American Building Products Cherokee 8'x8' shelter is not accepted as specifications were not provided detailing where the bidder would place the park map.

Patterson-Williams 1140 Series Grills are not accepted. The City prefers a grill with a surface mounted plate that bolts to a concrete base.

Dogipot Quik Pet Station is approved as an alternate/ or equal product.

15. Question: The plans do not indicate a border between the exercise equipment and grass. Please provide a basis of design that is desired to retain mulch in these areas.

Answer: The contractor shall excavate and backfill with Engineered Wood Fiber mulch around the exercise equipment to the depth required by the playground equipment manufacturer. You are correct that there is not a separate border.

16. Question: It was stated in the pre-bid meeting that the memorial and the site prep for the memorial is out of our scope. Please confirm if this is the case.
Answer: Correct. The artist will be responsible for providing the piece of public art. A change order would be negotiated if the foundation for the piece of public art were to be brought under the site work contractor's scope of work.
17. Question: See sheets L-2.2 and L-2.3, There is a dashed line slightly off center of the concrete sidewalk, what is this dashed line referring to? See Sketch #1 Attached
Answer: The dashed line does not reference anything and is showing up in error.
18. Question: See sheet L-0.2, In the Summary of Quantities under the heading signage there is reference to a sign for the community garden to be furnished and installed. Please provide spec for community garden sign.
Answer: The Contractor should base their bid on a 24"x24" Dibond sign mounted on a single post. The City will provide the final design for the community garden sign.
19. Question: Please provide detail of community garden fence doors.
Answer: Please see Question Attachment
20. Question: Is there an edge product to be used around the perimeter of the engineered wood fiber?
Answer: No. The contractor shall excavate and backfill with Engineered Wood Fiber mulch around the exercise equipment to the depth required by the playground equipment manufacturer. The concrete sidewalk shall act as a border in the 2-5, 5-12 and swing set area.
21. Question: See drawing #2 on L-4.1, the fence detail shows three locations for "1X6 Treated Pine" is the center location referring to a sill mounted on top of the 2x4 treated Pine rail? See Sketch#2 Attached.
Answer: The correction dimension is 2x4 not 1x6. There is no sill.
22. Question: See sheet L-4.2, are the flat bricks/pavers the same brick as the vertical bricks?
Answer: Yes. The flat brick and vertical brick shall match the adjacent building's brick in size and color.
23. Question: See sheet L-4.2, drawing #2, do you want a mortar joint in-between the brick pavers as well as 1" mortar bed?
Answer: Yes.
