Subject: Proposed Removal of BellSouth Overhead Plant on SW 2nd Avenue, Gainesville

Mr. Reid Rivers,

BellSouth has received a request to remove all existing overhead plant from the pole line on SW 2nd Avenue between SW 8th Street and SW 12th Street. Because the planning is in early development, we can only provide you with an estimated cost. If the City plans to continue with the project, BellSouth will design a work order to remove all aerial cable and attachments and a final cost will be provided at that time. At this time, based on the information we have been provided about the project, the estimated cost of the removal will not exceed Eighty Five Thousand dollars (\$85,000.00).

Please keep in consideration that should this project proceed, you will need to sign an agreement with BellSouth regarding the limits of the work being performed as well as provide advanced payment. Engineering will not begin until these items have been received.

Should you have any questions regarding the above information, please feel free to contact me by e-mail or at the number listed above.

Sincerely,

Kevin Harrison
Specialist, BellSouth
