

City of Gainesville

Inter-Office Communication Office of the Clerk of the Commission

DATE: October 1, 2001
TO: City Commission
FROM: Kurt Lannon *KL*
SUBJECT: Student Adjunct Applications

The Clerk's Office received 20 applications for student adjunct positions. Two applications were received on time and were independent of the recommendations from the University of Florida Student Government. As Natalie Hanan mentioned at the September 24th meeting, student government submitted 18 applications and these were received at 4:05 p.m., five minutes after the deadline.

We have prepared ballots with all the applications included. I would recommend that greater weight be given to the on time applications. In general, our standard procedure is not to accept late applications. Since we received very few recommendations in general, I feel comfortable submitting these late applications to you for consideration in this particular instance.

In addition, as stated in Section 2-248 of the Code of Ordinances, we received one recommendation from the Fire Safety Board of Adjustment to appoint Mark D. Campbell as their student adjunct member.
