

WHAT IS TAP?

The Technology Assurance Plan (TAP) is a service plan that combines warranty coverage on your Axon body cameras with automatic refresh units every 2.5 years. Minimizing the chance that an officer goes on duty without a camera, TAP includes on-site spare units, as well as an extended warranty at no additional cost through the life of the agreement. TAP not only protects your agency today—it ensures it will stay protected in the future.

WHO USES TAP?

Over 2,500 proactive agencies have used TAP as a way to maintain their body camera program in the most cost-effective way possible. TAP is quickly becoming a favorite budget-planning tool, helping agencies replace equipment without having to find extra funding to do so. It enables you to buy essential technology as an operational line item rather than as a one-off capital expenditure. TAP allows you to focus on policing and provides certainty within your budget.

WHY USE TAP?

1. Free “No Questions Asked” warranty
2. Automatic refresh of Axon body camera and dock units every 2.5 years
3. On-site spares
4. Budget certainty

“ The Technology Assurance Plan has been a great benefit to our agency. Being able to only go through the budget process once for the products and services needed over the next 5 years creates exponential administrative savings. The TAP program is what I call a ‘set it and forget it’ system.

Everything needed for the program is covered for the 5-year period. No hidden fees or unexpected costs. If equipment breaks or fails, the TAP program kicks into action. Replacement equipment is quickly provided in order to keep your program running smoothly. ”

- Sgt. Tim White; Greenbelt
