6. INFORMATION CONCERNING ALL REQUESTS FOR LAND USE AND/OR ZONING CHANGES (NOTE: All development associated with rezonings and/or land use changes must meet adopted level of service standards and is subject to applicable concurrency requirements.)

A. What are the existing surrounding land uses?

North Conservation (Morningside Park) across E. Univ. Ave to the north.  
 Alachua County: Institutional; Medium Density Residential.  
 Undeveloped; single-family residential; place of religious assembly.

South Alachua County: Medium Density Residential; Institutional;  
 Mixed-Use Residential Medium Density (4-8 units/acre).  
 Undeveloped.

East Alachua County: Institutional; Medium Density Residential;  
 undeveloped; Low-Density Residential.

West Lake Forest Elementary School; single-family residential;  
 Place of Religious assembly.  
 Public facilities (Cone Park), Conservation

B. Are there other properties or vacant buildings within 1/2 mile of the site that have the proper land use and/or zoning for your intended use of this site?

NO

YES

If yes, please explain why the other properties cannot accommodate the proposed use?

There are undeveloped properties within 1/2 mile that allow for residential development (multiple-family and single-family) of 4-8 units per acre. These properties are in unincorporated Alachua County and proximate to the subject property are of lesser extent than the subject property.

C. If the request involves nonresidential development adjacent to existing or future residential, what are the impacts of the proposed use of the property on the following:

Residential streets N/A

Noise and lighting N/A

D. Will the proposed use of the property be impacted by any creeks, lakes, wetlands, native vegetation, greenways, floodplains, or other environmental factors or by property adjacent to the subject property?

NO  YES  (If yes, please explain below)

The majority of the property has strategic ecosystem designation. The property has areas of significant natural communities and listed species habitat. The property contains creeks, floodplains, and wetlands. The property is adjacent to Lone Park and other City lands to the west, and is across E. University Avenue to the east and south of the City's Morning-side Park.

E. Does this request involve either or both of the following?

a. Property in a historic district or property containing historic structures?

NO  YES

b. Property with archaeological resources deemed significant by the State?

NO  YES

F. Which of the following best describes the type of development pattern your development will promote? (please explain the impact of the proposed change on the community):

Redevelopment

Activity Center

Strip Commercial

Urban Infill

Urban Fringe

Traditional Neighborhood

Explanation of how the proposed development will contribute to the community.

There is no proposed development at this time. This is a land use (and related zoning) action that is required because City land use and zoning need to be placed on lands annexed from unincorporated Madison County.

G. What are the potential long-term economic benefits (wages, jobs & tax base)?

The potential long-term economic benefits are generally positive. The proposed City land use (and related zoning) represents an increase in potential density over the existing County land use (and related zoning) category for this

H. What impact will the proposed change have on level of service standards? <sup>undeveloped property.</sup>

Roadways This segment of E. Univ. Ave (SR 26) is operating at LOS "B", as is the adjacent segment of SE 43rd St. There are no major transportation issues associated with the land use or zoning petition, but the project will be subject to the pending Transportation Mobility Program at the time of development plan review. Recreation No recreation issues are associated with the land use or zoning petition for this property.

Water and Wastewater There are mains adjacent to this property. For both water and wastewater collection, GRC would need to evaluate the impact on GRC systems. The water distribution and sewer collection systems may require off-site upgrade. Such evaluation will occur at the time of development plan review.

Solid Waste There are no major solid waste impacts associated with the land use or zoning petition. Review for solid waste concurrency will occur at the time of development plan review.

Mass Transit RTS Route 11 provides service every 30-60 minutes Mon.-Fri., every 60 minutes on Saturdays, and every 60 minutes on Sundays.

The service is provided along E. University Ave and along SE 43rd St in this route between the Downtown Station and Eastwood Meadows (SE 44th St between 92nd & 104th Places)

I. Is the location of the proposed site accessible by transit, bikeways or pedestrian facilities? YES NO YES

NO YES (please explain)

The proposed site is accessible by transit (RTS Route 11) and pedestrian facilities (sidewalks along E. University Avenue to the north and SE 43rd St to the east).
