**MEETING DATE/TIME:** 11/6/2020, 1:00pm

| PRESENTATION/<br>INTERVIEW<br>(100 PTS) | POINT<br>VALUE | POINTS<br>AWARDED | COMMENTS  |
|---|----------------|-------------------|---|
| Understanding of Project                | 40             | 35                | SAAS product for hosting, Maintenance agreeance. Six hours a month. Ability to change but no set charge per year. System lives in AWS and liquidweb. Updates of Linux CMS platform. LAMP Stack. Willing to collaborate. Customizing anit-Drupal. Flattening of content by offering multiple choices in one link window. |
| Responsiveness to Questions             | 15             | 12                | 5 to 15 for microsite that are new independent CMS. Updates across sites but it is ad hoc as things mature. Mapping has a good feel and ability. Maintenance, on going training,  |
| Project Team                            | 25             | 20                | Willingness to assist with the City after implementation to improve on site.  |
| Project Manager                         | 20             | 0                 | No project manager details brought up.  |
| TOTAL                                   | 100            | 67                |   |

**MEETING DATE/TIME:** 11/6/2020, 3:00pm

| PRESENTATION/<br>INTERVIEW<br>(100 PTS) | POINT<br>VALUE | POINTS<br>AWARDED | COMMENTS  |
|---|----------------|-------------------|---|
| Understanding of Project                | 40             | 30                | Proposing ASP .net framework, Hosting, Patche, and updates. Colocated in tier 3 data center. Microsites are only if they fit in the own wireframe. Top level navigation different then the microsite cost additional. Good Preview tool of looking at content on tablet and smartphone which was totally fuctional from the tool. Submitting process can have a process map for the process to follow. Stay away from API integration |
| Responsiveness to Questions             | 15             | 8                 | Would create an Iframe to the CRM but it isn't a real API.  |
| Project Team                            | 25             | 19                | Decent reponse to implementation.   |
| Project Manager                         | 20             | 0                 | No project manager details brought up.  |
| TOTAL                                   | 100            | 57                |   |
