 RE: Genetec / AutoVu LPR

To Whom It May Concern:

T2 Systems, Inc. is the sole developer and provider of the T2 Flex parking management software solutions. No third party has the development rights as would be assigned by T2 Systems, Inc. or the access to the sole source code for the T2 Flex solutions as this is the exclusive property of T2 Systems, Inc. Thus, no third party is presently capable of providing these solutions. Furthermore, these solutions are only available through T2 Systems, Inc. directly as we have no resellers and are the exclusive provider of support for our own products.

T2 Systems, Inc (T2) currently has an exclusive relationship with Genetec to provide LPR enforcement integration services for T2 Flex.

Genetec is currently the only company that can interface directly with the T2 Flex eTicketbook system.

Should you have questions regarding the exclusivity of this service or regarding the uniqueness of the service we are proposing, please feel free to contact your T2 Account Manager, Shi McGowan at 317-524-7426 or [smcgowan@t2systems.com](mailto:smcgowan@t2systems.com).

Sincerely,  
T2 Systems
