

100698

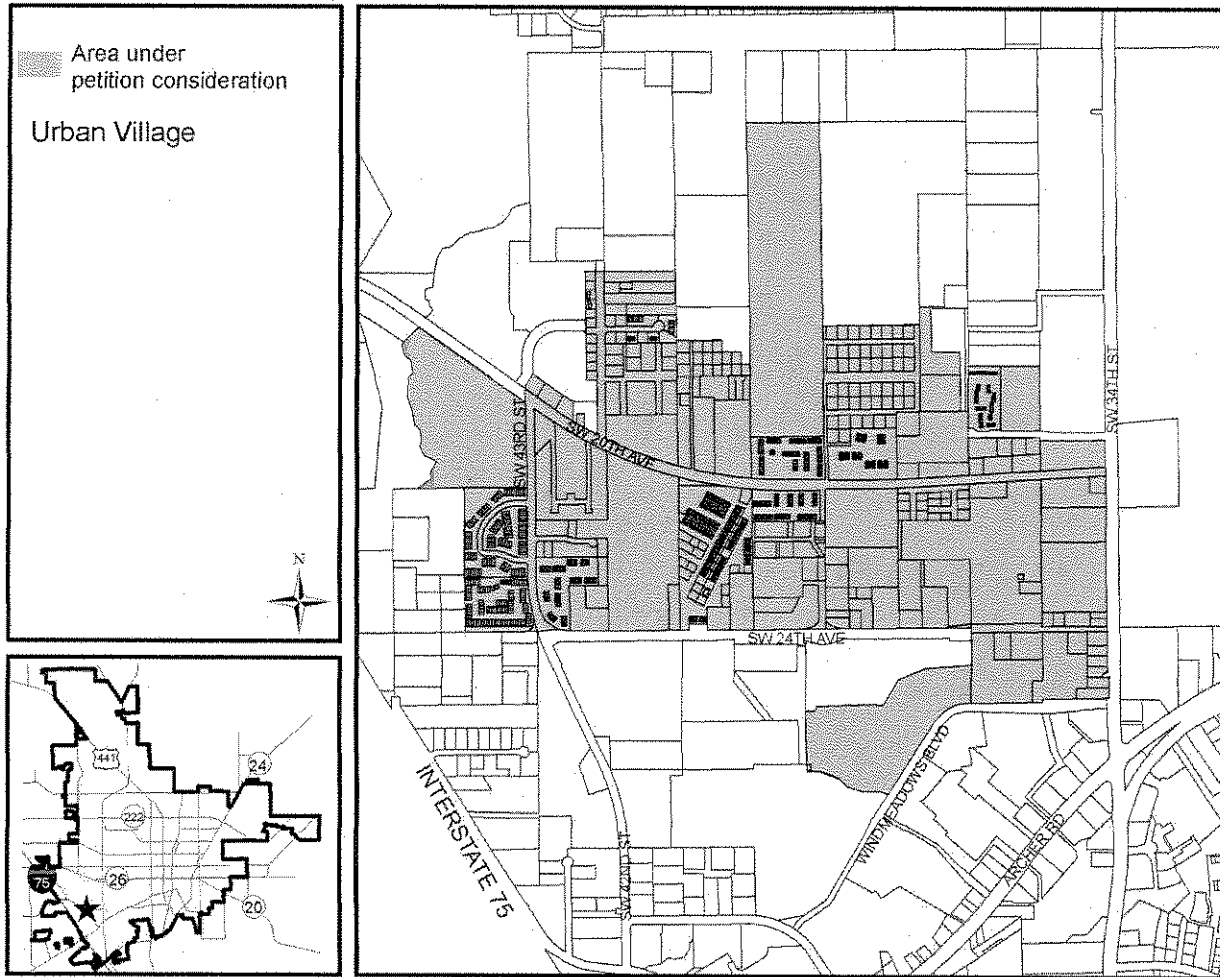

**TO:** City Plan Board **Item number:** 9  
**FROM:** Planning & Development Services Staff **DATE:** January 27, 2011  
**REVISED:** February 9, 2011  
**SUBJECT:** Petition PB-10-137LUC, City of Gainesville. Urban Village Land Use Amendment. Amend the City of Gainesville 2000-2010 Future Land Use Map for annexed areas from multiple Alachua County land use designations (Medium Density Residential (4-8 DU/acre); Medium High Density Residential (8-14 DU/acre); High Density Residential (14-24 DU/acre); Recreation; Commercial; Institutional; and Industrial/Manufacturing) to multiple City of Gainesville land use designations (Urban Mixed-Use 2 (UMU-2: up to 100 units per acre), Conservation, and Public Facilities). Located in the vicinity of Southwest 20<sup>th</sup> Avenue and Southwest 24<sup>th</sup> Avenue, east of Interstate 75 and west of Southwest 34<sup>th</sup> Street. Related to PB-10-141LUC and PB-10-142CPA.

---

### **Recommendation**

Staff recommends approval of Petition PB-10-137LUC.

100698

## Petition History

Properties in this land use petition were originally part of a pair of petitions (PZ-09-145LUC and PZ-09-146ZON) that included a large area of southwest Gainesville annexed from 2005 through 2008. These petitions included the area known as the Urban Village, a redevelopment concept that provides high-density student-oriented housing in proximity to the University of Florida. The Urban Village report (*Urban Village: Status Report on Implementation Tasks*) was approved by the Metropolitan Transportation Planning Organization (MTPo) in April 2008.

The original "Southwest Annexation" petitions were presented to the Plan Board on December 7, 2009 and to the City Commission on January 21, 2010. The City Commission voted to continue the petitions to allow further exploration of implementation options for the Urban Village portion of the petition. Per the requirements of sec. 30-347.8 of the Land Development Code, "If a petition or recommendation for a change or amendment is not acted upon finally by the city commission within six months of the date upon which the report of the city plan board is filed with the city commission, the petition shall be deemed denied without prejudice. However, no petition shall be deemed denied if the city commission has continued its consideration to a date certain, or has stayed action on the petition by enactment of a moratorium ordinance." Since no action was taken during the 6-month time limit, the original land use petition (PZ-09-145LUC) and associated rezoning petition (PZ-09-146ZON) have been deemed denied without prejudice.

Given the opportunity to reintroduce this item, Planning staff chose to address land use changes in the area that comprises the Urban Village as its own petition. Related to this land use amendment, staff has prepared a new map of the Urban Village to be added to the Future Land Use Element map series (PB-10-141LUC) and a comprehensive plan amendment (PB-10-142CPA) that adds a new policy to the Future Land Use Element regulating development and redevelopment in the Urban Village. The “Southwest Annexation” petitions (PB-10-135LUC and PB-10-136ZON) propose land use and zoning for parcels located outside the Urban Village.

One 44-acre parcel in the subject area is long and narrow, extending from north of Hogtown Creek to the developable area south of the wetlands. Because it is mostly in the ten-year flood channel, staff had originally included this parcel with other parcels proposed for Conservation land use in the Southwest Annexation land use petition (PB-10-137LUC). Because approximately ten acres of this parcel are developable and adjacent to the Urban Village, the property owner and Planning staff agreed to remove it from the Southwest Annexation petition, add it to this petition, and propose appropriate land use categories for the developable and flood channel areas of the parcel. At the January 27, 2011 and February 2, 2011 meetings of the City Plan Board, staff presented this change. This revised staff report reflects the Plan Board’s approval of the recommended change.

Appendix B contains an area map that defines the area of the Urban Village and shows the proposed future land use categories for these parcels. A list of included parcels was submitted with the application for this petition, and is included in Appendix C (as amended to include parcel 06724-000-000 based on the Plan Board vote).

## Description

This petition is a large-scale land use amendment to change Future Land Use categories from Alachua County to City of Gainesville designations. It covers approximately 396 acres of southwest Gainesville in the area of SW 20<sup>th</sup> Avenue and SW 24<sup>th</sup> Avenue, west of SW 34<sup>th</sup> Street. Proposed land use categories were selected to reflect existing conditions; be compatible with surrounding uses; and implement the redevelopment vision for this area as Gainesville’s Urban Village by increasing densities and allowing a broad mix of uses.

Existing development in this area is primarily multi-family, with densities around 10 to 15 units per acre. The total acreage consists of the following:

Type of Development	Acres	Percent of total
Developed land (Multi-family)	232.55	58.8%
Developed land (Commercial)	16.57	4.2%
Developed land (Nursing home)	5.25	1.3%
Vacant developable land	52.19	13.2%
Forest Park	26.77	6.8%
Conservation land	34.00	8.6%
Stormwater and utility facilities, rights-of-way, common areas	28.45	7.2%
<b>Total</b>	<b>395.78</b>	<b>100.0%</b>

The primary east-west corridors are SW 20<sup>th</sup> Avenue and SW 24<sup>th</sup> Avenue (each two lanes). The north-south corridors are SW 34<sup>th</sup> Street (six lanes), SW 38<sup>th</sup> Terrace (two lanes), and SW 43<sup>rd</sup> Street (two lanes).

### **History of The Urban Village**

Development of the Urban Village concept has been ongoing for a number of years, with the goal of creating a unique, high-density district in close proximity to the University of Florida. Upon adoption of the Urban Village land use plan in 2008, the MTPO directed the City and County to implement a selected land use scenario. This scenario used a phased approach and identified some areas for 24-40 units per acre and remaining areas for 40-150 units per acre. In the period following the MTPO recommendation, the City annexed all of the properties by June 2009.

Since MTPO adoption of this scenario, the land has been annexed and a land use change is required by the City's comprehensive plan. The proposed change accomplishes the goal of the village in one phase instead of two.

### **City Implementation of the Urban Village**

Staff has addressed the following issues in regard to implementation of the MTPO Urban Village land use scenario:

- **Village boundary:** The outline of the Urban Village study area in the MTPO plan includes the SW 20<sup>th</sup> Avenue corridor and SW 43<sup>rd</sup> Street north of SW 24<sup>th</sup> Avenue, including lands that already have City land uses as well as portions of Hogtown Creek north of the developed properties. Of the annexed properties that require land use and zoning changes, Staff has included most developed or developable properties into the Urban Village. Several parcels are addressed in the Southwest Annexation, and several are excluded from consideration because they already have City land use designations.
- **Density:** Staff has explored a variety of implementation scenarios, including several configurations of mixed-use and high-density residential land use and zoning; establishing a transfer of development rights (TDR) program; adding a new special area overlay district; and creating new land use and/or zoning categories for the area.

The Urban Mixed-Use 2 land use category was selected for the overall Urban Village (apart from the ten-year flood channel proposed for Conservation and parks and stormwater facilities proposed for Public Facilities) because it contains a desirable level of residential density supportive of transit and other multi-modal opportunities, and because it allows a mix of land uses for this area. It includes the range of densities recommended in the MTPO adopted land use scenario. The UMU-2 land use also contains an emphasis on "biotechnology research in close proximity to the University of Florida." The UMU-2 land use category was also selected because the UMU-2 zoning district, as proposed for update (see Petition PB-10-145TCH), will be a good fit for this area and will avoid the need for a special area plan.

## Data and Analysis

The following existing Alachua County land use categories are represented in this petition:

<b>Alachua County Land Use</b>	<b>Acres</b>
Low Density Residential	44.0
Medium Density Residential	3.8
Medium-high Density Residential	56.3
High Density Residential	210.3
Commercial	31.2
Industrial	0.9
Institutional	5.3
Recreation	26.8
Null (see below)	17.3
<b>Total</b>	<b>395.8</b>

Several properties within the subject area are identified as “Null” in the table above. These are commonly-owned properties such as condominium open spaces and stormwater areas. They will be assigned City land use categories based on surrounding property categories and existing use.

The following land uses are proposed:

<b>Proposed City Land Use</b>	<b>Acres</b>
UMU-2	322.9
Conservation	34.0
Public Facilities	38.9
<b>Total</b>	<b>395.8</b>

Please see Appendix B for detailed maps of the subject area.

## Key Issues

This is a wide-ranging group of parcels that spans a variety of contexts. The following key issues were considered as part of staff’s analysis:

- City land use categories must be applied to annexed lands per the comprehensive plan. Lands within the subject area of this petition were annexed as part of the Butler Plaza annexation in 2008 and the Southwest Annexation referendum in 2009.
- In April 2008, the Metropolitan Transportation Planning Organization (MTPO) directed City and County planning staff to implement a selected land use scenario that included densities ranging from 24 to 150 units per acre. This land use change and its related map and comprehensive plan policy amendments are intended to fulfill the MTPO request.
- Planning staff has been working with the Community Redevelopment Agency and a consultant to update the UMU-2 zoning district (Petition PB-10-145TCH), in response to the redevelopment of the Innovation Square area on the former Alachua General Hospital site. The proposed district revisions integrate the form-based requirements of the University Heights special area plan into the conventional zoning district, reflecting the

desire of the City Commission to move away from multiple layers of overlay districts and toward a unified regulatory approach.

The proposed UMU-2 zoning district, in conjunction with the Urban Village comprehensive plan policy proposed in Petition PB-10-142CPA, is appropriate for the this area. UMU-2 land use is being proposed to set the stage for a rezoning petition later in 2011, after the UMU-2 zoning district update is complete.

- The Butler Plaza Planned Unit Development is also within the larger context area addressed by this petition. This PUD includes commercial development north of the existing Butler Plaza development and south of SW 24<sup>th</sup> Avenue. Because it is privately initiated, this development is addressed in a separate petition (PB-09-84PDV).

The current petition is adjacent to the Butler Plaza PUD along SW 24<sup>th</sup> Avenue, as well as around the Windmeadows Apartments. These mixed-use areas are intended to complement the character of proposed commercial uses in the Butler Plaza PUD and provide residential support.

## **Basis for Recommendation**

The staff recommendation is based on the factors stated in the Future Land Use Element and on State statute criteria, which are discussed below: Conformance with the Comprehensive Plan; Compatibility and surrounding land uses; Environmental impacts and constraints; Infill and redevelopment; Impacts on Affordable Housing; Transportation; and Financial Feasibility.

### **Conformance with the Comprehensive Plan**

The proposed land use categories are consistent with the overall goals, objectives, and policies of the adopted comprehensive plan. Furthermore, a related petition (PB-10-142-CPA) proposes a new comprehensive plan policy that will establish the City's full vision and implementing regulations for the Urban Village, including such features as a grid street network, minimum densities, mobility requirements, and incentives.

The following list represents the most pertinent policies to this petition; please see Appendix A for a full list of applicable comprehensive plan policies.

#### *Future Land Use Element*

- |                      |  |
|----------------------|--|
| <b>Objective 4.4</b> | Newly annexed lands shall retain land uses as designated by Alachua County until the Future Land Use Element of this Plan is amended.  |
| <b>Policy 4.4.1</b>  | Land use amendments shall be prepared for all annexed properties within one year of annexation.  |
| <b>Goal 2</b>        | Redevelop areas within the city, as needed, in a manner that promotes quality of life, transportation choice, a healthy economy, and discourages sprawl.   |
| <b>Objective 2.1</b> | Redevelopment should be encouraged to promote compact, vibrant urbanism, improve the condition of blighted areas, discourage urban sprawl, and foster compact development patterns that promote transportation choice. |

### **Compatibility and surrounding land uses**

The subject area is 64.3 percent developed with commercial and multi-family residential development. It also includes Forest Park (comprising 6.8 percent of the land area), a county-owned park with open fields used for soccer, a fenced dog park, and a fire station. Stormwater, common areas, and other public facilities make up 7.2 percent of the area, and conservation lands comprise 8.6 percent.

The mix of land uses surrounding the Urban Village is very diverse, and includes Hogtown Creek and undeveloped conservation areas to the north and west, vacant and developed multi-family lands to the west, the commercially-oriented Butler Plaza PUD to the south, light industrial to the southwest, and University-owned lands to the east and northeast. Much of the land to the north and southwest is subject to change as proposed in Petitions PB-10-135LUC and PB-10-136ZON.

The UMU-2 land use category complements the surrounding land uses in several ways. First, it provides the opportunity for residential development that will support nearby commercial development at Butler Plaza and the Oaks Mall. The high residential densities are also anticipated to concentrate future development in a compact area that will reduce sprawl and support the transit system. UMU-2 also allows for innovation economy and high-tech use in close proximity to the University of Florida.

Public Facilities land use is proposed for properties that are owned by public or private parties and are in use as utilities, right-of-way, or stormwater management facilities. Conservation land use is proposed for a portion of one parcel that is located in the ten-year flood channel.

### **Environmental impacts and constraints**

Some properties in the northern portion of the subject area are located within the ten-year flood channel and may be constrained for development or redevelopment. One such property contains vacant, developable land proposed for the UMU-2 land use category and constrained land proposed for Conservation land use.

The County-owned Forest Park in the northwestern portion of the subject area will continue to be managed as a passive recreational park, and any future development will be in accordance with the proposed Public Facilities land use category and the Land Development Code.

Please see Appendix B for maps of the pertinent environmental features affecting this area.

### **Infill and Redevelopment**

The intent of the Urban Village is to encourage redevelopment of the low- to medium-density residential properties along the SW 20<sup>th</sup> Avenue and SW 24<sup>th</sup> Avenue corridors. This area is seen as a key location for high residential density and mix of uses that will serve the University and surrounding commercial developments.

Furthermore, the ‘village’ concept implies a level of self-sufficiency for this area. The proposed mixed-use land use will provide the opportunity for retail, office, residential, and recreational uses, supported by high-density residential development.

### **Impacts on Affordable Housing**

The proposed City UMU-2 land use category represents a significant increase in allowable densities over the existing County designations, creating the opportunity for affordable housing.

100698

## Transportation

Primary roads serving the subject area include Archer Road, SW 34<sup>th</sup> Street, SW 20<sup>th</sup> Avenue, SW 42<sup>nd</sup>/43<sup>rd</sup> Street, and SW 24<sup>th</sup> Avenue.

Several FDOT roadway projects are currently underway in this area on roads that provide access to the Urban Village: one project expands the northbound left turn lane off Archer Road onto SW 40<sup>th</sup> Boulevard from one to two lanes; another expands the eastbound right turn lane from SW 43<sup>rd</sup> Street onto SW 20<sup>th</sup> Avenue; and some Archer Road medians are being reconfigured to improve safety.

The subject area is served by the following RTS routes:

Area Served	RTS Route number	Peak weekday headways
SW 20 <sup>th</sup> Avenue	20	10
SW 20 <sup>th</sup> Avenue	21	10
SW 34 <sup>th</sup> Street, SW 43 <sup>rd</sup> Street, SW 20 <sup>th</sup> Avenue, SW 24 <sup>th</sup> Avenue	22	10
SW 34 <sup>th</sup> Street	34	20
Archer Road and Butler Plaza	1	20
	12	10
	75	35
SW 34 <sup>th</sup> Street, SW 20 <sup>th</sup> Avenue, SW 24 <sup>th</sup> Avenue	28 <i>Beginning Fall 2011</i>	TBD

Transit in this area includes weekday, weekend, and “Later Gator” after-hours service. An additional route that is planned but not funded is Route 62, which connects the Oaks Mall with Butler Plaza via SW 62<sup>nd</sup> Boulevard. This new route is shown on the 5-Year Schedule of Capital Improvements. See Appendix B for detailed information regarding transit routes, headways, and ridership.

The SW 20<sup>th</sup> Avenue corridor was studied as part of the Bus Rapid Transit (BRT) feasibility study (concluded in March 2010). This corridor was highly ranked and is currently the recommended route for BRT through this area of Gainesville. The next step in this process will be the Alternatives Analysis, which will commence in early 2011 and result in 30 percent design plans.

Construction is currently underway on an advanced bus bay on SW 20<sup>th</sup> Avenue east of 38<sup>th</sup> Terrace. This project includes pull-off lanes for busses and pedestrian-actuated crossing signals. Bus pulloff lanes are also under construction at the intersection of SW 20<sup>th</sup> Avenue and 43<sup>rd</sup> Street.

The adopted Butler Plaza Planned Unit Development contains a commitment to fund and build a transit transfer station and 50-car park-and-ride facility. This station will be located within the PUD and will assist transit mobility in the Urban Village area.

Sidewalks are sporadic in the subject area, but are found on SW 34<sup>th</sup> Street, SW 24<sup>th</sup> Avenue, and one side of SW 20<sup>th</sup> Avenue. Street-oriented bicycle facilities are found on all the major roads in the area. Please see Appendix B for maps of sidewalk and bicycle facilities.

All parcels are located in TCEA Zone M, which is defined in Policy 1.1.13 of the Concurrency Management Element. This policy establishes a list of mobility needs and requires proportionate fair share payments for development and redevelopment generating new trips.

This area is also in the University of Florida context area. Concurrency Management Element Policy 1.1.14 requires support for transit capital costs.

Please see Appendix A for the full text of referenced comprehensive plan policies.

### **Financial Feasibility**

Several characteristics of the Urban Village land use proposal make it difficult to predict the impact these land use changes will have:

- First, the area currently contains only 52.2 acres of vacant developable land, representing 13 percent of the overall land area. This means that 87 percent of the land is developed, is undevelopable due to the ten-year flood channel, or is in use as a public facility. New development will primarily occur as redevelopment of older properties, as economic conditions allow. The multi-family properties in the Urban Village range from 39 years (Windmeadows, 1972) to six years (Hailey Gardens, 2005) in age, with an average age of 26 years.

Redevelopment will also be affected by the small size of the vacant developable parcels that comprise this area, which range from 0.01 to 4.1 acres. There is a ten-acre portion of one parcel that is vacant and developable, as well as two groups of contiguous vacant parcels held in the same ownership that could potentially redevelop in the short term. Each of these groups is under 7 acres, and none of the areas of vacant land are located adjacent to each other.

- Second, this is intended as a long-range redevelopment scenario that develops over decades. The MTPO analysis was based on a 2050 planning horizon; depending on how the economy rebounds in the future, even in 40 years this area may not have fully redeveloped. This incremental pace will allow the City to adjust to needed services over time. All development and redevelopment will be required to meet the City's adopted level of service (LOS) standards.
- Finally, the proposed UMU2 land use allows a broad range of uses which may result in development ranging from entirely commercial to entirely residential, and with residential densities up to 100 units per acre (or 125 units by Special Use Permit). This wide variation in development potential makes it difficult to predict the impact of the proposed land use on LOS.

The following table compares the existing and potential residential development for the Urban Village, if every developable acre were to develop at the maximum allowed density:

	Acres	Max Units (Density * Acres)	Max Population (Units * 2.25)
<b>Existing County designations</b>	<b>314.4</b>	<b>6,041</b>	<b>13,592</b>
Low-Density Residential (1-4 units/acre)	44.0	176	396
Medium-Density Residential (4-8 units/acre)	3.8	30	68
Medium-High-Density Residential (8-14 units/acre)	56.3	788	1774
High-Density Residential (14-24 units/acre)	210.3	5,046	11,354
<b>Proposed City designations (UMU2 Land Use @ 100 units/acre)</b>	<b>322.9</b>	<b>32,285</b>	<b>72,642</b>
<b>Difference (Proposed – Existing)</b>	<b>8.5</b>	<b>+26,244</b>	<b>+59,050</b>

The MTPO Density Maximization scenario contains the following estimates:

	Max Units	Max Population (Units * 2.0)
<b>Proposed Density Maximization (average 100 units/acre)</b>	<b>30,625</b>	<b>61,250</b>

Assuming that the eventual buildout will result in less actual population than the maximum estimate shown above, Staff is comfortable using the LOS analysis used in the MTPO report, which is based on a population of 61,250.

The following LOS impacts are anticipated as a result of the proposed land uses:

**Potable water and wastewater**

Analysis of water and wastewater demand as estimated by Gainesville Regional Utilities (GRU) was conducted as part of the MTPO Urban Village report. The report states that “GRU does not anticipate any deficiencies in the provision of potable water and sanitary sewer service resulting from the proposed land use scenarios through the planning horizon of 2050.”

**Stormwater**

Stormwater requirements are determined at the time of development review based on site-specific features. Currently there are no stormwater deficiencies, but future road paving and development activities will require stormwater facilities.

In order to develop at the proposed densities, alternatives to conventional stormwater designs will need to be considered. Such high-density development typically does not leave enough room for surface stormwater ponds. Alternatives such as centralized systems serving more than one property or on-site vaulted systems will need to be considered.

**Recreation**

The maximum buildout scenario of 61,250 new residents would result in several Recreation LOS standards falling below acceptable levels. Like the other standards, this will be affected by the pace of development and the eventual population level.

**Solid waste**

The estimated solid waste disposal and collection capacity for the Urban Village is calculated as follows:

<b>Estimated Max Population</b>	<b>Pounds per day per capita</b>	<b>Total (pop * lbs/day)</b>
61,250	3.6	220,500

As the Urban Village develops, coordination with Alachua County, the municipal solid waste provider, will be necessary to maintain the adopted level of service.

**Public school facilities**

The MTPO report estimates that the Density Maximization scenario will result in 11,025 new public school students (0.36 per dwelling unit). While new school facilities are planned that will increase capacity of the school district, the planned facilities do not take into account the significant population increase likely in the Urban Village. As the Urban Village redevelops, extensive coordination with the School Board will be needed regarding school facility and capacity issues.

This calculation, like the others, is speculative. The primary focus of the Urban Village is student-oriented housing, so the impact to public schools may be much lower.

**Transportation**

For parcels in a Dense Urban Land Area (DULA) TCEA, which the City of Gainesville is, Florida Statute 163.3177(3)(b)2.(f) is applicable:

“A local government’s comprehensive plan and plan amendments for land uses within all transportation concurrency exception areas that are designated and maintained in accordance with s. 163.3180(5) shall be deemed to meet the requirement to achieve and maintain level-of-service standards for transportation.”

At the time of development plan review, any development within this area will be required to meet the standards for TCEA Zone M and Concurrency Management Element Policy 1.1.14.

Respectfully submitted,

Onelia Lazzari  
Principal Planner

Prepared by: Susan Niemann

**Petition Information**

**Applicant Information** City of Gainesville  
**Request** Amend the City of Gainesville 2000-2010 Future Land Use Map for the annexed area from multiple Alachua County designations to multiple City of Gainesville designations  
**Existing Land Use** Multiple County designations  
**Existing Zoning** Multiple County designations  
**Purpose of Request** To change from County to City land use designation  
**Location** See map in Appendix B  
**Existing Uses** Residential, commercial, public facility, vacant  
**Surrounding Uses**  
 North: City- and privately-owned conservation land  
 South: Butler Plaza PUD  
 West: Interstate 75, City-owned conservation land  
 East: SW 34<sup>th</sup> Street; University-owned hotel, office/ research, and parking

**Surrounding Controls**

The subject area is surrounded by the following land use and zoning designations. Please note that land use and zoning categories in *italics* are proposed as part of an active petition: the Southwest Annexation (PB-10-135LUC and PB-10-ZON) or the Butler Plaza Planned Use District (PB-09-84PDV).

	<b>Future Land Use</b>	<b>Zoning</b>
<b>North</b>	<i>Conservation</i> <i>Public Facilities</i> Residential Low (some existing, some proposed)	<i>Conservation (CON)</i> <i>Public services and operations (PS)</i> RMF-5 (some existing, some proposed)
<b>West</b>	Conservation Mixed-use Medium-intensity Residential Medium Density	Conservation (CON) MU-2
<b>East</b>	Education (some existing, some proposed) Public Facility Mixed-use Low-intensity	Education (ED) (some existing, some proposed) Public Services and Operations (PS) MU-1
<b>South</b>	Planned Unit Development (PUD)	<i>Planned Development (PD)</i>

## **Appendix A**

### **Applicable Goals, Objectives, and Policies of the Comprehensive Plan**

#### **Future Land Use Element**

##### **Goal 2**

Redevelop areas within the city, as needed, in a manner that promotes quality of life, transportation choice, a healthy economy, and discourages sprawl.

##### **Objective 2.1**

Redevelopment should be encouraged to promote compact, vibrant urbanism, improve the condition of blighted areas, discourage urban sprawl, and foster compact development patterns that promote transportation choice.

##### **Policy 2.1.1**

The City shall continue to develop recommendations for areas designated as redevelopment areas, neighborhood centers and residential neighborhoods in need of neighborhood enhancement and stabilization.

##### **Policy 4.1.1**

Land Use Categories on the Future Land Use Map shall be defined as follows:

##### **Urban Mixed-Use 2 (UMU-2: up to 100 units per acre)**

This category allows a mixture of residential, retail and office/research uses. The Urban Mixed districts are distinguished from other mixed-use districts in that they are specifically established to support biotechnology research in close proximity to the University of Florida. An essential component of the district is orientation of structures to the street and pedestrian character of the area. Retail and office uses located within this district should be scaled to fit into the character of the area. Residential density shall be limited to 100 units per acre with provisions to add up to 25 additional units per acre by special use permit. All new development must be a minimum of 2 stories in height. Building height shall be limited to 6 stories and up to 8 stories by special use permit. Land development regulations shall set the appropriate densities; the distribution of uses; design criteria; landscaping, pedestrian, and vehicular access. Land development regulations shall specify the criteria for the siting of public and private schools, places of religious assembly and community facilities within this category.

##### **Conservation**

This category identifies areas environmentally unsuited to urban development, permanent buffers between land uses, areas used for passive recreation and nature parks. Privately held properties within this category shall be allowed to develop at single-family densities of 1 unit per 5 acres. Land development regulations shall determine the appropriate scale of activities, structures and infrastructure that will be allowed.

### **Public Facilities**

This category identifies administrative and operational governmental functions such as government offices, utility facilities and storage facilities. Maximum lot coverage in this district shall not exceed 80 percent.

#### **Policy 4.1.3**

The City will review proposed changes to the Future Land Use Map by considering factors such as, but not limited to, the following:

1. Overall compatibility of the proposal;
2. Surrounding land uses;
3. Environmental impacts and constraints;
4. Whether the change promotes urban infill; and
5. Whether the best interests, community values, or neighborhood support is achieved.

In no case shall this or any other Policy in the Future Land Use Element indicate a presumption that the City shall support a change of designation of land use for any parcel.

#### **Objective 4.4**

Newly annexed lands shall retain land uses as designated by Alachua County until the Future Land Use Element of this Plan is amended.

##### **Policy 4.4.1**

Land use amendments shall be prepared for all annexed properties within one year of annexation.

##### **Policy 4.4.2**

Alachua County LOS standards shall apply until newly annexed lands are given land use designations in this Plan.

### **Concurrency Management Element**

#### **Policy 1.1.13**

Within Zone M, development or redevelopment shall be required to meet standards by making a proportionate share payment of the planned costs to fund mobility, including transit, pedestrian, bicycle, and vehicular needs, in the zone. This may include projects outside the limits of Zone M (in adjacent areas) that can be demonstrated to be a direct benefit to the transportation system in the area of Zone M. The proportionate share shall be based on the development's (including all phases) trip generation and proportional impact on transportation mobility facilities calculated as set forth in Sec. 30-37.3(d), *Determining proportionate fair-share obligation*, subsections (1), (2) and (3), of the City Land Development Code. In addition to making the proportionate share payment, development or redevelopment that has a net, new average daily trip generation of greater than 5,000 trips shall either be located on an existing transit route with minimum fifteen minute frequencies in the a.m. and p.m. peak hours for RTS or shall provide funding for a new transit route with minimum fifteen minute frequencies in the a.m. and p.m. peak hours for RTS or provide funding to improve transit headways to minimum fifteen minute frequencies in the a.m. and p.m. peak hours for RTS. Funding for new routes shall include capital and operating costs for a minimum of 5 years. Funding for existing route expansions shall include capital and

operating costs for three years. The mobility needs in Zone M shall be identified in the City's 5-Year Schedule of Capital Improvements. The developer shall sign an agreement with the City of Gainesville for the provision of mobility needs. It shall be anticipated that the provision of all mobility needs in Zone M may span a 20 to 30 year time period. The following is a list of mobility needs/projects in Zone M:

- a. Roadway projects to: provide a more interconnected transportation network in the area, provide alternate routes to reduce congestion, and reduce pressure on arterials. All roadway projects shall include bicycle and pedestrian facilities. These projects include, but are not limited to the following projects:
  1. extension of Hull Road consistent with MTPO Option M;
  2. extension of SW 62<sup>nd</sup> Boulevard to SW Archer Road in accordance with the MTPO design; and,
  3. extension of streets, deeding of land, or easements to create a more gridded network and provide connectivity;

Developers may deed land for right of way and/or construct roadway extensions to City specifications. Prior to the donation of the right of way, the developer and the City must agree upon the fair market value of the land for the purposes of meeting this standard. In the event the parties cannot agree as to the value of the land, the developer may submit an appraisal acceptable to the City for purposes of establishing value, subject to review by the City.

- b. 8 articulated buses.
- c. Funding for the construction of a new or expanded bus maintenance/operations facility.
- d. Construction of 4 transit superstops on SW 20<sup>th</sup> Avenue built to City specifications.
- e. A Park and Ride facility with a minimum of 100 spaces, including transfer station and restrooms/information center, built to RTS specifications.
- f. Traffic management system equipment for transit vehicles operating in Zone M.
- g. Payments to the Regional Transit System for the capital and operating costs associated with Route 62, which includes 2 new buses.
- h. Construction of public sidewalks where they are not currently existing or completion of sidewalk connectivity projects. Sidewalk construction required to meet Land Development Code requirements along property frontages shall not count as meeting TCEA requirements.
- i. Business operations that can be proven to have limited or no peak hour roadway impact.
- j. Design and/or construction studies/plans for projects such as planned roundabouts, road connections, sidewalk systems, and/or bike trails.
- k. Funding for express transit or bus rapid transit, where appropriate.
- l. An innovative transportation-related modification or standard submitted by the developer, where acceptable to and approved by the City.
- m. Funding for two buses for Route 22.

**Policy 1.1.14**

Within the portion of the University of Florida (UF) Context Area that is located inside city limits (as mapped in the Campus Master Plan), all new multi-family residential development outside of Zone M shall fund the capital transit costs associated with transit service needs for the city portion of the Context Area. Transit capital costs include transit vehicles, maintenance facilities, passenger facilities such as transit shelters, and technology equipment (such as GPS). Payments shall be based on a proportionate share contribution toward the additional transit service enhancements needed to serve the proposed development in the RTS a.m. and p.m. peak hours to maintain existing service levels (frequencies). The projected new trips shall be based on the expected mode split of all development trips that will use transit. If the development is within  $\frac{1}{4}$  mile of UF, there shall be a 25% reduction in the required payment in recognition of the pedestrian and bicycle trips that may occur. Any transit payments required under this policy shall not count towards meeting TCEA standards in Zones B, C, or D. Within Zone M, the proportionate share calculation for standards shall include the additional costs associated with meeting the Context Area transit funding requirements in this policy.

Note: It is recommended that anyone intending to file a petition for amendments to the future land use map or zoning map atlas, meet with the Department of Community Development prior to filing the petition in order to discuss the proposed amendment and petition process. Failure to answer all questions will result in the application being returned to the applicant.

REQUEST

Check applicable request(s) below:

Future Land Use Map <input checked="" type="checkbox"/>	Zoning Map <input type="checkbox"/> no	Master Flood Control Map [ ]
Present designation: <u>Multiple AC</u>	Present designation:	Other [ ] Specify:
Requested designation: <u>multiple</u>	Requested designation:	

COC

INFORMATION ON PROPERTY

1. Street address: <u>many</u>
2. Map no(s): <u>4144-4145 4243-4244-4245 4344-4345</u>
3. Tax parcel no(s): <u>many</u>
4. Size of property: <u>approx 350</u> acre(s)

All requests for a land use or zoning change for property of less than 3 acres are encouraged to submit a market analysis or assessment, at a minimum, justifying the need for the use and the population to be served. All proposals for property of 3 acres or more **must** be accompanied by a market analysis report.

Certified Cashier's Receipt:

5. Legal description (attach as separate document, using the following guidelines):

- a. Submit on 8 1/2 x 11 in. sheet of paper, separate from any other information.
- b. May not be included as part of a Purchase Agreement, Contract for Sale, Lease Agreement, Transfer of Title, Warranty Deed, Notice of Ad Valorem Taxes, Print-outs from Property Appraiser's Office, etc.
- c. Must correctly describe the property being submitted for the petition.
- d. Must fully describe directions, distances and angles. Examples are: North 20 deg. West 340 feet (not abbreviated as N 20 deg. W 340'); Right-of-Way (not abbreviated as R/W); Plat Book (not abbreviated as PB); Official Records Book 1, page 32 (not abbreviated as OR 1/32); Section 1, Township 9 South, Range 20 East (not abbreviated as S1-T9S-R20E).

6. INFORMATION CONCERNING ALL REQUESTS FOR LAND USE AND/OR

ZONING CHANGES (NOTE: All development associated with rezonings and/or land use changes must meet adopted level of service standards and is subject to applicable concurrency requirements.)

A. What are the existing surrounding land uses?

North undeveloped land - subject to change by "Southwest Annexation" land use & zoning petitions

South Butler Plaza Planned Unit Development

East University of Florida-owned hotel, offices research; SW 34th Street

West city-owned conservation land, undeveloped residential

B. Are there other properties or vacant buildings within 1/2 mile of the site that have the proper land use and/or zoning for your intended use of this site?

NO

YES \_\_\_\_\_ If yes, please explain why the other properties cannot accommodate the proposed use?

C. If the request involves nonresidential development adjacent to existing or future residential, what are the impacts of the proposed use of the property on the following:

Residential streets

Noise and lighting

D. Will the proposed use of the property be impacted by any creeks, lakes, wetlands, native vegetation, greenways, floodplains, or other environmental factors or by property adjacent to the subject property?

NO \_\_\_ YES K (If yes, please explain below)

Creek & wetlands to the north proposed for Conservation land use & zoning in concurrent petitions. No direct impact is anticipated.

E. Does this request involve either or both of the following?

a. Property in a historic district or property containing historic structures?

NO K YES \_\_\_

b. Property with archaeological resources deemed significant by the State?

NO K YES \_\_\_

F. Which of the following best describes the type of development pattern your development will promote? (please explain the impact of the proposed change on the community):

Redevelopment K

Urban Infill \_\_\_

Activity Center K

Urban Fringe \_\_\_

Strip Commercial K

Traditional Neighborhood \_\_\_

Explanation of how the proposed development will contribute to the community.

G. What are the potential long-term economic benefits (wages, jobs & tax base)?

Urban Village will institute a mixed-use area intended to attract mixed-use development.

H. What impact will the proposed change have on level of service standards?

Roadways See attached staff report.

Recreation

Water and Wastewater

Solid Waste

Mass Transit

I. Is the location of the proposed site accessible by transit, bikeways or pedestrian facilities?

NO  YES  (please explain)

Major transit corridors - SW 20th Ave, 34th Street

See attached report for more information

CERTIFICATION

The undersigned has read the above application and is familiar with the information submitted. It is agreed and understood that the undersigned will be held responsible for its accuracy. The undersigned hereby attests to the fact that the parcel number(s) and legal description(s) shown in questions 3 and 5 is/are the true and proper identification of the area for which the petition is being submitted. Signatures of all owners or their agent are required on this form. Signatures by other than the owner(s) will be accepted only with notarized proof of authorization by the owner(s).
