

**2007**  
**ORANGE CREEK BASIN MANAGEMENT ACTION PLAN**

**STATEMENT OF COMMITMENT TO PLAN IMPLEMENTATION**

The Orange Creek Basin Management Action Plan (BMAP) was finalized as a consensus document on \_\_\_\_\_, 2007, by authorized representatives of the agencies and organizations listed as members of the Orange Creek Basin Working Group (BWG).

The signatories of the BMAP, as applicable to their respective organization's and agency's total maximum daily load allocation, agree to:

- Continue to use an equitable and cost effective coordinated comprehensive watershed management approach that applies the best available science to achieve TMDL-related pollutant load reductions and water quality improvements.
- Seek the necessary approvals and funding to implement the consensus management actions identified in the BMAP, and implement those actions as required approvals and funding are secured.
- Pursuant to the process agreed upon by the BWG, track the implementation of management actions for which they are responsible to assure that the BMAP is carried out.
- Inform DEP and the BWG of any permanent obstacles to carrying out management actions for which they are responsible, including technical, funding, and legal obstacles.
- Conduct water quality monitoring according to the monitoring strategy approved by the BWG.
- Continue to communicate and coordinate actions and funding across agencies and programs with regard to BMAP implementation.
