FW: Monday agenda confusion

Hi Marion, Russ and Kurt,

I have a concern about the two RLUIPA items on the agenda for Monday. I think consent agenda item 070871 needs to be withdrawn from consent to clarify it's intended effect unless it is already agreed upon that:

- 1) The consent agenda item, whatever its purpose, is not to be understood as acceptance of a recommendation of a one acre lot size per a 100 seat worship capacity;
- 2) There has been no unanimous CDC vote at this time to recommend the one acre lot size.
- 3) The discussion of lot size is to be covered under the regular agenda item (#070619 -- the last item of the evening) and is still a wide-open issue.

Thanks,
Jack
