Carlos,

We just wanted to say thank you for a wonderful job you and everyone in the program that helped with the installation of our air conditioning unit, insulation, air duct, and inspections. Everyone involved professionally did a great job. We appreciate the hard work, and the consideration brought into this program.

Sincerely,

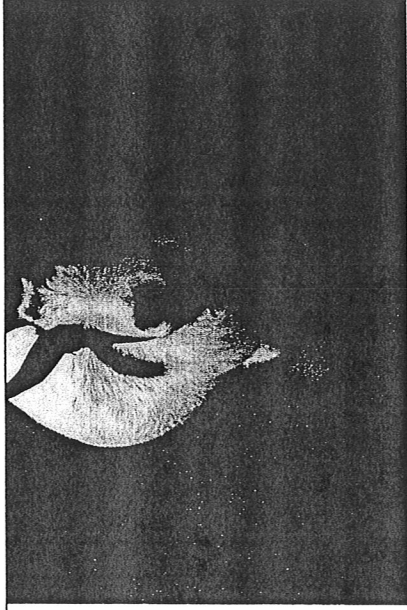

Lea T.

Eleanor T. and family.

Dear Mr. Shepherd,

I am writing this letter of thanks to GRU for choosing me to participate in the LEEP Program, this year. I received a central air/heat system, a water heater, and some attic insulation.

What a difference this has already made! I had one of those houses that never seemed to hold the cool (or the heat in winter) no matter how high or low the thermostat was set. The house is so comfortable now, and weather-tight, that I can set the thermostat to more moderate temperatures and still feel very happy.

My water heater was at least 60 years old and I feel secure that I won't run out of hot water at any time.

Thank you for offering this program. I also told a friend about it and she too may benefit.

Sincerely,

Gail K.
