Project Narrative

Rebuilding Together North Central Florida – Critical Home Repair Program

A. Describes the eligible project

Rebuilding Together North Central Florida's (RTNCF) Critical Repair Program repairs substandard housing of low-income families with preference given to seniors, veterans, and residents with disabilities in Alachua County, FL at no cost to the homeowner. Improvements in home safety, security, and accessibility allow these homeowners to remain in homes where they've lived for years and provide them with a firm foundation to combat poverty. Hundreds of skilled volunteers annually provide the majority of labor and, in doing so, experience the personal satisfaction of serving their community, building relationships, and receiving training and experience in home repair and energy conservation.

B. Lists the types of donations sought

Financial contributions
Materials to be used on projects

C. Identifies the uses for donations

Donations will be utilized to provide critical repairs to make homes safer, healthier, and more energy-efficient for eligible households.

D. Estimates the total project cost: \$250,000

This year, RTNCF's goal is to provide services to 25 homes. With costs averaged over the past several years, we project an expected project cost of ~\$10,000 per home, for a total of \$250,000

E. Estimates the number of jobs (if applicable)

N/A

F. Estimates the completion date of the project (if applicable)

RTNCF currently takes applications for home repair on an annual basis. We expect the program to continue indefinitely.
