoning district, then the density of the residential portion of the mixed-use development shall be limited to that allowed by the RMF-6 residential district in the area within 100 feet of the property line, plus the required buffers for that single-family residential zoning district. In addition, multi-family development shall comply with all regulations in the RMF-6 district and the requirements of section 30-56.

(2)

*Specific conditions for single-family compound uses.* Twenty-five percent of the total floor area up to 1,000 square feet may be used for commercial or office uses. Such uses shall require a minimum lot size of 6,000 square feet and a lot width of 70 feet and shall have direct or shared access to a collector or arterial roadway.

(d)

*Specific conditions for neighborhood shopping centers.*

(1)

*Developments of more than 30,000 square feet.* There is no minimum size for buildings within the MU-1 zoning district. However, within the MU-1 zoning district, nonresidential developments of more than 30,000 square feet of gross leasable floor area are considered neighborhood shopping centers and are subject to the rights of and conditions for neighborhood shopping centers.

(2)

*Location.* Neighborhood shopping centers shall be located within one-fourth mile of intersections of arterials or intersections of arterials and collectors, as shown on the map entitled Functional Classification of Streets, in the transportation mobility element of the city's comprehensive plan. Such uses shall have direct or shared access to an arterial.

(3)

*Maximum gross leasable nonresidential floor area.* No more than 100,000 square feet of gross leasable nonresidential floorspace shall be allowed within any neighborhood shopping center.

(4)

*Maximum gross leasable nonresidential floor area in any one business.* No more than 50,000 square feet shall be contained in any one business located within a neighborhood shopping center, except MG-54 (food stores).

(5)

*Dimensional requirements for permitted nonresidential uses.* All principal and accessory structures shall be located and constructed in accordance with the following requirements:

a.

Required yard setbacks:

1.

Minimum front: 20 feet.

2.

Maximum front: 80 feet.

3.

Where the side or rear yard abuts property which is in a residential zoning district, or is shown for residential use on the future land use map of the comprehensive plan, the minimum setback shall be 50 feet

or the distance created by the 45 degree angle of light obstruction, whichever is greater.

b.

Maximum lot coverage: 50 percent for single-purpose, nonresidential; 60 percent for mixed-use (inclusive of residential) or compound use.

c.

Maximum building height: Five stories.

(6)

*Multiple structures.* The use of multiple structures shall be considered on a case-by-case basis during development plan approval. Approval shall be conditioned upon findings by the appropriate reviewing board that all such structures are compatible with the uses and purposes of the center and surrounding uses and traffic patterns and are safely incorporated into the overall transportation system for the center.

(7)

*Outparcels.* The proliferation of outparcels contributes to strip commercial development, traffic circulation problems and visual clutter, and obstructs pedestrian and bicycle movement. To mitigate the problems associated with outparcels, the following regulations shall apply:

a.

*Creation and design.* The creation of outparcels shall be considered on a case-by-case basis during subdivision, lot split approval or development plan approval. Approval shall be conditioned upon findings by the appropriate reviewing board or staff, as applicable, that the neighborhood shopping center and all outparcels are integrated through the use of landscaping and buffers; shared parking, traffic access and circulation; and stormwater management.

b.

*Dimensional requirements for outparcels.* Outparcels which have unified circulation systems with the adjoining neighborhood shopping center shall not be required to meet the minimum lot area, width and depth requirements; however, development on outparcels shall be required to meet yard setback, lot coverage and building height requirements for the MU-1 district.

(8)

*Access.*

a.

*Vehicular access.* Access to the neighborhood shopping center shall be in accordance with the provisions of article IX, division 3, and chapter 23 of the Code of Ordinances. Parking areas, including maneuvering space, ingress and egress roads and driving lanes, shall be improved in accordance with the provisions of article IX, division 3, and chapter 23 of the Code of Ordinances. All loading and unloading shall be done on the neighborhood shopping center property. Areas used by motor vehicles shall be physically separated from public streets by landscaped buffer areas.

b.

*Bicycle, greenway and pedestrian access.* Provisions shall be made to safely incorporate travel ways for bicycle and pedestrian usage into any neighborhood shopping center project. Where bikeways, greenways or sidewalks are presently adjoining the property, provisions shall be made to safely link the internal bicycle and pedestrian system with adjoining facilities. During development plan review, the appropriate reviewing board shall also review the relationship of the neighborhood shopping center to adjoining properties and may require appropriate access for bicycles or pedestrians at locations where vehicular access is prohibited.

(e)

*Dimensional requirements for projects of less than 30,000 square feet.*

(1)

Yard setbacks:

a.

Front: The front setback shall be no deeper than the average setback of existing development in the same block face, and within 15 to 80 feet.

b.

Where the side or rear yard abuts property which is in a residential district or is shown for residential use on the future land use map of the comprehensive plan, the minimum setback shall be 25 feet or the distance created by the 60-degree angle of light obstruction, whichever is greater.

c.

Where the property abuts a side street, the minimum setback from that street shall be ten feet.

d.

Where a nonresidential use is adjacent to a nonresidential use no side yard setback is required.

(2)

Accessory structures shall not exceed 25 feet in height.

(3)

Maximum lot coverage: 50 percent for single-purpose, nonresidential; 60 percent for mixed-use (inclusive of residential) or compound use.

(4)

Maximum building height: Five stories.

(f)

Access. Access shall be designed to integrate all aspects of the development and shall meet the requirements of article IX, division 3, of this chapter. Driveways and parking shall be coordinated or shared insofar as possible.

.....  
 (g)

*Permitted uses.*

SIC	Uses	Conditions
	<b>USES BY RIGHT:</b>	
	Any accessory uses customarily and clearly incidental to any permitted principal use	
	Bed and breakfast establishments	In accordance with article VI
	Community residential homes with 14 or fewer residents	When part of a permitted single-family or multifamily residential component and in accordance with article VI
	Community residential homes with more than 14 residents	In accordance with article VI
	Compound uses	
	Eating places	
	Family child care homes	When part of a permitted single-family or multifamily residential component and in accordance with state law
	Large family child care homes	In accordance with article VI
	Itinerant food vendor	In accordance with chapter 19, article IV
	Outdoor cafes	As defined in article II and in accordance with article VI
	Personal fitting and sales	

	of prosthetic or orthopedic appliances	
	Places of religious assembly	In accordance with article VI
	Public service vehicles	As defined and in accordance with article VI
	Repair services for household needs	As defined in article II
	Residential (8 to 30 dwelling units per acre)	In accordance with the requirements of the RMF-6, RMF-7 or RMF-8 zoning districts and the additional requirements of this section, and the requirements of section 30-56. Lots that existed on November 13, 1991 as recorded in the Planning and Development Services Department and that are less than or equal to 0.5 acres in size are exempt from minimum density requirements.
	Residential use buffer	
	Neighborhood convenience center	
	Neighborhood shopping center	
	Specialty T-shirt production	
GN-074	Veterinary services	Only within enclosed buildings and in accordance with article VI
IN-0752	Animal specialty services, except veterinary	Only within enclosed buildings
GN-078	Landscape and horticultural services	
MG-15	Building construction - General contractors and operative builders	
GN-171	Plumbing, heating and air conditioning	
GN-172	Painting and paper hangers	
GN-173	Electrical work

RE: **Brasington Site.** Review of Comprehensive Plan Amendment and rezoning petition including 51 multi-family units. Tax Parcel 09971-01-000

Dear Mr. Simmons:

Based on data provided by the City of Gainesville, we have completed an updated School Capacity Review for the above referenced project. The review was conducted in accordance with the City of Gainesville Public School Facilities Element as follows:

**POLICY 1.1.2: Coordinating School Capacity with Planning Decisions**

*The City shall coordinate land use decisions with the School Board's Long Range Facilities Plans by requesting School Board review of proposed comprehensive plan amendments and rezonings that would increase residential density. This shall be done as part of a planning assessment of the impact of a development proposal on school capacity.*

**POLICY 1.1.3: Geographic Basis for School Capacity Planning.**

*For purposes of coordinating land use decisions with school capacity planning, the SCSAs that are established for high, middle and elementary schools as part of the Interlocal Agreement for Public School Facility Planning shall be used for school capacity planning. For purposes of this planning assessment, existing or planned capacity in adjacent SCSAs shall not be considered.*

**POLICY 1.1.5: SBAC Report to City**

*The School Board shall report its findings and recommendations regarding the land use decision to the City. If the SBAC determines that capacity is insufficient to support the proposed land use decision, the SBAC shall include its recommendations to remedy the capacity deficiency including estimated cost and financial feasibility. The School Board shall forward the Report to all municipalities within the County.*

**POLICY 1.1.6 City to Consider SBAC Report**

*The City shall consider and review the School Board's comments and findings regarding the availability of school capacity in the evaluation of land use decisions.*

## SUPERINTENDENT OF SCHOOLS

W. Daniel Boyd, Jr., Ed.D.

This review does not constitute a "concurrency determination" and may not be construed to relieve the development of such review at the final subdivision or final site plan stages as by the City of Gainesville Comprehensive Plan. It is intended to provide an assessment of the relationship between the project proposed and school capacity – both existing and planned.

The Brasington Site consists of 51 multi family units.

Table 1: Brasington Site – Projected Student Generation at Buildout

	Elementary	Middle	High	Total
Single Family	0			
Multiplier	0.159	0.080	0.112	0.351
Students	0	0	0	0
Multi Family	51			
Multiplier	.042	.016	.019	0.077
Students	2	1	1	4
<b>Total Students</b>	<b>2</b>	<b>1</b>	<b>1</b>	<b>4</b>

**Elementary Schools.** The Brasington Site is situated in the Northwest Gainesville Concurrency Service Area. The Northwest Gainesville Concurrency Service Area currently contains four elementary schools with a combined capacity of 2,574 seats. The current enrollment is 2,226 students representing a 86.5% utilization compared to an adopted LOS standard of 100%.

Student generation estimates for the Brasington Site indicate that 2 elementary seats would be required at buildout. Capacity and level of service projections indicate that this demand can be reasonably accommodated during the five year planning period and into the ten year planning period.

**Middle Schools.** The Brasington Site is situated in the Westwood Concurrency Service Area. The Westwood Concurrency Service Area contains one middle school (Westwood) with a capacity of 1,204 seats. The current enrollment is 1,037 students representing a 86.1% utilization compared to an adopted LOS standard of 100%.

No new capacity is planned for the Westwood Concurrency Service Area during the five, ten and twenty year planning periods. The addition of approximately 500 middle school seats is projected for the twenty year period predominantly in the western areas of the county.

Student generation estimates for the Brasington Site indicate that 1 middle seat would be required at buildout. Capacity and level of service projections indicate that this demand can be reasonably accommodated during the five, ten and twenty year planning period.

**High Schools.** The Brasington Site is situated in the Gainesville Concurrency Service Area. The Gainesville Concurrency Service Area currently has a capacity of 2,182 seats. The current enrollment is 1,824 students representing a 83.6% utilization compared to an adopted LOS standard of 100%..

One new high school is projected for the twenty year planning period to be located in the western portion of the County.

## SUPERINTENDENT OF SCHOOLS

W. Daniel Boyd, Jr., Ed.D.

Student generation estimates for the **Brasington Site** indicate that 1 high school seat would be required at buildout. Capacity and level of service projections indicate that this demand can be reasonably accommodated during the five, ten and twenty year planning period.

**Summary Conclusion.** Students generated by the **Brasington Site** at the elementary, middle levels can be reasonably accommodated for the five, ten and twenty year planning periods.

This evaluation is based on best projections and upon the 2012-2013 Five Year District Facilities Plan adopted by the School Board of Alachua County. The **Brasington Site** is subject to concurrency review and determination at the final site plan for multi-family and the availability of school capacity at the time of such review.
