*Focused on Excellence
Delivered with Integrity*

January 12, 2012

Mr. Erik Bredfeldt, AICP, Ph.D., Planning and Development Director

City of Gainesville Planning Department
306 Northeast 6th Street
Gainesville, FL 32601

Re: Hodge Property (Alachua County Tax Parcel 15239-000-000) –
Rezoning Application

Dear Mr. Bredfeldt: *Erik*

Attached, please find attached the following items:

- The required City of Gainesville application;
- An affidavit authorizing Causseaux, Hewett, & Walpole, Inc. as agent with property records and tax roll documents;
- A check in the amount of \$2,929.50 for application fees;
- Neighborhood Workshop materials;
- A legal description for the subject property;
- Fourteen (14) copies of the Rezoning Justification Report.

We submit these items for your review and approval for the above referenced project. As you know, the proposed rezoning will change ± 0.25 acres from Residential Multi-Family 8 (RMF-8) to Mixed Use 1 (MU-1). The rezoning will enhance redevelopment opportunity by designating a zoning category that is consistent with adjacent neighboring properties.

We trust this submittal will be sufficient for your review and subsequent approval by the City Plan Board and City Commission. If you have any questions or need additional information, please call me directly.

Sincerely,
Causseaux, Hewett, & Walpole, Inc.

Requested designation:	Requested designation: MU-1	

INFORMATION ON PROPERTY

1. Street address: 515 NW 13th Terrace (Alachua County Property Appraiser Information)
2. Map no(s):
3. Tax parcel no(s): 15239-000-000
4. Size of property: 0.25 acre(s)
<i>All requests for a land use or zoning change for property of less than 3 acres are encouraged to submit a market analysis or assessment, at a minimum, justifying the need for the use and the population to be served. All proposals for property of 3 acres or more must be accompanied by a market analysis report.</i>

Certified Cashier's Receipt:

5. Legal description (attach as separate document, using the following guidelines):
- a. Submit on 8 ½ x 11 in. sheet of paper, separate from any other information.
 - b. May not be included as part of a Purchase Agreement, Contract for Sale, Lease Agreement, Transfer of Title, Warranty Deed, Notice of Ad Valorem Taxes, Print-outs from Property Appraiser’s Office, etc.
 - c. Must correctly describe the property being submitted for the petition.
 - d. Must fully describe directions, distances and angles. Examples are: North 20 deg. West 340 feet (not abbreviated as N 20 deg. W 340’); Right-of-Way (not abbreviated as R/W); Plat Book (not abbreviated as PB); Official Records Book 1, page 32 (not abbreviated as OR 1/32); Section 1, Township 9 South, Range 20 East (not abbreviated as S1-T9S-R20E).

6. **INFORMATION CONCERNING ALL REQUESTS FOR LAND USE AND/OR ZONING CHANGES** (NOTE: *All development associated with rezonings and/or land use changes must meet adopted level of service standards and is subject to applicable concurrency requirements.*)

A. What are the existing surrounding land uses?

North

Residential Medium (RM) & Mixed-Use Low (MUL)

South

Mixed-Use Low (MUL) & Urban Mixed-Use 1 (UMU-1)

East

Mixed-Use Low (MUL)

West

Residential Medium (RM)

B. Are there other properties or vacant buildings within ½ mile of the site that have the proper land use and/or zoning for your intended use of this site?

NO

YES

If yes, please explain why the other properties cannot accommodate the proposed use?

See Justification Report for explanation

C. If the request involves nonresidential development adjacent to existing or future residential, what are the impacts of the proposed use of the property on the following:

Residential streets

See Justification Report

Noise and lighting

See Justification Report

D. Will the proposed use of the property be impacted by any creeks, lakes, wetlands, native vegetation, greenways, floodplains, or other environmental factors or by property adjacent to the subject property?

NO YES ____ (If yes, please explain below)

E. Does this request involve either or both of the following?

a. Property in a historic district or property containing historic structures?

NO YES ____

b. Property with archaeological resources deemed significant by the State?

NO YES ____

F. Which of the following best describes the type of development pattern your development will promote? (please explain the impact of the proposed change on the community):

Redevelopment
Activity Center ____
Strip Commercial ____

Urban Infill
Urban Fringe ____
Traditional Neighborhood ____

Explanation of how the proposed development will contribute to the community.

[Please see Justification Report](#)

- G. What are the potential long-term economic benefits (wages, jobs & tax base)?

[Please see Justification Report](#)

- H. What impact will the proposed change have on level of service standards?

Roadways

[Please see Justification Report for public facilities analysis](#)

Recreation

[Please see Justification Report for public facilities analysis](#)

Water and Wastewater

[Please see Justification Report for public facilities analysis](#)

Solid Waste

[Please see Justification Report for public facilities analysis](#)

Mass Transit

[Please see Justification Report for public facilities analysis](#)

- I. Is the location of the proposed site accessible by transit, bikeways or pedestrian facilities?

NO

YES (please explain)

[Please see the Justification Report for additional explanation](#)

CERTIFICATION

The undersigned has read the above application and is familiar with the information submitted. It is agreed and understood that the undersigned will be held responsible for its accuracy. The undersigned hereby attests to the fact that the parcel number(s) and legal description(s) shown in questions 3 and 5 is/are the true and proper identification of the area for which the petition is being submitted. Signatures of all owners or their agent are required on this form. Signatures by other than the owner(s) will be accepted only with notarized proof of authorization by the owner(s).

SCHOOL CONCURRENCY SERVICE AREAS (SCSA) FOR PROJECT LOCATION:

Based on the project location, please identify the corresponding School Concurrency Service Areas for each school type. Maps of the SCSAs can be obtained from the City of Gainesville Planning Division.

Elementary: Finley Middle: Westwood High: Gainesville

EXPLANATION OF STUDENT GENERATION CALCULATION:

Student Generation is calculated based on the type of residential development and the type of schools. The number of student stations (by school type - Elementary, Middle and High School) used for calculating the school concurrency impacts is equal to the number of dwelling units by housing type multiplied by the student generation multiplier (for housing type & school type) established by the School Board. Calculations are rounded to the nearest whole number. Student Generation for each school type is calculated individually, in order to correctly assess the impact on the School Concurrency Service Area (SCSA) for each school type (Elementary, Middle and High School).

SINGLE FAMILY RESIDENTIAL DEVELOPMENT STUDENT GENERATION CALCULATIONS:

Elementary School: N/A units x 0.159* Elementary School Multiplier = N/A Student Stations
 Middle School: N/A units x 0.080* Middle School Multiplier = N/A Student Stations
 High School: N/A units x 0.112* High School Multiplier = N/A Student Stations

MULTI- FAMILY RESIDENTIAL DEVELOPMENT STUDENT GENERATION CALCULATIONS:

Elementary School: 2 units x 0.042* Elementary School Multiplier = 0 Student Stations
 Middle School: 2 units x 0.016* Middle School Multiplier = 0 Student Stations
 High School: 2 units x 0.019* High School Multiplier = 0 Student Stations

* Source: School Board of Alachua County: 2009-2010 Five Year District Facilities Plan

Exempt Developments:

- (a) Existing single-family legal lots of record eligible for a building permit.
- (b) Development that includes residential uses that received final development plan approval prior to the effective date for public school concurrency, or are actively being reviewed and have received preliminary plan approvals prior to 12/18/08, provided the development approval has not expired.
- (c) Amendments to final development orders for residential development approved prior to 12/18/08 and which do not increase the number of students generated by the development.
- (d) Age-restricted developments that prohibit permanent occupancy by persons of school age, provided this condition is satisfied in accordance with the standards of Policy 2.4.2.4 of the Public Schools Facilities Element or the Interlocal Agreement (ILA).
- (e) Group quarters that do not generate public school students, as described in Policy 2.4.2.5 of the Public Schools Facilities Element.

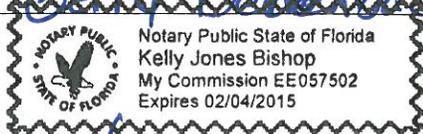

CERTIFICATION

PUBLIC NOTICE

110799E Exhibit C-1

A Neighborhood Workshop will be held to discuss a proposed Small-scale Comprehensive Plan Amendment, Rezoning, and Special Area Plan (SAP) Amendment on a ±0.25-acre site located at Alachua County Tax Parcel 15239-000-000. The proposed changes will amend the Future Land Use category from Residential-Medium (RM) to Mixed-Use Low (MUL), the Zoning district from Residential Multi-Family 8 (RMF-8) to Mixed-Use 1 (MU1), and the College Park SAP building type from Type III to Type I.

This is not a public hearing. The workshop's purpose is to inform neighboring property owners of the proposal's nature and to seek their comments.

The workshop is Tuesday, December 20, 2011 at 6:00 p.m. at The Holiday Inn University Center, Gator Boardroom, 1250 W. University Avenue, Gainesville, FL 32601.

Astronomers find biggest black holes yet

One of these newly surveyed monsters weighs as much as 21 billion suns.

By Dennis Overbye
The New York Times

Don't get too close. Astronomers are reporting that they have taken the measure of the biggest, baddest black holes yet found in the universe, abyssal yawns 10 times the size of our solar system into which billions of suns have vanished like a guilty thought. Such holes, they say, might be the gravitational cornerstones of galaxies and clues to the fates of violent quasars, the almost supernaturally powerful explosions in the hearts of young galaxies that dominated the early years of the universe.

One of these newly surveyed monsters, which weighs as much as 21 billion suns, is in an egg-shaped swirl of stars known as NGC 4889, the brightest galaxy in a sprawling cloud of thousands of galaxies about 336 million light-years away in the Coma constellation.

The other black hole, a graveyard for the equivalent of 9.7 billion suns, more or less, lurks in the center of NGC 3542, a galaxy that anchors another cluster known as Abell 1367, 331 million light-years away in Leo.

"These are the most massive reliably measured black holes ever," said Nicholas J. McConnell, a graduate student at the University of California, Berkeley, in an email, referring to the new observations.

These results are more than just cool and record-setting. Observations with the Hubble Space Telescope have shown that such monster black holes seem to inhabit the centers of all galaxies—the bigger the galaxy, the bigger the black hole. Researchers said that the new work could shed light on the role these black holes play in the formation and evolution of galaxies.

The previous record-holder was in the galaxy M87, a member of the Virgo cluster some 54 million light-years from here, where a black hole weighed in at a mere 6.3 billion solar masses.

The new black holes, however, were even larger than astronomers had predicted based on the earlier measurements, suggesting that there is something special about how the most massive galaxies are built.

"Measurements of these massive black holes will help us understand how their host galaxies were assembled, and how the holes

This image provided by the Gemini Observatory via the Journal Nature shows an artist's conception of stars moving in the central regions of a giant elliptical galaxy that harbors a supermassive black hole.

achieved such monstrous mass," McConnell said. McConnell and his thesis adviser, Chung-Pei Ma, led a team of astronomers who used telescopes in Texas, Hawaii and outer space to weigh the black holes in the centers of galaxies by clocking the speeds of stars zooming around them; the faster the stars are going, the more gravity—and thus mass—is needed to keep the stars from flying away. They report their work in the journal Nature, which will be published online Wednesday.

Martin Rees, a cosmologist at Cambridge University, called the new work "an incremental step," noting that the study of these monsters has been a part of his life for a long time.

"It's good to learn about even bigger ones," he said. Black holes, regions of space where gravity is so intense that not even light can escape from it, are

among the weirdest of the predictions of Albert Einstein's curved-space theory of gravity—general relativity—so weird that Einstein himself did not believe it. He once wrote to a friend that there ought to be a law of nature forbidding such a thing.

But he was wrong. And some of his successors, like Rees and a colleague at Cambridge, Stephen Hawking, have spent their careers studying the implications for physics of objects that can wrap spacetime around themselves like a magician's cloak and disappear.

Such is the fate, astronomers agree, of some massive stars once they run out of fuel and collapse upon themselves. Indeed the galaxy is littered with stellar-mass black holes detectable by the X-rays spit by doomed matter swirling around them like water in a drain. And there seem to be giant ones in the heart of every galaxy.

Gov. Scott goes slowly on more changes to pension

The Associated Press

TALLAHASSEE—Heading into a crucial election year, Gov. Rick Scott won't be pushing any further changes to the state's massive \$100 billion-plus pension plan.

Scott is releasing his budget proposal for 2012 later this week and the governor will ask for a small amount of tax cuts, enough money to avoid potential cuts to schools and higher health insurance premiums for state workers. While he has not

said much about it so far, Scott has said it will be a "tight budget" given a nearly \$2 billion shortfall. "We should all expect our government to be efficient, so I've asked all our agencies to tighten their belts just like all Floridians have," Scott said.

But emails obtained by The Associated Press show that while Scott wants more changes to the state pension plan, he and his staff agreed to wait until 2013 before pursuing them.

That's a remarkable turnaround from earlier this year when Scott pushed for extensive changes to the Florida Retirement System that covers roughly 900,000 current or retired firefighters, teachers and other public employees.

Brian Burgess, a spokesman for Scott, said Monday that the governor remains committed to making the pension plan "fiscally sound" and looking for a "path forward on pension reform."

FORUM: Economic development was stressed

Continued from 1B

most are opponents.

Poe has said he stands by his vote in favor of the deal, while Skop has expressed regret for voting for it when it came before the Florida Public Service Commission, where he was a commissioner until 2010.

After an audience question on candidates running just on that issue, Poe shot back at Skop, saying, "It takes somebody that understands every aspect of that community and is not focused and obsessed with one thing that has already been done."

The other candidates, including Dejon Cain, James Ingle, Donna Lutz, Darlene Pifalo, Richard Selwach and Mark Venzke, expressed doubt and frustration about the biomass plant, particularly because of the rate impacts.

The utility has said the deal will initially add \$10.56 to the monthly bills of average residential ratepayers.

Ingle, an electrician, also continued his platform push to have more city-government projects done by local companies. That would mean local jobs, which he said are sorely needed, pointing to a recent Census Bureau report ranking Gainesville as the fifth-worst city for income disparity in the country.

"Every other problem this city faces starts with that," Ingle said.

Pifalo, a real estate agent, said the city's "unbelievable" property

regulations should be curtailed, saying businesses should instead be offered tax incentives to locate here instead of red tape.

"I don't have a college degree. I just have common sense," Pifalo said. "I want to see regulations slow down. I want to ask hard questions of (city) staff," who she said are "running away with things that they shouldn't be running away with."

Members of the African American Accountability Alliance, a nonprofit known as the 4As, did not offer an endorsement in the at-large race because no candidate received more than 50 percent of the vote.

That could very well happen again in the real election on Jan. 31, meaning a runoff would take place between the top two vote-getters.

In the three-way District 1 race, however, the 4As came to a consensus, endorsing Armando Grundy for the seat.

Grundy, a Wal-Mart employee and the only candidate who is a dues-paying 4As member, touted his experience pushing for extended city bus service in Gainesville as well as his relationship with current District 1 Commissioner Scherwin Henry, who has endorsed him.

"This race is about District 1 moving forward, and clearly there is only one candidate who understands where we are right now," Grundy said in his opening statement.

Economic development in the district, which encompasses mostly

east Gainesville, was key for all three candidates.

Ivonne Hinson-Rawls, a retired educator who was born in the district before moving to New York and Miami for work, said she wants the east side to harness the energy coming from the University of Florida's push for a so-called innovation economy and transform the city into an epicenter of "green technology."

"I'm thinking a Hewlett-Packard. I'm thinking a Microsoft. I'm thinking green technology," she said. "I also believe Gainesville can be the Silicon Valley of the South."

Ray Washington, an attorney and former Sun reporter who previously represented opponents of the biomass plant, said the biomass plant would be taking away money—\$31 million a year from ratepayers—that could be invested in other areas and criticized the Gainesville Technology Enterprise Center for failing to produce results in east Gainesville.

"All this high-tech stuff, what has it done?" he said.

Washington also criticized his two opponents for not opposing the biomass plant, prompting Grundy to say he does indeed oppose it. Still, Washington vowed to stop the deal if elected, although he would need the support of three colleagues on the commission.

Attorneys: Husband should not have left kids with mentally ill wife

TAMPA—Attorneys for a Florida woman accused of killing her two teenage children say her ex-husband was negligent to leave them in the mentally ill woman's care.

In a Monday court filing, The Tampa Tribune reported that attorneys for 50-year-old Julie Schenecker say Col. Parker Schenecker had a responsibility to his wife and children to make sure she received proper care. The husband had been deployed overseas with the Army in January earlier this year.

That's when authorities say Julie Schenecker fatally shot their 16-year-old daughter, Cayla, and 13-year-old son, Beau, in their Tampa home.

Schenecker's attorneys have previously indicated they would use an insanity defense. She faces two counts of first-degree murder, and prosecutors are seeking the death penalty.

Senate president to join Gov. Scott on a trade mission to Israel

TALLAHASSEE—Senate President Mike Haridopolos will be joining Gov. Rick Scott on a week-long trade mission to Israel.

Both Haridopolos and his wife, Dr. Stephanie Haridopolos, are joining Scott and first lady Ann Scott on the trip to Tel Aviv and Jerusalem. Democratic state Sen. Maria Sachs of Delray Beach is also joining the group of nearly 50 on the trip. They leave Thursday.

Report: Woman tried to sell her 8-month-old son for \$7,000

MIAMI—Authorities say a South Florida woman tried to sell her infant son for \$7,000.

The Florida Department of Law Enforcement reported that 30-year-old Kenia Quila Bosque was arrested at her Opa-Locka apartment Sunday. The Monroe County Sheriff's Office had learned the previous night that Bosque had arranged to sell the 8-month old boy. An undercover FDLE agent went to a pre-arranged meeting in Hialeah, but authorities say Bosque didn't show up. Investigators, however, say they already had enough evidence for an arrest.

Bosque was charged with adoption violation. She was being held at the Miami-Dade jail on \$5,000 bail. Jail records didn't say if she had an attorney.

Gilchrist man, 28, arrested in meth case

By Karen Voyles

Staff writer

A Gilchrist County man on probation for cultivating marijuana was picked up over the weekend on suspicion of operating a methamphetamine laboratory.

Christopher John Goldthorpe II, 28, of rural Gilchrist County was arrested late Friday when Gilchrist County Sheriff's Office deputies served a search warrant at his home.

Investigator Edwin Jenkins said the items taken during the search included a .22-caliber pistol, ingredients to manufacture methamphetamine as well as methamphetamine, several knives and other homemade weapons, ammunition and drug paraphernalia.

Goldthorpe was charged with possession of methamphetamine, possession of a firearm by a convicted felon, drug possession, possession of drug paraphernalia and violation of felony drug probation. According to the Florida Department of Corrections, in September 2010, Goldthorpe was sentenced to two years of probation for growing 99 marijuana plants.

Goldthorpe was being held at the Gilchrist County jail on Monday.

MEMORANDUM

TO: Neighbors of the 1300 Block of NW 6th Avenue PN 11-0414
FROM: Gerry Dedenbach, AICP, LEED[®] AP, Director of Planning & GIS Services
DATE: Tuesday, December 6, 2011
RE: Neighborhood Workshop Public Notice

Causseaux, Hewett, & Walpole, Inc. (CHW) will be holding a Neighborhood Workshop to discuss a proposed Small-scale Comprehensive Plan Amendment, Rezoning, and Special Area Plan (SAP) amendment on a ±0.25-acre site located at Alachua County Tax Parcel 15239-000-000. The proposed changes will amend the Future Land Use category from Residential-Medium (RM) to Mixed-Use Low (MUL), the Zoning district from Residential Multi-Family 8 (RMF-8) to Mixed-Use 1 (MU1), and the College Park SAP building type from Type III: Housing to Type I: Storefront/Office/Apartment.

Date: Tuesday, December 20, 2011

Time: 6:00 p.m.

Place: The Holiday Inn University Center, Gator Boardroom
 1250 W. University Avenue
 Gainesville, FL 32601

Contact: Gerry Dedenbach, AICP, LEED[®] AP
 (352) 331-1976

This is not a public hearing. The purpose of the workshop is to inform neighboring property owners of the proposal's nature and to seek comments. We look forward to seeing you at the workshop.

Meeting Overview

- The City of Gainesville requires Comprehensive Plan Amendment and Rezoning applicants to host a **neighborhood workshop**.
- The workshop's purpose is to **inform neighbors** of the proposed development's nature **and to get feedback** early in the development process.
- This workshop **also provides the applicant with an opportunity to mitigate the Public's concerns** prior to the application's submission.

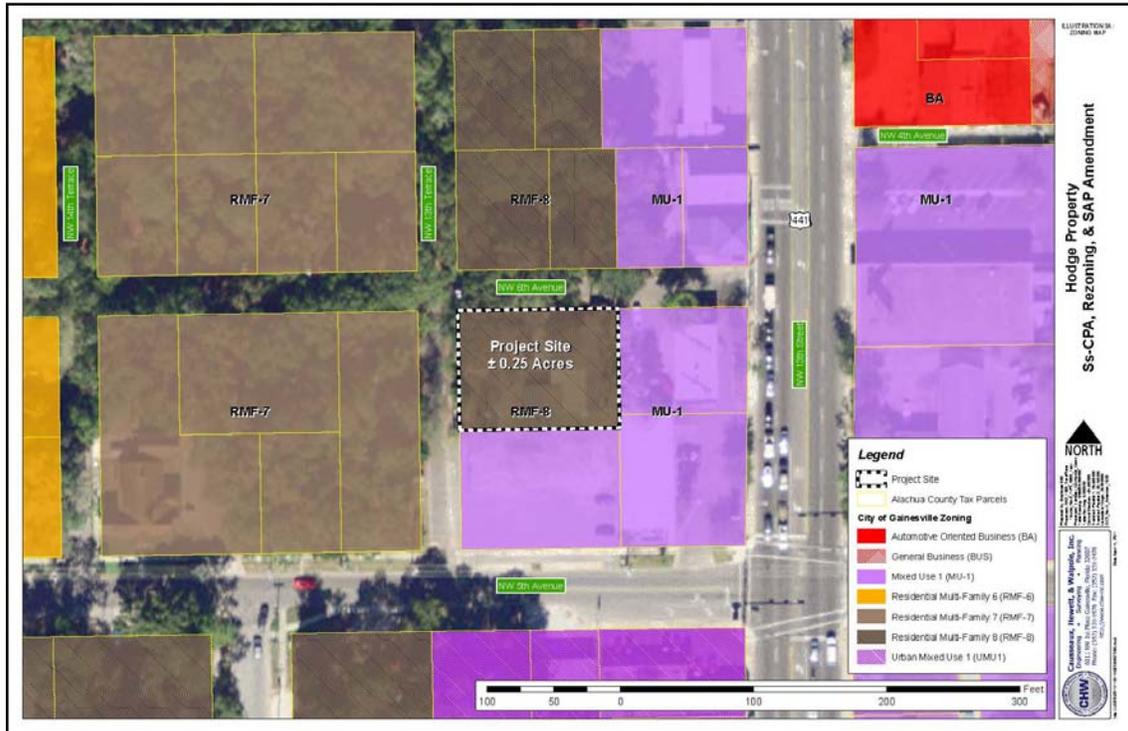

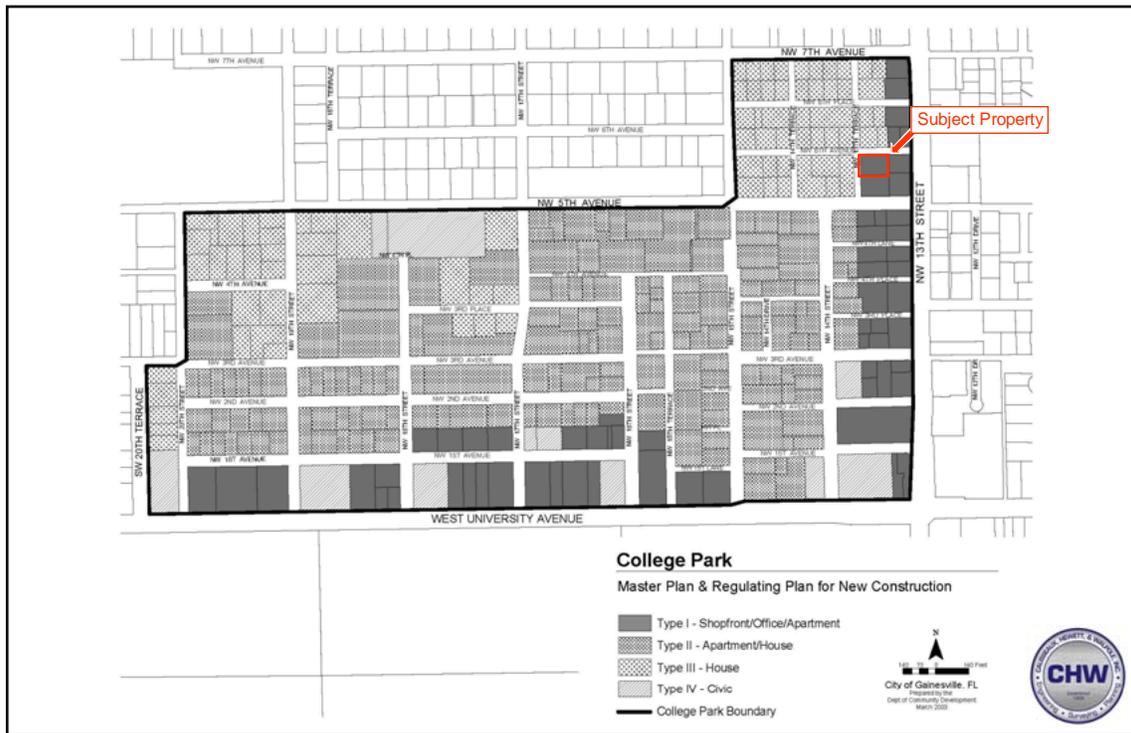

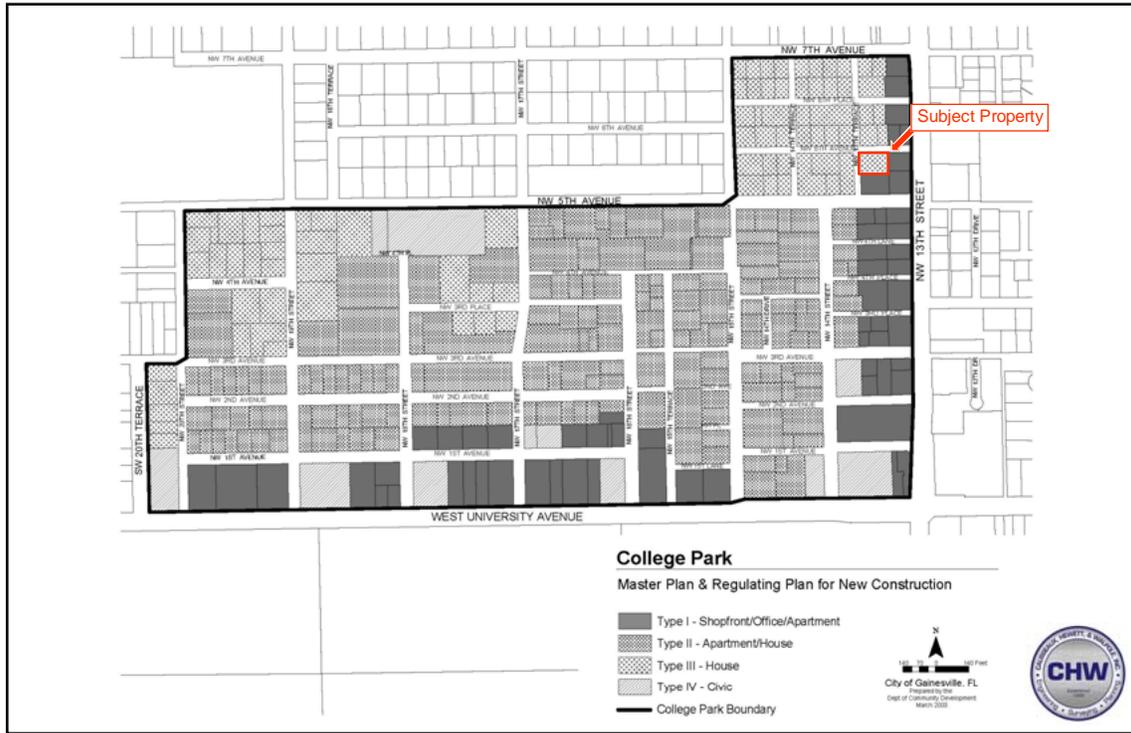

Ss-CPA & Rezoning Justification

Approval of this proposal:

- Creates cohesive Future Land Use (FLU) and zoning designations that allow redevelopment opportunities for the entire block;
- Unifies a City block and creates an opportunity for a mixed-use development, in lieu of single-use piecemeal development;
- Allows redevelopment opportunities consistent with College Park Special Area Plan (SAP) design standards; and
- Promotes beneficial continuity with the College Park SAP while allowing redevelopment.

Existing College Park SAP Prohibited Uses

The following uses are prohibited:

- Off-street surface parking lots as a principal use.
- Drive-throughs (new or expanded).
- Auto dealers, auto service and limited auto services (IN-5511, MG-753).
- Carwashes (IN-7542).
- Gas service stations (IN-5541).
- Gasoline pumps as an accessory use to a food store (MG-54).

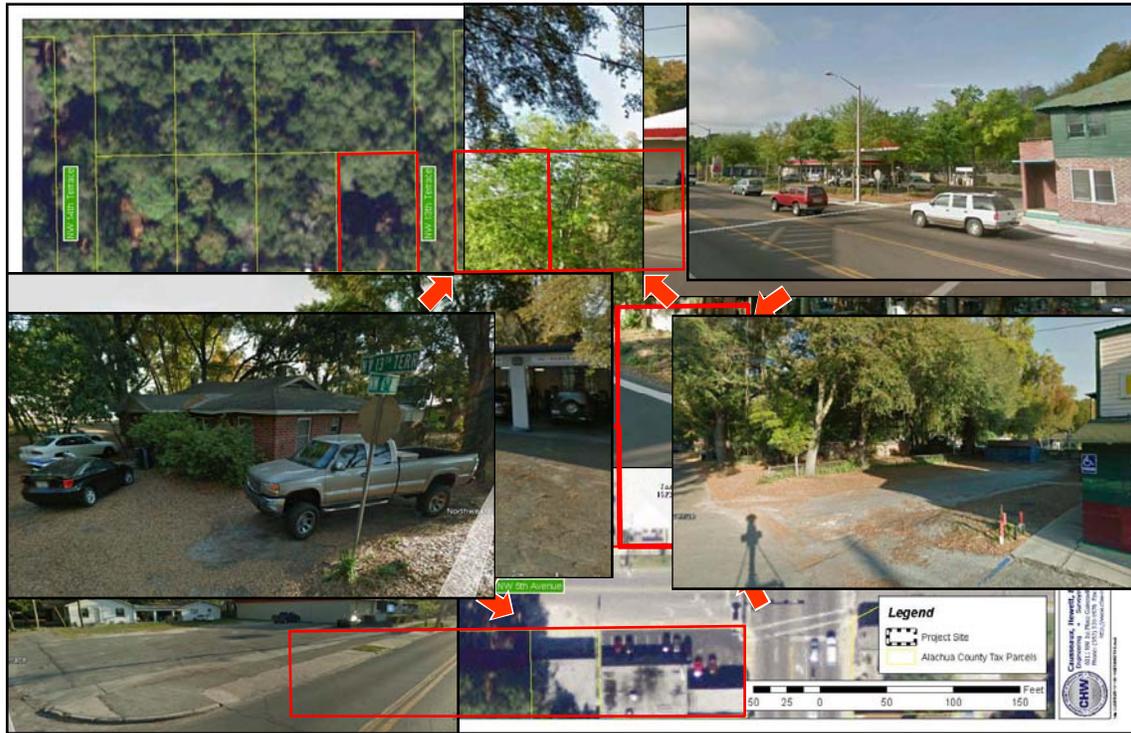

Proposed College Park SAP Prohibited Uses

The following uses are prohibited:

- Off-street surface parking lots as a principal use.
- Drive-throughs (new or expanded).
- Auto dealers, auto service and limited auto services (IN-5511, MG-753).
- Carwashes (IN-7542).
- New gas service stations (IN-5541).
- New gasoline pumps as an accessory use to a food store (MG-54).

**HODGE PROPERTY
NEIGHBORHOOD WORKSHOP NOTES
DECEMBER 21, 2011 @ 6:00 P.M.
THE HOLIDAY INN UNIVERSITY CENTER**

Recorded and transcribed by Causseaux, Hewett, & Walpole, Inc. staff.

Causseaux, Hewett, & Walpole, Inc. - Gerry Dedenbach, AICP, LEED® AP
Craig Brashier, AICP
Guy Parola, AICP

Gerry Dedenbach gave a brief project overview that included all required neighborhood workshop elements, including project location, current site characteristics, surrounding uses, project timeline, existing Future Land Use and Zoning designations, proposed Future Land Use, Zoning, and Special Area Plan (SAP) building type designations, and College Park SAP text revisions.

Two (2) near-by property owners attended the NHWS: Tom and Ray Merrill. The Merrill brothers own property located at the corner of NW 6th Place and NW 13th Terrace, behind Swamp Car Wash. The Merrill brothers offered insight to the neighborhood's history and asked some general questions about the College Park Special Area Plan. Neither attendee expressed any opposition to the proposed applications.

The meeting concluded at 6:30 pm.

**Application Package

Re: Hodge Property - Rezoning

Jurisdiction: City of Gainesville		Intent of Development: Redevelopment	
Description of Location: 515 NW 13 th Terrace, Gainesville, FL 32603			
Parcel Number: 15239-000-000		Acres: ± 0.25-acres <small>(Source: The Alachua County Property Appraiser)</small>	
Current Zoning Classification: <i>Residential Multi-Family 8 (RMF-8) (± 0.25 Acres)</i> The multiple-family residential districts are established to provide for the efficient use of land for multifamily residential developments. These districts are designed to encourage the establishment and maintenance of a suitable residential environment for medium density housing.			
Proposed Zoning Classification: <i>Mixed Use Low Intensity District (MU-1) (± 0.25 Acres)</i> The mixed-use low intensity district is established for the purpose of allowing coordinated developments designed to offer a mixture of residential, convenience-type retail, professional and consumer service uses primarily for residents of mixed-use and adjacent residential neighborhoods, and places of religious assembly.			
Current Zoning Acreage RMF-8 = ± 0.25	Proposed Zoning Acreage MU-1 = ± 0.25	Net Zoning Change MU-1 = ± 0.25	
Current Allowable Density by Right <i>Residential Multi-Family 8 (RMF-8):</i> 0.25 acres x 20 dwelling units (du)/acre* = 5 du <small>* 20 du/acre by right, 30 du/acre possible with density bonuses</small> <small>(Source: City of Gainesville Land Development Code, Section 30-53)</small>			
Potential Maximum Allowable Density and Intensity by Right <i>Mixed Use Low Intensity District (MU-1):</i> <ul style="list-style-type: none"> • 60% max. lot coverage x 0.25 acres x 43,560 x 5 stories = 32,670 ft² • 0.25 acres x 30 du/acre = 7 du <small>(Source: City of Gainesville Land Development Code, Section 30-64 and Appendix A, section 3)</small>			

2. STATEMENT OF PROPOSED CHANGE

This rezoning application requests to change the existing zoning category on a ±0.25-acre site (Alachua County Tax Parcel 15239-000-000) from Residential Multi-Family 8 (RMF-8) to Mixed Use Low Intensity District (MU-1). The site is located at the southeast quadrant of the NW 13th Terrace and NW 6th Avenue intersection, immediately west of the Gate fueling station on NW 13th Street. The requested zoning change is companion to a Small-Scale Comprehensive Plan Amendment (Ss-CPA) and Special Area Plan (SAP) Amendment. The proposed amendments satisfy the logical nexus test because contiguous parcels are also designated with the requested Future Land Use (FLU) classification, zoning category, and SAP building type.

Figure 1: Aerial Map

The project site fronts NW 6th Avenue and NW 13th terrace to the north and west, respectively. The site’s eastern boundary is contiguous to a Gate fueling station and convenience store. Immediately to the south is an undeveloped lot, which was formerly a store and Laundromat until fire claimed the building. Surrounding FLU and zoning designations are summarized in *Table 1*.

Table 1: Surrounding Future Land Use and Zoning Designations

Direction	Future Land Use Designation	Zoning Designation
North	Residential Medium Density	Residential Multi-Family 8
East	Mixed Use Low	Mixed Use Low Intensity
South	Mixed Use Low	Mixed Use Low Intensity
West	Residential Medium Density	Residential Multi-Family 7

Figures 2 and 3 depict the existing FLU Map (FLUM) and Official Zoning Atlas.

Figure 2: Existing Future Land Use Map

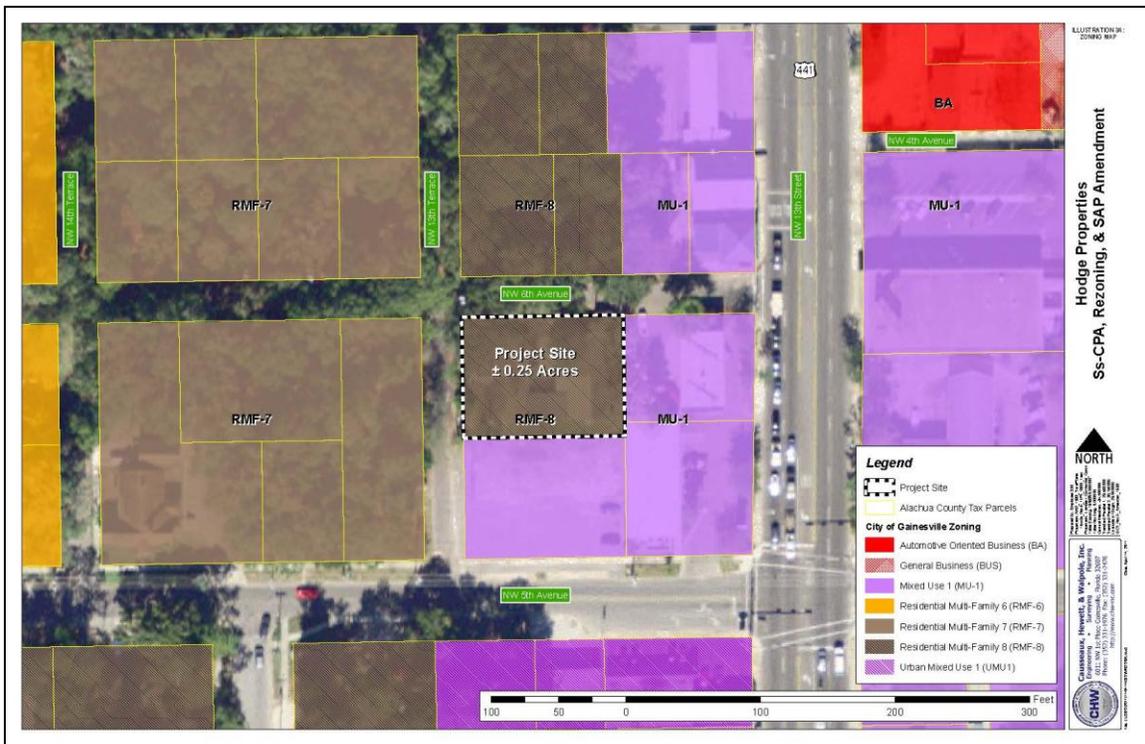

Figure 3: Existing Zoning Map

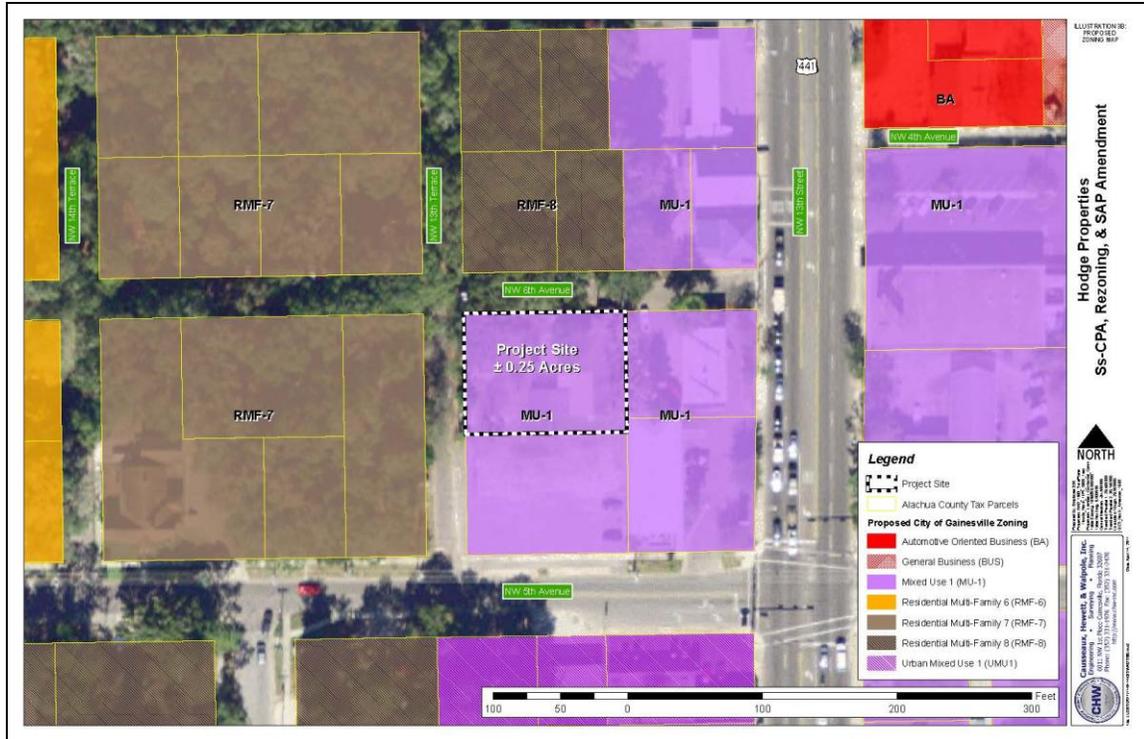

Figure 4: Proposed Zoning Map

Currently, the site has a limited, single-use residential zoning district designation. The MU-1 zoning designation allows a mixture of commercial, office, and residential uses.

The proposed zoning change is compatible with adjacent parcels and surrounding residential and commercial uses. As illustrated in *Figure 4*, the other three (3) parcels, that comprise this City block, are currently designated Mixed Use Low Intensity (MU-1).

Approval of this proposal allows redevelopment opportunities supportive of the College Park design standards. The proposed rezoning creates a cohesive zoning designation on the block. This allows redevelopment opportunities for the entire block, and creates an opportunity for property assemblage under a single, unified mixed-use category, in lieu of single-use, piecemeal development. Therefore, this rezoning's approval will benefit the College Park neighborhood.

Redevelopment of the entire block inclusive of the project site will promote a design consistent with the City's vision for the NW 13th Street corridor and the College Park area. The remaining three-quarters ($\frac{3}{4}$) of a block that is currently designated mixed-use FLU and zoning is an impracticable shape for redevelopment and engineering purposes.

3. IMPACT ANALYSIS

IMPACT ON RESIDENTIAL STREETS

If the site is developed as a mixed-use building, an additional 32,670 ft² of nonresidential space and two (2) dwelling units are permitted. This minimal increase in intensity and density are not expected to impact the residential streets that are located to the site's north and west. Specific impacts to the adjacent roadways are outlined in *Table 2*.

Anyone travelling the local streets adjacent to the project site for daily or weekly needs is already on the roadway network. Pedestrian access to and from numerous houses and apartments is possible and can reduce overall Vehicle Miles Traveled (VMT) based on redevelopment opportunity.

IMPACT ON NOISE AND LIGHTING

All surrounding uses are located within a mixed-use urban environment. The maximum potential 32,670 ft² of nonresidential space is not anticipated to have significant noise and lighting impacts on adjacent residential properties. City of Gainesville ordinances ensure landscaping and carefully placed security lighting.

ENVIRONMENTAL FEATURES

The project is located in the City of Gainesville's urban core. As illustrated in *Figure 5*, there are no wetland or floodplain areas within the project site.

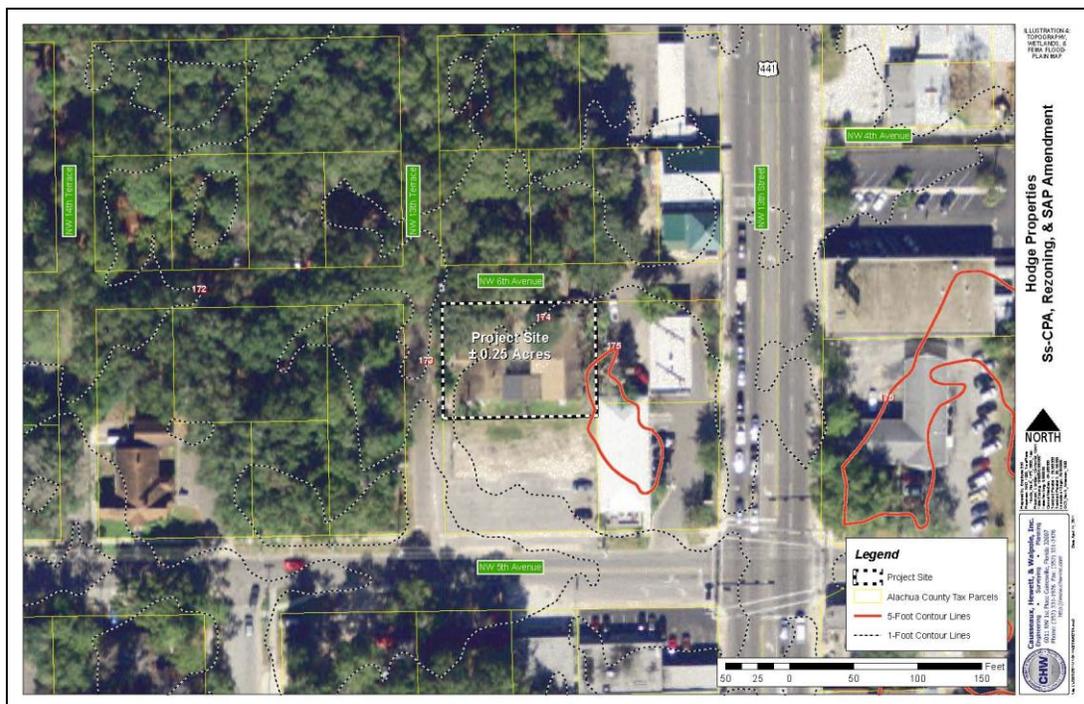

Figure 5: Topography, Wetlands, and FEMA Floodplain Map

According to the National Resources Conservation Service (NRCS), the on-site soil types are Urban Land (*Figure 6*). These soils are suitable for urban-type development.

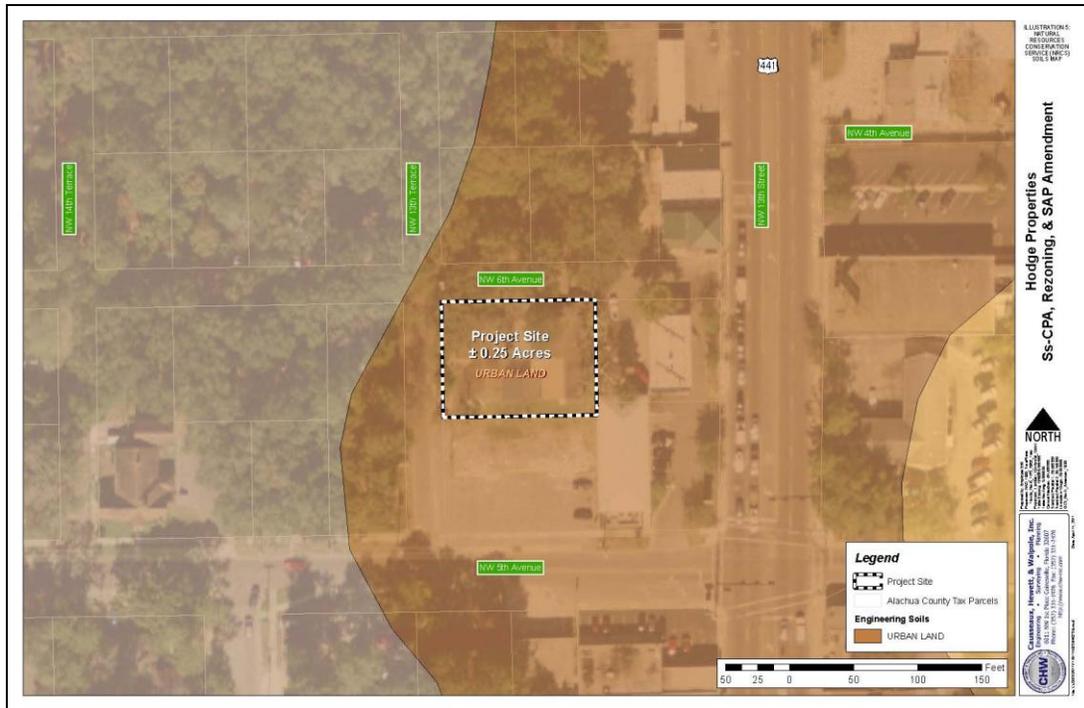

Figure 6: Natural Resources Conservation Service (NRCS) Soils Map

Several trees are located along the site's northern, eastern, and western perimeters, and may be preserved where practicable. Trees that are not able to be saved will be replaced in accordance with City of Gainesville Land Development Code (LDC).

HISTORIC AND ARCHEOLOGICAL RESOURCES

According to the Florida Division of Historical Resources (DHR), no archeological resources are located on the property.

COMMUNITY CONTRIBUTIONS

The site's rezoning is consistent with the City of Gainesville Comprehensive Plan and LDC. The redevelopment revitalizes an underutilized site, increases employment opportunities in the area, and promotes a live-work environment. The approval of this rezoning application also provides an opportunity to redevelop the entire City block as a cohesive mixed-use project.

POTENTIAL LONG-TERM ECONOMIC BENEFITS

The property's potential redevelopment replaces two (2) outdated duplexes. The rezoning serves as a catalyst for much needed redevelopment along NW 13th Street, including the opportunity to redevelop the entire City block as a single

mixed-use development. The MUL FLU classification, MU-1 zoning category, and College Park SAP Type I designation promote mixed-use development, consistent with the City's long-term vision.

LEVEL OF SERVICE STANDARDS

Level of Service (LOS) standards were calculated based on the density and intensity increases that may result from the proposed rezoning. Therefore, two (2) dwelling units and 32,670 ft² of nonresidential space were used for the LOS calculations, as this is the increase in potential development associated with this rezoning request.

The site is located within the City's TCEA Zone A, which was established to encourage redevelopment and infill near the University Context Area and the urban core. Developers within TCEA Zone A are responsible to provide transportation improvements that are required due to safety and/or operational conditions. Development or redevelopment within TCEA Zone A may be required to provide the following:

- a. Sidewalk connections to existing and planned public sidewalk;
- b. Cross-access connections/easements or joint driveways;
- c. Deeding of land or conveyance of required easements along the property frontage to the City, as needed, for the construction of public sidewalks, bus turn-out facilities and/or bus shelters;
- d. Closure of existing excessive, duplicative, or unsafe curb cuts or narrowing of overly wide curb cuts at the development site; and
- e. Provide safe and convenient on-site pedestrian circulation.

The proposed redevelopment allows employees and patrons to have walking access to the Regional Transit System's bus routes 8, 10, and 25, which travel along NW 13th Street and connect Santa Fe College, Northwood Village, Shands/UF, and downtown. With respect to mass transit, specific LOS standards are not established within the City of Gainesville Comprehensive Plan. However, desired densities along major corridors have been expressed.

LEVEL OF SERVICE

The following tables summarize the public facilities capacity analysis for the rezoning. As can be seen by the calculations, this proposed rezoning does not degrade existing public facilities below accepted LOS standards.

Table 2: Projected Trip Generation

Category ¹	Units ²	AADT		A.M. Peak Hour		P.M. Peak Hour	
		Rate	Trips	Rate	Trips	Rate	Trips
Apartment (ITE 220)	2	6.65	13	0.51	1	0.62	1
Specialty Retail Center (ITE 814)	32.67	44.32	1,448	6.84	224	5.02	164
Total		-	1,461	-	225	-	165

2. Source: School Board of Alachua County: School Capacity vs. Enrollment. Dated: July 25, 2011

3. Source: Table 6: Projected Public School Impact

Conclusion: As calculated in Tables 10 and 11, the proposed Rezoning will not exceed existing public school capacity.

4. CONSISTENCY WITH CITY OF GAINESVILLE COMPREHENSIVE PLAN

FUTURE LAND USE ELEMENT

The proposed rezoning site is currently designated Residential Medium Density (RM) FLU classification. The requested rezoning to Mixed Use Low Intensity (MU-1) district is consistent with the underlying Mixed Use Low (MUL) FLU designation proposed in the companion Ss-CPA. The proposed zoning category permits a mixture of nonresidential and residential uses designed to promote both pedestrian and transit use. In accordance with FLUE Policy 4.1.1, the site's redevelopment will ensure a pedestrian-friendly environment, consisting of sidewalks and modest build-to-lines. The site's redevelopment encourages similar efforts in this area and helps support additional area businesses.

The proposed project is also consistent with FLUE *Policy 1.1.3* by permitting multi-family housing, which adds to the housing type diversity in the area. Single-story detached housing is currently the predominant housing type.

With respect to FLUE *Goal 2*, the rezoning assists in the redevelopment of an underutilized site within the urban core. The site is in close proximity to several RTS transit lines and within walking distance to the Santa Fe College (SFC) downtown campus and the University of Florida (UF). As an urban infill redevelopment project, the proposal encourages economic development within the area by increasing employment and supporting additional businesses, and further discourages urban sprawl towards and beyond Interstate-75.

TRANSPORTATION MOBILITY ELEMENT

The proposed rezoning meets the Overall Goal of the Comprehensive Plan Transportation Mobility Element (TME). Estimated project motorized vehicle trip generation is outlined in the previous section.

The site currently has one (1) access point along NW 6th Avenue, which can be relocated to NW 13th Terrace. As per the College Park SAP, driveways on corner lots should be placed on the side street (NW 13th Terrace) at least 25 feet from the corner.

An existing turn lane at NW 6th Avenue allows for access from both north-bound and south-bound lanes along NW 13th Street. Transportation enhancements, which may include sidewalks, can be made in accordance with the Transportation Mobility Element to improve overall pedestrian and vehicular mobility.

POTABLE WATER/WASTEWATER MANAGEMENT ELEMENT

Consistent with *Objective 1.4*, development resulting from the proposed rezoning application connects to the City of Gainesville's utilities system. As shown in *Section 3: Impact Analysis*, redevelopment of the property is not shown to exceed the City of Gainesville Potable Water or Sanitary Sewer systems'

capacities. This analysis takes into account planned infrastructure enhancements outlined in the Comprehensive Plan Capital Improvements Element, which include expansions to the potable water plant and wastewater treatment plant capacities.

SOLID WASTE ELEMENT

Development resulting from the proposed rezoning will utilize appropriate mechanisms for solid waste disposal. As outlined in *Table 5*, New River Regional Landfill, the area's main landfill, will not be adversely impacted by site development. Consistent with *Objective 1.1*, this project will include reuse or recycling of waste materials for on-site or off-site uses.

STORMWATER MANAGEMENT ELEMENT

Stormwater Management Facilities (SMFs) can be constructed to mitigate the potential impacts of 100-year critical duration rainfall depth. The SMF facilities will be designed to contain the site's stormwater and to allow percolation into the soil rather than run directly into the downstream receiving surface waters.

PUBLIC SCHOOLS FACILITIES ELEMENT

Since the proposed rezoning only permits the development of two (2) additional residential dwellings, only minor public school facility impacts are anticipated. If residential redevelopment occurs, *Section 30-216(2)* indicates that the proposed development does not adversely impact the Alachua County's public school system.

URBAN DESIGN ELEMENT

Consistent with *Objective 1.2*, the site's redevelopment can enhance the sidewalk system and public realm, which encourages greater pedestrian interaction. In accordance with *Objective 1.4*, parking can be located mostly to the facility's side and rear. Additional design features have been discussed throughout this report.

CONSERVATION ELEMENT

The site is within Gainesville's urban core, located on NW 13th Street, and one quarter (¼) mile north of West University Avenue. There are no environmental characteristics that prohibit site redevelopment, and any stormwater runoff that results from the development will be mitigated in accordance with the City of Gainesville and St. Johns River Water Management District (SJRWMD) requirements.

Based on the Natural Resources Conservation Service (NRCS) soils data (*Figure 5*), on-site soils are suitable for urban-type development. Additional site-specific evaluations will be conducted during site redevelopment to determine suitability of specific locations for buildings and support structures. Existing on-site

vegetation will be retained to the maximum extent practicable to help maintain soil stability.

The site was also analyzed using Federal Emergency Management Agency (FEMA) 100-year floodplain areas and the National Wetlands Inventory, the database of Alachua County Regulated Wetlands (*Figure 5*). No floodplain or wetland areas have been located on site.

5. CONSISTENCY WITH CITY OF GAINESVILLE LAND DEVELOPMENT CODE

ARTICLE III. - VESTED RIGHTS REVIEW, CONCURRENCY MANAGEMENT, PROPORTIONATE FAIR-SHARE AND STATE-MANDATED TRANSPORTATION CONCURRENCY EXCEPTION AREA

DIVISION 2. - CONCURRENCY MANAGEMENT

Sec. 30-35. - Level of service standards.

Response: Please refer to Section 3: Impact Analysis, which addresses Transportation, Potable Water, Sanitary Sewer, Solid Waste, Public Schools, and Mass Transit.

ARTICLE IV. - USE REGULATIONS

DIVISION 4. - BUSINESS AND MIXED USE ZONING DISTRICTS

Sec. 30-64. – Mixed-Use Low Intensity (MU-1)

- (a) *Purpose. The mixed-use low intensity district is established for the purpose of allowing coordinated developments designed to offer a mixture of residential, convenience-type retail, professional and consumer service uses primarily for residents of mixed-use and adjacent residential neighborhoods, and places of religious assembly. The district is intended to reduce the length and number of vehicular trips by providing for basic needs within close proximity to residential areas, by encouraging pedestrian access, and by the combining of trips. This district is established to allow uses compatible with each other and with surrounding residential areas to be developed near each other. The MU-1 district may be located in areas where analysis of residential characteristics demonstrates that such facilities are required. This district is intended to encourage the development of planned and unified neighborhood shopping centers in a relationship harmonious with adjoining residential activities. It is also intended to accommodate traditional neighborhoods that include nonresidential uses and neighborhood centers.*
- (b) *Objectives. The provisions of this district are intended to:*
- (1) *Permit compatible commercial, office, service and residential developments that benefit from being located near each other.*
 - (2) *Provide an adequate mix of residential uses including multifamily, townhouse, zero lot line, and detached single-family at urban densities.*
 - (3) *Provide opportunities for the development of compound residential uses.*
 - (4) *Minimize traffic congestion by:*

- a. *Requiring that shopping center and/or mixed-use developments be located on appropriate major collector and arterial roadways, as defined in the comprehensive plan;*
 - b. *Minimizing the number and regulating the location of driveway connections; and*
 - c. *Encouraging pedestrian and nonautomotive access.*
- (5) *Ensure, through development plan approval, that nonresidential and mixed-use developments are designed to promote the most efficient use of the land, and that they coordinate the internal activities of the site as well as establish a harmonious relationship between such developments and their environment.*
- (6) *Require buffering or screening around nonresidential and/or mixed-use development in accordance with the land development code when the development abuts any property zoned for residential use or shown as residential on the future land use map.*
- (7) *Accommodate neighborhood-level services and retail uses along existing business corridors.*
- (8) *Coordinate the location and size of mixed-use developments commensurate with the character and density of the areas to be served.*
- (9) *Allow the market some flexibility in determining locations of new nonresidential development, and the ability to expand such areas in relation to the population densities achieved.*
- (10) *Encourage nonresidential and/or mixed-use developments to locate on land that is physically capable of supporting the particular type of development.*

Response: This rezoning application is consistent with the Mixed Use Low Intensity (MU-1) district in the following ways:

- **The redevelopment project transforms an underutilized site that contains two (2) duplex residential dwellings into a mixed-use site with both residential and nonresidential uses;**
- **The site is proximate to residential neighborhoods and public transit;**
- **Mixed Use Low Intensity (MU-1) zoned properties are adjacent to the site;**
- **The development's scale is consistent with adjacent properties;**
- **The proposed rezoning can enhance and improve the pedestrian experience by presenting nominal setbacks, adequate sidewalks, street trees, and other City of Gainesville Land Development Code (LDC) required enhancements;**
- **The redevelopment project is consistent with *Section 30-64(g): Permitted Uses* by bringing a mixture of residential and nonresidential uses within a single building; and**
- **The proposed project meets all dimensional, additional, and general requirements as set forth in *Section 30-64*.**

6. URBAN SPRAWL ANALYSIS

The development does not constitute urban sprawl as defined in Florida Statutes. “Urban Sprawl” means “a development pattern characterized by low density, automobile-dependent development with either a single use or multiple uses that are not functionally related, requiring the extension of public facilities and services in an inefficient manner, and failing to provide a clear separation between urban and rural uses” (§ 163.3164(51)).

The thirteen (13) indicators of urban sprawl formerly identified in Rule 9J-5, Florida Administrative Code (FAC), now repealed, are incorporated into Chapter 163. Section 163.3177(6)(a)9.a states:

“The evaluation of the presence of these indicators shall consist of an analysis of the plan or plan amendment within the context of features and characteristics unique to each locality...”

As demonstrated by the following analysis, the proposed rezoning does not trigger any urban sprawl indicators, and adoption of this rezoning will discourage the proliferation of urban sprawl within the City of Gainesville and Alachua County.

1. Promotes, allows or designates for development substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses in excess of demonstrated need.

Response: The site is located in Gainesville’s urban core, which is characterized by commercial uses located along major corridors and proximate residential neighborhoods. This amendment requests to change the site’s Residential Multi-Family 8 (RMF-8) zoning category to Mixed Use Low Intensity (MU-1). The proposed rezoning allows an additional 32,670 square feet of nonresidential space and two (2) dwelling units. Therefore, this rezoning slightly increases both intensity and density on the site, and creates an opportunity for a mixture of uses.

2. Promotes, allows or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while leaping over undeveloped lands which are available and suitable for development.

Response: The site is *not* located at the urban fringe; rather it is located within the City of Gainesville’s urban core. The mixed-use zoning and the site’s location in the urban core discourage development in rural areas. Approval of this rezoning encourages other redevelopment within this area, further decreasing the need for urban fringe development.

3. Promotes, allows or designates urban development in radial, strip, isolated

or ribbon patterns generally emanating from existing urban developments.

Response: The site is located in the City of Gainesville's urban core. The proposed development promotes a mixture of uses on a single site, and is compatible with adjacent uses, such as multi-family residential and retail.

4. As a result of premature or poorly planned conversion of rural land to other uses, fails adequately to protect and conserve natural resources, such as wetlands, floodplains, native vegetation, environmentally sensitive areas, natural groundwater aquifer recharge areas, lakes, rivers, shorelines, beaches, bays, estuarine systems, and other significant natural systems.

Response: Due to the site's urban setting, no wetlands, floodplains, or other significant natural systems are present or will any be impacted.

5. Fails adequately to protect adjacent agricultural areas and activities, including silviculture, and including active agricultural and silvicultural activities as well as passive agricultural activities and dormant, unique and prime farmlands and soils.

Response: Due to the site's urban setting, no agricultural activities are adjacent to nor will any be interrupted or discontinued.

6. Fails to maximize use of existing public facilities and services.

Response: The site utilizes existing public facilities and services supplied by Gainesville Regional Utilities (GRU) and the City of Gainesville Public Works Department, in the form of roads, sidewalks, and other services.

7. Fails to maximize use of future public facilities and services.

Response: The site will utilize the City's existing and future public facilities and services.

8. Allows for land use patterns or timing which disproportionately increase the cost in time, money and energy, of providing and maintaining facilities and services, including roads, potable water, sanitary sewer, stormwater management, law enforcement, education, health care, fire and emergency response, and general government.

Response: The site is located in an urban area that is already supported by public facilities and services. Therefore, site redevelopment attributable to this rezoning does not disproportionately increase the cost in time, money, or energy by providing and maintaining these facilities and services.

9. Fails to provide a clear separation between rural and urban uses.

Response: Located in Gainesville's urban core, this site furthers the definition of urban space, as well as relieves development pressure at the urban fringe and in rural areas.

10. Discourages or inhibits infill development or the redevelopment of existing neighborhoods and communities.

Response: The proposed rezoning encourages urban infill through the redevelopment of existing neighborhoods or communities. Redevelopment will significantly improve the site's visual aesthetic and potentially bring additional nonresidential uses to the College Park community.

11. Fails to encourage an attractive and functional mix of uses.

Response: The proposed site is currently occupied by two (2) duplex dwellings that were built between the late 1940's and the 1960's. The proposed rezoning allows a mixture of residential and nonresidential uses adjacent to the NW 13th Street corridor. The proposed rezoning allows attractive and functional design features that ensure compatibility with adjacent properties.

12. Results in poor accessibility among linked or related land uses.

Response: The College Park neighborhood has a gridded street network. Sidewalks that link both nonresidential uses on arterial roadways and residential uses within the neighborhood line most streets. The two (2) streets that the site fronts do not have sidewalks, and can therefore be improved to increase pedestrian accessibility and safety within College Park. The approval of this rezoning promotes such improvements.

13. Results in the loss of significant amounts of functional open space.

Response: The site consists of two (2) duplex structures on ±0.25 acres. Therefore, no functional open space currently exists on-site. Due to the site's small size, redevelopment provides minimal opportunity for functional open space.

In addition to the thirteen (13) indicators of urban sprawl section 163.3177(6)(a)9.b identifies eight (8) development pattern or urban form criteria. If four (4) or more of those criteria are met, the presumption is that the amendment discourages urban sprawl. The amendment and corresponding development are found to meet the following four (4) criteria as identified in §163.3177(6)(a)9.b.(I), (II), (III), and (VII).

1. Directs or locates economic growth and associated land development to geographic areas of the community in a manner that does not have an

adverse impact on and protects natural resources and ecosystems.
(163.3177(6)(a)9.b(I))

Response: The site is located in Gainesville's urban core, an area characterized by both residential and nonresidential uses. The site is currently developed with two (2) duplexes, and does not contain significant natural resources or ecosystems.

2. Promotes the efficient and cost-effective provision or extension of public infrastructure and services. (163.3177(6)(a)9.b(II))

Response: The site utilizes existing public facilities and services supplied by Gainesville Regional Utilities (GRU) and the City of Gainesville Public Works Department. Any future redevelopment will retain the use of GRU and City infrastructure and services, including centralized water and sewer. The site's proposed mixed-use nature and adjacency to a major transit corridor and proximity to SFC and UF encourages alternative transportation modes in the area. Additionally, reducing single-occupancy vehicle dependency increases the useful lifespan of roadway infrastructure throughout the City of Gainesville and Alachua County.

3. Promotes walkable and connected communities and provides for compact development and a mix of uses at densities and intensities that will support a range of housing choices and a multimodal transportation system, including pedestrian, bicycle, and transit, if available.
(163.3177(6)(a)9.b(III))

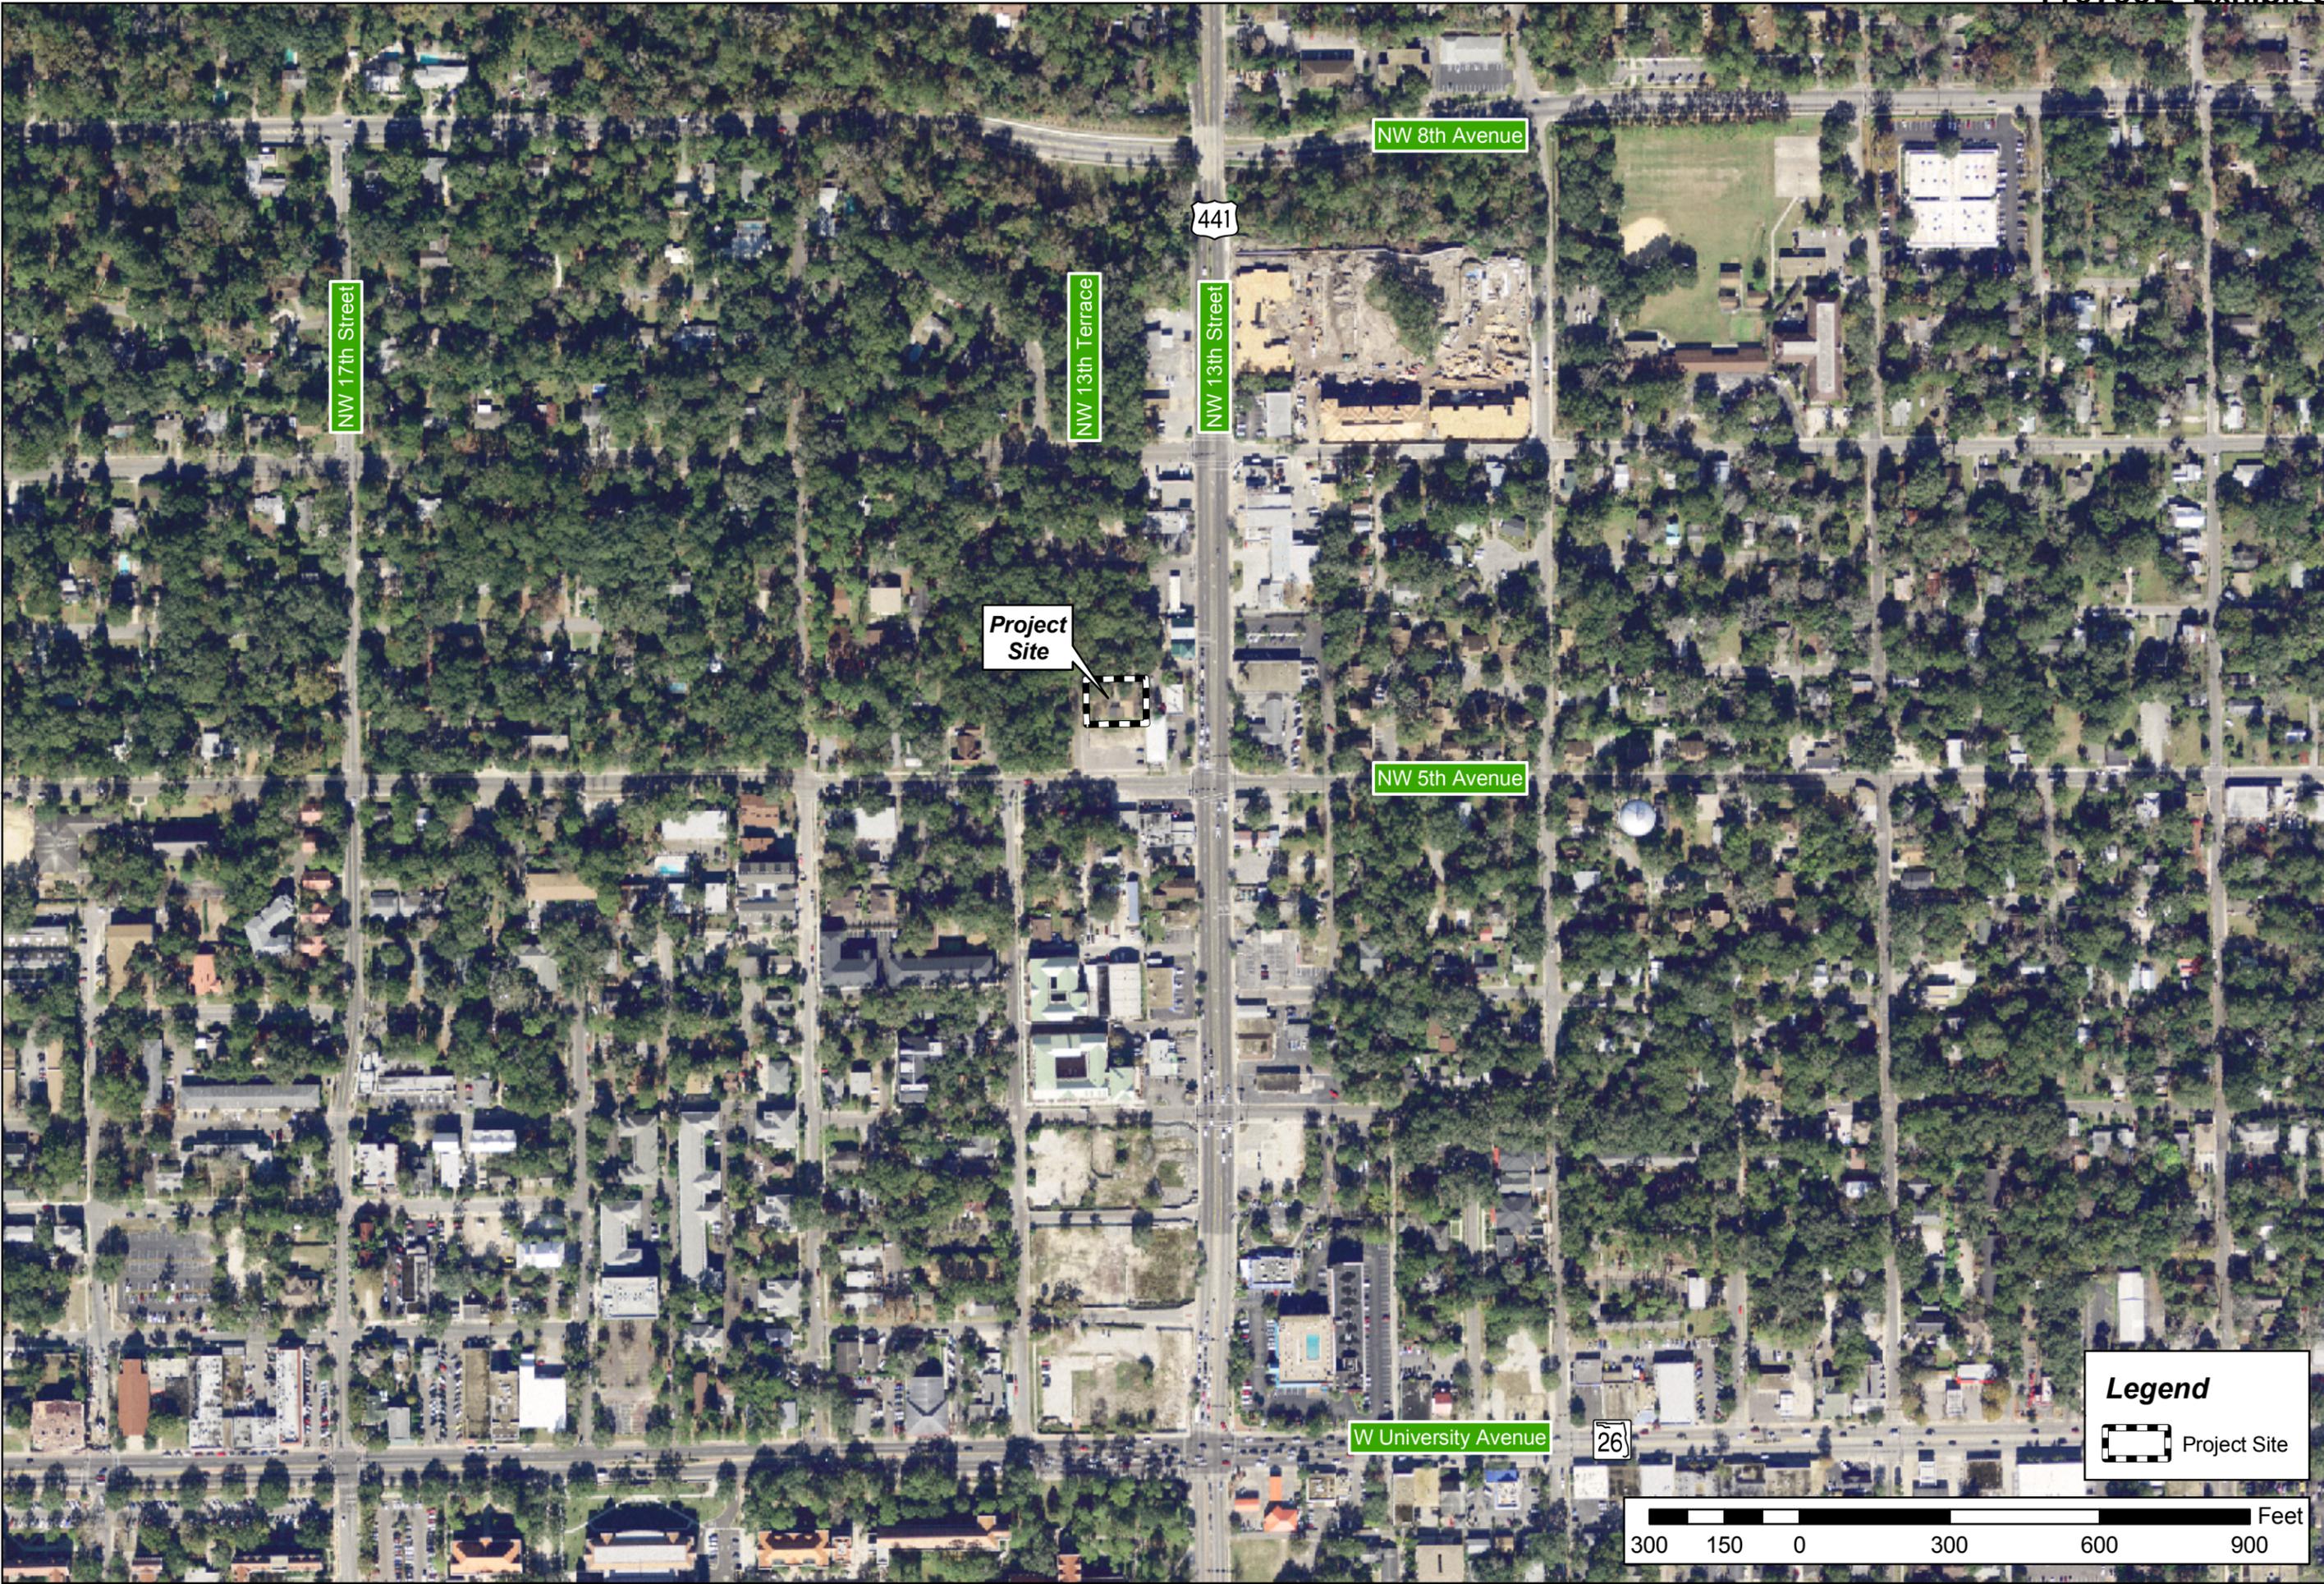

Response: The site is located within the City's urban core and is proximate to a major transit corridor. Additionally, the site is located within an area heavily used by bicyclists and pedestrians. The mixed-use nature of the proposed rezoning allows tenants to work in close proximity to where they live, and provide additional commercial opportunities proximate to the College Park neighborhood.

4. Creates a balance of uses based upon demands of the residential population for the nonresidential needs of an area.
(163.3177(6)(a)9.b(VII))

Response: This rezoning provides nonresidential opportunities that are not currently permitted on-site while they are allowed on the remaining three quarters ($\frac{3}{4}$) of the block. The modest additional nonresidential space will likely consist of retail and provide added employment and retail/service opportunities to College Park residents. Site redevelopment will encourage redevelopment of adjacent properties, which further promotes urban infill and redevelopment in the City's core.
