Re: John C. Hipp Construction Equipment Company

It has been a privilege for Guignard Company to be the agency handling the bonding requirements for John C. Hipp Construction Equipment Company since 2005. Bonds are placed with North American Specialty Insurance Company, which has a Best's Key Rating of A+, XV, and a Treasury Listing of \$31,838,000 as reported in the July, 2016 edition of the Federal Register, Circular 570.

Prudent surety underwriting requires our satisfaction of financial ability, experience, equipment, and personnel. John C. Hipp Construction Equipment Company has our complete confidence in all of these areas.

Although maximum limits have not been established, we would favorably consider single projects in the \$7,000,000 range, with an aggregate program in the area of \$15,000,000. Should you award John C. Hipp Construction Equipment Company a contract we would be pleased to provide the necessary Performance and Payment Bonds to cover 100% of the contract price subject to our normal underwriting requirements at the time any request is made, including, without limitation, prior review and approval of relevant contract documents, bond forms, and confirmation of project financing.

This letter is not an assumption of liability, nor is it a bid bond or performance bond. It is issued only as a bonding reference from us as requested. Any arrangement for surety credit is a matter between John C. Hipp Construction Equipment Company and North American Specialty Insurance Company. If you have further questions or require additional information please contact me.

Best regards,

Rick Brooks
Roadway Operations Manager
11825 Jackson Road.
Thonotosassa, FL 33592
Email: r.brooks@floridasafteycontractors.com

With over 25 years of experience in road construction. I started as a laborer on a grade crew in 1990 and worked my way up through the years to foreman, superintendent, project manager and I now hold the position of Operations Manager over the roadway division at Florida Safety Contractors Inc.

Professional Experience

1987 – 1990 US Army

After graduating high school, I enlisted in the US Army where I was a generator and light wheel vehicle mechanic. I was honorably discharged in 1990.

1990 – 1993 Sunshine Materials, Inc.

After my discharge from the Army I went to work as a laborer on a grade crew and worked my way up to an equipment operator. I operated the following equipment on a grade crew, loader, roller, pan and soil stabilizer. In 1993, I had an opportunity to work for R. E. Purcell and grow with the company.

1993 – 2000 R. E. Purcell, Inc

I started as a dozer operator and worked my way up to a grader operator / foreman. I oversaw the crew members on the project as well as ordering materials and scheduling deliveries. The jobs ranged from \$200,000 to \$5,000,000 In 2000 my Superintendent went to work at Ryan Eastern and offered me a superintendent position, so I left with him to further my career in the industry.

2000 – 2003 Ryan Eastern, Inc.

My duties as a superintendent included scheduling crews, equipment, material takeoffs, ordering and scheduling deliveries, making sure the jobs were completed on time and within budget. I oversaw multiple jobs at a time ranging from \$100,000 to \$10,000,000. The company completed all the jobs in central Fl. and moved back down south. I had an opportunity to stay in central Fl. with Gibbs and Register Inc. doing the same job.

2003 – 2010 Gibbs and Register, Inc.

I started as a superintendent and was quickly promoted to general superintendent and transferred to Jacksonville to start another branch in the northeastern part of

the state. I started the division by bringing crews from Orlando up to start the first job in the area and hired local employees ranging from laborers to superintendents. The division did \$2,000,000 the first year and quickly averaged \$30,000,000 a year until the recession in 2009. In 2010 the office was shut down and I moved back to Orlando.

2010 – 2012 Semper Fi Services

I went to work as a superintendent and was promoted to general superintendent and the project manager. In 2012 the owner of the company started a roadway division with Florida Safety Contractors Inc. and I went with him.

2012 – Present Florida Safety Contractors, Inc.

I started as a superintendent and as the division grew within the company I grew as well. I was promoted to general superintendent then to project manager and then to my current position of operations manager. The first year the division had 10 employees and completed \$2,000,000 of work in the Tampa area. The division now employs over 60 employees and completed over \$16,000,000 of work in 2016 in central Fl. the west coast of Fl. and the eastern coast of Fl. from Melbourne to St. Augustine.

You may apply for a Revised Certificate of Qualification at any time prior to the expiration date of this certificate according to Section 14-22.0041(3), Florida Administrative Code (F.A.C.), by accessing your most recently approved application as shown above and choosing "Update" instead of "View." If certification in additional classes of work is desired, documentation is needed to show that your company has done such work with your own forces and equipment or that experience was gained with another contractor and that you have the necessary equipment for each additional class of work requested.

All prequalified contractors are required by Section 14-22.006(3), F.A.C., to certify their work underway monthly in order to adjust maximum bidding capacity to available bidding capacity. You can find the link to this report at the website shown above.
