Appendix A Comprehensive Plan GOPs

Future Land Use Element

Policy 1.5.9 The land use map should designate appropriate areas for multi-family residential development in close proximity to neighborhood centers and important transit routes. When appropriate and in a way not detrimental to single-family neighborhoods, the City should encourage the establishment of residential, retail, office, and civic uses within 1/4 mile of the center of neighborhood centers as an effective way to reduce car trips and promote transit, walking, and bicycling.

GOAL 2 REDEVELOP AREAS WITHIN THE CITY, AS NEEDED, IN A MANNER THAT PROMOTES QUALITY OF LIFE, TRANSPORTATION CHOICE, A HEALTHY ECONOMY, AND DISCOURAGES SPRAWL.

Objective 2.1 Redevelopment should be encouraged to promote compact, vibrant urbanism, improve the condition of blighted areas, discourage urban sprawl, and foster compact development patterns that promote transportation choice.

Policy 2.1.2 The City's Future Land Use Plan should strive to accommodate increases in student enrollment at the University of Florida and the location of students, faculty, and staff in areas designated for multi-family residential development and/or appropriate mixed-use development within 1/2 mile of the University of Florida campus and the medical complex east of campus (rather than at the urban fringe), but outside of single-family neighborhoods.

Objective 4.1 The City shall establish land use designations that allow sufficient acreage for residential, commercial, mixed use, office, professional uses and industrial uses at appropriate locations to meet the needs of the projected population and which allow flexibility for the City to consider unique, innovative, and carefully construed proposals that are in keeping with the surrounding character and environmental conditions of specific sites.

Policy 4.1.1 Land Use Categories on the Future Land Use Map shall be defined as follows:

Planned Use District

This category is an overlay land use district which may be applied on any specific property in the City. The land use regulations pertaining to this overlay district shall be adopted by ordinance in conjunction with an amendment to the Future Land Use Map of this comprehensive plan. The category is created to allow the consideration of unique, innovative or narrowly construed land use proposals that because of the specificity of the land use regulations can be found to be compatible with the character of the surrounding land uses and environmental conditions of the subject land. This district allows a mix of residential and non-residential uses

and/or unique design features which might otherwise not be allowed in the underlying land use category. This category shall allow traditional neighborhoods on sites 16 acres or larger in conformance with the adopted Traditional Neighborhood Development (TND) ordinance. Each adopting PUD overlay land use designation shall address density and intensity, permitted uses, access by car, foot, bicycle, and transit, trip generation and trip capture, environmental features and, when necessary, buffering of adjacent uses. Planned Development zoning shall be required to implement any specific development plan under a PUD. In the event that the overlay district has been applied to a site and no planned development zoning has found approval by action of the City Commission within 18 months of the land use designation, the overlay land use district shall be deemed null and void and the overlay land use category shall be removed from the Future Land Use Map, leaving the original and underlying land use in place.
