

To be put into the Record

Proclamation

#040952

2/14/25

Madam Mayor, Sir and Madam Commissioners:

First on behalf of all of the local chapters of both Future Business Leaders of America and Phi Beta Lambda I want to express our gratitude for your passage of this proclamation. In recognizing our organization you are joining the Governor of Florida, his Cabinet and the United States Senate among others in supporting an organization whose mission is to bring business and education together in a positive working relationship through innovative leadership and career development programs. Together and with your support we will continue developing our leadership styles so that we may ensure another Enron style catastrophe never occurs again.

The Gainesville connection with Future Business Leaders of America- Phi Beta Lambda has never been stronger. For instance we currently have a FBLA District President from Buchholz High School who unfortunately was unable to attend tonight and we have three Phi Beta Lambda State Officers Brian Bunch our State Treasurer, and Adeniyi Aderibigbe our District II President are both from Santa Fe Community College and I, Seabron Chad Fears, our current State President am from the University of Florida, I know that through support such as yours these members and many more will continue to be involved in this great organization and continue to, politically speaking, move up in the organization.

We will place this proclamation on display in our office and copies will be place on our website to demonstrate what can happen when a City Commission such as yourselves place their support behind their students. With support students excel and we intend to prove this fact over the next year as both the state and national conferences will be held in Orlando and I am sure that several state and national titles will be making a short trip back to Gainesville. Once again thank-you for recognizing Future Business Leaders of America- Phi Beta Lambda Week and if there is ever anything our organization can do for you we are only a phone call away.

Seabron C. Fears

Seabron Chad Fears

Florida Phi Beta Lambda President

National Director of Governmental Relations, Phi Beta Lambda

Not to be into record
