Petition PB-12-00008
Planned Development Amendment

Technical Review Committee:

Planning Comments 03/07/2012
 LAWRENCE CALDERON, Lead Planner, 334-5023

RECOMMENDATIONS/REQUIREMENTS/COMMENT

1. Please note the following conditions and requirements of the PD that must be addressed due to the proposed PD amendment.
 - a. Please provide dimensions on the PD Layout Plan for the proposal to the west of the building.
 - b. Since the new PD Layout Plan will be replacing the old one, please provide dimensions on the remaining portion of the site in the same manner as the old PD Layout Plan. We do not want to have two PD Layout Plans for the same project. I am sure the ordinance modification will repeal the old one.
 - c. Please label the map showing proposed layout of parking as CONCEPTUAL ONLY: NOT TO BE

ADOPTED WITH OTHER MAPS

2. Please provide a new PD Report addressing any modifications of the first one submitted.
3. Please modify the PD Layout Plan or the PD Report to address the total number of parking spaces on site and how future parking standards should be addressed. Based on the available seating capacity, staff recommends the regular code standard but that standard cannot have excess parking. You may want to think about how this should be address.
4. Development plan review will be required to implement the PD amendment if it is approved.

INCOMPLETE

This review is confined to an evaluation of the project's ability to comply with the requirements of the Hazardous Materials Management Code, Chapter 353, Alachua County Code.

Comments by:

Agustin Olmos, P.E.

RECOMMENDATIONS/COMMENTS

Former Clay Electric petroleum cleanup site, all tanks were removed in 1989 and a "No Further Action" order was issued in 1996. No issues.

Basis for Disapproval (If applicable)
