Training/experience:

Years + years ago, I worked summers at a school library, but my main experience is as a library patron and researcher.

What contributions do you feel you could make to the Board of Trustees if you are selected? *Open-mindedness!*

I have visited and used libraries all over the country, as well as having accessed some online. Since I also have a published book (no longer in print) and have conducted a library patron survey (Hanover College, IN), I believe I can contribute experience as a patron, author, & researcher, among other things.
