Subject: Funding Recommendation for Gainesville Striders Track Club

On July 17, 2000, I received the requested budget from the Gainesville Striders Track Club for this year's AAU Track and Field National Event. The team has 63 children qualified for this year's event.

Last year the team received \$1,980 or \$46 per child for its 43 children. Based on this year's budget, if the City Commission were to consider funding I am recommending that the City Commission provide funding in the amount of \$ 2,790 from it's Contingency Fund. This would cover the transportation fees of \$900 and the entry fees of \$1,890. This would result in \$44 per child for the 63 qualified children. The total estimated cost is \$16,330. The team has requested \$4,082.50

The department again recommends that the return of receipts for expenses associated with City funds, and volunteer service hours in designated City programs be a requirement of funding.

Cc: Carl Harness, Assistant City Manager
Karen Snyder, Recreation Manager
