# FIT LIGHT

## Addressing Job Continuity for the Solar Feed In Tariff

# Three Classes of Projects

- Class 1 Small rooftop and ground mount 10 kW or less
- Class 2 Rooftop greater than 10 kw and ground mount 10 to 25 kW
- Class 3 Ground mount greater than 25 kW

# FY 2010 Tariff and Fee Schedule

System Category	Tariff \$/kWh	Processing Fee \$	Capacity Reservation \$/kW
Class 1*	0.32	500	None
Class 2	0.29	1200	30
Class 3	0.24	1200	30

\* 200 kW/yr Reserved for Residential

# FIT Light Objectives

- Provide more job continuity for solar contractors
- Maximize the number of individuals able to participate
- Still reserve capacity for larger installations later on

# FIT Light Program

- Make some of the capacity freed up in the FIT queue available ASAP
  - Start October 1<sup>st</sup>, 2010
  - End January 17, 2010
  - 400 kW (DC) maximum
- Fixed price contract for FIT Light participants will be through December 31<sup>st</sup>, 2031

# FIT Light Eligibility\*

- Class 1 Systems Only
  - 10kW and smaller roof top and ground mount
  - Residential and business
- Limit one system per location per customer
- Application complete and fees paid

\*In addition to existing FIT requirements

# After FIT Light (January 17, 2011)

- All remaining FIT capacity freed up from queue made available
  - Approximately 1,600 kW in 2011 if FIT Light 100% subscribed
  - No queue after 2011
- Maximum size 300 kW
- 200 kW/yr reserved for residential systems
- System categories, tariffs, fees etc. as presented July 1, 2010
