RE: Alachua County Transportation Disadvantaged Program

Dear Mayor DeLaney:

This letter is in regard to the Transportation Disadvantaged Program established by Chapter 427, Florida Statutes. As you know, the purpose of this program is to provide transportation to individuals who are unable to transport themselves because of age, disability or income status.

The voting and alternate Mass Transit positions on the Alachua County Transportation Disadvantaged Coordinating Board are currently vacant. These positions are to be filled by the Chairperson or designee of the local Mass Transit Board.

We would appreciate your asking the City Commission to recommend individuals to fill these positions. In order to assist you, we have enclosed nomination forms for each position. Please have your office staff complete these forms and return them to our office.

Thank you for your assistance. If you have any questions or need any additional information, please do not hesitate to call Ms. Lynn Franson-Godfrey, Senior Planner, at extension 110.

Sincerely,

Marlie Sanderson
Director of Transportation Planning
