**Minutes from Neighborhood Workshop
Held by Villas at 39th, LLC**

APR 16 2009
PLANNING
DIVISION

These are the minutes from the neighborhood workshop meeting held April 15, 2009 at Lewis Place Apartments, 4121 NE 15th Street, Gainesville, FL . This meeting was held to discuss a rezoning to commercial, general business district on 7.5 acres located at NE 1st Way and 39th Avenue. This was not a public hearing. The purpose of the meeting was to inform neighboring property owners of the nature of the proposal and to seek their comments.

The meeting started with a presentation by Howard Wallace. He welcomed everyone and made sure everyone had a hand out packet (copy attached). He displayed a large size blow-up of the site map which had been included in the packet. He showed where the fence ran along two sides of the property and where the property set in relationship to the neighborhoods surrounding it. He then asked for questions.

Joy Goodman asked, "Does this change my property value and how far is it from my lot?" Wallace showed her where her lot was in relation to the 7.5 acre site and that it should not change her property value. Wallace discussed the fact that the entrance road at 39th Avenue into the neighborhood of Villas at 39th might change location depending on the end user of the 7.5 acre site. JC Thomas asked, "What about the retention pond?" Wallace explained that FDOT actually dug the hole there when they needed fill dirt to change the elevation of 39th Avenue going over the railroad tracks some 50 years ago.

Howard Wallace then asked, "What is needed in this area?" and a lively discussion ensued. There were no objections or negative feedback, just positive responses. The requested potential services were:

- Bank
- Golden Coral
- Restaurant
- Supermarket
- Taco Bell
- Moe's
- ChicFilet
- Long John Silvers
- Starbucks with drive thru
- Subway
- Dry Cleaners
- Cedar River
- Discount Auto Parts
- Chunkie Cheese
- Pizza Parlor
- Campus Credit Union
- City College
- Barber Shop/Hair Salon
- Nail Salon

Howard Wallace thanked everyone for their input and the meeting ended.

Sec. 30-61. General business district (BUS).

(a) *Purpose.* The general business district is established to provide for a wide range of commercial, business and office uses located along major transportation arteries and frontage roads. The district shall be located so as to promote compatibility with residential uses while maintaining flexibility for commercial uses. If appropriate transitional zones between residential and general business areas do not exist, they must be provided through the use of design features under the development plan provisions of this chapter. Residential uses are encouraged both to buffer the more intense aspects of these areas and to provide greater flexibility in areas of existing strip development.

(b) *Objectives.* The provisions of this district are intended to:

- (1) Permit compatible commercial, office and service developments that benefit from being located in close proximity to each other;
- (2) Minimize traffic congestion on public streets;
- (3) Ensure, through development plan approval, that major commercial developments are designed to promote the most efficient use of the land, as well as establish a harmonious relationship between such development and its environment;
- (4) Require appropriate buffering or screening around such development when it abuts any residential district boundary, to maintain its compatibility with such abutting district; and
- (5) Discourage, as much as possible, encroachment by industrial, residential or other uses considered capable of adversely affecting the basic commercial characteristics of the district.
- (6) Provide community level services and retail uses. Such districts should not overlap other community serving activity centers.

(c) *Permitted uses.*
